Part 3—Administration of fishing concessions

Division 1—Auctions and ballots for fishing rights

5 Auction for the grant of a fishing right

(1) For subsection 28(1) of the Act, if a grant of a fishing right is to be made by auction, AFMA may set a reserve price for the grant before the day on which the auction is to be held.

(2) If the person who made the highest bid at the auction is unable to pay the charge applicable in relation to the grant, AFMA must offer the grant to the person who made the second-highest bid.

(3) If the person who made the second-highest bid at the auction is unable to pay the charge applicable in relation to the grant, AFMA must offer the grant at a new auction.

6 Ballot for the grant of a fishing right

(1) For paragraph 168(2)(c) of the Act, if a grant of a fishing right is to be made by ballot:

(a) the Minister must appoint a person as his or her representative; and
(b) the procedures set out in subregulation (2) are prescribed to select the person to whom the grant will be made.

(2) The procedures are as follows:

(a) AFMA must write the name of each eligible person on a separate piece of paper (the ballot paper) that is the same size as the other ballot papers;

(b) AFMA must ensure that the representative is present when the ballot is conducted;

(c) AFMA must show the ballot papers to all persons who are present before the ballot is conducted;

(d) AFMA must place the ballot papers in a container within which the papers cannot become snagged or trapped;

(e) AFMA must shake or turn the container to mix the ballot papers;

(f) the representative must draw 1 ballot paper at a time from the container until it is empty;

(g) AFMA must record the names of the eligible persons in the order in which the names were drawn.
Division 2—Tenders

Subdivision A—Preliminary

7. Purpose of Division

For sections 28 and 168 of the Act, this Division sets out the procedures to be followed for selecting, by a tender process, the persons to whom a grant of a fishing right will be made available under section 29 of the Act.

Note: The conditions of tender may stipulate that fishing rights are available only in ‘bundles’ of a specified number.

8. Definitions for Division

In this Division:

 precedence list has the meaning given in paragraph 28(d) of the Act.

 reserve price means the minimum bid amount that will be accepted as a tender.

 tender manager, in relation to a tender process, means:

 (a) if AFMA appoints an independent tender manager under paragraph 8A(a)—that independent tender manager; or

 (b) if AFMA does not make an appointment under paragraph 8A(a)—AFMA.

8A. Administration of the tender process

If a grant of fishing rights is to be made by tender:

(a) AFMA may manage the tender process itself or may appoint an independent tender manager to manage the process on AFMA’s behalf; and

(b) AFMA may appoint a probity auditor to oversee the tender process.

Subdivision B—Applications under subsection 26(1) and the tender process

8B. Applications under subsection 26(1) of the Act

If a person has applied for registration under subsection 26(1) of the Act:

(a) the application must be sealed in an opaque envelope on which is written the word ‘registration’ (registration envelope); and

(b) the registration envelope and the envelope referred to in paragraph 27(3)(b) of the Act (the tender envelope) must be submitted together enclosed in a sealed opaque envelope (outer envelope).

Note: See also subsections 27(2) and (3) of the Act in relation to what must accompany a tender, and how a tender is to be submitted.
8C Opening outer envelopes

(1) As soon as practicable after the closing date for tenders, the tender manager is to open each outer envelope.

(2) The tender manager must ensure, if AFMA has appointed a probity auditor for the tender process, that the auditor and the tender manager are present at the opening of the outer envelopes.

(3) The following procedure must then be carried out:
   (a) for each outer envelope, the tender manager is to open the registration envelope inside it and record:
      (i) the name of the person who submitted the enclosed registration application; and
      (ii) whether a sealed tender envelope was submitted with the application; and
      (iii) whether any other conditions of the tender in relation to the contents of, or markings on, the outer envelope have been complied with;
   (b) the tender manager must not open any tender envelope, but is to nominate a place where the sealed tender envelopes will be kept until they are opened under regulation 8F;
   (c) the tender manager is to keep the original registration applications and, if the tender manager is not AFMA, give the applications to AFMA;
   (d) AFMA:
      (i) is to assess the registration applications, under section 26 of the Act, to determine each applicant’s eligibility for the grant of fishing rights in accordance with the conditions for registration in the Act and the plan of management for the fishery concerned; and
      (ii) if the tender manager is not AFMA—is then to give the tender manager a list of the eligible persons.

Subdivision C—Ranking and recording of tenders

8D Application procedures if fishery is divided into sectors

If:
   (a) the fishery in which fishing rights are to be allocated is divided into sectors; and
   (b) fishing rights in 2 or more sectors of the fishery are to be allocated by 1 tender process;
the tender manager is to carry out the ranking procedure set out in this Subdivision for each of those sectors.

8E Procedures for reserve price

If AFMA sets a reserve price, AFMA must, before the closing time for tenders, give a written statement of the reserve price in a sealed envelope (the reserve price envelope) to the tender manager.
8F Tenders — recording and ranking

The procedure for recording and ranking tenders is as follows:

(a) the tender manager is to open the tender envelope for each registered person;

(b) the tender manager is to record, for each registered person:
   (i) the person’s name; and
   (ii) the amount bid by the person per fishing right; and
   (iii) whether the person’s bid is invalid and, if it is, the reason why it is invalid (see paragraph (c) and regulation 8G for how invalid bids are dealt with); and
   (iv) any other information required by the conditions of tender;

(c) unless the bid is invalid, the tender manager is to rank the tenders submitted by registered persons according to the amount bid per fishing right;

(d) if 2 or more tenderers bid the same amount per fishing right, they are to be ranked equally;

(e) if AFMA has set a reserve price, the tender manager is then to open the reserve price envelope and record, for each tender, whether the amount bid is less than, equal to or higher than the reserve price (see regulation 8G for how bids that do not meet the reserve price are dealt with);

(f) if the conditions of tender set a minimum number of fishing rights that a tenderer may acquire, the tender manager is then to record, for each tender, whether the minimum number that the tenderer will accept is equal to or more than the minimum number set by the conditions;

(g) if the conditions of tender set a maximum number of fishing rights that a tenderer may acquire, the tender manager is then to record, for each tender, whether the maximum number that the tenderer will accept is equal to or less than the maximum number set by the conditions;

(h) subject to regulation 8G, the tender manager is to prepare a precedence list setting out for each registered person who tendered:
   (i) the person’s name and contact details; and
   (ii) the amount bid per fishing right; and
   (iii) if the conditions of tender allow a tenderer to specify the maximum number of fishing rights that the tenderer is prepared to acquire, or the minimum number of fishing rights that the tenderer will accept, at the amount bid—those maximum and minimum numbers;

(i) if the conditions of tender allow a tenderer to acquire less than all of the available fishing rights—the precedence list must also set out the matters provided for in regulation 8H;

(j) the tender manager is then to give AFMA a report incorporating the precedence list.

8G Certain persons not to be placed on precedence list

(1) If:
(a) a registered person has tendered; and
(b) either the bid is less than the reserve price or is invalid;

then the person is not to be recorded on the precedence list.

Note: A grant of a fishing right is made to persons on the precedence list only—see section 29 of the Act.

(2) For a person who, under subregulation (1), is not recorded on the precedence list, the tender manager must record:

(a) the person’s name; and
(b) the reason why the person is not recorded on the precedence list.

8H Procedures if tenderer can acquire less than all available rights

(1) For paragraph 8F(i), the precedence list must also set out the number of fishing rights to which each tenderer is entitled, determined as set out in subregulations (3), (4), (5), (6) and (7).

(2) Subregulation (1) applies whether or not the conditions of tender also allow a tenderer to specify, at the amount tendered per fishing right:

(a) the maximum number of fishing rights that the tenderer is prepared to acquire; or
(b) the minimum number of fishing rights that the tenderer will accept.

(3) For each tender, if the highest-ranked tenderer has tendered for less than all the available fishing rights, the next-highest-ranked tenderer is entitled to the lesser of:

(a) the remaining number of fishing rights; and
(b) the number of fishing rights that that tenderer has tendered for;

and so on.

(4) If:

(a) a tenderer nominates a minimum number of fishing rights that the tenderer will accept for an amount bid; and
(b) that number is greater than the number of fishing rights remaining after deducting the entitlements of all higher-ranked tenderers from the total number of fishing rights offered;

the tenderer is not to be entitled to those fishing rights, even if the amount bid per fishing right is higher than that of the next-highest-ranked tenderer.

(5) If a tenderer does not nominate a minimum number of fishing rights that the tenderer will accept for an amount bid, the tenderer is taken to have nominated, as the minimum number at that amount:

(a) 1 fishing right; or
(b) if AFMA has set a minimum number of fishing rights that a person may accept—that number.
(6) If 2 or more tenderers are equally ranked, their respective entitlements to fishing rights are to be proportional to the maximum number of fishing rights that each is prepared to accept at the amount bid.

(7) However, a tender is to be disregarded if the granting of entitlements in accordance with subregulation (6) would lead to the tenderer being granted less than any minimum number of fishing rights that:
   (a) the tenderer would accept; or
   (b) the conditions of tender specify as the minimum that a tenderer may acquire.

Division 3—Miscellaneous

Part 9A—Offences relating to fisheries

37A Definitions

In this Part:

*closed zone* has the meaning given by regulation 37B.

*unforeseen emergency* includes the following:

(a) a threat to the safety of human life;
(b) a threat to the safety of a boat and property on board the boat;
(c) giving assistance to a person, boat or aircraft in danger or distress;
(d) a serious danger to navigation on or near the boat’s course;
(e) a failure, malfunction or defect that caused, or is likely to cause, serious damage to the boat, or that interfered with, or is likely to interfere with, the normal control of the boat.

37B Meaning of closed zone

If:

(a) AFMA has given a direction under paragraph 17(5A)(a) or subsection 41A(2) of the Act; and
(b) the direction is in force; and
(c) the effect of the direction is that fishing is not to be engaged in in the area of a fishery, or a particular part of the area of a fishery, at a particular time; and
(d) a particular boat:
   (i) is specified in, or is nominated for, a fishing concession that entitles the holder to engage in fishing in the fishery or that authorises the use of the boat for fishing in the fishery; or
   (ii) is specified in a scientific permit that authorises the use of the boat for scientific research purposes in the fishery; and
(e) the direction applies to the holder of the fishing concession or scientific permit;

the area of the fishery, or the particular part of the area of the fishery, to which the direction applies is, at the time, a *closed zone* for the boat in the capacity mentioned in paragraph (d).

37C Navigating in area that is a closed zone for less than 24 hours

(1) The master of a boat commits an offence if the boat is being navigated in an area that, at the time, is a closed zone for the boat for less than 24 hours.

Penalty: 25 penalty units.
Regulation 37D

(2) Subregulation (1) does not apply to the master of a boat if information given by the boat’s vessel monitoring system during the period that the boat was navigated in the closed zone shows that:

(a) the boat was navigated in the closed zone for a period of 30 minutes or more; and

(b) for the period the boat was in the closed zone, the boat was:

(i) stationary; or

(ii) travelling at a speed of 5 knots or more as worked out under subregulation (5).

(3) Subregulation (1) does not apply to the master of a boat if:

(a) AFMA had given approval for the boat to be navigated in the closed zone because of an unforeseen emergency, or circumstances beyond the control of the master of the boat; and

(b) the boat was navigated in the closed zone in accordance with any instructions given by AFMA.

(4) An offence against subregulation (1) is an offence of strict liability.

(5) To work out a boat’s speed:

(a) for each consecutive pair of points identified by the boat’s vessel monitoring system, identify the shortest distance between the pair of points in a straight line; and

(b) divide the distance by the time taken by the boat to travel between the two points.

(6) In this regulation a boat is taken to be stationary if it is travelling at a speed of 0.5 knots or less as worked out under subregulation (5).

37D Navigating in area that is a closed zone for 24 hours or more

(1) The master of a boat commits an offence if the boat is being navigated in an area that, at the time, is a closed zone for the boat for 24 hours or more.

Penalty: 25 penalty units.

(2) Subregulation (1) does not apply to the master of a boat if information given by the boat’s vessel monitoring system during the period that the boat was navigated in the closed zone shows that:

(a) the boat was navigated in the closed zone for a continuous period of 30 minutes or more; and

(b) at all times during the period, the boat was travelling at a speed of at least 5 knots as worked out under subregulation (5).

(3) Subregulation (1) does not apply to the master of a boat if:

(a) AFMA had given approval for the boat to be navigated in the closed zone because of an unforeseen emergency, or circumstances beyond the control of the master of the boat; and
(b) the boat was navigated in the closed zone in accordance with any instructions given by AFMA.

(4) An offence against subregulation (1) is an offence of strict liability.

(5) For paragraph (2)(b), to work out a boat’s speed:
   (a) for each consecutive pair of points identified by the boat’s vessel monitoring system, identify the shortest distance between the pair of points in a straight line; and
   (b) divide the distance by the time taken by the boat to travel between the two points.
Part 10—Infringement notices

38 When an infringement notice may be given

(1) If an officer believes on reasonable grounds that a person has contravened a provision subject to an infringement notice, the officer may give to the person an infringement notice for the alleged contravention.

(2) The infringement notice must be given within 12 months after the day on which the contravention is alleged to have taken place.

(3) A single infringement notice must relate only to a single contravention of a single provision unless subregulation (4) applies.

(4) An officer may give a person a single infringement notice relating to multiple contraventions of a single provision if:
   (a) the provision requires the person to do a thing within a particular period or before a particular time; and
   (b) the person fails or refuses to do that thing within that period or before that time; and
   (c) the failure or refusal occurs on more than 1 day; and
   (d) each contravention is constituted by the failure or refusal on one of those days.

Note: For continuing offences, see subsection 4K(2) of the Crimes Act 1914.

39 Matters to be included in an infringement notice

(1) An infringement notice must:
   (a) be identified by a unique number; and
   (b) state the day on which it is given; and
   (c) state the name of the person to whom the notice is given; and
   (d) state the name and contact details of the person who gave the notice, and that the person is an officer for the purposes of issuing the infringement notice; and
   (e) give brief details of the alleged contravention, including:
      (i) the provision that was allegedly contravened; and
      (ii) the maximum penalty that a court could impose if the provision were contravened; and
      (iii) the time (if known) and day of, and the place of, the alleged contravention; and
   (f) state the amount that is payable under the notice; and
   (g) give an explanation of how payment of the amount is to be made; and
   (h) state that, if the person to whom the notice is given pays the amount within 28 days after the day the notice is given, then (unless the notice is
withdrawn) the person will not be liable to be prosecuted in a court for the alleged contravention; and

(i) state that payment of the amount is not an admission of guilt or liability; and

(j) state that the person may apply to the CEO to have the period in which to pay the amount extended; and

(k) state that the person may choose not to pay the amount and, if the person does so, the person may be prosecuted in a court for the alleged contravention; and

(l) set out how the notice can be withdrawn; and

(m) state that if the notice is withdrawn, the person may be prosecuted in a court for the alleged contravention; and

(n) state that the person may make written representations to the CEO seeking the withdrawal of the notice.

(2) The amount to be stated in the notice for the purposes of paragraph (1)(f) for the alleged contravention of the provision by the person must be the lesser of:

(a) one-fifth of the maximum penalty that a court could impose on the person for that contravention; and

(b) 12 penalty units where the person is an individual, or 60 penalty units where the person is a body corporate.

40 Extension of time to pay amount

(1) A person to whom an infringement notice has been given may apply to the CEO for an extension of the period referred to in paragraph 39(1)(h).

(2) If the application is made before the end of that period, the CEO may, in writing, extend that period. The CEO may do so before or after the end of that period.

(3) If the CEO extends that period, a reference in this Part, or in a notice or other instrument under this Part, to the period referred to in paragraph 39(1)(h) is taken to be a reference to that period so extended.

(4) If the CEO does not extend that period, a reference in this Part, or in a notice or other instrument under this Part, to the period referred to in paragraph 39(1)(h) is taken to be a reference to the period that ends on the later of the following days:

(a) the day that is the last day of the period referred to in paragraph 39(1)(h); and

(b) the day that is 7 days after the day the person was given notice of the CEO’s decision not to extend.

(5) The CEO may extend the period more than once under subregulation (2).

41 Withdrawal of an infringement notice

Representation seeking withdrawal of notice

(1) A person to whom an infringement notice has been given may make written representations to the CEO seeking the withdrawal of the notice.
Withdrawal of notice

(2) The CEO may withdraw an infringement notice given to a person (whether or not the person has made written representations seeking the withdrawal).

(3) When deciding whether or not to withdraw an infringement notice (the relevant infringement notice), the CEO:
   (a) must take into account any written representations seeking the withdrawal that were given by the person to the CEO; and
   (b) may take into account the following:
      (i) whether a court has previously imposed a penalty on the person for a contravention of a provision subject to an infringement notice;
      (ii) the circumstances of the alleged contravention;
      (iii) whether the person has paid an amount, stated in an earlier infringement notice, for a contravention of a provision subject to an infringement notice if the contravention is constituted by conduct that is the same, or substantially the same, as the conduct alleged to constitute the contravention in the relevant infringement notice;
      (iv) any other matter the CEO considers relevant.

Notice of withdrawal

(4) Notice of the withdrawal of the infringement notice must be given to the person. The withdrawal notice must state:
   (a) the person’s name and address; and
   (b) the day the infringement notice was given; and
   (c) the identifying number of the infringement notice; and
   (d) that the infringement notice is withdrawn; and
   (e) that the person may be prosecuted in a court for the alleged contravention.

Refund of amount if infringement notice withdrawn

(5) If:
   (a) the CEO withdraws the infringement notice; and
   (b) the person has already paid the amount stated in the notice;
AFMA must refund to the person an amount equal to the amount paid.

42 Effect of payment of amount

(1) If the person to whom an infringement notice for an alleged contravention of a provision is given pays the amount stated in the notice before the end of the period referred to in paragraph 39(1)(h):
   (a) any liability of the person for the alleged contravention is discharged; and
   (b) the person may not be prosecuted in a court for the alleged contravention; and
   (c) the person is not regarded as having admitted guilt or liability for the alleged contravention; and
(d) the person is not regarded as having been convicted of the alleged offence.

(2) Subsection (1) does not apply if the notice has been withdrawn.

43 Effect of this Part

This Part does not:

(a) require an infringement notice to be given to a person for an alleged contravention of a provision subject to an infringement notice; or

(b) affect the liability of a person for an alleged contravention of a provision subject to an infringement notice if:

(i) the person does not comply with an infringement notice given to the person for the contravention; or

(ii) an infringement notice is not given to the person for the contravention; or

(iii) an infringement notice is given to the person for the contravention and is subsequently withdrawn; or

(c) prevent the giving of 2 or more infringement notices to a person for an alleged contravention of a provision subject to an infringement notice; or

(d) limit a court’s discretion to determine the amount of a penalty to be imposed on a person who is found to have contravened a provision subject to an infringement notice.

44 Delegation by CEO

The CEO may, in writing, delegate the following powers and functions to an officer:

(a) the power under regulation 40 to extend the period referred to in paragraph 39(1)(h) in relation to an infringement notice;

(b) the power under regulation 41 to withdraw an infringement notice.

   Note: For strict liability, see section 6.1 of the Criminal Code.

(5) It is a defence to a prosecution under subregulation (2) if:
   (a) it is not practical to store offal on the boat until the crew has finished hauling the line; and
   (b) the offal is discharged during hauling:
      (i) while the vessel is not under way; and
      (ii) from the opposite side of the vessel to that where the line is being hauled.

(2) AFMA may include a condition in a fishing concession exempting the holder of the concession from complying with subregulation 76(2).

(3) If a fishing concession or scientific permit mentioned in subregulation (1) requires the holder of the concession or permit to take alternative action to minimise the risk of incidental catch of seabirds, the holder must take that action.

Penalty: 25 penalty units.

(4) An offence under subregulation (3) is an offence of strict liability.

Note: For strict liability, see section 6.1 of the Criminal Code.

Schedule 4—Amendments of the Treaty
(regulation 4A)

1. Annex I

1.1 Omit Parts 1 to 7 and Schedules 1 and 2, substitute:

PART 1
INTRODUCTORY

1. In this Annex:
   (a) “applicable national law” means any provision of a law, however described, of a Pacific Island party which governs the fishing activities of foreign fishing vessels, being a law identified in Schedule 1, and which is not inconsistent with the requirements of this Treaty and shall be taken to exclude any provision which imposes a requirement which is also imposed by this Treaty;
   (b) “Closed Area” means an area of a Pacific Island party as described in Schedule 2;
   (c) “fishing trip” means any period commencing with the departure of the vessel from port for the purpose of beginning a fishing trip to such time as any or all of the fish on board the vessel are unloaded from the vessel, either ashore or onto another vessel except for the transfer of catch by a licensed group seiner to its licensed carrier vessel;
   (d) “Limited Area” means an area described in Schedule 3;
   (e) “the vessel” means the vessel in respect of which a licence is issued; and
   (f) “transhipment” means the unloading of any or all of the fish on board a licensed vessel either ashore or onto another vessel.

2. Schedule 1 may be amended from time to time by the inclusion by any Pacific Island party of any applicable national law and, for the purposes of this Treaty, except as provided in this paragraph, the amendment shall take effect from the date that the amended Schedule has been notified to the Government of the United States. For the purposes of any obligation on the United States pursuant to paragraphs 4 and 5 of Article 4, the amendment shall take effect 60 days from the date that the amended Schedule has been notified to the Government of the United States. The Government of the Pacific Island party shall use its best endeavours to provide advance notice to the Government of the United States of the amendment.

3. Nothing in this Annex and its Schedules, nor acts or activities taking place thereunder, shall constitute recognition of the claims or the positions of any of the parties concerning the legal status and extent of waters and zones claimed by any party. In the claimed waters and zones, the freedoms of navigation and overflight and other uses of the sea related to such freedoms are to be exercised in accordance with international law.
PART 2
COMPLIANCE WITH APPLICABLE NATIONAL LAWS

4. The operator of the vessel shall comply with each of the applicable national laws, and shall be responsible for the compliance by the vessel and its crew with each of the applicable national laws, and the vessel shall be operated in accordance with those laws.

PART 3
PROHIBITIONS

5. The vessel shall not be used for directed fishing for Southern Bluefin Tuna, or for fishing for any kinds of fish other than tunas, except that other kinds of fish may be caught as an incidental by-catch.

6. The vessel shall not be used for fishing by any method, except the purse-seine method.

7. The vessel shall not be used for fishing in any Closed Area.

8. Except for circumstances involving force majeure and other emergencies involving the health or safety of crew members or the safety of the vessel, no aircraft may be used in association with the fishing activities of the vessel unless it is identified in item 6 or 7 of Schedule 1 of Annex II.

9. The vessel shall not be used for fishing in any Limited Area except in accordance with the requirements set out in Schedule 3, which are applicable to that Limited Area.

10. No fish on board the vessel shall be unloaded from the vessel at sea, except in a designated area in accordance with such terms and conditions as may be agreed between the Pacific Island Party in whose zone the transhipment is to take place. Provided that, notwithstanding any such additional terms and conditions, transhipment shall only take place in accordance with the conditions set out in Schedule 4 hereof and catch shall only be transhipped to a carrier vessel duly licensed in accordance with national laws.

PART 4
TRANSHIPMENT

11. The operator of a vessel shall:
   (a) provide 48 hours notice to the Administrator and the Pacific Island Party of an intent to tranship any or all of the fish on board and shall provide the name of the vessel, its international radio call sign, its position, the catch on board by species, and the time and place where such transhipment is requested to occur,
   (b) only tranship at the time and place authorised for transhipment by the Pacific Island parties;
   (c) submit full reports on the transhipment in the form set out in Schedule 6;

12. The master and each member of the crew of the vessel from which any fish taken in the Licensing Area is transshipped shall:
   (a) allow and assist any person identified as an officer of the Pacific Island party to have full access to the vessel and any place where such fish is being
transhipped and the use of facilities and equipment which the officer may
determine is necessary to carry out his or her duties; have full access to the
bridge, fish on board and areas which may be used to hold, process, weigh and
store fish; remove samples; have full access to the vessel’s records including its
log and documentation for the purpose of inspection and photocopying; and
gather any other information required to fully monitor the activity without
interfering unduly with the lawful operation of the vessel; and

(b) not assault, obstruct, resist, delay, refuse boarding to, intimidate or interfere
with any such officer in the performance of his or her duties.

PART 5
REPORTING

13. Information relating to the position of and catch on board the vessel, as described in
Part 1 of Schedule 4, shall be provided by telex to the Administrator at the following times:

(a) before departure from port for the purpose of beginning a fishing trip in the
Licensing Area;
(b) each Wednesday while within the Licensing Area or a Closed Area; and
(c) before entry into port for the purpose of unloading fish from any trip involving
fishing in the Licensing Area.

14. Information relating to the position of and catch on board the vessel, as described in
Part 2 of Schedule 4, shall be provided to each Pacific Island party in the manner notified to
the Government of the United States by that party as follows:

(a) at the time of entry into and of departure from waters which are, for any
purpose, subject to the jurisdiction of the Pacific Island party;
(b) each Wednesday while within the waters of that party;
(c) at least 24 hours prior to the estimated time of entry into any port of that party;
and
(d) as otherwise set out in Part 3 of Schedule 4.

15. At the end of each day that the vessel is in the Licensing Area, an entry or entries for
that day shall be completed in ink in the English language on the catch report form as set out
in Schedule 5, in accordance with the requirements of that form, and such forms shall be
posted by registered airmail to the Administrator within fourteen (14) days following the date
of the next entry into a port for the purpose of unloading its fish catch.

16. Immediately following the unloading of any fish from the vessel, a report shall be
completed in the form set out in Schedule 6 and shall be posted by registered airmail to the
Administrator within fourteen (14) days following the date of the completion of that
unloading operation, or, in the case of unloading by transhipment, within fourteen (14) days
following unloading of that transhipment at the processing site.
PART 6
ENFORCEMENT

17. The master and each member of the crew of the vessel shall immediately comply with every instruction and direction given by an authorized and identified officer of a Pacific Island party, including to stop, to move to a specified location, and to facilitate safe boarding and inspection of the vessel, its licence, gear, equipment, records, facilities, fish and fish products. Such boarding and inspection shall be conducted as much as possible in a manner so as not to interfere unduly with the lawful operation of the vessel. The operator and each member of the crew shall facilitate and assist in any action by an authorized officer of a Pacific Island party and shall not assault, obstruct, resist, delay, refuse boarding to, intimidate or interfere with an authorized officer in the performance of his or her duties.

18. The operator shall ensure that a recent and up-to-date copy of the International Code of Signals (INTERCO) is on board and accessible at all times.

19. The international distress frequency, 2.182 MHz, and 156.8 MHz (Channel 16, VHF) shall be monitored continuously from the vessel for the purpose of facilitating communication with the fisheries management, surveillance and enforcement authorities of the parties.

20. The operator shall comply with the 1989 FAO standard specifications for the marking and identification of fishing vessels. In particular the international radio call sign of the vessel shall be painted in white on a black background, or in black on a white background in the following manner:

   (a) on the vessel’s hull or superstructure, with each letter and number being at least one metre high and having a stroke width of 16.7 centimetres, with the background extending to provide a border around the mark of not less than 16.7 centimetres;

   (b) on the vessel’s deck, on the body of any helicopter and on the hull of any skiff, with each letter and number being at least 30 centimetres high, and having a stroke width of 5 centimetres wide with the background extending to provide a border around the mark of not less than 5 centimetres; and

   (c) on any other equipment being carried by and intended to be separated from the vessel during normal fishing operations, with each letter and number being at least 10 centimetres high and having a stroke width of 1.7 centimetres, with the background extending to provide a border around the mark of not less than 1.7 centimetres;

and at all times while the vessel is within the Licensing Area or a Closed Area, all parts of these markings shall be clear, distinct and uncovered.

21. The licence or a duly certified copy, facsimile or telex confirmation thereof shall be carried on board the vessel at all times and produced at the request of an authorized enforcement official of any of the parties. Prior to receipt of the licence, the correct citation of the licence number shall satisfy this requirement.
PART 7
OBSERVERS

22. The operator and each member of the crew of the vessel shall allow and assist any person identified as an observer by the Pacific Island parties to:
   (a) board the vessel for scientific, compliance, monitoring and other functions at the point and time notified by the Pacific Island parties to the Government of the United States;
   (b) have full access to and the use of facilities and equipment on board the vessel which the observer may determine is necessary to carry out his or her duties; including full access to the bridge, fish on board and areas which may be used to hold, process, weigh and store fish; remove samples; have full access to the vessel’s records, including its logs and documentation for the purpose of inspection and copying; reasonable access to navigation equipment, charts, and radios; and gather any other information relating to fisheries in the Licensing Area; without interfering unduly with the lawful operation of the vessel;
   (c) disembark at the point and time notified by the Pacific Island parties to the Government of the United States; and
   (d) carry out all duties safely,
and no operator or crew member of the vessel shall assault, obstruct, resist, delay, refuse boarding to, intimidate or interfere with an observer in the performance of his or her duties.

23. The operator shall provide the observer, while on board the vessel, at no expense to the Pacific Island parties, with food, accommodation and medical facilities of such reasonable standard as may be acceptable to the Pacific Island party whose representative is serving as the observer.

24. (a) The operators of United States vessels licensed to fish pursuant to the agreement shall be responsible for the costs of observers on United States vessels including the full travel costs from the place notified by the Pacific Island Parties to and from the vessel, salary and allowances, and full insurance coverage, and the cost of training those observers.
   (b) The fees for the costs of the observers shall be provided in a lump sum on an annual basis to the Administrator. In the first licensing period of the extended Treaty, the lump sum shall be based on the following formula:
   The number of licensed U.S. vessels multiplied by the average annual number of trips per vessel for the latest licensing period for which information is available multiplied by 20 percent multiplied by the cost per trip (US$4,000) equals lump sum payment. In addition in the first two years, an additional payment of US$15,000 per year for training shall be made to the Administrator.
   (c) For subsequent licensing periods, the parties may, as mutually determined at the annual meeting provided for in Article 7 of the Treaty adjust the amount of the fees to be paid under sub-paragraph (b), it being understood that:
   - the goal of the observer programme is to provide an effective observer programme for compliance by targeting 20 percent coverage, which may be reviewed from time to time.
25. Any operator of the vessel from which any fish taken in the Licensing Area is unloaded shall allow, or arrange for, and assist any person authorized for this purpose by the Pacific Island parties to have full access to any place where such fish is unloaded, to remove samples and to gather any other information relating to fisheries in the Licensing Area.

26. An observer programme shall be conducted in accordance with this Treaty and provisions that may be agreed from time to time.

PART 8
MISCELLANEOUS REQUIREMENTS

27. At all times while the vessel is in a Closed Area, the fishing gear of the vessel shall be stowed in such a manner as not to be readily available for fishing. In particular, the boom shall be lowered as far as possible so that the vessel cannot be used for fishing but so that the skiff is accessible for use in emergency situations; the helicopter, if any, shall be tied down; and launches shall be secured.

28. The vessel shall be operated in such a way that the activities of traditional and locally based fishermen and fishing vessels are not disrupted or in any other way adversely affected.

29. Any information required to be recorded, or to be notified, communicated or reported pursuant to a requirement of this Treaty shall be true, complete and correct. Any change in circumstances which has the effect of rendering any such information false, incomplete or misleading shall be notified to the Administrator immediately.

30. It is understood that a region-wide vessel tracking system applicable to all vessels licensed to fish in the Treaty Area may be established. U.S. vessels with a licence to fish under the Treaty shall participate in such a system and shall install and operate a transponder of a type and in such a manner as may be agreed by the Parties. It is understood that data derived through the system shall be treated as confidential business information and that the terms and conditions for access to that information shall be a matter of discussions between the Parties.

2. Annex II

2.1 Omit paragraphs 1 to 6, substitute:

1. For the purposes of this Annex:
   (a) “Licensing Period” means the period of validity of licences issued in accordance with this Treaty.
2. The Government of the United States shall make application for a licence in respect of any fishing vessel of the United States intended by the operator to be used for purse seine fishing in the Licensing Area at any time in the Licensing Period by providing to the Administrator a complete application form as set out in Schedule 1.

3. Licences issued pursuant to this Treaty shall not take effect until the Administrator has received payment, free of any charges whatsoever, of the amounts set out in Schedule 2 for that Licensing Period in the manner described in that Schedule.

4. (a) The Administrator may suspend the good standing of a vessel on the Regional Register of Foreign Fishing Vessels where there is reasonable cause to believe that the vessel operator has violated the terms and conditions of access in Annex I including but not limited to:

   (i) failing to report entry into and exit from Zones;
   (ii) failing to report while in a Zone;
   (iii) misreporting position and catch on board; or
   (iv) improperly marking the vessel and gear.

   (b) The Administrator shall notify the Government of the United States and the operator not less than 30 days prior to the intended date of suspension of good standing. The notice shall include a statement of the facts which give reasonable cause to believe a violation has occurred, the corrective action required, and the effective date of the suspension of good standing; provided however that the corrective action required shall be limited to making the omitted report, correcting any misreporting, or correcting vessel markings or otherwise complying with the requirements of Annex I.

   (c) If the corrective action is taken within 30 days, the Administrator shall not suspend good standing.

   (d) Upon satisfactory completion of the required corrective action, the Administrator shall immediately reinstate the good standing of the vessel.

   (e) Any fishing vessel of the United States in respect of which good standing has been suspended shall not be eligible to receive a new licence upon the expiration of the current licence, until notified by the Administrator that good standing has been reinstated.

5. Subject to paragraph 6, a licence may be denied:

   (a) where the application is not in accordance with the requirements of paragraph 2;
   (b) where the owner or charterer is the subject of proceedings under the bankruptcy laws of the United States, unless reasonable financial assurances have been provided to the Administrator;
   (c) where the vessel in respect of which application for a licence has been made does not have good standing on the Regional Register of Foreign Fishing Vessels, maintained by the South Pacific Forum Fisheries Agency, provided that:

   (i) good standing is withdrawn only as a result of:

   (A) the commission of a serious offence against fisheries laws or regulations of a Pacific Island State and the operator has not fully complied with any civil or criminal judgment rendered with respect to such an offence;
(B) evidence existing that gives reasonable cause to believe that the operator has committed a serious offence against the fisheries laws or regulations of any Pacific Island State and that it has not been possible to bring the vessel operator to trial; or

(C) the vessel operator has failed to comply with the annual registration and information requirements for registration as notified by the Administrator to the Government of the United States;

(D) the failure to satisfactorily complete the required corrective action of all outstanding requests, as a result of which the good standing of a vessel has continued in suspension for a period of more than 12 months;

(ii) the Pacific Island party requesting withdrawal of good standing has first consulted the Government of the United States and has made all reasonable efforts to resolve the dispute in question before utilizing the procedures for withdrawal of good standing;

(iii) in the event of a request for withdrawal of good standing from the Regional Register of Foreign Fishing Vessels of a vessel licensed pursuant to this Treaty, the Pacific Island parties agree to take into consideration that vessel’s compliance with the terms of this Treaty in determining whether to approve such a request; and

(iv) following a withdrawal of good standing the Pacific Island party involved promptly advises the Government of the United States in writing of the reason for the withdrawal and the requirements which must be fulfilled to reinstate good standing;

(d) where there has been a failure to satisfy a final judgment or other final determination for a breach of this Treaty by the owner, charterer or master of the vessel in respect of which application for a licence has been made, until such time as the final judgment or other final determination is satisfied, and subsequent change in ownership of a vessel shall not affect the application of this provision; or

(e) where an operator has committed, or the vessel has been used for:

(i) a violation of this Treaty, providing that the Pacific Island parties, following consultation with the Government of the United States, determine that the violation is of a serious nature; or

(ii) any violation of this Treaty on more than one occasion, providing that the Pacific Island parties, following consultation with the Government of the United States, determine that such multiple violations constitute a serious disregard of this Treaty.

6. Without prejudice to their rights under Paragraph 4 of Article 4 of the Treaty, the Pacific Island Parties shall consider notifying the Government of the United States of any alleged infringements of the Treaty by vessels of the United States 30 days prior to requesting an investigation under Paragraph 4 of Article 4 of the Treaty. The Government of the United States shall inquire into the allegation. As appropriate, the Government of the United States, the operator concerned, the Administrator and the Pacific Island Party concerned may engage in consultations with a view to settling the matter.
7. A maximum number of licences may be issued for any Licensing Period as set out in Schedule 2, and, upon request by the Government of the United States, the Pacific Island parties may agree to vary such number.

8. On receipt of an application for a licence in accordance with this Annex, the Administrator shall take the necessary steps to ensure that:
   (a) a licence in the form set out in Schedule 3 in respect of the vessel identified in the application; or
   (b) a statement setting out the reasons that a licence in respect of the vessel identified in the application is denied together with a refund of the amount or amounts provided with the application;

is promptly provided to the Government of the United States.

2.2 Omit Schedule 2, substitute:

SCHEDULE 2
PAYMENTS AND REVIEW

1. The following amounts are payable annually for a period of ten (10) years pursuant to paragraph 3 of Annex II -
   (a) an annual industry payment of US$4 million, which shall cover -
       (i) licence fees for up to 55 vessels as set forth in paragraph 2 below; and
       (ii) technical assistance;
   (b) costs to be paid by the industry for the observer programme set forth in Part 7 of Annex I; and
   (c) sums pursuant to the related agreement between the South Pacific Forum Fisheries Agency and the Government of the United States.

2. During each licensing period, the Administrator shall make available a maximum of 55 licences to fishing vessels of the United States for fishing in the Licensing Area. Any licences issued beyond 50 shall only be available to fishing vessels of the United States engaged in fishing activity designed to advance broader cooperation with the Pacific Island parties as envisaged under Article 2. If the Administrator does not receive applications for the maximum of 55 licences during any of the first three licensing periods, the Pacific Island parties reserve the right at the end of the third licensing period to review the allocation of licences beyond 50 for the remaining licensing periods.

3. Prior to the beginning of the sixth licensing period, the Parties shall review the number of licences to be issued, the licence fees and any other issues which may be identified during the preceding Annual Consultations. During such review, the Parties shall determine the number of licences and the licence fees for the second five-year period. Any agreed changes in the number of licences or licence fees shall be reflected in the annual industry payment.

Endnotes

Endnote 1—About the endnotes

The endnotes provide information about this compilation and the compiled law.

The following endnotes are included in every compilation:

Endnote 1—About the endnotes
Endnote 2—Abbreviation key
Endnote 3—Legislation history
Endnote 4—Amendment history

Abbreviation key—Endnote 2
The abbreviation key sets out abbreviations that may be used in the endnotes.

Legislation history and amendment history—Endnotes 3 and 4
Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Editorial changes
The Legislation Act 2003 authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

Misdescribed amendments
A misdescribed amendment is an amendment that does not accurately describe the amendment to be made. If, despite the misdescription, the amendment can be given effect as intended, the amendment is incorporated into the compiled law and the abbreviation “(md)” added to the details of the amendment included in the amendment history.

If a misdescribed amendment cannot be given effect as intended, the abbreviation “(md not incorp)” is added to the details of the amendment included in the amendment history.
