Definitions

1 The definitions in the Food and Drugs Act (Canada) apply to this Part.

Designation of food

2 (1) The Lieutenant Governor in Council may, by regulation, designate a food or a kind or class of food as being subject to this Part.
(2) On its designation under subsection (1), a person must not manufacture, process, sell, advertise for sale or offer for sale in British Columbia that food or kind or class of food unless it would, if it were being exported from British Columbia for sale in another province, comply with the requirements of the Food and Drugs Act (Canada) and the regulations under that Act.

Food and Drugs Act (Canada)

3 (1) An inspector or an analyst as defined in the Food and Drugs Act (Canada) may exercise the powers given to him or her under that Act with respect to food or a kind or class of food designated under this Part.

(2) Sections 22, 23, 25, 26, 27, 28, 29, 34, 35 and 36 (1) to (3) of the Food and Drugs Act (Canada) apply with respect to food or a kind or class of food designated under this Part.

Part 2 — Provincial Quality and Compositional Food Standards

Provincial food standards

4 (1) If no requirements have been established under the Food and Drugs Act (Canada) for a food or a kind or class of food, the Lieutenant Governor in Council may, by regulation, establish requirements that must be complied with by persons manufacturing or processing a food or a kind or class of food, referred to in the regulation, for sale in British Columbia.

(2) If requirements have been established under subsection (1) for a food or kind or class of food, a person must not manufacture, process, sell, advertise for sale or offer for sale in British Columbia food or a kind or class of food to which subsection (1) applies unless it complies with those requirements.

Provincial premium food standards

5 (1) If requirements have been established under the Food and Drugs Act (Canada) or under section 4 (1), the Lieutenant Governor in Council may, by regulation,

(a) establish more stringent requirements for a food or a kind or class of food manufactured or processed for sale in British Columbia, and

(b) establish a descriptive term to be used in association with the food or kind or class of food if it is manufactured or processed so as to comply with those more stringent requirements.

(2) If requirements have been established under subsection (1) for a food or kind or class of food, a person must not,
(a) sell, advertise for sale or offer for sale food of that kind that has affixed to it a label using the
descriptive term established for that food or kind or class of food, or

(b) in the course of selling, advertising for sale or offering for sale food of that kind, represent that the
food complies with the established requirements,

unless it complies with the established requirements.

Inspectors

purposes;

(e) require the owner, occupier or person in charge of any land, building or conveyance to give all
reasonable assistance in a lawful examination, to answer all reasonable questions and to produce
records relating to the examination.

(2) If an inspector has reasonable grounds for believing that an offence against this Act or the
regulations has been committed, he or she may seize all food and other things by means of or in
relation to which he or she reasonably believes the offence was committed.
(3) All food or other things seized under subsection (2) may be removed to a public warehouse and detained until all the provisions of this Act and the regulations with respect to the food have been complied with, or they may be disposed of by direction of the minister.
