An Act to make provision for the evaluation, registration and control of agricultural and veterinary chemical products, and for related matters, for the purposes of the Agricultural and Veterinary Chemicals Act 1994

RECOGNISING:

(a) that the protection of the health and safety of human beings, animals and the environment is essential to the well-being of society and can be enhanced by putting in place a system to regulate agricultural chemical products and veterinary chemical products; and

(b) that the principle of ecologically sustainable development requires a regulatory system that is designed to ensure that the use of such products at the present time will not impair the prospects of future generations; and

(c) that the furthering of trade and commerce between Australia and places outside Australia, and the present and future economic viability and competitiveness of primary industry and of a domestic industry for manufacturing and formulating such products, are essential for the well being of the economy and require a system for regulating such products that is cost effective, efficient, predictable, adaptive and responsive; and

(d) that it is desirable to establish a regulatory system that is open and accountable and gives opportunity for public input with respect to the regulation of such products; and

(e) that the system should, so far as practicable, be uniform throughout Australia; and

(f) that uniformity could best be achieved by the enactment of legislation by the Parliament of the Commonwealth as a law for the government of the Australian Capital Territory and the adoption of that legislation by the Parliaments and legislatures of the States and the Northern Territory:
The Parliament of Australia enacts:

8V Matters to be taken into account in preparing a standard

The APVMA must not make a standard for a listed chemical product unless the APVMA is satisfied that compliance with the standard would result in:
(a) the product meeting the safety criteria, the trade criteria and the efficacy criteria; and
(b) any label for containers for the product meeting the labelling criteria.
Division 7—Access to certain documents and information

8W Access to certain documents in the possession or custody of the APVMA

   (c) approval of labels for containers for chemical products.

(2) Division 2 provides for approvals and registrations.

(2A) Division 2AA provides for notifiable variations of relevant particulars of approvals and registrations if the variations are of a kind determined by the APVMA or prescribed by the regulations and are not prescribed variations under Division 2A. Only holders of approvals or registrations may notify variations under Division 2AA.

9A Explanation of Division

(1) This Division provides for:
   (a) approval of active constituents for proposed or existing chemical products; and
   (b) registration of chemical products; and
   (c) approval of labels for containers for chemical products.

(2) Section 10 provides for applications to be made. Applications must meet the application requirements specified in section 8A.

(3) The APVMA must complete a preliminary assessment of an application. If the application passes preliminary assessment, the APVMA must notify the applicant and publish a summary of the application (section 11).

(4) Before determining certain applications that have passed preliminary assessment, the APVMA must publish a notice inviting public submissions (sections 12 and 13).

   (iv) any other matters that the APVMA thinks appropriate;

   and

(b) invite any person to make, within a specified period of at least 28 days, a written submission to the APVMA as to whether the product should be registered and stating the grounds on which the submission is based, which must be grounds that relate to the safety criteria, the trade criteria or the efficacy criteria.

14 Approval and registration

(1) The APVMA must approve the active constituent or label, or register the chemical product, if it is satisfied:

   (a) that the application meets the application requirements; and

   (b) for an active constituent—that the constituent meets the safety criteria; and

   (c) for a chemical product—that the product:
      (i) meets the safety criteria, the trade criteria and the efficacy criteria; or
      (ii) complies with the established standard for the product; and

   (d) for a label for a chemical product—that the label:

Note: For notice of approval or registration, see section 8F.
14A Approval of active constituents for which information is not readily available

(1) The APVMA may approve an active constituent for a proposed or existing chemical product if:
   (a) either of the following applies:
       (i) the APVMA considers that information it requires in respect of the constituent is not readily available;
       (ii) the constituent is, or is part of, a product in respect of which a standard is specified in the European Pharmacopoeia, the British Pharmacopoeia (Veterinary), the United States Pharmacopoeia or any other publication considered by the APVMA to be appropriate; and
   (b) having regard to information that is readily available, the APVMA is satisfied that the constituent would meet the safety criteria.

(2) Subsection (1) applies:
   (a) despite subsection 14(2); and
   (b) whether or not an application has been made for approval of the constituent.

(3) If the APVMA approves an active constituent under this section without an application having been made for the approval, the APVMA must, under paragraph 19(a), be entered in the Record as the holder of the approval.

14B APVMA not to use information for registration of new chemical product to register a similar product after disclosure

(1) This section applies if:
   (a) information was given to the APVMA in connection with an application made after the commencement of this section for registration of a chemical product (the first product) containing an active constituent that was not a previously
endorsed active constituent at the time of registration of the first product; and
(b) the information related to the first product or the active constituent and:
   (i) the safety criteria; or
   (ii) a matter that is prescribed by the regulations; and
(c) the information was disclosed:
   (i) by the Commonwealth, a State or a Territory; or
   (ii) by an authority of the Commonwealth, a State or a Territory (including the APVMA); or
   (iii) by anyone acting on behalf of the Commonwealth, a State, a Territory or an authority of the Commonwealth, a State or a Territory; and
(d) the information was not publicly available before the disclosure; and
(e) as a result of the disclosure, the applicant for an application for registration of a chemical product (the second product) that is the same as, or similar to, the first product, seeks to have the APVMA use the information in determining the application.

(2) For 10 years after the first day on which the first product was registered, the APVMA must not use the information to register the second product if:
   (a) the registration of the second product would be commercially unfair; and
   (b) the authorising party for the information does not consent to the use.

(3) The use of information in contravention of subsection (2) for determining the application for registration of the second product does not affect the validity of the registration of the second product.

(4) An action or proceeding does not lie against any of the following for any loss directly or indirectly sustained because of the use of information in contravention of subsection (2):
   (a) the Commonwealth;
Section 15

(b) the APVMA;

15 Restriction on power of APVMA to register products and approve labels

(1) Subject to subsection (2), the APVMA must not:
   (a) register a chemical product unless:
      (i) the APVMA also approves each active constituent for the product; and
      (ii) the APVMA also approves a label for containers for the product; or
   (b) approve a label for containers for a chemical product unless it also registers the product.

(2) Subparagraph (1)(a)(i) does not apply in relation to:
   (a) an active constituent that is exempted by the APVMA from the operation of that subparagraph; or
   (b) an active constituent for a listed chemical product.

16 Multiple approvals or registrations

(1) The approval of an active constituent does not preclude the approval of the same constituent on the application of another person.

(2) The registration of a chemical product on the application of a person does not preclude the registration on the application of another person of another chemical product that has the same or similar constituents.
Section 17

(3) The approval of a label for containers for a chemical product does not preclude the approval of another label or other labels for containers for that product.

17 APVMA must keep a Record of Approved Active Constituents for Chemical Products

(1) For the purposes of this Code, the APVMA must keep a record to be known as the Record of Approved Active Constituents for Chemical Products.

(2) The Record may be kept at a place and in a form that the APVMA determines, and may be kept by electronic means.

(3) The Record is to be kept in 3 parts as follows:
   (a) one part is to consist of confidential commercial information relating to constituents approved under section 14;
   (b) one part is to consist of other information relating to constituents approved under section 14;
   (c) one part is to consist of information relating to constituents approved under section 14A.

(5) If a person applies to the APVMA for a copy of, or extract from, a part of the Record and pays the prescribed fee (if any), the APVMA must give the copy or extract to that person.

Note: This subsection does not authorise the disclosure of confidential commercial information whose disclosure would otherwise be prohibited by section 162: see section 8X.
18 APVMA must keep a Register of Agricultural and Veterinary Chemical Products

(1) For the purposes of this Code, the APVMA must keep a register to be known as the Register of Agricultural and Veterinary Chemical Products.

(2) The Register may be kept at a place and in a form that the APVMA determines, and may be kept by electronic means.

(3) The Register is to be kept in 2 parts, one containing confidential commercial information and the other containing other information.

(4) The APVMA must permit any person to inspect any part of the Register at any time during ordinary office hours on a working day.

Note: This subsection does not authorise the disclosure of confidential commercial information whose disclosure would otherwise be prohibited by section 162: see section 8X.

(5) If a person applies to the APVMA for a copy of, or extract from, a part of the Register and pays the prescribed fee (if any), the APVMA must give the copy or extract to that person.

Note: This subsection does not authorise the disclosure of confidential commercial information whose disclosure would otherwise be prohibited by section 162: see section 8X.

19 How approval of active constituent takes place

Section 20

20 How registration of chemical product takes place

(1) Registration of a chemical product takes place when the APVMA enters the following in the Register:
   (a) the name of the person who applied for the registration as the holder of the registration;
   (b) the name of any nominated agent for the registration;
   (c) the relevant particulars, which are the distinguishing number, any instructions for the use of the product and any other particulars prescribed by the regulations;
   (d) if the product is a listed chemical product—a notation to that effect;
   (e) any conditions of the registration imposed by the APVMA;
   (f) the date the registration ends.

(2) The date the registration ends must:
   (a) be the last day of a calendar month not more than 7 years after the registration takes place; and
   (b) be worked out in accordance with the method prescribed by the regulations.

(3) However, if the regulations do not prescribe a method for the purposes of paragraph (2)(b), the date the registration ends must be the next 30 June after the registration takes place.

21 How approval of label takes place

Approval of a label takes place when the APVMA:
   (a) determines the particulars prescribed by the regulations that are appropriate to be contained on the label; and
   (b) gives a distinguishing number to the label; and
   (c) records the following information in the relevant APVMA file:
      (i) the name of the person who applied for the approval as the holder of the approval;
      (ii) the name of any nominated agent for the approval;

22 Date of approval or registration

(1) The date of approval of an active constituent, of registration of a chemical product or of approval of a label is the date on which the relevant particulars are entered in the Record, Register or relevant APVMA file.

(2) If:

(a) any of the relevant particulars of:

(i) an approval of an active constituent; or

(ii) a registration of a chemical product; or

(iii) an approval of a label; or

(b) any of the conditions of such an approval or registration imposed by the APVMA;

are varied, then, the date of approval of the constituent, registration of the product, or approval of the label, as varied, or as subject to the varied conditions, is the date on which particulars of the variation are entered in the Record, Register or relevant APVMA file.

23 Conditions of approval or registration

(1) The approval of an active constituent, the registration of a chemical product or the approval of a label for containers for a chemical product is subject to:

(a) the conditions prescribed by the regulations (whether or not the conditions are prescribed at the time the constituent, product or label is approved or registered); and

(b) any conditions imposed on the approval or registration as the APVMA thinks appropriate.

(2) An active constituent, chemical product or a label may be approved or registered on the condition that the approval or registration is
taken to remain in force only for a stated period of not more than 1 year.

(3) If:
   
   (a) the approval or registration is subject to a condition referred to in subsection (2); and
   
   (b) the conditions of approval or registration have not been varied before the end of the period referred to in the condition, or the end of that period as previously extended under this subsection, so as to remove the condition;

   the APVMA may vary the condition so as to extend the period for a further period of not more than 1 year.

26 Incorrect particulars and conditions

(1) If:
   
   (a) the APVMA is satisfied that a relevant particular or condition entered in the Record or Register, or recorded in the relevant APVMA file, is incorrect in a material respect; and
   
   (b) the relevant particular or condition is of a kind prescribed by the regulations;

   the APVMA must vary the entry or record accordingly.

   Note: For notice of variation, see section 8F.

(2) If the APVMA is satisfied that a relevant particular or condition entered in the Record or Register, or recorded in the relevant APVMA file, is incorrect in a material respect because of inaccurate recording, the APVMA must vary the entry or record accordingly.

   Note: For notice of variation, see section 8F.

(3) If the holder of the approval of an active constituent, the registration of a chemical product or the approval of a label for containers for a chemical product has reasonable cause to believe that:
   
   (a) a relevant particular or condition entered in the Record or Register, or recorded in the relevant APVMA file, in relation to the constituent, product or label is incorrect in a material respect; and
(b) the relevant particular or condition is incorrect because of inaccurate recording;
the holder must, within 28 days, give to the APVMA a written notice, signed by the holder, identifying the incorrect particular or condition and informing the APVMA of the correct particular or condition.

(4) The holder commits an offence of strict liability if the holder contravenes subsection (3).

Penalty: 30 penalty units.

Note: For strict liability, see section 6.1 of the Criminal Code.

(5) Subsection (3) is a civil penalty provision.

Note: Division 2 of Part 9A provides for pecuniary penalties for contraventions of civil penalty provisions.
Division 2AA—Notified variations of relevant particulars

26AA Explanation of Division

(1) This Division provides for some kinds of variations of relevant particulars of approvals and registrations (called notifiable variations) to be made on notice by the holders of approvals or registrations.

(2) A notifiable variation is a variation of a kind:
   (a) determined by the APVMA; or
   (b) prescribed by the regulations.

   A prescribed variation under Division 2A cannot be a notifiable variation.

(3) Only holders of approvals or registrations may notify variations under this Division (section 26AB). The notice must meet the notice requirements specified in subsection 26AD(1).

(4) Section 26AC sets out how the APVMA varies the relevant particulars on notice under this Division.

26AB Notice of notifiable variations

(1) The holder may, in writing, lodge notice with the APVMA of one or more notifiable variations of the relevant particulars of an approval or registration.

(2) The notice must meet the notice requirements.

   Note: For meets the notice requirements, see subsection 26AD(1).

(3) A notifiable variation is a variation of a kind that:
   (a) either:
      (i) is determined by the APVMA under subsection (5); or
      (ii) is prescribed by the regulations; and
   (b) is not a prescribed variation under Division 2A.
(4) The APVMA must not determine a kind of variation under subsection (5) unless it is satisfied that, with the relevant particulars so varied:

   (a) for an active constituent—the constituent would meet the safety criteria; and

   (b) for a chemical product—the product would:

      (i) meet the safety criteria, the trade criteria and the efficacy criteria; or

      (ii) comply with the established standard for the product; and

   (c) for a label for a chemical product—the label would:

      (i) meet the labelling criteria; or

      (ii) comply with the established standard for the product.

(5) The APVMA may, by legislative instrument, determine a kind of variation for the purposes of subparagraph (3)(a)(i).

(6) If the notice does not meet the notice requirements, the APVMA must:

   (a) notify the holder in writing of that fact; and

   (b) include in the notice the reasons why the holder’s notice does not meet the notice requirements.

26AC Variation of relevant particulars

(1) If a notice is lodged under section 26AB, the APVMA must vary the relevant particulars of the approval or registration as proposed in the notice.

(2) The variation is taken to have effect on the day the notice is lodged.

(3) The APVMA must, within 14 days after the notice is lodged:

   (a) record in the Record, Register or relevant APVMA file, as required, the relevant particulars as varied and the day the notice was lodged; and

   (b) if the relevant particulars of a listed chemical product are varied in such a way that the product or any approved label for the product does not comply with the established standard...
for the product—amend the Register so that the product is no longer noted as a listed chemical product.

Note 1: For notice of variation, see section 8F.
Note 2: For publication of the variation, see section 8J.

26AD Notice requirements

(1) For the purposes of this Division, a notice meets the notice requirements if the notice:

(a) is in writing in the approved form; and
(b) is signed by the holder of the approval or registration to which the notice relates; and
(c) is accompanied by the prescribed fee; and
(d) is lodged with the APVMA; and
(e) contains, or is accompanied by, any information:
   (i) specified by the APVMA under subsection (2); or
   (ii) prescribed by the regulations.

(2) For the purposes of subparagraph (1)(e)(i), the APVMA may, by legislative instrument, specify the information that must be contained in, or accompany, the notice.

(3) The APVMA may specify information under subsection (2) only if the information is relevant to a notifiable variation.
Division 2A—Prescribed variations of relevant particulars

26A Explanation of Division

(1) This Division provides for prescribed variations of relevant particulars of approvals and registrations.

(2) A prescribed variation is a variation of a kind:
   (a) determined by the APVMA; or
   (b) prescribed by the regulations.

(3) Only holders of approvals or registrations may apply under this Division (section 26B). The application must meet the application requirements specified in section 8A.

(4) Section 26D sets out how a variation takes place.

26B Applications for prescribed variations

(1) The holder may apply to the APVMA for one or more prescribed variations of the relevant particulars of an approval or registration.

(2) The application must meet the application requirements.

Note: For meets the application requirements, see section 8A.

(3) The APVMA may alter the application with the written consent of the applicant.

(4) A prescribed variation is a variation of a kind:
   (a) determined by the APVMA under subsection (6); or
   (b) prescribed by the regulations.

(5) The APVMA must not determine a kind of variation under subsection (6) unless it is satisfied that, with the relevant particulars so varied:
   (a) for an active constituent—the constituent would meet the safety criteria; and
   (b) for a chemical product—the product would:
Section 26C

(i) meet the safety criteria, the trade criteria and the
efficacy criteria; or
(ii) comply with the established standard for the product;
and

(c) for a label for a chemical product—the label would:
   (i) meet the labelling criteria; or
   (ii) comply with the established standard for the product.

(6) The APVMA may, by legislative instrument, determine a kind of
variation for the purposes of paragraph (4)(a).

(7) If the application does not meet the application requirements, the
APVMA must:
   (a) notify the holder in writing of that fact; and
   (b) include in the notice the reasons why the holder’s
application does not meet the application requirements.

26C Decision on prescribed variations

(1) The APVMA must, within the period prescribed by the regulations:
   (a) if it is satisfied that the application meets the application
requirements—vary the relevant particulars as proposed in
the application; or
   (b) otherwise—refuse the application.

Note 1: For notice of variation, see section 8F.
Note 2: For notice of refusal, see section 8G.

(2) If the APVMA does not make a decision on the application within
the period prescribed, the APVMA is, immediately after the end of
that period, taken to have made a decision under subsection (1) to
vary the relevant particulars as proposed in the application.

26D How prescribed variation takes place

(1) Variation of relevant particulars under this Division takes place
when the APVMA records in the Record, Register or relevant
APVMA file, as required, the relevant particulars as varied and the
date on which the variation is made.
(2) If the relevant particulars of a listed chemical product are varied in such a way that the product or any approved label for the product does not comply with the established standard for the product, the APVMA must amend the Register so that the product is no longer noted as a listed chemical product.

Division 3—Varying relevant particulars and conditions

26E  Explanation of Division

(1) This Division provides generally for variation of relevant particulars or conditions of approvals and registrations.

(2) Holders and other persons may apply under this Division.

(3) Section 27 provides for applications to be made. An application must meet the application requirements specified in section 8A.

(4) The APVMA must complete a preliminary assessment of the application. If the application passes preliminary assessment, the APVMA must notify the applicant and may be required to publish a summary of the application (section 28).

(5) The APVMA must vary the relevant particulars or conditions if specified criteria are met (section 29).

(6) The APVMA may vary relevant particulars or conditions on its own initiative with the consent of the holder (section 29A).

(7) Section 29B sets out how a variation takes place.

27  Applications

(1) The holder may apply to the APVMA for variation of the relevant particulars or conditions of:

(2) If the relevant particulars or conditions of a listed chemical product are varied in such a way that the product or any approved label for the product does not comply with the established standard for the product, the APVMA must amend the Register so that the product is no longer noted as a listed chemical product.
Division 4—Reconsidering approvals and registrations

29L  Explanation of Division

(1) This Division provides for reconsideration of approvals and registrations.

(2) The APVMA may invite proposals for reconsideration (section 30), and the APVMA may reconsider an approval or registration at any time (section 31).

(3) Before reconsidering an approval or registration, the APVMA must prepare a work plan (section 31), notify the holder and invite the holder to make a written submission on the reconsideration. The holder will also be required to give the APVMA information relevant to the reconsideration (section 32).

(4) The APVMA may inform any person that the APVMA proposes to reconsider, or is reconsidering, the approval or registration and invite written submissions (section 32).

(5) The APVMA may require the holder to conduct trials or experiments or provide information or samples for the purposes of the reconsideration (section 33).

(6) The APVMA must affirm the approval or registration if it is satisfied that the constituent or product concerned meets specified criteria (section 34).

(7) The APVMA must vary the relevant particulars or conditions of the approval or registration if the APVMA is satisfied that they can be varied in such a way as to allow the approval or registration to be affirmed (section 34A).

(8) If the APVMA does not affirm the approval or registration, it must suspend or cancel the approval or registration (section 34AA).

(9) The APVMA must give notice of what it proposes to do before it:
(a) varies the relevant particulars or conditions; or
(b) suspends or cancels the approval or registration
(section 34AB).

(10) If the APVMA affirms the approval or registration, it must notify
the holder and publish a notice in the Gazette (section 34AC).

(11) The APVMA may reconsider the approval of a label to determine
whether the instructions on the label are adequate (section 34AF).

30 Inviting the public to propose reconsiderations

taken into account by the APVMA in reconsidering the approval or

(4) The holder commits an offence of strict liability if the holder contravenes subsection (2).

Penalty: 120 penalty units.

Note 1: For strict liability, see section 6.1 of the Criminal Code.

Division 5—Suspending and cancelling approvals and registrations

34N Explanation of Division

(1) This Division provides for suspension and cancellation of approvals and registrations.

(2) In most cases, the APVMA must not suspend or cancel an approval or registration without giving notice to the holder (section 34P).

(3) In most cases, the APVMA must not suspend or cancel an approval or registration without giving notice to the co-ordinators for other jurisdictions (section 35).

(4) The APVMA may suspend or cancel an approval or registration:
   (a) if it is necessary to prevent imminent risk to persons of death, serious injury or serious illness (section 35A); or
   (b) if a condition of the approval or registration is contravened (section 36); or
   (c) if the holder does not comply with a requirement under section 32, 33, 159, 160A or 161 to give the APVMA information, a report or a sample (section 38); or
   (d) if the holder has given information that is false or misleading (section 38A); or
   (e) if primary and secondary holders cannot agree on compensation during the course of arbitration (section 39); or
   (f) if it appears to the APVMA that the criteria for approval or registration are not, or are no longer, satisfied (section 41); or
   (g) at the request of the holder if the APVMA agrees with the reasons for the request (section 42).

(5) A suspension must be for a stated period, and does not prevent cancellation (section 43).

(6) Section 44 deals with inter-related suspensions and cancellations.

(7) Suspensions and cancellations are done by entries in the Record, the Register and the relevant APVMA file (section 45).
Section 34P

(8) Notice of suspension and cancellation must be given to certain persons and must be published in the *Gazette* (section 45A).

(9) If the APVMA suspends or cancels the approval of a constituent or the registration of a product, then:
   (a) certain persons are taken to have a permit to possess, have custody of or use of the constituent or product for a limited period (section 45B); and
   (b) such persons may only supply the constituent or product in accordance with instructions contained in the notice provided by the APVMA under section 45A (section 45C).

(10) Section 46 sets out how suspensions and cancellations are revoked.

34P Notice of proposed suspension or cancellation to be given to holder

(1) The APVMA must not suspend or cancel an approval or registration unless it has given the holder a written notice that:
   (a) states that the APVMA proposes to suspend or cancel the approval, or suspend or cancel the registration, as the case may be; and
   (b) sets out the reasons for the proposed suspension or cancellation; and
   (c) invites the holder to make, within a reasonable period specified in the notice, submissions to the APVMA in relation to the proposed suspension or cancellation.

(2) The APVMA must not make a decision relating to the proposed suspension or cancellation, as the case may be, until it has had regard to any submission made by the person in response to an invitation under paragraph (1)(c).

(3) A written notice under subsection (1) must specify the period of the suspension.

(4) Subsection (1) does not apply to a suspension or cancellation under section 34AA, 35A, 39 or 42.
35  Notice of proposed suspension or cancellation to be given to co-ordinators

(1) Subject to subsection (2), the APVMA must not suspend or cancel an approval or registration unless:
(a) it has given notice of the proposed suspension or cancellation to each co-ordinator designated for a jurisdiction; and
(b) a period of 10 working days, or any other period that the APVMA thinks adequate in a particular case, has elapsed since the notice was given.

(2) Subsection (1) does not apply to a suspension or cancellation under section 35A.

35A  Suspension or cancellation of registration if imminent risk to persons of death, serious injury or serious illness

(1) The APVMA may suspend or cancel the registration of a chemical product if the APVMA considers that doing so is necessary to prevent imminent risk to persons of death, serious injury or serious illness.

Note: Section 43 deals with the effect of suspension of registration.

(2) The APVMA may suspend or cancel the registration of the product under subsection (1) whether or not the product is being used in accordance with instructions for its use that the APVMA has approved.

Note: Sections 34P and 35 do not apply to a suspension or cancellation under this section.

36  Suspension or cancellation of approval or registration for breach of condition

If there is a contravention of a condition of the approval of an active constituent for a proposed or existing chemical product, the registration of a chemical product or the approval of a label for containers for a chemical product, the APVMA may suspend or cancel the approval or registration.
Section 38

38 Suspension of approval or registration for failing to give information, results, report or sample to APVMA

(1) If the holder of an approval or registration fails, without reasonable excuse, to comply with a requirement contained in a notice under subsection 32(1) or section 33 or 159, or to comply with section 160A or 161, the APVMA may suspend the approval or registration.

(2) Subject to subsection (3), the APVMA must revoke a suspension imposed under subsection (1) if it is satisfied that the relevant information, results, report or sample has been given to it.

(3) If the information, results, report or sample is not given to the APVMA within a reasonable period after the suspension takes place, the APVMA may cancel the approval or registration.

38A Suspension or cancellation of approval or registration for providing false or misleading information

(1) The APVMA may suspend or cancel the approval of an active constituent for a proposed or existing chemical product if:
   (a) the holder has given information:
      (i) in or in connection with an application for approval of the constituent; or
      (ii) in response to a notice under section 33 or 159; or
      (iii) as required by section 160A or 161; and
   (b) the information was false or misleading in a material particular.

(2) The APVMA may suspend or cancel the registration of a chemical product if:
   (a) the holder has given information:
      (i) in or in connection with an application for registration of the product; or
      (ii) in response to a notice under section 33 or 159; or
      (iii) as required by section 160A or 161; and
   (b) the information was false or misleading in a material particular.
39 Suspension of approval or registration if compensation for use of protected information cannot be arbitrated

(1) If:
   (a) the primary holder in relation to a primary active constituent and the secondary holder in relation to a secondary active constituent or a secondary chemical product were parties to an arbitration under Division 3 of Part 3 as to the terms of compensation; and
   (b) the arbitrator gives notice to the APVMA under section 68 in respect of the failure of each party to the arbitration to make a fresh proposal as to the terms of the compensation or to make a fresh proposal as to those terms that the arbitrator thinks reasonable;

   the APVMA may suspend the approval of the primary active constituent or may suspend the approval of the secondary active constituent or the registration of the secondary chemical product, as the case may be, or may do both of those things.

(2) If:
   (a) the primary holder in relation to a primary chemical product and the secondary holder in relation to a secondary chemical product were parties to an arbitration under Division 3 of Part 3 as to the terms of compensation; and
   (b) the arbitrator gives notice to the APVMA under section 68 in respect of the failure of each party to the arbitration to make a fresh proposal as to the terms of the compensation or to make a fresh proposal as to those terms that the arbitrator thinks reasonable;

   the APVMA may suspend the registration of either or both of those products.

Note: Section 34P does not apply to a suspension or cancellation under this section.
Section 41

41 Suspension or cancellation of approval or registration for non-compliance with criteria for approval or registration or prescribed requirements

(1) The APVMA may suspend or cancel the approval of an active constituent for a proposed or existing chemical product, or the registration of a chemical product, if it appears to the APVMA:
   (a) for an active constituent—that the constituent may not meet the safety criteria; or
   (b) for a chemical product—that the product may not meet the safety criteria, the trade criteria or the efficacy criteria; or
   (c) that the constituent or product may not comply with any requirement prescribed by the regulations.

(2) The APVMA may suspend or cancel the approval of a label for containers for a chemical product if it appears to the APVMA that the label may not meet the labelling criteria or may not comply with any requirement prescribed by the regulations.

42 Cancellation of approval or registration at request of holder

(1) If:
   (a) the holder gives to the APVMA a written notice:
      (i) requesting the APVMA to cancel the approval or registration; and
      (ii) stating the reasons for the request; and
   (b) the APVMA is satisfied that there are no valid reasons why it should not agree to the request;
   the APVMA must cancel the approval or registration.

(2) The APVMA must give written notice of its decision on a request under subsection (1) to the person or persons who made the request.

Note: Section 34P does not apply to a suspension or cancellation under this section.
43 Effect of suspension of approval or registration

(1) A suspension of an approval or registration must be for a stated period.

(2) An approval or registration is taken for the purposes of this Code other than sections 74 and 75 not to be in force during any period in which it is suspended.

(3) An approval or registration may be cancelled even though it is suspended.

44 Inter-related suspensions and cancellations

(1) If the APVMA suspends or cancels the approval of an active constituent for a proposed or existing chemical product, it must also suspend or cancel any registration of that product.

(2) If the APVMA suspends or cancels the registration of a chemical product, it may also suspend or cancel, as the case may be, any approval relating to a label for containers for the product.

(3) If the APVMA suspends or cancels the approval of the only approved label, or all the approved labels, for containers for a chemical product, it may also suspend or cancel, as the case may be, the registration of the product.

45 How approval or registration is suspended or cancelled

Suspension or cancellation of an approval or registration is made by entering in the Record or Register (as appropriate) or recording in the relevant APVMA file:

(a) the fact that the approval or registration has been suspended or cancelled; and

(b) in respect of a suspension—the period of the suspension; and

(c) the date on which the entry or record is made.
45A Notice of suspension or cancellation

(1) If the APVMA suspends or cancels the approval of an active constituent, the registration of a chemical product or the approval of a label, it must:
   (a) give written notice of the suspension or cancellation to the holder and to any other person to whom, in its opinion, such a notice should be given; and
   (b) publish in the Gazette, and in any other manner that it thinks appropriate, notice of the suspension or cancellation containing any information that it thinks relevant.

(2) A notice under subsection (1):
   (a) must include a statement that the APVMA will publish a notice of the suspension or cancellation in the Gazette; and
   (b) in respect of a suspension or cancellation of the approval of an active constituent for a proposed or existing chemical product or the registration of a chemical product—must contain the following matters:
      (i) brief reasons for the suspension or cancellation;
      (ii) instructions for possessing, having custody of or using the constituent or product;
      (iii) a warning of the consequences of failing to comply with the instructions, including a statement of any period after which it will be an offence against this Code to supply the constituent or product or to possess or have custody of the constituent or product with the intention of supplying it;
      (iv) any other warnings or explanations in relation to the constituent or product that the APVMA thinks desirable.

(3) If the reason, or one of the reasons, for the suspension or cancellation was:
   (a) for an active constituent—that the constituent may not meet the safety criteria; or
   (b) for a chemical product—that the product may not meet the safety criteria, the trade criteria or the efficacy criteria; or
   (c) for a label—that the label may not meet the labelling criteria;
the notice published in the *Gazette* must contain a statement to that effect and must include the matters mentioned in subparagraphs (2)(b)(ii), (iii) and (iv).

(4) Subsection (1) does not require notice of the cancellation under section 42 of an approval or registration to be given to the holder who requested the cancellation.

### Section 45B: Permit taken to have been issued

**Holder and certain persons taken to have permit**

(1) If notice of the suspension or cancellation is given to a holder or other person under paragraph 45A(1)(a), the holder or person is taken to have been issued with a permit to possess, have custody of or use the constituent or product, or the product as labelled, in accordance with the instructions contained in the notice.

(2) A permit that is taken to have been issued under subsection (1) remains in force until:

1. 1 year after the day of the suspension or cancellation; or
2. the APVMA revokes the suspension or cancellation; or
3. the APVMA, by notice published in the *Gazette*, declares that this subsection ceases to apply in respect of the constituent or product;

whichever first occurs.

**Certain persons who possess etc. constituent or product taken to have permit**

(3) If notice of the suspension or cancellation is published under paragraph 45A(1)(b), a person who possesses, has custody of or uses the constituent or product, or the product as labelled, in accordance with the instructions contained in the notice, is taken to have been issued with a permit to possess, have custody of or use the constituent or product, or product as labelled, in accordance with those instructions.
Section 45C

(4) A permit that is taken to have been issued under subsection (3) remains in force until whichever of the events mentioned in paragraph (2)(a), (b) or (c) first occurs.

Deemed permit does not authorise manufacture or import

(5) A permit that is taken to have been issued to a holder or other person under subsection (1) or (3) does not authorise the holder or person to manufacture or import the constituent or product.

45C Possession or custody with intention of supply

(1) This section applies if a person has possession or custody of the constituent or product with the intention of supplying it.

(2) If notice of the suspension or cancellation is:
   (a) given to the person under paragraph 45A(1)(a); or
   (b) published under paragraph 45A(1)(b);
the person may only possess, have custody of or otherwise deal with the constituent or product if the possession, custody or dealing is in accordance with the instructions contained in the notice.

(3) Subsection (2) does not apply to a possession, custody or dealing if the constituent was an approved active constituent or the product was a registered chemical product or a reserved chemical product when the possession, custody or use took place because of its having been approved or registered or having become reserved after its previous approval or registration had been cancelled.

(4) Subsection (2) does not apply to a person (other than a person to whom a notice is given under paragraph 45A(1)(a)) if the person proves that, when the person possessed, had custody of or otherwise dealt with the constituent or product, the person did not know, and could not reasonably be expected to have known, of the existence of the notice published in the Gazette or that the possession, custody or dealing was not in accordance with the instructions contained in the Gazette notice.

(5) A person commits an offence if the person contravenes subsection (2).
Penalty: 300 penalty units.

Note 1: A defendant bears an evidential burden in relation to the matter in subsection (3). See subsection 13.3(3) of the Criminal Code.

(6) For the purposes of subsection (5), strict liability applies to the physical elements of circumstance:
(a) in paragraph (2)(a), that the notice is a notice given to the person under paragraph 45A(1)(a); and
(b) in paragraph (2)(b), that the publishing of the notice was under paragraph 45A(1)(b).

Note: For strict liability, see section 6.1 of the Criminal Code.

(7) Subsection (2) is a civil penalty provision.

Note 1: Division 2 of Part 9A provides for pecuniary penalties for contraventions of civil penalty provisions.

Note 2: For the evidential burden in civil penalty proceedings in relation to the matter in subsection (3), see section 145CD.

### 46 How suspension or cancellation is revoked

(1) Suspension or cancellation of an approval or registration is revoked by entering in the Record or Register (as appropriate) or recording in the relevant file:
(a) the fact that the suspension or cancellation has been revoked; and
(b) the date on which the entry is made.

(2) If the APVMA revokes the suspension or cancellation of an approval or registration, it must, within 14 days:
(a) give written notice of the revocation to the holder and to any other person to whom, in its opinion, such a notice should be given; and
(b) publish in the Gazette, and in any other manner that it thinks appropriate, notice of the revocation containing any information that it thinks relevant.
(3) If the cancellation of an approval or registration is revoked, the cancellation is taken never to have occurred.
Division 6—Duration of approvals and registrations and renewal of registrations

Subdivision A—Preliminary

46A Explanation of Division

(1) This Division deals with the duration of approvals and registrations, and with renewing registrations.

(2) Section 47 sets out the periods for which approvals and registrations are in force.

(3) The APVMA must publish notice of the end of a registration as soon as practicable after the registration has ended (section 47C).

(4) If the APVMA publishes notice of the end of the registration of a product under section 47C, then:
   (a) certain persons are taken to have a permit to possess, have custody of or use of the product for a limited period (section 47D); and
   (b) persons may only supply the product in accordance with instructions contained in the notice (section 47E).

(7) Section 48 provides for applications for renewal of a registration.

(8) The APVMA must renew the registration if the application requirements are met (section 49).

(9) Renewal takes place by entry in the Register (section 50).

(10) The approval of a label for a container for a chemical product is automatically renewed when the registration of the product is renewed (section 51).
Subdivision B—Period of approval or registration

47 Period of approval or registration

(1) The approval of an active constituent continues in force unless it is cancelled.

(2) The registration of a chemical product ends on the later of the following days:
   (a) the day entered in the Register as the date the registration ends;
   (b) if an application is made for renewal of the registration but is not determined by the day entered in the Register—the day on which the application is determined.

(4) The approval of a label for containers for a chemical product ends when the registration of the product ends.

(5) If:
   (a) the registration of a chemical product ends; but
   (b) a person is taken under section 47D to have been issued with a permit to possess, have custody of or use the product;
the approval of a label for containers for the product continues in force until the permit ceases to have effect.

Subdivision C—Notifying the end of registrations

47C Notice of end of registration

(1) If the registration of a chemical product ends without being renewed, the APVMA must publish in the Gazette, and in any other manner that it thinks appropriate, notice of the end of the registration.

(2) The notice must:
   (a) be published as soon as practicable after the registration ends; and
   (b) state that the registration has ended; and
   (c) set out the date on which the registration ended; and
Section 47D

(d) contain instructions for possessing, having custody of or using the product; and
(e) contain a warning of the consequences if a person fails to comply with the instructions, including a statement of any period after which it will be an offence against this Code to supply the product or to possess or have custody of the product with the intention of supplying it; and
(f) contain any other warnings or explanations in relation to the product that the APVMA thinks desirable; and
(g) contain any other information that the APVMA thinks appropriate.

(3) Subsection (1) does not apply if:
(a) the APVMA thinks that, in the circumstances, it is unnecessary to publish the notice; or
(b) the registration of the chemical product ends because it is cancelled.

Note: For notice of the cancellation of the registration of a chemical product, see section 45A.

(4) If a notice is published under this section, the APVMA must:
(a) as soon as practicable cause a copy of the notice to be given to the person who was the holder of the registration; and
(b) cause a copy of the notice to be given to any other person who, in the opinion of the APVMA, should be given notice of the ending of the registration and of the instructions, warnings and explanations contained in the notice.

47D Permit taken to have been issued

(1) This section applies if notice of the end of the registration of a chemical product is published under section 47C.

(2) A person who possesses, has custody of or uses the product in accordance with the instructions contained in the notice is taken to have been issued with a permit to do so until:
(a) 1 year after the day on which the registration ended; or
(b) the APVMA, by notice published in the Gazette, declares that this subsection ceases to apply in respect of the product;
whichever first occurs.

(3) A permit that is taken to have been issued to a person under subsection (1) does not authorise the person to manufacture or import the product.

47E Possession or custody with intention of supply

(1) This section applies if, after notice of the end of the registration of a chemical product is published under section 47C, a person has possession or custody of the product with the intention of supplying it.

(2) The person must not possess, have custody of or otherwise deal with the product except in accordance with the instructions contained in the notice.

(3) Subsection (2) does not apply to a possession, custody or dealing if the product was registered when the possession, custody or dealing took place because of its having been registered or having become reserved after its previous registration ended.

(4) A person commits an offence if the person contravenes subsection (2).

Penalty: 300 penalty units.

Note: A defendant bears an evidential burden in relation to the matter in subsection (3). See subsection 13.3(3) of the Criminal Code.

(5) For the purposes of subsection (4), strict liability applies to the physical element of circumstance in subsection (1), that the publishing of the notice was under section 47C.

Note: For strict liability, see section 6.1 of the Criminal Code.

(6) Subsection (2) is a civil penalty provision.

Note 1: Division 2 of Part 9A provides for pecuniary penalties for contraventions of civil penalty provisions.

Note 2: For the evidential burden in civil penalty proceedings in relation to the matter in subsection (3), see section 145CD.
Subdivision D—Renewing registrations

48 Applications

(1) The holder may apply for the renewal, or further renewal, as the case may be, of the registration of a chemical product.

(2) Subject to subsection (3), the application must not be made:
   (a) earlier than 3 months before the registration ends; or
   (b) later than one month (or such shorter period as the APVMA allows) before the registration ends.

(3) In circumstances that are prescribed by the regulations and upon payment of the prescribed fee (if any), the APVMA may accept a late application if the application is made on or before a date that the APVMA determines.

(5) The APVMA may alter the application with the written consent of the holder.

(6) Subsection (1) has effect subject to any condition imposed on the registration under subsection 23(2).

Note: Subsection 23(2) provides for an approval or registration to last for not more than one year.

49 Renewal of registration

(1) If the APVMA is satisfied that an application for the renewal of a registration meets the application requirements, the APVMA must renew the registration.

Note: For notice of renewal, see section 8F.

(2) Otherwise, the APVMA must refuse the application.

Note: For notice of refusal, see section 8G.

50 How renewal takes place

(1) Renewal of the registration of a chemical product takes place when the APVMA enters in the Register a statement that the registration
has been renewed and the date on which the registration (as renewed) ends.

(2) The date the registration (as renewed) ends must:
(a) be the last day of a calendar month not less than 12 months and not more than 7 years after the renewal takes place; and
(b) be worked out in accordance with the method prescribed by the regulations.

(3) However, if the regulations do not prescribe a method for the purposes of paragraph (2)(b), the date the registration (as renewed) ends must be the next 30 June after the renewal takes place.

51 Renewal of approval of label

If the registration of a chemical product is renewed:
(a) any approval of a label for containers for the product is, by this section, also renewed; and
(b) the renewal of that approval takes effect, or is to be regarded as having taken effect, as the case may be, at the beginning of the day immediately following the day on which the previous registration of the product ends or ended; and
(c) the APVMA must record in the relevant file a statement that the approval of the label has been renewed and the date on which the renewed approval ends.
Part 2B—Reserved chemical products

56ZU Regulations may contain schedule of reserved chemical products

(1) Subject to subsection (2), the regulations may contain a schedule specifying chemical products, or classes of chemical products, that are reserved chemical products for the purposes of this Code.

(2) The schedule cannot specify a chemical product that is, or a class of chemical products that includes, a restricted chemical product.

(3) Regulations containing a schedule mentioned in subsection (1) must state the conditions to which the possession, custody or use of each chemical product, or each chemical product included in a class of chemical products, specified in the schedule is subject.

(4) Before the Governor-General makes a regulation for the purposes of this section:
   (a) the reservation of the product, or class of products, must have been recommended to the Minister by the APVMA; and
   (b) the APVMA must have given to the Minister:
      (i) written particulars of the product or class of products; and
      (ii) a draft of the conditions to which the APVMA proposes the product, or products in the class, should be subject; and
   (c) the APVMA must have given to the Minister a written explanation as to why the APVMA is satisfied that the product, or class of products, meets the safety criteria, the trade criteria and the efficacy criteria; and
   (d) the APVMA must have given to the Minister a written statement identifying the consultations held by, and setting out the advice given to, the APVMA in relation to the proposed reservation of the products or class of products.
Part 3—Compensation for provider of certain information in respect of continued registration of certain chemical products

Division 1—Preliminary

57 Explanation of Part

(1) This Part contains provisions that entitle a person who has provided protected information to the APVMA in relation to a protected active constituent or in relation to a protected chemical product, in compliance with a requirement made of the person by the APVMA, to receive compensation from anyone else who wishes the information to be used by the APVMA in connection with an application for the approval, or continued approval, of another active constituent or the registration, or continued registration, of another chemical product.

(2) Compensation is not payable in respect of the information unless:

(a) the protected active constituent or the protected chemical product is or includes a patentable invention and the term of the patent has ended or is about to end; and

(b) the information was obtained because of a trial or laboratory experiment and any of the following apply:

(i) the information is of a kind mentioned in paragraph 32(1)(b) and was given to the APVMA in response to a notice under that section;

(ii) the trial or laboratory experiment was conducted in response to a notice under section 33;

(iii) the information was given to the APVMA in response to a notice under subsection 159(1) for the purposes of subparagraph 159(1)(d)(i), (ii) or (iii).

(4) The parties concerned are invited to negotiate the terms of the compensation and provision is made for the appointment of a mediator if the parties are unable to agree and for the terms to be arbitrated if the mediation is unsuccessful. If an arbitration takes
place, the arbitrator is to base his or her decision on whichever of the proposals put forward by the parties is considered by the arbitrator to be the most reasonable assessment of the proportion of the cost of producing the information that it is fair for the party wishing to use it to pay to the party who provided it.
Division 2—Right to compensation

59 Right of originator of protected information to compensation for its use in relation to other applications

(1) If protected information has been given to the APVMA in relation to:

(a) a protected active constituent for a proposed or existing chemical product (the primary active constituent); or
(b) a protected chemical product (the primary chemical product);

the APVMA must not use the information in determining whether to approve, or to continue the approval of, another active constituent for a proposed or existing chemical product (the secondary active constituent), or whether to register, or to continue the registration of, another chemical product (the secondary chemical product).

(2) Subsection (1) does not apply if:

(a) the primary holder and the secondary holder:

(i) have agreed as to the terms of the compensation to be paid by the secondary holder to the primary holder for the information to be used in relation to the secondary active constituent or the secondary chemical product, as the case may be; and

(ii) have notified the APVMA in writing that they have so agreed and of the terms of the compensation; or

(b) an arbitrator that the APVMA has appointed has determined the compensation to be so paid and the secondary holder has given notice to the primary holder and to the APVMA stating that the secondary holder agrees to comply with the determination; or

(c) the protection period has elapsed since that information was given to the APVMA; or

(d) the APVMA is satisfied, having regard to such criteria (if any) as are prescribed, that it is in the public interest for the information to be so used; or
(e) the information was previously given to the APVMA other than as protected information and Division 4A of Part 2 does not limit the use of the information; or

(f) the information shows that the secondary active constituent or secondary chemical product may not meet the safety criteria, the trade criteria or the efficacy criteria; or

(g) the information is publicly available.

(3) If the APVMA decides to use the information under paragraph (2)(d), the APVMA:

(a) must give written notice of its decision to the primary holder and the secondary holder; and

(b) must not make a determination using the information before the end of 28 days after the day on which the notice is given.

(5) Without affecting the duty of the APVMA to comply with subsection (1):

(a) the validity of any approval, or continued approval, of the secondary active constituent or the validity of any registration, or continued registration, of the secondary chemical product is not affected by a contravention by the APVMA of that subsection or by the failure of the secondary holder to comply with the agreement or determination; and

(b) no action or other proceeding lies against the Commonwealth, the APVMA, or a person who is or has been a delegate of the APVMA, a director of the APVMA, the Chief Executive Officer of the APVMA, or a member of the staff of the APVMA, for any loss directly or indirectly sustained because of such a contravention or failure.

(6) In this Part, continue, in relation to an approval or registration, means:

(a) vary the relevant particulars or conditions of the approval or registration; or

(b) affirm the approval or registration under Division 4 of Part 2 (reconsidering approvals and registrations).
60 APVMA to notify holders

(1) This section applies if:
   (a) the APVMA is unable to complete its consideration of:
      (i) the approval or continued approval of an active constituent for a proposed or existing chemical product; or
      (ii) the registration or continued registration of a secondary chemical product;
      under this Code unless it uses protected information; and
   (b) paragraph 59(2) does not permit the APVMA to use the information.

(2) The APVMA must give to the primary holder or each primary holder and to the secondary holder written notice:
   (a) stating that the APVMA’s consideration of:
      (i) the approval or continued approval of the secondary active constituent; or
      (ii) the registration or continued registration of the secondary chemical product;
      cannot be completed unless the APVMA uses the information; and
   (b) stating that the APVMA is precluded from using the information except in circumstances prescribed by paragraph 59(2)(a) or (b) and setting out those circumstances; and
   (c) requesting the notice recipient to tell the APVMA, before the day stated in the notice, which must be within 60 days after the notice is given, whether the notice recipient wants the APVMA to take further action in respect of the information under this section.

(3) If a notice recipient tells the APVMA that it wants the APVMA to take further action in respect of the information under this section, the APVMA must, within 14 days, give to the primary holder or each primary holder and to the secondary holder written notice:
   (a) containing:
Section 60

(i) in respect of the notice to a primary holder—the prescribed information about the secondary holder and about the secondary active constituent or the secondary chemical product, as the case may be; or

(ii) in respect of the notice to the secondary holder—the prescribed information about the primary holder and about the primary active constituent or the primary chemical product, or about each primary holder and about each primary active constituent or primary chemical product, as the case may be; and

(b) stating that the APVMA’s consideration of the approval or continued approval of the secondary active constituent, or of the registration or continued registration of the secondary chemical product, cannot be completed unless the APVMA uses protected information given by a primary holder but the APVMA is precluded from using that information except in circumstances prescribed by paragraph 59(2)(a) or (b) and setting out those circumstances; and

(c) inviting the primary holder or each primary holder, and the secondary holder, within a period stated in the notice, to negotiate as to the terms of the compensation to be paid by the secondary holder to that primary holder for the use of that information and to give written notice to the APVMA of the results of the negotiation; and

(d) telling them that, if they are unable to agree as to the terms of the compensation:

   (i) a mediator will be appointed to try to help them to reach agreement; and

   (ii) if the mediation is not successful, an arbitrator will be appointed to determine those terms in accordance with any reasonable proposals made in the course of the negotiations (including negotiations during the period of the mediation); and

   (iii) if the arbitrator finds that no reasonable proposals were made, the APVMA may suspend the approval of the primary active constituent or the registration of the primary chemical product (as the case may be), or the approval of the secondary active constituent or the
Section 61

registration of the secondary chemical product (as the case may be), or both; and
(e) telling them of the obligations imposed on the primary holder or each primary holder under section 61.

61 Primary holder to notify secondary holder

(1) Within 28 days after a primary holder receives a notice under subsection 60(3), the primary holder must give written notice to the secondary holder setting out the following:
(a) the amount of the cost incurred by the primary holder in obtaining the protected information excluding any part of that cost that relates to information that was obtained from a Government or public authority, whether in Australia or elsewhere, or was otherwise publicly available;
(b) particulars of the amounts included in that cost as mentioned in subsection 69(3);
(c) when the protected information was obtained by the primary holder;
(d) when the APVMA required the primary holder to give the protected information to the APVMA;
(e) any other information required by the regulations.

Penalty: 300 penalty units.

(2) An offence under subsection (1) is an offence of strict liability.

Note: For strict liability, see section 6.1 of the Criminal Code.
Division 3—Mediation or arbitration as to terms of compensation

62 Application of Division

(1) This Division applies if:
   (a) there is only one primary holder and the primary holder is unable to agree with the secondary holder as to the terms of the compensation to be paid by the secondary holder to the primary holder; or
   (b) there are 2 or more primary holders and none of them is able to agree with the secondary holder as to the terms of the compensation to be paid by the secondary holder to the primary holder concerned;
and any holder has notified the APVMA in writing of the failure to reach agreement.

(2) If the secondary holder tells the APVMA at any time during the course of any negotiations, mediation or arbitration under this Division that the secondary holder no longer wants any further action to be taken under this Division for the purposes of the secondary application, this Division ceases to apply in relation to that application.

63 Mediation

(1) The APVMA must appoint a person as a mediator to try to help the parties to the negotiations to reach agreement as to the terms of the compensation.

(2) The mediation ceases:
   (a) if the parties reach agreement as to those terms; or
   (b) the mediator or either party to the mediation tells the APVMA that the mediation has not been successful; or
   (c) 14 days have elapsed since the appointment of the mediator.

(3) If, before the mediation ceases, the person appointed as the mediator:
Schedule  Agricultural and Veterinary Chemicals Code
Part 3  Compensation for provider of certain information in respect of continued registration of certain chemical products
Division 3  Mediation or arbitration as to terms of compensation

Section 64

(a) dies; or
(b) becomes incapable of performing, or continuing to perform, his or her functions; or
(c) resigns his or her appointment; or
(d) for any other reason refuses or fails to perform, or to complete the performance of, his or her functions as required by this section;

the APVMA may appoint another person as mediator in place of the first-mentioned person.

(4) If another mediator is appointed under subsection (3), the period of 14 days referred to in paragraph (2)(c) is taken to have begun from the appointment of the first mediator but that period does not include any period after the occurrence of an event referred to in subsection (3) and before the appointment of the other mediator.

64 Appointment of arbitrator

(1) If the mediation has ceased without the parties having reached agreement as to the terms of the compensation, the APVMA must appoint a person as an arbitrator to determine those terms in accordance with any reasonable proposals that were made in the course of the negotiations (including negotiations during the period of the mediation).

(2) If, before the functions of an arbitrator appointed under this section (including this subsection) are fully performed, the person appointed as the arbitrator:

(a) dies; or
(b) becomes incapable of performing, or continuing to perform, his or her functions; or
(c) resigns his or her appointment; or
(d) for any other reason refuses or fails to perform, or to complete the performance of, his or her functions as required by this section;

the APVMA may appoint another person as arbitrator in place of the first-mentioned person.
65 Determination of compensation on the basis of proposals made during negotiations

(1) The arbitrator must consider the proposals as to the terms of the compensation that were made by the parties to the negotiations or each of the negotiations.

(2) If a party to any negotiations made a proposal as to the terms of the compensation that the arbitrator considers to be reasonable and the other party failed to make any proposal as to those terms or failed to make a proposal that the arbitrator considers to be reasonable, the arbitrator must determine those terms in accordance with the first-mentioned proposal.

(3) If each party to any negotiations made proposals as to the terms of the compensation that the arbitrator considers to be reasonable, the arbitrator must determine those terms in accordance with whichever of those proposals the arbitrator considers to be the most reasonable.

66 Arbitrator may require fresh proposals

If each party to any negotiations failed to make any proposal as to the terms of the compensation or failed to make a proposal as to those terms that the arbitrator considers to be reasonable, the arbitrator must give written notice to each of them requiring them to make fresh proposals to the arbitrator as to the terms of the compensation.

67 Determination on basis of fresh proposals

(1) If a party to an arbitration makes a fresh proposal as to the terms of the compensation that the arbitrator considers to be reasonable and the other party fails to make any fresh proposal as to those terms or fails to make a fresh proposal that the arbitrator considers to be reasonable, the arbitrator must determine those terms in accordance with the first-mentioned proposal.

(2) If each party to an arbitration makes fresh proposals as to the terms of the compensation that the arbitrator considers to be reasonable, the arbitrator must determine those terms in accordance with
Section 68

whichever of those proposals the arbitrator considers to be the most reasonable.

68 What happens if fresh proposals are not made or are inadequate

If each party to an arbitration fails, within a reasonable period, to make a fresh proposal as to the terms of the compensation or to make a fresh proposal as to those terms that the arbitrator considers to be reasonable, the arbitrator must give written notice of the failure to the APVMA and, upon the giving of the notice, section 39 permits the APVMA to suspend the registration of the primary product or any of the primary products or of the secondary product, or both or all of them.

69 What constitutes a reasonable proposal for compensation

(1) A proposal as to the terms of the compensation is taken to be reasonable if, and only if, the arbitrator is satisfied that:

(a) it provides for an amount or amounts to be paid by the secondary holder to a primary holder; and

(b) the amount or amounts represent a fair proportion of:

(i) the amount of the cost incurred by that primary holder in obtaining the protected information excluding any part of that cost that relates to information that was obtained from a Government or public authority, whether in Australia or elsewhere, or was otherwise publicly available; or

(ii) if the protected information was obtained by that primary holder before the APVMA required that holder to give that information to the APVMA—a lesser amount than the amount worked out under subparagraph (i) that is appropriate having regard to the period between the time when that information was so obtained and the time when it was given to the APVMA.

(2) The question as to what is a fair proportion of an amount referred to in subparagraph (1)(b)(i) or (ii) is to be determined by the arbitrator having regard to any matters that are prescribed by the
Compensation for provider of certain information in respect of continued registration of certain chemical products

Part 3

Mediation or arbitration as to terms of compensation

Division 3

Section 70

(3) For the purposes of subsection (1), the amount of the cost incurred by a primary holder in obtaining protected information comprises:

(a) all relevant costs incurred by that primary holder in obtaining that information (taking into account the practices generally engaged in by persons conducting tests or laboratory experiments of the kinds used to obtain information of the kind concerned) and including, without limiting the above:

(i) the direct and indirect costs of planning, conducting, and analysing the results of, tests and laboratory experiments and giving the information to the APVMA; and

(ii) the cost of repeating, or redoing with modifications, tests or laboratory experiments if it was appropriate to repeat or redo them; and

(iii) if the tests or laboratory experiments were conducted by the use of equipment of that primary holder—depreciation on that equipment; and

(iv) any other prescribed costs; and

(b) a reasonable rate of interest on the amount worked out under paragraph (a).

(4) The reference in paragraph (3)(a) to all relevant costs incurred by a primary holder includes, if the primary holder is a body corporate, an appropriate portion of any relevant costs incurred by another body corporate that is related to the primary holder.

(5) The question whether 2 bodies corporate are related to each other is to be determined in the same way as for the purposes of the Corporations Act 2001.

70 Effect and enforcement of determination by arbitrator

(1) If the arbitrator makes a determination or determinations as to the terms of the compensation to be paid by the secondary holder to a primary holder or primary holders, the following provisions apply.
Section 70

(2) The arbitrator must:
   (a) send the determination, or each determination, to the APVMA; and
   (b) give to the primary holder and secondary holder to whom a determination relates a copy of the determination certified by the arbitrator to be a true copy.

(3) If there is only one such determination and the secondary holder gives written notice to the primary holder stating that the secondary holder agrees to comply with the determination, the secondary holder is liable to pay compensation to the primary holder in accordance with the determination.

(4) If there are 2 or more such determinations and the secondary holder gives written notice to the primary holder to whom one of those determinations relates stating that the secondary holder agrees to comply with that determination, the secondary holder is liable to pay compensation to that primary holder in accordance with that determination.

(5) If the secondary holder to whom a determination relates gives notice under subsection (3) or (4) to the primary holder to whom that determination relates, that secondary holder must give a copy of the notice to the APVMA.

Penalty: 10 penalty units.

(5A) Subsection (5) does not apply if the secondary holder has a reasonable excuse.

Note: The defendant bears an evidential burden in relation to the matter in subsection (5A). See subsection 13.3(3) of the Criminal Code.

(5B) An offence under subsection (5) is an offence of strict liability.

Note: For strict liability, see section 6.1 of the Criminal Code.

(6) If a primary holder to whom a determination by the arbitrator relates receives a notice under subsection (3) or (4) by the secondary holder to whom that determination relates, that primary holder may lodge a copy of the determination certified by the arbitrator, together with the notice, with a court having jurisdiction to the extent of the total amount of compensation payable under the
determination and, when the determination and application have been so lodged, the determination may be enforced as a final judgment of that court.

(1) The regulations may make rules governing the conduct of an arbitration under this Division.

is admissible as prima facie evidence of the matters stated in the certificate and, if the certificate states the results of the analysis, of the correctness of those results.

(2) Unless the contrary is proved, a document purporting to be a certificate under subsection (1) is taken to be such a certificate and to have been duly given.

(3) A certificate must not be admitted in evidence under subsection (1) in proceedings for an offence unless:

(f) the address of each site at which the substance or mixture is manufactured;

(g) the packaging or labelling of the substance or mixture;

(h) advertising material related to the substance or mixture;

(j) if the substance or mixture is intended to be supplied, or has been supplied, as an active constituent for a chemical product, or as a chemical product, under a particular name—the name of the constituent or product and whether:

(i) the substance or mixture conforms to any standard prescribed in respect of the constituent or product with that name, any established standard or any other prescribed requirement; or

(ii) the supply of the substance or mixture is or was in accordance with any conditions applying to the approval or registration of the constituent or product with that name;

(k) any other prescribed information or documents.

(4) The notice may also require the person, within such reasonable period as is specified in the notice:

(a) to have the substance or mixture analysed to find out about the matters mentioned in paragraphs (3)(a) to (d) and paragraphs (3)(j) and (k); and

(b) to give the results of the analysis to the APVMA; and

(c) to give the analyst’s certificate to the APVMA.

(4A) Without limiting subsection (4), the notice may require any one or more of the following:

(a) that samples of the substance or mixture are taken:

(i) under the supervision of an inspector; or

(ii) in the manner stated in the notice;

(b) that the analysis is carried out:

(i) under the supervision of an approved analyst; or

(ii) in the manner stated in the notice;

(c) that the analysis is carried out at a prescribed laboratory;

(d) that the analysis is carried out within a period stated in the notice;
(e) that the analysis is carried out at the expense of the person.

(4B) Information or results required to be given to the APVMA must be given in writing.

Note: For giving information electronically, see section 156A.

(5) A person to whom a notice is given under subsection (2) must not fail to comply with the notice.

(5A) A person commits an offence of strict liability if the person contravenes subsection (5).

Penalty: 120 penalty units.

Note: For strict liability, see section 6.1 of the Criminal Code.

(5AA) Subsection (5A) does not apply if the person has a reasonable excuse.

Note: The defendant bears an evidential burden in relation to the matter in subsection (5A). See subsection 13.3(3) of the Criminal Code.

(5B) Subsection (5) is a civil penalty provision.

Note: Division 2 of Part 9A provides for pecuniary penalties for contraventions of civil penalty provisions.

(6) The APVMA may publish in a manner that it thinks appropriate:

(a) the name, and the address of the place of business, of:
   (i) the person who had possession or custody of the substance or mixture; and
   (ii) if the substance or mixture is intended for supply as a chemical product and the person referred to in subparagraph (i) is not the holder of the registration—the holder; and

(b) the result of the analysis of the substance or mixture.

(7) If a requirement made under this section is inconsistent with an earlier requirement made under this section, the earlier requirement is, to the extent of the inconsistency, of no effect.
Part 6—Recall notices

100 Explanation of Part

This Part sets out various circumstances in which the APVMA may issue recall notices requiring persons who have, or have had, stocks of chemical products in their possession to stop supplying the products and to take action in relation to the products as directed by the APVMA. The power of the APVMA to issue recall notices is in addition to powers conferred on the Australian Competition and Consumer Commission under the Competition and Consumer Act 2010.

101 Recall of products that are not registered or whose registration is being reconsidered

(1) If:
(a) a chemical product (other than a reserved chemical product) is not registered under the Agvet Code of this jurisdiction; or
(b) the APVMA is reconsidering the registration of a chemical product under Division 4 of Part 2 of that Code;
the APVMA may give written notice to any person (the notified person) who has, or has had, possession or custody of stocks of the product, or of a particular batch of the product, in this jurisdiction, requiring the notified person to do any one or more of the things mentioned in subsection (2).

(2) The things that the notified person may be required to do under subsection (1) are as follows:
(a) not to supply, or to stop supplying, the product, or that batch, in this jurisdiction either immediately or within a stated period;
(b) to take any action stated in the notice that the notified person is reasonably capable of taking to recover stocks of the product or of that batch from any other person in this jurisdiction:
Recall notices

Part 6

Section 102

(i) to whom the product or that batch has been supplied by
the notified person; or

(ii) who has possession or custody of any such stocks
directly or indirectly because of a supply by the notified
person;

(c) if the product is not registered—to destroy, as stated in the
notice, stocks of the product or of that batch in the possession
or custody of, or recovered by, the notified person in this
jurisdiction or to deal with them as stated in the notice;

(d) to report to the APVMA within a stated period on the action
taken by the notified person under the notice.

102 Recall of products in certain circumstances

(1) If it appears to the APVMA that:

(a) a chemical product may not meet the safety criteria, the trade
criteria or the efficacy criteria; or

(b) the constituents of stocks of a registered chemical product or
of a particular batch of a registered chemical product differ
by more than the prescribed extent from the constituents
stated in relation to the product in the Register; or

(c) the concentration of the constituents of stocks of a registered
chemical product or of a particular batch of a registered
chemical product differs by more than the prescribed extent
from the concentration of the constituents stated in relation to
the product in the Register; or

(d) the composition or purity of any constituent of stocks of a
registered chemical product or of a particular batch of a
registered chemical product differs by more than the
prescribed extent from the composition or purity of that
constituent stated in relation to the product in the Register;

the APVMA may give written notice to any person (the **notified
person**) who has, or has had, possession or custody in this
jurisdiction of any of the stocks or of the batch, or of stocks or a
batch of the product in containers to which the label is attached, as
the case may be, requiring the notified person to do any one or
more of the things mentioned in subsection (2).
Section 103

(2) The things that the notified person may be required to do under subsection (1) are as follows:

(a) not to supply, or to stop supplying, any of those stocks or of that batch, either immediately or within a stated period;

(b) to take any action stated in the notice that the notified person is reasonably capable of taking to recover stocks of the product or of that batch from any other person in this jurisdiction:
   (i) to whom the product or that batch has been supplied by the notified person; or
   (ii) who has possession or custody of any such stocks directly or indirectly because of a supply by the notified person;

(c) to take any action that is stated in the notice, or that the notified person thinks necessary, to prevent or reduce any harmful effects that may have resulted from the use of the product;

(d) to destroy, as stated in the notice, any of those stocks or any of that batch in the possession or custody of, or recovered by, the notified person in this jurisdiction or to deal with them as stated in the notice;

(e) to report to the APVMA within a stated period on the action taken by the notified person under the notice.

103 Recall of products with labels that are not approved or are not authorised by an established standard

(1) If it appears to the APVMA that labels attached to the containers:
   (a) of stocks of a registered chemical product; or
   (b) of a particular batch of a registered chemical product; differ from the approved label for the product or the label required by the established standard for the product, the APVMA may give written notice to any person (the notified person) who has, or has had, possession or custody of any of those stocks or of that batch in this jurisdiction requiring the person to do any one or more of the things mentioned in subsection (2).
Section 104

(2) The things that the notified person may be required to do under subsection (1) are as follows:

(a) not to supply, or to stop supplying, any of those stocks or of that batch, either immediately or within a stated period;

(b) to take any action stated in the notice that the notified person is reasonably capable of taking to recover stocks of the product or of that batch from any other person in this jurisdiction:
   (i) to whom the product or that batch has been supplied by the notified person; or
   (ii) who has possession or custody of any such stocks directly or indirectly because of a supply by the notified person;

(c) to attach labels to the containers that are the same as the approved label for the product or the label required by the established standard for the product, as the case may be or to destroy any of those stocks or of that batch in the possession or custody of, or recovered by, the notified person or to deal with them as stated in the notice;

(d) to report to the APVMA within a stated period on the action taken by the notified person under the notice.

104 Notice of recall to be published

(1) If the APVMA issues a recall notice, it must, within 14 days, publish notice of the issue of the recall notice in the Gazette and in any other manner that it thinks appropriate.

(2) Each notice must contain a brief statement of the matters to which the recall notice relates.

105 Non-compliance with recall notice

(1) A person to whom a recall notice is given must not fail to comply with the notice.

(1A) A person commits an offence of strict liability if the person contraves subsection (1).

Penalty: 120 penalty units.
Section 106

Note: For strict liability, see section 6.1 of the Criminal Code.

(2) Subsection (1A) does not apply if the person has a reasonable excuse.

Note: The defendant bears an evidential burden in relation to the matter in subsection (2). See subsection 13.3(3) of the Criminal Code.

(3) Subsection (1) is a civil penalty provision.

Note: Division 2 of Part 9A provides for pecuniary penalties for contraventions of civil penalty provisions.

106 Recall under Competition and Consumer Act

Section 128 of Schedule 2 to the Competition and Consumer Act 2010, as that section applies as a law of the Commonwealth, imposes obligations on certain persons who voluntarily recall chemical products.

107 Inconsistent requirements

If a requirement made under section 101, 102 or 103 is inconsistent with an earlier requirement made under any of those sections, the earlier requirement is, to the extent of the inconsistency, of no effect.
Part 7—Permits

108 Explanation of Part

(1) This Part sets up a system under which a person who wants to do something in respect of an active constituent for a proposed or existing chemical product, or in respect of a chemical product, that would otherwise be prohibited by this Code or another law of this jurisdiction may obtain a permit in respect of the doing of the thing. The permit does not have any practical operation unless a law of this jurisdiction permits the thing to be done by the holder of such a permit.

(2) Examples of circumstances in which a permit could be sought are:
   (a) if someone wants to conduct a trial or experiment in relation to a constituent that is not an approved constituent, or in relation to a chemical product that is not a registered chemical product or a reserved chemical product, in order to decide whether to make an application for approval or registration; or
   (b) if someone wants to use a registered chemical product in a way that is not authorised by the approved label for containers for the product.

109 Definition of permit

In this Part:

permit means a permit, in respect of an active constituent for a proposed or existing chemical product, or in respect of a chemical product, to do or omit to do any thing stated in the permit the doing of which, or the omission to do which, would, apart from the permit, be:

(a) an offence against section 74, 75, 76, 77, 78, 79, 79B, 80, 81, 84, 85, 86, 87 or 91 or subsection 121(4A) or (5A); or
(b) an offence against an eligible law of this jurisdiction; or
Section 110

(c) a contravention of a civil penalty provision mentioned in section 74, 75, 76, 77, 78, 79, 79B, 80, 81, 84, 85, 86, 87 or 91 or a contravention of the civil penalty provision set out in subsection 121(4) or (5).

110 Applications

(1) Any person may apply to the APVMA, on behalf of that person, a class of persons or persons generally, for a permit in respect of an active constituent for a proposed or existing chemical product or in respect of a chemical product.

(2) The application must meet the application requirements.

Note: For meets the application requirements, see section 8A.

110A Preliminary assessment

(1) The APVMA must complete a preliminary assessment of the application within 1 month after it is lodged.

(2) If it appears from the preliminary assessment that the application meets the application requirements, the APVMA must, within 14 days, give written notice to the applicant:
   (a) stating that the application has passed preliminary assessment and that it will be determined under section 112; and
   (b) setting out any matters prescribed by the regulations.

(3) If it appears from the preliminary assessment that the application does not meet the application requirements but that the defects in the application can reasonably be rectified, the APVMA must, within 14 days, give written notice to the applicant:
   (a) stating that the application does not meet the application requirements; and
   (b) giving particulars of the defects in the application; and
   (c) requiring the defects to be rectified within 1 month.

(4) The APVMA must refuse the application if:
   (a) the APVMA is not satisfied that defects in the application can reasonably be rectified; or
(b) the defects are not rectified to the satisfaction of the APVMA within the period mentioned in paragraph (3)(c).

Note: For notice of refusal, see section 8G.

(5) The APVMA may alter the application, after it has passed preliminary assessment, with the written consent of the applicant.

111 Functions of co-ordinators

(1) If there is a co-ordinator designated for this or another jurisdiction:

(a) the APVMA must, unless it thinks it inappropriate to do so, give the co-ordinator a copy of the application and of any accompanying documents; and

(b) if:

(i) the APVMA has given a copy of the application and documents referred to in paragraph (a) to a co-ordinator; and

(ii) the co-ordinator requests any additional information for the purpose of enabling him or her to make a recommendation to the APVMA about the application; then, unless the APVMA has reasonable grounds for refusing the request:

(iii) the APVMA must, by written notice given to the applicant, require the applicant to give the additional information to the APVMA; and

(iv) when the APVMA receives the additional information, it must, as soon as practicable, give the information to the co-ordinator; and

(c) when the co-ordinator is satisfied that he or she has sufficient information to enable a recommendation to be made about the application, the co-ordinator may give to the APVMA a recommendation as to whether the permit should be issued.

(2) Any information given by a person to a co-ordinator because of a requirement made under subsection (1) must be in writing and be signed by an approved person.
Section 112

112 Issuing permits

(1) The APVMA must consider the application and take into account any recommendations made by a co-ordinator.

(2) The APVMA must issue the permit if it is satisfied:
   (a) that the application meets the application requirements; and
   (b) that the applicant has complied with any requirement made by the APVMA under subparagraph 111(1)(b)(iii); and
   (c) for an active constituent—that the constituent would meet the safety criteria; and
   (d) for a chemical product—that the product would meet the safety criteria, the trade criteria and the efficacy criteria; and
   (e) that any requirements prescribed by the regulations in relation to the issue of a permit under this section have been complied with; and
   (f) if an application has not been made for approval of the constituent or registration of the product or such an application has not been determined—that there are reasonable grounds for the application not having been made or for issuing the permit pending determination of the application; and
   (g) if the application is for a permit to do, or omit to do, any thing which would, apart from the permit, be an offence against subsection 121(4A) or (5A) or a contravention of the civil penalty provision set out in subsection 121(4) or (5)—that there are exceptional circumstances that justify issuing the permit.

Note: For how permits are issued, see section 114.

(3) Otherwise, the APVMA must refuse the application.

Note: For notice of refusal, see section 8G.

(4) Despite subsection (2), the APVMA must also refuse the application if it is satisfied that:
   (a) the applicant will be unable to comply with the conditions of the permit; or
   (b) at least one of the following persons:
(i) the applicant;
(ii) any other person who makes, or participates in making, decisions that affect the whole, or a substantial part, of the applicant’s affairs;
(iii) if the applicant is a body corporate—a major interest holder of the body corporate;

has, within the 10 years immediately before the application:
(iv) been convicted of an offence against an agvet law; or
(v) been convicted of an offence against a law of this or another jurisdiction relating to chemical products; or
(vi) been convicted of an offence against a law of the Commonwealth or a law of a State or Territory involving fraud or dishonesty; or
(vii) been ordered to pay a pecuniary penalty for the contravention of an agvet penalty provision; or
(viii) been ordered to pay a pecuniary penalty for the contravention of another law of this or another jurisdiction relating to chemical products; or
(ix) been ordered to pay a pecuniary penalty for the contravention of a civil penalty provision of a law of the Commonwealth or a law of a State or Territory involving fraud or dishonesty; or
(x) held a permit that was cancelled under subsection 119(2) or section 119B of this Code or under a corresponding provision of the Agvet Code of another jurisdiction; or
(xi) been a manager, or a major interest holder, of a body corporate in respect of which subparagraph (iv), (v), (vi), (vii), (viii), (ix) or (x) applies in that 10 year period, if the conduct resulting in that subparagraph applying occurred when the person was a manager or major interest holder of the body corporate.

(5) A reference in paragraph (4)(b) to a person convicted of an offence includes a reference to a person in respect of whom an order has been made relating to the offence under:
(a) section 19B of the Crimes Act 1914; or
(b) a corresponding provision of a law of a State or Territory.
Section 112A

Note: Section 19B of the *Crimes Act 1914* empowers a court that has found a person to have committed an offence to take action without proceeding to record a conviction.

(6) However, the APVMA may issue the permit despite subsection (4) if, in the opinion of the APVMA, special circumstances make it appropriate to do so.

(7) If the APVMA refuses the application, it must give written notice of the refusal to each co-ordinator to whom a copy of the application was given.

112A APVMA may issue permit on its own initiative

(1) The APVMA may, on its own initiative and in accordance with this section, issue a permit to a person in respect of an active constituent for a proposed or existing chemical product or in respect of a chemical product.

(2) The APVMA may issue the permit if it is satisfied of the following:

(a) that the active constituent or chemical product in respect of which the permit is to be issued meets the safety criteria, the trade criteria and the efficacy criteria;

(b) that any requirements prescribed by the regulations in relation to the issue of a permit under this section have been complied with;

(c) if an application has not been made for approval of the constituent or registration of the product or such an application has not been determined—that there are reasonable grounds for the application not having been made or for issuing the permit pending determination of the application, as the case may be;

(d) if the permit would authorise a person to do, or omit to do, any thing which would, apart from the permit, be an offence against subsection 121(4A) or (5A) or a contravention of the civil penalty provision set out in subsection 121(4) or (5)—that there are exceptional circumstances that justify issuing the permit.

Note: For how permits are issued, see section 114.
(3) However, the APVMA must not issue the permit to a person (the proposed permit holder) if it is satisfied that:

(a) the proposed permit holder will be unable to comply with the conditions of the permit; or

(b) at least one of the following persons:

(i) the proposed permit holder;

(ii) any other person who makes, or participates in making, decisions that affect the whole, or a substantial part, of the proposed permit holder’s affairs;

(iii) if the proposed permit holder is a body corporate—a major interest holder of the body corporate;

has, within the previous 10 years:

(iv) been convicted of an offence against an agvet law; or

(v) been convicted of an offence against a law of this or another jurisdiction relating to chemical products; or

(vi) been convicted of an offence against a law of the Commonwealth or a law of a State or Territory involving fraud or dishonesty; or

(vii) been ordered to pay a pecuniary penalty for the contravention of an agvet penalty provision; or

(viii) been ordered to pay a pecuniary penalty for the contravention of another law of this or another jurisdiction relating to chemical products; or

(ix) been ordered to pay a pecuniary penalty for the contravention of a civil penalty provision of a law of the Commonwealth or a law of a State or Territory involving fraud or dishonesty; or

(x) held a permit that was cancelled under subsection 119(2) or section 119B of this Code or under a corresponding provision of the Agvet Code of another jurisdiction; or

(xi) been a manager, or a major interest holder, of a body corporate in respect of which subparagraph (iv), (v), (vi), (vii), (viii), (ix) or (x) applies, if the conduct resulting in that subparagraph applying occurred when the person was a manager or major interest holder of the body corporate.
Section 113

(4) A reference in paragraph (3)(b) to a person convicted of an offence includes a reference to a person in respect of whom an order has been made relating to the offence under:

(a) section 19B of the *Crimes Act 1914*; or

(b) a corresponding provision of a law of a State or Territory.

Note: Section 19B of the *Crimes Act 1914* empowers a court that has found a person to have committed an offence to take action without proceeding to record a conviction.

(5) However, the APVMA may issue the permit despite subsection (3) if, in the opinion of the APVMA, special circumstances make it appropriate to do so.

(6) If the active constituent or chemical product in respect of which the permit is to be issued is approved or registered, the APVMA:

(a) must, before issuing the permit, give written notice of its intention to do so to the holder of the approval or registration; and

(b) must not issue the permit before the end of 28 days after the day on which the notice is given.

(7) However, subsection (6) does not apply to the extent that, in the opinion of the APVMA, special circumstances make it appropriate to:

(a) issue the permit without giving written notice to the holder of the approval or registration; or

(b) issue the permit before the end of the 28 days.

113 Record of Permits

(1) For the purposes of this Code, the APVMA must keep a record, in a form determined by it, to be known as the Record of Permits.

(2) The Record of Permits is to be kept in 2 parts as provided by subsections (3) and (4).

(3) One part is to contain:

(a) information about permits the making of applications for which is confidential commercial information; and

(b) confidential commercial information about other permits.
Section 114

(4) The other part is to contain information about the other permits referred to in paragraph (3)(b) that is not confidential commercial information.

(5) The APVMA must permit any person to inspect the part of the Record of Permits referred to in subsection (4) at any time during ordinary office hours on a working day.

(6) Subject to subsection (7), if a person asks for a copy of a permit other than a permit to which paragraph (3)(a) applies and pays the prescribed fee (if any), the APVMA must give the person a copy of the permit.

(7) If a permit referred to in subsection (6) contains confidential commercial information, the APVMA must delete that information from the copy given under that subsection.

114 How permits are issued

(2) When issuing a permit, the APVMA must give a distinguishing number to the permit.

(3) The permit may be unconditional or subject to any conditions that the APVMA thinks appropriate.

(4) The permit must:
   (a) contain the distinguishing number given to the permit; and
   (b) state whether it applies to persons generally and, if not, state the persons or class of persons to whom it applies, other than persons to whom it applies because of subsection 116(3); and
   (c) state the active constituent or chemical product in respect of which it is issued; and
   (d) state the things authorised by the permit to be done or omitted to be done; and
   (e) state any conditions of the permit.

(5) Within 14 days after a permit is issued, the APVMA must:
   (a) place a copy of the permit in the Record of Permits; and
   (b) if there is a co-ordinator designated for this or another jurisdiction, tell the co-ordinator that the permit has been issued.
Section 115

issued and tell him or her of any conditions to which the permit is subject; and

(c) in prescribed circumstances, tell a prescribed authority that the permit has been issued.

115 Duration of permit

(1) Subject to this section, a permit is in force until it is surrendered under section 117 or the APVMA cancels it under section 119, 119A or 119B.

(2) Subject to subsection (3), a permit may be expressed to be in force only for a period stated in the permit.

(3) The holder of a permit to which subsection (2) applies may apply in writing to the APVMA for an extension or extensions of the permit.

(3A) The APVMA may extend the permit for a further period that it thinks appropriate if it is satisfied that:

(a) the application meets the application requirements; and

(b) any requirements prescribed by the regulations have been met.

(3B) If the APVMA does not extend the permit, it must refuse the application.

Note: For notice of refusal, see section 8G.

(4) This section has effect subject to subsection 118(6).

(5) If an application is made to the APVMA under subsection (3), the APVMA must give to the applicant written notice of its decision on the application.

Note: For notice of refusal, see section 8G.

116 Effect of permit and compliance with conditions of permit

(1) If, while a permit in respect of an active constituent for a proposed or existing chemical product, or in respect of a chemical product, is in force:
Section 116

(a) a person to whom the permit applies who, in accordance with the conditions (if any) stated in the permit, does or omits to do any thing in respect of the constituent or product that the permit states may be done or omitted to be done; and

(b) a provision of this Code or of an eligible law of this jurisdiction prohibits the doing of, or the omitting to do, that thing unless authorised by a permit;

the person does not commit an offence against that provision.

(2) The persons to whom a permit applies are:

(a) if the permit states that it applies to persons generally—any person; or

(b) otherwise—the person or each person named, or included in a class of persons stated, in the permit.

(3) If a permit names a person or states a class of persons as mentioned in paragraph (2)(b), the permit also applies to:

(a) any qualified employee of the person, or of a person in the class, acting in the course of his or her employment; and

(b) if a person, or a person in the class, is a body corporate—any qualified person acting in his or her capacity as a director of the body corporate.

(3A) A person to whom a permit applies must not contravene a condition of the permit.

(3B) A person commits an offence if the person contravenes subsection (3A).

Penalty: 300 penalty units.

(3C) Subsection (3A) is a civil penalty provision.

Note: Division 2 of Part 9A provides for pecuniary penalties for contraventions of civil penalty provisions.

(4) In this section:

qualified means qualified under another law of this jurisdiction in relation to the things authorised by the permit to be done or omitted to be done.
117 Surrender of permit

(1) The holder of a permit may surrender it by giving to the APVMA a written notice, signed by the holder, stating that the holder surrenders the permit.

(2) The surrender of a permit takes effect when the APVMA receives the notice of surrender.

(3) If there is a co-ordinator designated for this or another jurisdiction, the APVMA must, within 14 days, tell the co-ordinator that the permit has been surrendered.

117A Notice of proposed suspension or cancellation to be given to permit holder

(1) Subject to subsection (4), the APVMA must not suspend or cancel a permit unless it has given the permit holder a written notice that:
   (a) states that the APVMA proposes to suspend or cancel the approval, or suspend or cancel the registration, as the case may be; and
   (b) sets out the reasons for the proposed suspension or cancellation; and
   (c) invites the permit holder to make, within a reasonable period specified in the notice, submissions to the APVMA in relation to the proposed suspension or cancellation.

(2) The APVMA must not make a decision relating to the proposed suspension or cancellation, as the case may be, until it has had regard to any submission made by the permit holder in response to an invitation under paragraph (1)(c).

(3) A written notice under subsection (1) must specify the period of the proposed suspension.

(4) Subsection (1) does not apply to a suspension or cancellation under section 119A.
118 Suspension of permit—general grounds

(1) The APVMA may, by written notice given to the holder of a permit, suspend the permit if it appears to the APVMA:
   (a) for an active constituent—that the constituent may not meet the safety criteria; or
   (b) for a chemical product—that the product may not meet the safety criteria, the trade criteria or the efficacy criteria; or
   (c) that the use of the active constituent or chemical product in accordance with the permit is inappropriate for any other reason; or
   (d) that the holder has contravened a condition of the permit.

(2) If the holder of a permit fails, without reasonable excuse, to comply with a requirement contained in a notice under section 159 or with section 161, the APVMA may, by written notice given to the holder of the permit, suspend the permit.

(3) The APVMA may, for any reason that it thinks sufficient, suspend a permit that is taken by section 181 to have been issued under section 114.

(4) A suspension of a permit under subsection (1), (2) or (3) must be for a stated period.

(5) If the holder of a permit is proceeded against for an offence against, or has failed to comply with a lawful direction or requirement of an inspector given under, the Agvet Code of this or another jurisdiction, the APVMA may, by written notice given to the holder of the permit, suspend the permit until the proceeding has been disposed of or the direction or requirement has been complied with, as the case may be.

(2) If the APVMA proposes to suspend or cancel a licence except when asked to do so by the holder of the licence, the APVMA must, unless subsection (2A) applies:

(a) by written notice given to the holder, set out the action that the APVMA proposes to take and the reasons for the proposed action; and

(b) except if the proposed action is to be taken because of a failure to pay a prescribed fee—give the holder an opportunity to make, within a reasonable time stated in the notice, written submissions to the APVMA in relation to the proposed action.

(2A) This subsection applies if the APVMA thinks that a failure to suspend or cancel the licence immediately would result in:

(a) imminent risk to persons of death, serious injury or serious illness; or

(b) imminent risk of unintended harm to animals, plants or things, or to the environment; or
(c) imminent risk of impact on trade or commerce between Australia and places outside Australia.

Dividing 9—Applying for warrants etc.

143 Monitoring warrants

Application for warrant

(1) An inspector may apply to a magistrate for a monitoring warrant under this section in relation to premises.

Issue of warrant

(2) The magistrate may issue the warrant if the magistrate is satisfied, by information on oath or affirmation, that it is reasonably necessary that one or more inspectors should have access to the premises for the purpose of determining whether:
   (a) an agvet law has been, or is being, complied with; or
   (b) information provided under an agvet law is correct.

(3) However, the magistrate must not issue the warrant unless the inspector or some other person has given to the magistrate, either orally or by affidavit, such further information (if any) as the magistrate requires concerning the grounds on which the issue of the monitoring warrant is being sought.

Content of warrant

(4) The monitoring warrant must:
   (a) describe the premises to which the warrant relates; and
   (b) state that the warrant is issued under this section; and
   (c) state the purpose for which the warrant is issued; and
   (d) authorise one or more inspectors (whether or not named in the warrant) from time to time while the warrant remains in force:
      (i) to enter the premises; and

Part 9  Investigative powers
Division 9  Applying for warrants etc.

Section 143A

(f) specify the day (not more than 6 months after the issue of the warrant) the warrant ceases to be in force.

(5) If the application for the warrant is made under section 143B, this section applies as if paragraph (4)(f) required the warrant to specify the period for which the warrant is to remain in force, which must not be more than 48 hours.

143A Investigation warrants

Application for warrant

(1) An inspector may apply to a magistrate for an investigation warrant under this section in relation to premises.

Issue of warrant

(2) The magistrate may issue the investigation warrant if the magistrate is satisfied, by information on oath or affirmation, that there are reasonable grounds for suspecting that there is, or there may be within the next 72 hours, evidential material on the premises.

(3) However, the magistrate must not issue the investigation warrant unless the inspector or some other person has given to the magistrate, either orally or by affidavit, such further information (if any) as the magistrate requires concerning the grounds on which the issue of the warrant is being sought.

Content of warrant

(4) The investigation warrant must:

(a) state the offence or offences, or civil penalty provision or civil penalty provisions, to which the warrant relates; and
(b) describe the premises to which the warrant relates; and
(c) state that the warrant is issued under this section; and
(d) specify the kinds of evidential material that are to be searched for under the warrant; and

Section 143B

(f) state that any thing found in the course of executing the warrant that the person executing the warrant believes on reasonable grounds to be evidence of:

may be seized under the warrant; and

(g) name one or more inspectors; and

(i) state whether entry is authorised to be made at any time of the day or during specified hours of the day; and

(j) specify the day (not more than 1 week after the issue of the warrant) the warrant ceases to be in force.

(5) If the application for the warrant is made under section 143B, this section applies as if:

(a) subsection (2) referred to 48 hours rather than 72 hours; and

(b) paragraph (4)(j) required the warrant to specify the period for which the warrant is to remain in force, which must not be more than 48 hours.

143B Warrants by telephone, fax etc.

Application for warrant

(1) An inspector may apply to a magistrate by telephone, fax or other electronic means for a warrant in relation to premises:

(a) in an urgent case; or

(b) if the delay that would occur if an application were made in person would frustrate the effective execution of the warrant.

(2) The magistrate may require communication by voice to the extent that it is practicable in the circumstances.
(3) Before applying for a warrant, the inspector must:
   (a) in the case of a monitoring warrant—prepare an information of the kind mentioned in subsection 143(2); and
   (b) in the case of an investigation warrant—prepare an information of the kind mentioned in subsection 143A(2);
   in relation to the premises that sets out the grounds on which the warrant is sought. If it is necessary to do so, the inspector may apply for the warrant before the information is sworn or affirmed.

Magistrate may complete and sign warrant

(4) The magistrate may complete and sign the same warrant that would have been issued under section 143 or 143A if the magistrate is satisfied that there are reasonable grounds for doing so:
   (a) after considering the terms of the information; and
   (b) after receiving such further information (if any) as the magistrate requires concerning the grounds on which the issue of the warrant is being sought.

(5) After completing and signing the warrant, the magistrate must inform the inspector, by telephone, fax or other electronic means, of:
   (a) the terms of the warrant; and
   (b) the day and time the warrant was signed.

Obligations on inspector

(6) The inspector must then do the following:
   (a) complete and sign a form of warrant in the same terms as the warrant completed and signed by the magistrate;
   (b) state on the form the following:
      (i) the name of the magistrate;
      (ii) the day and time the warrant was signed by the magistrate;
   (c) send the following to the magistrate:
      (i) the form of warrant completed by the inspector;
      (ii) the information referred to in subsection (3), which must have been duly sworn or affirmed.
Section 143C

(7) The inspector must comply with paragraph (6)(c) by the end of the day after the earlier of the following:
   (a) the day the warrant ceases to be in force;
   (b) the day the warrant is executed.

Magistrate to attach documents together

(8) The magistrate must attach the documents provided under paragraph (6)(c) to the warrant signed by the magistrate.

143C Authority of warrant

(1) A form of warrant duly completed under subsection 143B(6) is authority for the same powers as are authorised by the warrant signed by the magistrate under subsection 143B(4).

(2) In any proceedings, a court is to assume (unless the contrary is proved) that an exercise of power was not authorised by a warrant under section 143B if:
   (a) it is material, in those proceedings, for the court to be satisfied that the exercise of power was authorised by that section; and
   (b) the warrant signed by the inspector authorising the exercise of the power is not produced in evidence.

143D Offence relating to warrants by telephone, fax etc.

An inspector must not:
   (a) state in a document that purports to be a form of warrant under section 143B the name of a magistrate unless that magistrate signed the warrant; or
   (b) state on a form of warrant under that section a matter that, to the inspector’s knowledge, departs in a material particular from the terms of the warrant signed by the magistrate under that section; or
   (c) purport to execute, or present to another person, a document that purports to be a form of warrant under that section that the inspector knows departs in a material particular from the
Section 143E

terms of a warrant signed by a magistrate under that section; or
(d) purport to execute, or present to another person, a document that purports to be a form of warrant under that section where the inspector knows that no warrant in the terms of the form of warrant has been completed and signed by a magistrate; or
(e) give to a magistrate a form of warrant under that section that is not the form of warrant that the inspector purported to execute.

Penalty: Imprisonment for 2 years.

143E Effect of warrant

If a warrant is issued under the Agvet Code of a jurisdiction other than this jurisdiction, the warrant has effect and may be executed in this jurisdiction as if the warrant had been issued under this Code.
Division 10—Powers of magistrates

(2) The magistrate need not accept the power conferred.

Protection and immunity

(3) A magistrate exercising a power conferred by this Part has the same protection and immunity as if the magistrate were exercising the power:

Division 2—Civil penalty orders

Subdivision A—Obtaining a civil penalty order

145A Civil penalty orders

Application for order

(1) The APVMA may, on behalf of the Commonwealth, apply to a court of competent jurisdiction for an order that a person, who is alleged to have contravened a civil penalty provision, pay the Commonwealth a pecuniary penalty.

(2) The APVMA must make the application within 6 years of the alleged contravention.

Court may order person to pay pecuniary penalty

(3) If the court is satisfied that the person has contravened the civil penalty provision, the court may order the person to pay to the Commonwealth such pecuniary penalty for the contravention as the court determines to be appropriate.

Note: Section 145AA sets out the maximum penalty that the court may order the person to pay.

(4) An order under subsection (3) is a civil penalty order.

Determining pecuniary penalty

(5) In determining the pecuniary penalty, the court may take into account all relevant matters, including:

(a) the nature and extent of the contravention; and

(b) the nature and extent of any loss or damage suffered because of the contravention; and

(c) the circumstances in which the contravention took place; and

(d) whether the person has previously been found by a court to have engaged in any similar conduct; and

(e) the extent to which the person has cooperated with the authorities; and

Authorised Version C2016C00999 registered 27/10/2016
Section 145AA

(f) if the person is a body corporate:
   (i) the level of the employees, officers or agents of the body corporate involved in the contravention; and
   (ii) whether the body corporate exercised due diligence to avoid the contravention; and
   (iii) whether the body corporate had a corporate culture conducive to compliance.

145AA Maximum penalties for contravention of civil penalty provisions

Penalty for body corporate

(1) The pecuniary penalty for a contravention of a civil penalty provision by a body corporate must not exceed 5 times the amount of the maximum monetary penalty that could be imposed by a court if the body corporate were convicted of an offence constituted by conduct that is the same as the conduct constituting the contravention.

Penalty for individuals

(2) The pecuniary penalty for a contravention of a civil penalty provision by an individual must not exceed 3 times the amount of the maximum monetary penalty that could be imposed by a court if the person were convicted of an offence constituted by conduct that is the same as the conduct constituting the contravention.

Penalty for contravention of subsection 145CF(1)

(3) The pecuniary penalty for a contravention, by an executive officer of a body corporate, of subsection 145CF(1) in relation to the contravention by the body corporate of a civil penalty provision must not exceed 12% of the amount of the maximum monetary penalty that could be imposed on the body corporate for the contravention.

145AB Civil enforcement of penalty

(1) A pecuniary penalty is a debt payable to the Commonwealth.
(2) The Commonwealth may enforce a civil penalty order as if it were an order made in civil proceedings against a person to recover a debt due by the person. The debt arising from the order is taken to be a judgement debt.

145AC Conduct contravening more than one civil penalty provision

(1) If conduct constitutes a contravention of 2 or more civil penalty provisions, proceedings may be instituted under this Division against a person in relation to the contravention of any one or more of those provisions.

(2) However, the person is not liable to more than one pecuniary penalty under this Division in relation to the same conduct.

145AD Multiple contraventions

(1) A court may make a single civil penalty order against a person for multiple contraventions of a civil penalty provision if proceedings for the contraventions are founded on the same facts, or if the contraventions form, or are part of, a series of contraventions of the same or a similar character.

Note: For continuing contraventions of civil penalty provisions, see section 145C.

(2) However, the penalty must not exceed the sum of the maximum penalties that could be ordered if a separate penalty were ordered for each of the contraventions.

145AE Proceedings may be heard together

A court may direct that 2 or more proceedings for civil penalty orders be heard together.

145AF Civil evidence and procedure rules for civil penalty orders

A court must apply the rules of evidence and procedure for civil matters when hearing and determining an application for a civil penalty order.
145AG Contravening a civil penalty provision is not an offence

A contravention of a civil penalty provision is not an offence.

Subdivision B—Civil proceedings and criminal proceedings

145B Civil proceedings after criminal proceedings

A court may not make a civil penalty order against a person for a contravention of a civil penalty provision if the person has been convicted of an offence constituted by conduct that is the same, or substantially the same, as the conduct constituting the contravention.

145BA Criminal proceedings during civil proceedings

(1) Proceedings for a civil penalty order against a person for a contravention of a civil penalty provision are stayed if:

(a) criminal proceedings are commenced or have already been commenced against the person for an offence; and

(b) the offence is constituted by conduct that is the same, or substantially the same, as the conduct alleged to constitute the contravention.

(2) The proceedings for the order (the civil proceedings) may be resumed if the person is not convicted of the offence. Otherwise, the civil proceedings are dismissed.

145BB Criminal proceedings after civil proceedings

Criminal proceedings may be commenced against a person for conduct that is the same, or substantially the same, as conduct that would constitute a contravention of a civil penalty provision regardless of whether a civil penalty order has been made against the person in relation to the contravention.
145BC Evidence given in civil proceedings not admissible in criminal proceedings

(1) Evidence of information given, or evidence of production of documents, by an individual is not admissible in criminal proceedings against the individual for an offence if:
   (a) the individual previously gave the evidence or produced the documents in proceedings for a civil penalty order against the individual for an alleged contravention of a civil penalty provision (whether or not the order was made); and
   (b) the conduct alleged to constitute the offence is the same, or substantially the same, as the conduct alleged to constitute the contravention.

(2) However, subsection (1) does not apply to criminal proceedings in relation to the falsity of the evidence given by the individual in the proceedings for the civil penalty order.

Subdivision C—Miscellaneous

145C Continuing contraventions of civil penalty provisions

(1) If an act or thing is required under a civil penalty provision to be done:
   (a) within a particular period; or
   (b) before a particular time;
then the obligation to do that act or thing continues until the act or thing is done (even if the period has expired or the time has passed).

(2) A person who contravenes a civil penalty provision that requires an act or thing to be done:
   (a) within a particular period; or
   (b) before a particular time;
commits a separate contravention of that provision in respect of each day during which the contravention occurs (including the day the relevant civil penalty order is made or any later day).
145CA Ancillary contravention of civil penalty provisions

(1) A person must not:
   (a) attempt to contravene a civil penalty provision; or
   (b) aid, abet, counsel or procure a contravention of a civil penalty provision; or
   (c) induce (by threats, promises or otherwise) a contravention of a civil penalty provision; or
   (d) be in any way, directly or indirectly, knowingly concerned in, or party to, a contravention of a civil penalty provision; or
   (e) conspire with others to effect a contravention of a civil penalty provision.

Civil penalty

(2) A person who contravenes subsection (1) in relation to a civil penalty provision is taken to have contravened the provision.

Note: Section 145CC (which provides that a person’s state of mind does not need to be proven in relation to a civil penalty provision) does not apply to the extent that proceedings relate to the contravention of subsection (1).

145CB Mistake of fact

(1) A person is not liable to have a civil penalty order made against the person for a contravention of a civil penalty provision if:
   (a) at or before the time of the conduct constituting the contravention, the person:
      (i) considered whether or not facts existed; and
      (ii) was under a mistaken but reasonable belief about those facts; and
   (b) had those facts existed, the conduct would not have constituted a contravention of the civil penalty provision.

(2) For the purposes of subsection (1), a person may be regarded as having considered whether or not facts existed if:
   (a) the person had considered, on a previous occasion, whether those facts existed in the circumstances surrounding that occasion; and
Section 145CC

(b) the person honestly and reasonably believed that the circumstances surrounding the present occasion were the same, or substantially the same, as those surrounding the previous occasion.

(3) A person who wishes to rely on subsection (1) or (2) in proceedings for a civil penalty order bears an evidential burden in relation to that matter.

145CC State of mind

(1) In proceedings for a civil penalty order against a person for a contravention of a civil penalty provision (other than subsection 145CA(1)), it is not necessary to prove:
   (a) the person’s intention; or
   (b) the person’s knowledge; or
   (c) the person’s recklessness; or
   (d) the person’s negligence; or
   (e) any other state of mind of the person.

(2) Subsection (1) does not apply to the extent that the proceedings relate to a contravention of subsection 145CA(1) (which is about ancillary contraventions of civil penalty provisions).

(3) Subsection (1) does not affect the operation of section 145CB (which is about mistake of fact).

(4) Subsection (1) does not apply to the extent that the civil penalty provision, or a provision that relates to the civil penalty provision, expressly provides otherwise.

145CD Evidential burden for exceptions

In proceedings for a civil penalty order, a person who wishes to rely on any exception, excuse, qualification or justification in relation to a civil penalty provision bears an evidential burden in relation to that matter.
145CE Liability of body corporate for actions by employees, agents or officers

If an element of a civil penalty provision is done by an employee, agent or officer of a body corporate acting within the actual or apparent scope of his or her employment, or within his or her actual or apparent authority, the element must also be attributed to the body corporate.

145CF Liability of executive officers

(1) An executive officer of a body corporate contravenes this subsection if:
   (a) the body corporate contravenes a civil penalty provision; and
   (b) the officer knew that the contravention would occur; and
   (c) the officer was in a position to influence the conduct of the body in relation to the contravention; and
   (d) the officer failed to take all reasonable steps to prevent the contravention.

(2) Subsection (1) is a civil penalty provision.

Note: Subdivision A of this Division provides for pecuniary penalties for contraventions of civil penalty provisions.

145CG Establishing whether an executive officer took reasonable steps to prevent the contravention of a civil penalty provision

(1) For the purposes of section 145CF, in determining whether an executive officer of a body corporate failed to take all reasonable steps to prevent the contravention of a civil penalty provision, a court is to have regard to:
   (a) what action (if any) the officer took towards ensuring that the body’s employees, agents and contractors have a reasonable knowledge and understanding of the requirements to comply with this Code, in so far as those requirements affect the employees, agents or contractors concerned; and
   (b) what action (if any) the officer took when he or she became aware that the body was contravening this Code.
(2) This section does not, by implication, limit the generality of section 145CF.
Division 3—Infringement notices

145DA  When an infringement notice may be given

(1) If an inspector has reasonable grounds to believe that a person has contravened a prescribed civil penalty provision, the inspector may give the person an infringement notice for the alleged contravention.

(2) The infringement notice must be given within 12 months after the day the contravention is alleged to have taken place.

(3) A single infringement notice must relate only to a single contravention of a single prescribed civil penalty provision.

145DB  Matters to be included in an infringement notice

(1) An infringement notice must:
   (a) be identified by a unique number; and
   (b) state the day it is given; and
   (c) state the name of the person to whom the notice is given; and
   (d) state the name of the person who gave the notice; and
   (e) give brief details of the alleged contravention, including:
      (i) the provision that was allegedly contravened; and
      (ii) the maximum penalty that a court could impose for the contravention; and
      (iii) the time (if known) and day of, and the place of, the alleged contravention; and
   (f) state the amount that is payable under the notice, and that the amount is payable to the Commonwealth; and
   (g) give an explanation of how payment of the amount is to be made; and
   (h) state that, if the person to whom the notice is given pays the amount within 28 days after the day the notice is given, then (unless the notice is withdrawn) proceedings seeking a civil penalty order will not be brought in relation to the alleged contravention; and
(i) state that payment of the amount is not an admission of liability; and
(j) state that the person may apply to the APVMA to have the period in which to pay the amount extended; and
(k) state that the person may choose not to pay the amount and, if the person does so, proceedings seeking a civil penalty order may be brought in relation to the alleged contravention; and
(l) set out how the notice can be withdrawn; and
(m) state that if the notice is withdrawn proceedings seeking a civil penalty order may be brought in relation to the alleged contravention; and
(n) state that the person may make written representations to the APVMA seeking the withdrawal of the notice.

(2) For the purposes of paragraph (1)(f), the amount to be stated in the notice for the alleged contravention of the provision must not exceed one-fifth of the maximum penalty that a court could impose on the person for that contravention.

(3) The regulations may, subject to subsection (2), provide for a scale of amounts that may apply for an alleged contravention.

145DC Extension of time to pay amount

(1) A person to whom an infringement notice has been given may apply to the APVMA for an extension of the period referred to in paragraph 145DB(1)(h).

(2) If the application is made before the end of that period, the APVMA may, in writing, extend that period. The APVMA may do so before or after the end of that period.

(3) If the APVMA extends that period, a reference in this Division to the period referred to in paragraph 145DB(1)(h) is taken to be a reference to that period so extended.

(4) If the APVMA does not extend that period, a reference in this Division to the period referred to in paragraph 145DB(1)(h) is...
taken to be a reference to the period that ends on the later of the following days:

(a) the day that is the last day of the period referred to in paragraph 145DB(1)(h);
(b) the day that is 7 days after the day the person was given notice of the APVMA’s decision not to extend.

(5) The APVMA may extend the period more than once under subsection (2).

145DD Withdrawal of an infringement notice

Representations seeking withdrawal of notice

(1) A person to whom an infringement notice has been given may make written representations to the APVMA seeking the withdrawal of the notice.

Withdrawal of notice

(2) The APVMA may withdraw an infringement notice given to a person (whether or not the person has made written representations seeking the withdrawal).

(3) When deciding whether or not to withdraw an infringement notice (the relevant infringement notice), the APVMA:

(a) must take into account any written representations seeking the withdrawal that were given by the person to the APVMA; and

(b) may take into account the following:

(i) whether a court has previously imposed a penalty on the person for a contravention of a prescribed civil penalty provision if the contravention is constituted by conduct that is the same, or substantially the same, as the conduct alleged to constitute the contravention in the relevant infringement notice;

(ii) the circumstances of the alleged contravention;

(iii) whether the person has paid an amount, stated in an earlier infringement notice, for a contravention of a prescribed civil penalty provision if the contravention is
constituted by conduct that is the same, or substantially the same, as the conduct alleged to constitute the contravention in the relevant infringement notice;

(iv) any other matter the APVMA considers relevant.

Notice of withdrawal

(4) Notice of the withdrawal of the infringement notice must be given to the person. The withdrawal notice must state:

(a) the person’s name and address; and

(b) the day the infringement notice was given; and

(c) the identifying number of the infringement notice; and

(d) that the infringement notice is withdrawn; and

(e) that proceedings seeking a civil penalty order may be brought in relation to the alleged contravention.

Refund of amount if infringement notice withdrawn

(5) If:

(a) the APVMA withdraws the infringement notice; and

(b) the person has already paid the amount stated in the notice;

the Commonwealth must refund to the person an amount equal to the amount paid.

145DE Effect of payment of amount

(1) If the person to whom an infringement notice for an alleged contravention of a provision is given pays the amount stated in the notice before the end of the period referred to in paragraph 145DB(1)(h):

(a) any liability of the person for the alleged contravention is discharged; and

(b) proceedings seeking a civil penalty order may not be brought against the person in relation to the alleged contravention; and

(c) the person is not regarded as having admitted liability for the alleged contravention.

(2) Subsection (1) does not apply if the notice has been withdrawn.
145DF  Effect of this Division

This Division does not:

(a) require an infringement notice to be given to a person for an alleged contravention of a prescribed civil penalty provision; or

(b) affect the liability of a person for an alleged contravention of a prescribed civil penalty provision if:
   (i) the person does not comply with an infringement notice given to the person for the contravention; or
   (ii) an infringement notice is not given to the person for the contravention; or
   (iii) an infringement notice is given to the person for the contravention and is subsequently withdrawn; or

(c) prevent the giving of 2 or more infringement notices to a person for an alleged contravention of a prescribed civil penalty provision; or

(d) limit a court’s discretion to determine the amount of a penalty to be imposed on a person who is found to have contravened a prescribed civil penalty provision.
Division 4—Enforceable undertakings

145E Acceptance of undertakings

(1) The APVMA may accept any of the following undertakings:

(a) a written undertaking given by a person that the person will, in order to comply with a provision of this Code, take specified action;

(b) a written undertaking given by a person that the person will, in order to comply with a provision of this Code, refrain from taking specified action;

(c) a written undertaking given by a person that the person will take specified action directed towards ensuring that the person does not commit an offence against this Code or contravene a civil penalty provision, or is unlikely to do so, in the future.

(2) The undertaking must be expressed to be an undertaking under this section.

(3) The person may withdraw or vary the undertaking at any time, but only with the written consent of the APVMA.

(4) The APVMA’s consent is not a legislative instrument.

(5) The APVMA may, by written notice given to the person, cancel the undertaking.

(6) The APVMA must publish the undertaking on the APVMA’s website.

(7) However, the APVMA is not required to publish so much of the undertaking that the APVMA is satisfied:

(a) is confidential commercial information; or

(b) is personal information (within the meaning of the Privacy Act 1988); or

(c) should not be disclosed because it would be against the public interest to do so.
145EA Enforceable undertakings

(1) If:
   (a) a person has given an undertaking under section 145E; and
   (b) the undertaking has not been withdrawn or cancelled; and
   (c) the APVMA considers that the person has breached the undertaking;

   the APVMA may, on behalf of the Commonwealth, apply to a court of competent jurisdiction for an order under subsection (2).

(2) If the court is satisfied that the person has breached the undertaking, the court may make any or all of the following orders:
   (a) an order directing the person to comply with the undertaking;
   (b) an order directing the person to pay to the Commonwealth an amount up to the amount of any financial benefit that the person has obtained directly or indirectly and that is reasonably attributable to the breach;
   (c) any order that the court considers appropriate directing the person to compensate any other person who has suffered loss or damage as a result of the breach;
   (d) any other order that the court considers appropriate.
Division 5—Injunctions

145F Grant of injunctions

Restraining injunctions

(1) If a person has engaged, is engaging or is proposing to engage, in conduct that constitutes an offence against this Code or a contravention of a civil penalty provision, a court of competent jurisdiction may, on application by any person, grant an injunction:
   (a) restraining the first-mentioned person from engaging in the conduct; and
   (b) if, in the court’s opinion, it is desirable to do so—requiring the first-mentioned person to do a thing.

Performance injunctions

(2) If:

It need not contain particulars of the date on which the offence was committed.

(3) The date on which evidence of the offence first came to the attention of the APVMA, a member of the staff of the APVMA or an inspector, as the case may be, is the date specified in the court attendance notice, summons or application, unless the contrary is established.

(4) In this section:

evidence, in relation to an offence, means evidence of any act or omission constituting the offence.
149 Evidential certificates

(1) This section has effect for the purposes of any proceeding:

(3) The matters that may be stated in a certificate referred to in subsection (2) are as follows:

(h) that a person named in the certificate was an inspector at a particular time or during a particular period;

(i) that a document referred to in the certificate purports to be a copy of, or an extract from, a record, register or file kept under this Code is a true copy or extract, as the case may be;

(4) Unless the contrary is proved, a document purporting to be a certificate referred to in subsection (2) is taken to be such a certificate and to have been duly given.
(5) Unless the contrary is proved, evidence that a label attached to a sealed container contained any matter at any time in a manner prescribed or required by this Code in relation to a chemical product is also evidence that the product was in the container at that time.

149A Recovery of costs of investigations

(1) This section applies if:
   (a) a person is convicted of an offence against an agvet law or is found to have contravened an agvet penalty provision; and
   (b) the court convicting the person finds that the APVMA has reasonably incurred costs and expenses in taking a sample, or conducting an inspection, test or analysis during the investigation of the offence or agvet penalty provision; and
   (c) the APVMA applies for an order against the person for the payment of the costs and expenses.

(2) The court may order the person to pay to the APVMA the reasonable costs and expenses that it considers just and equitable in the circumstances.

Note: The APVMA may recover certain other expenses. See section 142.

150 Forfeiture

(1) If a person is convicted of an offence against this Code in respect of a thing that the court finds to be the property of that person, the court may order all or any part of the thing to be forfeited to the APVMA.

(b) it is taken to be established that conduct (the relevant conduct) was engaged in by the body corporate intentionally, knowingly or recklessly if it is proved:

(i) that the directors of the body corporate intentionally, knowingly or recklessly engaged in the relevant conduct or expressly, tacitly or impliedly authorised or permitted the relevant conduct to be engaged in; or

(ii) that an employee or agent of the body corporate with duties of such responsibility that his or her conduct may fairly be assumed to represent the policy of the body corporate intentionally, knowingly or recklessly engaged in the relevant conduct or expressly, tacitly or impliedly authorised or permitted the relevant conduct to be engaged in.

(2) Subparagraph (1)(b)(ii) does not apply if the body corporate proves that it exercised due diligence to prevent the relevant conduct.

(3) Subject to subsection (4), in proceedings against an individual for an offence against this Code:

(a) any conduct engaged in by an employee or agent of the individual within the actual or apparent scope of his or her employment or within his or her actual or apparent authority is taken to have been engaged in also by the individual; and

(4) Paragraph (3)(b) does not apply if the individual proves that he or she exercised due diligence to prevent the relevant conduct.

(5) If:

(a) an individual is convicted of an offence against this Code; and  
(b) the individual would not have been convicted of the offence if subsections (3) and (4) had not been enacted;  
the individual is not liable to be punished by imprisonment for the offence.

(6) A reference in this section to engaging in conduct includes a reference to failing or refusing to engage in conduct.

152 Liability of persons acting on behalf of non-residents

(1) If:

(a) a person does any thing in this jurisdiction on behalf of another person who is not a resident of, and does not carry on business in, Australia; and  
(b) the doing of that thing is an offence against this Code;  
this Code has effect, in addition to the effect that it has apart from this subsection, as if the first-mentioned person did that thing on that person’s own account and not on behalf of the other person.

(2) If:

(a) the holder of an approval or registration who is not a resident of, and does not carry on business in, Australia fails to do a thing in this jurisdiction in relation to an active constituent or chemical product covered by the approval or registration; and  
(b) the failure of the holder to do that thing is an offence against this Code;  
the nominated agent for the approval or registration is taken to have been under the same liability under this Code as the holder to do that thing and, if the thing is not done by the nominated agent, is punishable accordingly.

(3) For an offence that arises because of subsection (2), strict liability applies to paragraphs (2)(a) and (b).
Note: For strict liability, see section 6.1 of the Criminal Code.
Part 10—Miscellaneous

153 Explanation of Part

This Part contains miscellaneous provisions (other than enforcement provisions) that relate generally to other provisions of this Code. Most provisions that affect only a particular part of this Code are contained in that Part.

154 Recognition of things done under corresponding laws

(1) In this Code, unless the contrary intention appears, a reference to any thing done by or in relation to the APVMA is a reference to such a thing done under or for the purposes of the Agvet Code of this jurisdiction or of another jurisdiction.

(2) In this Code, unless the contrary intention appears, a reference to any thing done by or in relation to a court is a reference to such a thing done under or for the purposes of the Agvet Code of this jurisdiction or of another jurisdiction.

155 Discharge of obligations under this Code

(1) Except as expressly provided in this Code, any thing done, whether within Australia or elsewhere, which, if it had been done under or for the purposes of this Code, would have discharged an obligation under this Code, discharges that obligation.

(2) Subject to subsection (3), any thing that has to be done under this Code may, for the purposes of this Code, be done anywhere in Australia, whether within or outside this jurisdiction.

(3) Subsection (2) does not affect the operation of any provision of this Code that:

   (a) expressly requires a particular thing to be done within this jurisdiction; or

   (b) expressly or by implication permits a particular thing to be done outside Australia.
The making of single applications or the giving of single notices under the Agvet Codes of all jurisdictions

(1) This section facilitates the administration, on a national basis, of the Agvet Codes of all jurisdictions by permitting the making of a single application, or the giving or publication of a single notice, under the Agvet Codes of all jurisdictions.

(2) If an application is expressed to be made under the Agvet Codes (rather than under the Agvet Code of a particular jurisdiction), it has effect as an application under the relevant provision of the Agvet Code of this jurisdiction in addition to any effect that it may have under the Agvet Code of any other jurisdiction.

(3) If a notice is expressed to be given or published by the APVMA under the Agvet Codes (rather than under the Agvet Code of a particular jurisdiction), it has effect as a notice given or published under the relevant provision of the Agvet Code of this jurisdiction in addition to any effect that it may have under the Agvet Code of any other jurisdiction.

Giving information electronically

(1) If, under this Code, a person is required or permitted to give the APVMA information (including an application) in writing, that requirement is taken to have been met if:
   (a) the APVMA consents to the information being given electronically; and
   (b) the person gives the information electronically in accordance with any requirements mentioned in subsection (3); and
   (c) in a case where this Code requires the signature of an applicant or holder—the information includes the electronic signature of the applicant or holder.

(2) If, under this Code, a person is required or permitted to give the APVMA information in writing, the regulations may, despite any other provision of this Code, require that the information be given only electronically and in accordance with any requirements mentioned in subsection (3).
(3) For the purposes of subsections (1) and (2), the APVMA may require that the information be given, in accordance with particular information technology requirements, by means of a particular kind of electronic communication.

(4) If, under this Code, the APVMA is required or permitted to give a person information in writing, that requirement is taken to have been met if:

(a) the person consents to the information being given electronically; and

(b) the APVMA gives the information electronically; and

(c) where applicable, the information includes the Chief Executive Officer’s electronic signature; and

(d) in a case where a person’s failure to do, or not do, a thing set out in the information is an offence against this Code or the contravention of a civil penalty provision—the APVMA has adequate systems for proving the person received the information.

(5) This section applies to a requirement or permission to give information, whether the expression “give”, “lodge”, “send” or “serve”, or any other expression, is used.

(6) For the purposes of this section, giving information includes, but is not limited to, the following:

(a) making or withdrawing an application;

(b) if the application relates to a chemical product—give a sample of any constituent of the product or a sample of the product, or both;
to the APVMA or to a body named by the APVMA, for the purpose of analysis by an approved analyst.

(2) The sample must:
   (a) be of a quantity; and
   (b) be taken on a day; and
   (c) be taken in a manner; and
   (d) be taken from a batch;
that the APVMA has directed.

(3) The applicant must pay to the APVMA the amount that the APVMA notifies the applicant in writing to be the cost of the analysis referred to in subsection (1), including the cost of packaging and transporting the sample or samples for analysis.

159 APVMA or other authority may require, or require additional, information, report or sample in certain circumstances

(1) For the purposes of:

(g) give to the APVMA or that prescribed authority, or to another body that the APVMA or that authority has determined, a sample of the active constituent, or of the chemical product or any of its constituents, as the case may be, for the purpose of analysis by an approved analyst;
(h) conduct, or cause to be conducted, trials or laboratory experiments and give the results of the trials or experiments to the APVMA.

(1AA) The period stated in the notice must be no longer than the period prescribed by the regulations.

(1AB) The APVMA may allow a further period only in the circumstances prescribed by the regulations.

(1A) The power of the APVMA or another authority under subsection (1) to require a person to give to the APVMA or to that authority information, a report or a sample includes a power to
require the person to give to the APVMA or to that authority such information or such a report or sample in addition to any information, report or sample previously given by the person to the APVMA or to that authority under any provision of this Code other than this section or under a previous application of this section.

(2) Any information or report that an applicant or holder has to give to the APVMA or a prescribed authority under subsection (1) must be given in writing and be signed by the applicant or holder.

Note: For giving information electronically, see section 156A.

(4) Two or more fees may be prescribed for the same matter.

(5) A fee is not payable in respect of the making of an application to the APVMA, the lodging of a notice under Division 2AA of Part 2, or the doing of any thing by the APVMA or by an inspector, under a provision of the Agvet Code of this jurisdiction in relation to an active constituent for a proposed or existing chemical product, a chemical product, or a label for containers for a chemical product, if a corresponding fee has been paid in respect of the making of a corresponding application, the lodging of a corresponding notice, or the doing of a corresponding thing, as the case may be, in relation to the same constituent, product or label, under the corresponding provision of the Agvet Code of another jurisdiction.

(6) Any fee that the APVMA receives under this Code is to be paid to the Commonwealth.

(1A) The APVMA may make a legislative instrument setting out criteria for working out which period stated in, or determined in accordance with, the regulations made for the purposes of subsection (1) applies in a particular case.

(2) In working out the period within which an application has to be determined, no regard is to be had to:

(c) if the APVMA has, after the application was made, published such a notice in the Gazette—the period beginning when the notice was published and ending when the hearing finished; and
(d) if the APVMA has given written notice to an applicant under subsection 8S(1)—the 28 day period after the notice is given, or such further period as is specified in the notice, within which submissions may be made.

(3) If, at the end of the period referred to in subsection (1), the application has not been determined, the applicant may give the APVMA written notice that the applicant wishes to treat the application as having been refused.

(4) The notice may be given at any time after the end of the period referred to in subsection (1) and before the application is determined.

(5) If the notice is given, this Code has effect as if:
   (a) the APVMA had refused the application; and

(1) If the APVMA reconsiders an approval or registration under Division 4 of Part 2, the APVMA must conclude the reconsideration within a period stated in, or determined in accordance with, the regulations.

(2) The APVMA may make a legislative instrument setting out criteria for working out which period stated in, or determined in accordance with, the regulations applies in a particular case.

(3) In working out the period within which the reconsideration is to be concluded, no regard is to be had to:
   (a) the period, stated in the notice given to the holder under subsection 32(1), within which information must be given and submissions may be made; and

(2) The person may, by writing within 42 days after the original decision is made, request the APVMA to reconsider the original decision.

(3) If a request is so made, the APVMA must reconsider the original decision having regard only to the information used to make it, and must:
   (a) confirm the original decision; or
   (b) vary the original decision; or
   (c) set aside the original decision; or
   (d) set aside the original decision and make a new decision in substitution for the original decision.

(4) The APVMA must, as soon as practicable, give written notice to the person who made the request setting out the APVMA’s decision on the reconsideration.

(5) The decision on the reconsideration is taken, for the purposes of this Code other than paragraph (1)(a), to be a fresh decision on the relevant matter made under the provision of this Code under which the original decision was made.

(6) If the APVMA has not given notice under subsection (4) of its decision on the reconsideration within 90 days after the request is made, the person who made the request may, by writing, notify the APVMA that the person considers that the APVMA has confirmed the original decision.

(7) If the person so notifies the APVMA, the decision on the reconsideration is taken to be a decision to confirm the original decision.

   (a) immediately before the commencement of the Agvet Code of this jurisdiction:
      (i) a clearance for registration that the APVMA granted under section 15 of the repealed Act in respect of a chemical product was in force; and
      (ii) the product was not registered by a previous registering authority of this jurisdiction; and
   (b) a label for containers for the product becomes approved under that Code;

the following subsections apply.

(2) The product is taken to be registered by the APVMA under section 20 of that Code when the label becomes approved and to be so registered subject to the conditions (if any) to which the clearance was subject.

(3) The person who applied for the clearance is taken to be the person who applied for the registration.

174 Existing registration of chemical product

(1) If, immediately before the commencement of the Agvet Code of this jurisdiction, a chemical product was registered by the previous registering authority of this jurisdiction and a label in relation to, or
in relation to containers for, that product was also registered or approved by that authority, the following paragraphs apply:

(a) the product is taken to have been registered by the APVMA under section 20 of that Code upon that commencement subject to the conditions (if any) to which its registration by that previous registering authority was subject;

(b) the person who applied for the registration of the product by the previous registering authority or, if that registration was renewed, the person who applied for the renewal or the last renewal, as the case may be, is taken to be the person who applied for the registration of the product under that Code;

(c) the label is taken to have been approved in relation to the product by the APVMA under section 21 of that Code upon that commencement:

(i) for the containers for which it was registered or approved by that previous registering authority or, if it was not registered or approved for containers, for all containers for the product; and

(ii) subject to the conditions (if any) to which its registration or approval by that previous registering authority was subject.

(2) If:

(a) immediately before the commencement of the Agvet Code of this jurisdiction, the supply of a chemical product that was not registered by the previous registering authority of this jurisdiction was permitted in this jurisdiction, either unconditionally or subject to conditions, because the product was registered by the previous registering authority of another jurisdiction; and

(b) a label for containers for the product becomes approved under that Code;

the following paragraphs apply:

(c) if the supply of the product was permitted unconditionally—the product is taken to be registered by the APVMA under section 20 of that Code when the label becomes approved;

(d) if its supply was permitted subject to conditions—the product is taken to be so registered subject to those conditions;
Section 176

(e) the person who applied for the registration of the product by
the previous registering authority of the other jurisdiction or,
if that registration was renewed, the person who applied for
the renewal or the last renewal, as the case may be, is taken
to be the person who applied for the registration of the
product under that Code.

(3) If, immediately before the commencement of the Agvet Code of
this jurisdiction:

(a) a chemical product was registered by the previous registering
authority of this jurisdiction; but

(b) it was unlawful under the law of this jurisdiction to supply
the product;

the product is taken for the purposes of this section not to have
been so registered immediately before that commencement.

176 Existing registration or approval of label

(1) If, immediately before the commencement of the Agvet Code of
this jurisdiction:

(a) no provision was made by the corresponding previous law of
this jurisdiction for the registration of chemical products; but

(b) a label in relation to, or in relation to containers for, a
chemical product was registered or approved by the previous
registering authority of this jurisdiction;

then, upon that commencement, the following paragraphs apply:

(c) the product is taken to have been registered unconditionally
by the APVMA under section 20 of that Code;

(d) the label is taken to have been approved in relation to the
product by the APVMA under section 21 of that Code:

(i) for the containers for which it was registered or
approved by that previous registering authority or, if it
was not registered or approved for containers, for all
containers for the product; and

(ii) subject to the conditions (if any) to which its
registration or approval by that authority was subject.

(2) If, immediately before the commencement of the Agvet Code of
this jurisdiction, a label in relation to, or in relation to containers
for, a chemical product was registered or approved by the previous registering authority of this jurisdiction, the label is taken to have been approved in relation to the product by the APVMA under section 21 of that Code upon that commencement:

(a) for the containers for which it was registered or approved by that previous registering authority or, if it was not registered or approved for containers, for all containers for the product; and

(b) subject to the conditions (if any) to which its registration or approval by that authority was subject.

178 Provisions that apply in respect of existing registrations or approvals

(1) If a chemical product is taken by section 172 or 174 or subsection 176(1) of the Agvet Code of this jurisdiction to have been registered under that Code:

(a) the APVMA may, but does not have to, do either or both of the following:

(i) give a distinguishing number to the product;

(ii) enter the relevant particulars in the Register; and

(b) paragraph 167(1)(b) of that Code has effect as if the registration of the product that is taken to be effected by section 172 or 174 or subsection 176(1) of that Code resulted from a decision by the APVMA under Division 2 of Part 2 of that Code to register the product subject to the conditions to which its registration is taken to be subject by that section.

(2) If a label for containers for a chemical product is taken by paragraph 174(1)(c) or section 176 of the Agvet Code of this jurisdiction to have been approved under that Code, the APVMA may, but does not have to, do either or both of the following:

(a) give a distinguishing number to the label;

(b) record the relevant particulars in the relevant APVMA file.

180 Reconsideration of existing clearances for registration

If:
Section 181

(a) before the commencement of the Agvet Code of this jurisdiction, the APVMA had, under section 17 of the repealed Act, informed the person holding a certificate of clearance for registration issued in respect of a chemical product that it proposed to reconsider the grant of the clearance, but the APVMA had not completed its reconsideration; and

(b) the product is taken by section 172 or 174 of that Code to have been registered by the APVMA subject to conditions; the following paragraphs apply:

(c) any notice that the APVMA has given to the person under subsection 17(1) of the repealed Act in respect of its proposed reconsideration of the clearance is taken to have been a notice of a proposed reconsideration of the registration that the APVMA has duly given, with any necessary changes, under subsection 32(1) of that Code as if that Code had been in force when the notice was given;

(ca) any information (other than particulars of trials or laboratory experiments) given to the APVMA by the person to whom the notice was given is taken to have been given by the person to the APVMA under subsection 32(1) of that Code;

(d) any particulars of trials or laboratory experiments given to the APVMA by the person to whom the notice was given is taken to have been given by the person to the APVMA under section 33 of that Code.

181 Existing permit

(1) If:

(a) immediately before the commencement of the Agvet Code of this jurisdiction, there was in force a permit or other instrument issued by the previous registering authority of this jurisdiction in respect of an active constituent for a proposed or existing chemical product or in respect of a chemical product; and

(b) the permit or other instrument authorised persons generally, or a person or class of persons, to do or omit to do any thing the doing of which, or the omission to do which, after that commencement would, apart from this section, be an offence
against section 74, 75, 76, 77, 78, 80, 81, 84, 85, 87 or 91 of that Code or against an eligible law of this jurisdiction; the following subsections apply.

(2) The permit or other instrument, to the extent that it authorises a person to do or omit to do that thing, is taken to be a permit that the APVMA has issued under section 114 of that Code upon that commencement subject to the conditions (if any) to which it was subject immediately before that commencement.

(3) The person who applied for the permit or other instrument is taken to be the person who applied for the permit under that Code.

183 Pending proceedings before Administrative Appeals Tribunal

(1) If, before the commencement of the Agvet Code of this jurisdiction, an application had been duly made under the repealed Act to the Administrative Appeals Tribunal for review of a decision by the APVMA under that Act in respect of a chemical product but the application had not been disposed of by the Tribunal, the following provisions apply.

(2) If the application to the Tribunal was made under paragraph 41(1)(b) of the repealed Act for the review of a decision by the APVMA under section 15 of that Act to refuse an application for clearance of the product:
   (a) the application for clearance of the product is taken to have been an application made under section 10 of the Agvet Code of this jurisdiction for registration of the product; and
   (b) the APVMA’s decision to refuse the application for clearance of the product is taken to have been a decision by the APVMA under Division 2 of Part 2 of that Code to refuse the application for registration of the product; and
   (c) the application to the Tribunal is taken to have been an application duly made under paragraph 167(1)(a) of that Code for review of that decision by the APVMA to refuse the application for registration of the product; and
   (d) the Tribunal is to continue to deal with the application for review accordingly.
(3) If:

(a) the application to the Tribunal was made under paragraph 41(1)(a) of the repealed Act for the review of a decision by the APVMA under section 15 of that Act to grant clearance of the product subject to particular conditions; and

(b) the product is taken by section 172 or 174 of the Agvet Code of this jurisdiction to have been registered by the APVMA subject to those conditions;

the application is taken to have been an application duly made under paragraph 167(1)(b) of that Code for review of a decision of the APVMA under Division 2 of Part 2 of that Code to register the product subject to those conditions and the Tribunal is to continue to deal with the application accordingly.

(4) If:

(a) the application to the Tribunal was made under paragraph 41(1)(c) of the repealed Act for the review of a decision that the APVMA has made under section 16 of that Act to refuse an application to vary the conditions to which clearance of the product was subject; and

(b) the product is taken by section 172 or 174 of the Agvet Code of this jurisdiction to have been registered by the APVMA subject to those conditions;

the following paragraphs apply:

(c) the application to vary the conditions of the clearance of the product is taken to have been an application made under section 27 of that Code for the variation of conditions of the registration of the product;

(d) the application to the Tribunal is taken to have been an application duly made under paragraph 167(1)(d) of that Code for review of a decision by the APVMA under Division 3 of Part 2 of that Code to refuse the application for the variation of conditions of the registration of the product;

(e) the Tribunal is to deal with the application for review accordingly.

(5) If:

(a) the application to the Tribunal was made under paragraph 41(1)(e) of the repealed Act for the review of a
decision that the APVMA made under section 17 of that Act
to vary the conditions to which the clearance of the product
was subject; and

(b) the product is taken by section 172 or 174 of the Agvet Code
of this jurisdiction to have been registered by the APVMA
subject to those conditions;

the following paragraphs apply:

(c) the product is taken to have had those conditions varied by
the APVMA under subsection 29(1) of that Code;

(d) the application to the Tribunal is taken to have been an
application duly made under paragraph 167(1)(e) of that
Code for review of the decision by the APVMA to vary those
conditions;

(e) the Tribunal is to deal with the application for review
accordingly.

184 Existing notices requiring further information or samples

If, before the commencement of the Agvet Code of this
jurisdiction:

(b) a previous registering authority of this jurisdiction duly gave
a notice to a person, under a provision of the law of this
jurisdiction to which section 159 of that Code corresponds, in
respect of a chemical product to which section 174 of that
Code applies or in respect of a label to which section 176 of
that Code applies; and

(c) the person had not complied with the notice before that
commencement;

the notice is taken to have been a notice duly given to that person

product or label, as the case may be, as if that Code had been in
force when the notice was given.

Endnote 1—About the endnotes

The endnotes provide information about this compilation and the compiled law.

The following endnotes are included in every compilation:

Endnote 1—About the endnotes
Endnote 2—Abbreviation key
Endnote 3—Legislation history
Endnote 4—Amendment history

Abbreviation key—Endnote 2
The abbreviation key sets out abbreviations that may be used in the endnotes.

Legislation history and amendment history—Endnotes 3 and 4
Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Editorial changes
The Legislation Act 2003 authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

Misdescribed amendments
A misdescribed amendment is an amendment that does not accurately describe the amendment to be made. If, despite the misdescription, the amendment can
be given effect as intended, the amendment is incorporated into the compiled law and the abbreviation “(md)” added to the details of the amendment included in the amendment history.

If a misdescribed amendment cannot be given effect as intended, the abbreviation “(md not incorp)” is added to the details of the amendment included in the amendment history.
