(3) The amendment of the *Hazardous Waste (Regulation of Exports and Imports) Amendment Act 1996* in Schedule 7 to this Act is taken to have commenced immediately after that Act received the Royal Assent.

(4) The amendment of the *Wildlife Protection (Regulation of Exports and Imports) Amendment Act 1995* in Schedule 7 to this Act is taken to have commenced immediately after that Act received the Royal Assent.

(5) Part 1 of Schedule 8 to this Act commences when Schedule 5 to the *Corporate Law Economic Reform Program Act 1999* commences if Schedule 5 to that Act has not commenced when the *Environment Protection and Biodiversity Conservation Act 1999* commences.

(6) Part 2 of Schedule 8 to this Act commences when the *Public Service Act 1999* commences if that Act has not commenced when the *Environment Protection and Biodiversity Conservation Act 1999* commences.

3 Schedule(s)

Subject to section 2, each Act that is specified in a Schedule to this Act is amended or repealed as set out in the applicable items in the Schedule concerned, and any other item in a Schedule to this Act has effect according to its terms.
Schedule 1—Application of the new Act

1 Definitions

(1) In this Schedule:

action has the meaning given by the new Act.

Administrative Procedures means the administrative procedures approved by the Governor-General by order under the EPIP Act.

EPIP activity means an activity:

(a) described in subsection 5(1) of the EPIP Act; and

(b) proposed before the commencement of the new Act to be undertaken; and

(c) for which a proponent was designated under the Administrative Procedures before the commencement of the new Act.

finalised has the meaning given by item 2.

(2) For the purposes of this Schedule, an action is related to an EPIP activity or a Commonwealth action (as defined in the Administrative Procedures) if the EPIP activity or Commonwealth action did, does, will or is likely to have the effect of permitting, causing, promoting or facilitating the action.

2 When is environmental assessment finalised?

(1) This item applies in relation to an environmental impact statement, public environment report or inquiry directed under the EPIP Act or the Administrative Procedures (regardless of whether the EPIP Act and Administrative Procedures apply of their own force or because of Part 2 of Schedule 3 to this Act).
(2) An environmental impact statement is **finalised** when the final environmental impact statement is given to the Department responsible for the EPIP Act.

(3) A public environment report is **finalised** when:

(a) a copy of all written comments (if any) received under the Administrative Procedures on the report has been given to the Department responsible for the EPIP Act, if the report is to be made available for public comment under the Administrative Procedures; or

(b) the report is given to the Minister or Department responsible for the EPIP Act, if the report is not to be made available for public comment under the Administrative Procedures.

(4) An inquiry report is **finalised** when it is given to the Minister responsible for the EPIP Act.

3 **Actions assessed under the EPIP Act before the new Act commences need not be assessed under the new Act**

*Actions that are EPIP activities*

(1) Neither Part 3, nor Subdivision A of Division 4 of Part 11, of the new Act applies to an action that is an EPIP activity if, before the commencement of the new Act, all of the provisions of the Administrative Procedures (except those dealing with review of environmental aspects of proposed actions) relevant to the EPIP activity had been complied with.

Note: The EPIP Act and Administrative Procedures continue to apply to the EPIP activity. See Part 2 of Schedule 3 to this Act.

*Actions related to EPIP activities*

(2) Neither Part 3, nor Subdivision A of Division 4 of Part 11, of the new Act applies to an action that is related to an EPIP activity if:

(a) before the commencement of the new Act, all of the provisions of the Administrative Procedures (except those dealing with review of environmental aspects of proposed actions) relevant to the EPIP activity had been complied with; and
(b) in complying with those provisions, the certain and likely impacts of the action were taken into account.

4 Actions being assessed under EPIP Act when new Act commences need not be assessed under new Act

Actions that are EPIP activities

(1) Neither Part 3, nor Subdivision A of Division 4 of Part 11, of the new Act applies to an action that is an EPIP activity if, before the commencement of the new Act, the Minister administering the EPIP Act had:

(a) decided under the Administrative Procedures that an environmental impact statement or public environment report relating to the EPIP activity should be submitted; or

(b) directed under section 11 of the EPIP Act that an inquiry be conducted in respect of a matter including the EPIP activity.

Note: The EPIP Act and Administrative Procedures continue to apply to the EPIP activity. See Part 2 of Schedule 3 to this Act.

Actions that are related to EPIP activities

(2) Neither Part 3, nor Subdivision A of Division 4 of Part 11, of the new Act applies to an action that is related to an EPIP activity if:

(a) before the commencement of the new Act, the Minister administering the EPIP Act had:

(i) decided under the Administrative Procedures that an environmental impact statement or public environment report relating to the EPIP activity should be submitted; or

(ii) directed under section 11 of the EPIP Act that an inquiry be conducted in respect of a matter including the EPIP activity; and

(b) the Minister administering Part 3 of the new Act has certified under item 6 that the impacts that the action has, will have or is likely to have on the environment have been, are being or will be assessed under the Administrative Procedures (as applying because of the EPIP Act or Part 2 of Schedule 3 to this Act).
New Act may apply if assessment not finalised in 2 years

(3) Two years after the commencement of the new Act, this item ceases to apply to an action described in subitem (1) or (2) if the environmental impact statement, public environment report or inquiry report (as appropriate) has not been finalised before that time.

5 Actions covered by agreement for assessment under the EPIP Act need not be assessed under the new Act

No assessment needed under new Act if there is agreement

(1) Neither Part 3, nor Subdivision A of Division 4 of Part 11, of the new Act applies to an action that is an EPIP activity, or is related to an EPIP activity, if:

   (a) before the commencement of the new Act, no decision had been made under the Administrative Procedures as to whether an environmental impact statement or a public environment report was required in relation to the EPIP activity; and

   (b) the Minister administering Part 3 of the new Act and the proponent of the EPIP activity designated under the Administrative Procedures agree in writing that the following should continue to apply in relation to the EPIP activity:

       (i) the EPIP Act;
       (ii) the Administrative Procedures;
       (iii) the regulations made under the EPIP Act; and

   (c) in the case of an action related to the EPIP activity—that Minister has certified under item 6 that the impacts that the action has, will have or is likely to have on the environment have been, are being or will be assessed under the Administrative Procedures (as applying because of the EPIP Act or Part 2 of Schedule 3 to this Act).

Note: The EPIP Act and Administrative Procedures continue to apply to the EPIP activity. See Part 2 of Schedule 3 to this Act.
Consulting States and Territories before making agreement

(2) Before the Minister administering Part 3 of the new Act makes an agreement under subitem (1) affecting the application of that Part to an action that is to be taken in a State or self-governing Territory (as defined in the new Act), he or she must consult the appropriate Minister of the State or Territory about the proposal to make the agreement.

Consultation about actions in State waters

(3) Subitem (2) applies to an action that is to be taken on, over or under the seabed vested in a State by section 4 of the Coastal Waters (State Title) Act 1980 in the same way that it applies to an action to be taken in the State.

Consultation about actions in Northern Territory waters

(4) Subitem (2) applies to an action to be taken on, over or under the seabed vested in the Northern Territory by section 4 of the Coastal Waters (Northern Territory Title) Act 1980 in the same way that it applies to an action to be taken in the Territory.

New Act may apply if assessment not finalised in 2 years

(5) Two years after the commencement of the new Act, this item ceases to apply to an action described in subitem (1) if, by that time:
   (a) an environmental impact statement relating to the EPIP activity is required under the Administrative Procedures and has not been finalised; or
   (b) a public environment report relating to the EPIP activity is required under the Administrative Procedures and has not been finalised; or
   (c) an inquiry has been directed under the EPIP Act in relation to the EPIP activity and the inquiry report has not been finalised.

6 Certification of coverage of impacts by assessment

(1) For the purposes of items 4 and 5, the Minister administering Part 3 of the new Act may certify in writing that the impacts that a specified action has, will have or is likely to have on the environment have been,
are being or will be assessed under the Administrative Procedures (as applying because of the EPIP Act or Part 2 of Schedule 3 to this Act).

(2) That Minister may do so either of that Minister’s own accord, or in response to a written request from a person.

(3) In deciding whether to certify, that Minister may consider only whether the impacts that a specified action has, will have or is likely to have on the environment have been, are being or will be assessed under the Administrative Procedures (as applying because of the EPIP Act or Part 2 of Schedule 3 to this Act).

(4) A person may give that Minister a written request that that Minister certify in relation to a particular action. That Minister must decide whether to grant the request within 30 days of receiving it.

(5) That Minister may, by instrument in writing, revoke a certificate relating to an action if:
   (a) either:
      (i) substantial new information relating to the action has become available since the certificate was made; or
      (ii) a substantial change in circumstances has occurred that was not foreseen at the time the certificate was made; and
   (b) because of the new information or change, that Minister is satisfied that an impact that the action has, will have or is likely to have on the environment has not been, is not being and will not be assessed under the Administrative Procedures (as applying because of the EPIP Act or Part 2 of Schedule 3 to this Act).

7 Actions exempted from Administrative Procedures need not be assessed under the new Act

(1) This item applies if, immediately before the commencement of the new Act, an exemption under the Administrative Procedures was in force so that neither an environmental impact statement, nor a public environment report nor an inquiry under the Procedures was required in relation to a Commonwealth action (as defined in the Procedures).
(2) For so long as no environmental impact statement, public environment report or inquiry under the Administrative Procedures would have been required in relation to the Commonwealth action because of the exemption (had the EPIP Act not been repealed), neither Part 3, nor Subdivision A of Division 4 of Part 11, of the new Act applies to:

(a) an action (as defined in the new Act) that is the Commonwealth action; or

(b) an action (as defined in the new Act) that:
   (i) is related to the Commonwealth action; and
   (ii) the Minister administering Part 3 of the new Act has certified under subitem (3) is related to the Commonwealth action.

(3) The Minister administering Part 3 of the new Act may certify in writing that a specified action is related to the Commonwealth action if, and only if, he or she believes that, when the decision was made to grant the exemption, it was envisaged that the action, or actions in a class including the action, would be permitted, caused, promoted or facilitated by:

(a) the Commonwealth action; or

(b) a Commonwealth action in the class of Commonwealth actions to which the exemption related.

(4) That Minister must not consider any other matters in deciding whether to certify.

(5) That Minister may certify either of that Minister’s own accord, or in response to a written request from a person.

(6) A person may give that Minister a written request that that Minister certify in relation to a particular action. That Minister must decide whether to grant the request within 30 days of receiving it.

8 Part 3 of the new Act does not apply to making of regional forest agreements

Part 3 of the new Act does not apply in relation to the negotiation and making of a regional forest agreement (as defined in that Act) for an area described in subsection 41(1) of that Act when it commenced if the negotiation and making of the agreement is an EPIP activity.
Schedule 1  Application of the new Act

Note:  The EPIP Act and Administrative Procedures continue to apply to the EPIP activity. See Part 2 of Schedule 3 to this Act.

9  Part 3 of the new Act does not apply to installation of some facilities allowed under the Telecommunications Act

Part 3 of the new Act does not apply to an installation to which clause 55 of Schedule 3 to the Telecommunications Act 1997 applies.

10  Limit on application of the new Act to acts covered by consents under the World Heritage Act

Subdivision A of Division 1 of Part 3 of the new Act (about world heritage) does not apply to an act permitted by a consent given under section 9 or 10 of the World Heritage Properties Conservation Act 1983 (whether the consent was given before the repeal of that Act or under that Act as it continues to apply because of Part 2 of Schedule 6 to this Act).

Note:  The World Heritage Properties Conservation Act 1983 continues to apply instead. See Part 2 of Schedule 6 to this Act.

11  Parts 3 and 13 of the new Act do not apply to acts allowed by permit under Endangered Species Protection Act

If a permit in force under the Endangered Species Protection Act 1992 immediately before the commencement of the new Act allowed a person to do an act, Parts 3 and 13 of the new Act do not apply to the doing of the act by the person during the period for which the permit continues in force because of Part 2 of Schedule 2 to this Act.

12  Parts 3 and 13 of the new Act do not apply to acts allowed by permit under the Whale Protection Act

If a permit in force under the Whale Protection Act 1980 immediately before the commencement of the new Act allowed a person to do an act, Parts 3 and 13 of the new Act do not apply to the doing of the act by the person during the period for which the permit continues in force because of Part 2 of Schedule 5 to this Act.

13  Application of section 316 of the new Act
To avoid doubt, section 316 of the new Act applies in relation to a property whether it was included in the World Heritage List before or after the commencement of that Act.

14 Application of section 328 of the new Act
To avoid doubt, section 328 of the new Act applies in relation to a wetland whether it was included in the List of Wetlands of International Importance kept under the Ramsar Convention before or after the commencement of that Act.

(3) Subsection 189(4) of the new Act applies in relation to a nominated species or ecological community as if the Threatened Species Scientific Committee had received the nomination under section 191 of that Act from the Minister administering that Act on the later of the following days (or either of them if the days are the same):

(a) the day the nomination was made under the Species Act;

(b) the day 6 months before the commencement of the new Act.

### Scientific Committee taken to have given advice under new Act

(4) If:

(a) in performing its function under paragraph 159(1)(a) of the Species Act, the Endangered Species Scientific Subcommittee advised the Minister administering the Species Act to add an item to, or delete an item from, a list in a Schedule to that Act; and

(b) that Minister had not made a decision on the addition or deletion of the item before the commencement of the new Act;

the Threatened Species Scientific Committee is taken to give corresponding advice under section 189 of the new Act to the Minister administering the new Act on the day on which the relevant list mentioned in the third column of the table in subitem (5) is established.
What is corresponding advice?

### Minister may ask Scientific Committee to review advice

(6) The Minister administering Division 1 of Part 13 of the new Act may request the Threatened Species Scientific Committee to review the Endangered Species Scientific Subcommittee’s advice described in subitem (4), and report to that Minister on the review, within 3 months. If that Minister does so:

(a) the Committee is not taken to have given corresponding advice as described in that subitem; and

(b) subsections 189(2) and (3) of the new Act apply in relation to the Committee as if that Minister had sought the Committee’s advice under subsection 189(1) of that Act in relation to the matter that was the subject of the Subcommittee’s advice; and

(c) subsections 189(5) and (6) of the new Act apply as if the Committee’s report were advice to that Minister.

### Time limit for Minister to request review

(7) The Minister must not make a request for review of advice to add an item to, or delete an item from, a list more than 90 days after the day on which the relevant list mentioned in the third column of the table in subitem (5) is established.
Relationship between subitems

(8) Subitem (6) has effect despite subitems (3) and (4).

4 Continuation of recovery plans and threat abatement plans

Continuation of recovery plans

(1) A recovery plan or threat abatement plan that was approved or adopted under the Species Act and was in force under that Act immediately before the commencement of the new Act has effect for the purposes of the new Act as if the plan had been made or adopted under the new Act.

Review of continued plans

(2) Subsection 279(2) of the new Act applies in relation to the plan as if the intervals were measured from the day the plan was adopted or approved under the Species Act.

Continued plan need not deal with certain matters before review

(3) This item has effect in relation to a plan before the first review of the plan under section 279 of the new Act, even if the plan does not comply with subsection 270(2) or 271(2) (as appropriate) of the new Act.

5 Continued preparation of recovery plans and threat abatement plans

(1) If, before the commencement of the new Act, the Director had complied with section 39 of the Species Act in relation to a draft plan and the Minister administering that Act had not approved the plan under that Act, the Minister administering the new Act need not comply with section 275 of the new Act before making a plan under Subdivision A of Division 5 of Part 13 of the new Act that is based on the draft plan.

(2) The Minister administering the new Act may make the plan even if he or she has not received advice described in paragraph 274(1)(b) of the new Act.

6 Conservation agreements
For the purposes of the new Act, a conservation agreement made under the Species Act has effect as if:
(a) it had been made under the new Act; and
(b) any reference in it to the Director (as defined in the Species Act) were a reference to the Minister administering the new Act.

7 Conservation orders

Continuation of permanent and interim conservation orders

(1) For the purposes of the new Act, a permanent conservation order or interim conservation order in force under the Species Act immediately before the commencement of the new Act has effect as if it were a conservation order made under Division 13 of Part 17 of the new Act.

Expiry of interim conservation orders

(2) However, an interim conservation order does not have effect after the last day on which it could have had effect under the Species Act if the Species Act had not been repealed.

Reconsideration of permanent and interim conservation orders

(3) If, before the commencement of the new Act:
(a) the Minister administering the Species Act made a permanent conservation order or an interim conservation order under the Species Act; and
(b) a person applied to that Minister under the Species Act for reconsideration of the order or for reconsideration of a decision on review of the order; and
(c) that Minister had not confirmed, varied or revoked the order or decision;
that Minister must not confirm, vary or revoke the order or decision, despite section 8 of the Acts Interpretation Act 1901.

Minister’s advice about conservation orders

(4) For the purposes of the new Act, advice given under Division 4 of Part 6 of the Species Act by the Minister administering the Species Act in
relation to a permanent conservation order or an interim conservation order has effect as if it had been given under Division 13 of Part 17 of the new Act.

**Continuation of impact assessment conservation orders**

(5) Despite the repeal of the Species Act, an impact assessment conservation order that was in force under the Species Act immediately before its repeal continues to have effect in relation to an action to which Part 3 of the new Act does not apply because of item 4, 5 or 8 of Schedule 1 to this Act as if the following provisions had not been repealed:

(a) Division 3 of Part 5 of the Species Act;
(b) the other provisions of the Species Act, so far as they relate to impact assessment conservation orders.

**Modification of provisions of Species Act**

(6) The provisions mentioned in paragraphs (5)(a) and (b) apply for the purposes of subitem (5) as if:

(a) a reference in those provisions to the Director were a reference to the Secretary to the Department administering Division 13 of Part 17 of the new Act; and

(b) a reference in those provisions to the Minister were a reference to the Minister administering that Division;

(c) a reference in those provisions to the *Environment Protection (Impact of Proposals) Act 1974* were a reference to that Act as it continues to apply because of Part 2 of Schedule 3 to this Act; and

(d) a reference in those provisions to the EPIP administrative procedures were a reference to the Administrative Procedures that apply because of Part 2 of Schedule 3 to this Act.

**8 Permits**

(1) Despite the repeal of the Species Act:

(a) a permit that was issued under that Act and was in force immediately before the repeal of that Act continues in force
Schedule 2  Endangered Species Protection Act 1992: repeal etc.
Part 2  Saving and transitional provisions

for the period for which it would have been in force if that Act had not been repealed; and
(b) that Act (as in force immediately before its repeal) continues to operate in relation to the permit and the action covered by the permit as if:

3 Continuation of parks and reserves

(1) A Proclamation under Part II of the Parks Act of an area as a park or reserve that was in force immediately before the commencement of the new Act continues in force as if it had been made under section 344 of the new Act immediately after that commencement, so that the area is declared as a Commonwealth reserve under the new Act.

(2) A Proclamation of an area as a park under the Parks Act continues in force as if it stated that the purposes for which the area was declared were:

(a) the preservation of the area in its natural condition; and

(3) If, immediately before the commencement of the new Act, an area was proclaimed as a park or reserve under the Parks Act and was managed as a botanic garden (as defined in the Parks Act), the Proclamation of the area continues in force as if it included a statement that the purposes for which the area was declared included the object specified in paragraph 11(8)(ca) of the Parks Act.

(4) This item does not prevent amendment of the Proclamation by another Proclamation made under Division 4 of Part 15 of the new Act.
(5) To avoid doubt, paragraphs 357(1)(a) and (2)(a) of the new Act do not apply to a Commonwealth reserve to which this item relates until the reserve is assigned to an IUCN category by a Proclamation made under Division 4 of Part 15 of the new Act or a management plan made under that Division.

(6) Paragraph 368(3)(a) of the new Act applies in relation to the preparation of a management plan for a Commonwealth reserve to which this item relates as if the reference in the paragraph to a report considered by the Minister under section 351 of that Act included a reference to a report considered by the Executive Council under subsection 7(11) of the Parks Act in relation to the park or reserve taken to have been declared as the Commonwealth reserve.

   (b) the day 7 years after the commencement of the new Act.

(3) This item has effect in relation to a plan even if the plan does not comply with section 367 of the new Act.

(5) If the Director submitted a plan of management for the park or reserve under subsection 11(12) of the Parks Act to the Minister administering that Act after publishing the notice referred to in paragraph (1)(a) of this item, the new Division applies as if:
   (a) paragraphs 368(1)(d) and (e) were also omitted from the new Act; and
   (b) the plan had been given to the Minister administering the new Division under subsection 370(1) of the new Act when it
commenced and subsection 370(2) of the new Act had been
complied with in relation to the plan.

(6) If subitem (5) does not apply but subitem (3) does, the new Division
applies as if the reference in paragraph 368(1)(e) of the new Act to
comments were a reference to representations received in response to
the notice under subsection 11(10) of the Parks Act.
