Note: This Part also applies in relation to the coastal sea of Australia and an external Territory: see section 15B of the Acts Interpretation Act 1901.

8 Overlap with Civil Liability Convention

This Part does not apply to pollution damage (within the meaning of the Civil Liability Convention), whether or not compensation is payable in respect of the damage under the Protection of the Sea (Civil Liability) Act 1981.

This Part applies in relation to a government ship only if it is being used for commercial purposes.

10 Relationship with corresponding State or Territory laws

Legislation history and amendment history—Endnotes 3 and 4

Amending laws are annotated in the legislation history and amendment history.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Misdescribed amendments

A misdescribed amendment is an amendment that does not accurately describe the amendment to be made. If, despite the misdescription, the amendment can be given effect as intended, the amendment is incorporated into the compiled law and the abbreviation “(md)” added to the details of the amendment included in the amendment history.

If a misdescribed amendment cannot be given effect as intended, the abbreviation “(md not incorp)” is added to the details of the amendment included in the amendment history.
