COMMISSION REGULATION (EU) No 420/2011

of 29 April 2011

amending Regulation (EC) No 1881/2006 setting maximum levels for certain contaminants in foodstuffs

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EEC) No 315/93 of 8 February 1993 laying down Community procedures for contaminants in food (1), and in particular Article 2(3) thereof,

Whereas:

(1) Commission Regulation (EC) No 1881/2006 of 19 December 2006 setting maximum levels for certain contaminants in foodstuffs (2) sets maximum levels for contaminants in a range of foodstuffs.

(2) Taking into account the different interpretations with regard to the portion of crabs to be analysed for comparison with the maximum level for cadmium, it should therefore be clarified that the maximum level set for cadmium in crustaceans in the Annex to Regulation (EC) No 1881/2006 applies to muscle meat from appendages (legs and claws) and abdomen. For crabs and crab-like crustaceans, the maximum level applies to the appendages only. This definition excludes other parts of crustaceans, such as the cephalothorax of crabs and inedible parts (shell, tail). The cephalothorax comprises the digestive organs (hepatopancreas) which are known to contain high levels of cadmium. As in some Member States consumers may eat parts of the cephalothorax on a regular basis, consumer advice at a Member State level to limit consumption of these parts may be appropriate to reduce exposure to cadmium. An Information Note on this issue has been made available on the website of the Health and Consumers Directorate General of the European Commission (3).

(3) For reasons of consistency the portion of crustaceans to which the maximum levels apply should be modified for other contaminants (lead, mercury, dioxins and PCBs and polycyclic aromatic hydrocarbons) accordingly.

(4) Bivalve molluscs such as green shell mussels and oysters can accumulate cadmium similarly to seaweed. Since green shell mussel powder and oyster powder, like dried seaweed, are sold as food supplements, the maximum level for cadmium in dried bivalve mollusc should be the same as the one currently established for dried seaweed and products derived from seaweed.

(5) The provisions for leafy brassica should be aligned with those of other leaf vegetables. Leafy brassica should therefore be excluded from the default maximum level for cadmium in ‘vegetables and fruit’ in point 3.2.15 and should be included in point 3.2.17.

(6) The default maximum levels for lead and cadmium in fruit and vegetables are not realistic for seaweed, which can naturally contain higher levels. Seaweed should therefore be exempted from the default maximum levels for lead and cadmium in fruit and vegetables (points 3.1.10 and 3.2.15). More occurrence data should be collected to decide about the need for specific more realistic maximum levels for lead and cadmium in seaweed.

(8) It is appropriate to update the provisions on monitoring and reporting taking into account recent monitoring recommendations on ethylcarbamate (5), perfluoroalkylated substances (6), and acrylamide (7). Since Commission Decision 2006/504/EC (8) has been repealed and replaced by Commission Regulation (EC) No 1152/2009 (9), the reference to Decision 2006/504/EC should be replaced by a reference to Regulation (EC) No 1152/2009. Furthermore, it should be clarified which data is reported to the Commission and which to EFSA.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health and neither the European Parliament nor the Council have opposed them.

(3) http://ec.europa.eu/food/food/chemicalsafety/contaminants/cadmium_en.htm
HAS ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 1881/2006 is amended as follows:

(1) Article 9 is amended as follows:

(a) paragraphs 2 and 3 are replaced by the following:

‘2. Member States and interested parties shall communicate each year to the Commission the results of investigations undertaken and the progress with regard to the application of prevention measures to avoid contamination by ochratoxin A, deoxynivalenol, zearalenone, fumonisin B₁ and B₂, T-2 and HT-2 toxin. The Commission shall make the results available to the Member States. The related occurrence data shall be reported to EFSA.

3. Member States shall report to the Commission findings on aflatoxins obtained in accordance with Commission Regulation (EC) No 1152/2009 (*). Member States should report to EFSA findings on furan, ethylcarbamate, perfluoroalkylated substances and acrylamide obtained in accordance with Commission Recommendations 2007/196/EC (**), 2010/133/EU (***), 2010/161/EU (****) and 2010/307/EU (*****).

(b) the following paragraph 4 is added:

‘4. Occurrence data on contaminants collected by Member States should, if appropriate, also be reported to EFSA.’;

(2) the Annex is amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the 20th day following its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 29 April 2011.

For the Commission
The President
José Manuel BARROSO

(**) OJ L 88, 29.3.2007, p. 56.  
(***) OJ L 52, 3.3.2010, p. 53.  
(****) OJ L 68, 18.3.2010, p. 22.  
(******) OJ L 137, 3.6.2010, p. 4.'
The Annex to Regulation (EC) No 1881/2006 is amended as follows:

(1) In Section 3.1 on lead, points 3.1.6, 3.1.9, 3.1.10 and 3.1.11 are replaced by the following:

<table>
<thead>
<tr>
<th>Foodstuffs (1)</th>
<th>Maximum levels (mg/kg wet weight)</th>
</tr>
</thead>
<tbody>
<tr>
<td>'3.1.6    Crustaceans (26): muscle meat from appendages and abdomen (44). In case of crabs and crab-like crustaceans (Brachyura and Anomura) muscle meat from appendages.</td>
<td>0,50'</td>
</tr>
<tr>
<td>'3.1.9    Legume vegetables (27), cereals and pulses</td>
<td>0,20'</td>
</tr>
<tr>
<td>'3.1.10   Vegetables, excluding brassica vegetables, leaf vegetables, fresh herbs, fungi and seaweed (27). For potatoes the maximum level applies to peeled potatoes.</td>
<td>0,10'</td>
</tr>
<tr>
<td>'3.1.11   Brassica vegetables, leaf vegetables (43) and the following fungi (27): Agaricus bisporus (common mushroom), Pleurotus ostreatus (Oyster mushroom), Lentinula edodes (Shiitake mushroom)</td>
<td>0,30'</td>
</tr>
</tbody>
</table>

(2) In section 3.2 on cadmium, points 3.2.9, 3.2.15, 3.2.16, 3.2.17 and 3.2.20 are replaced by the following:

<table>
<thead>
<tr>
<th>Foodstuffs (1)</th>
<th>Maximum levels (mg/kg wet weight)</th>
</tr>
</thead>
<tbody>
<tr>
<td>'3.2.9    Crustaceans (26): muscle meat from appendages and abdomen (44). In case of crabs and crab-like crustaceans (Brachyura and Anomura) muscle meat from appendages.</td>
<td>0,50'</td>
</tr>
<tr>
<td>'3.2.15   Vegetables and fruit, excluding leaf vegetables, fresh herbs, leafy brassica, fungi, stem vegetables, root and tuber vegetables and seaweed (27)</td>
<td>0,050'</td>
</tr>
<tr>
<td>'3.2.16   Stem vegetables, root and tuber vegetables excluding celeriac (27). For potatoes the maximum level applies to peeled potatoes.</td>
<td>0,10'</td>
</tr>
<tr>
<td>'3.2.17   Leaf vegetables, fresh herbs, leafy brassica, celeriac and the following fungi (27): Agaricus bisporus (common mushroom), Pleurotus ostreatus (Oyster mushroom), Lentinula edodes (Shiitake mushroom)</td>
<td>0,20'</td>
</tr>
<tr>
<td>'3.2.20   Food supplements (39) consisting exclusively or mainly of dried seaweed, products derived from seaweed, or of dried bivalve molluscs</td>
<td>3,0'</td>
</tr>
</tbody>
</table>

(3) In Section 3.3 on mercury, point 3.3.1 is replaced by the following:

<table>
<thead>
<tr>
<th>Foodstuffs (1)</th>
<th>Maximum levels (mg/kg wet weight)</th>
</tr>
</thead>
<tbody>
<tr>
<td>'3.3.1    Fishery products (26) and muscle meat of fish (24) (25), excluding species listed in 3.3.2. The maximum level for crustaceans applies to muscle meat from appendages and abdomen (44). In case of crabs and crab-like crustaceans (Brachyura and Anomura) it applies to muscle meat from appendages.</td>
<td>0,50'</td>
</tr>
</tbody>
</table>
(4) In Section 5 on dioxins and PCBs, point 5.3 is replaced by the following:

<table>
<thead>
<tr>
<th>Foodstuffs</th>
<th>Maximum levels</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Sum of dioxins (WHO-PCDD/F-TEQ) (12)</td>
</tr>
<tr>
<td>5.3 Muscle meat of fish and fishery products and products thereof, excluding eel (19) (20). The maximum level for crustaceans applies to muscle meat from appendages and abdomen (44). In case of crabs and crab-like crustaceans (Brachyura and Anomura) it applies to muscle meat from appendages.</td>
<td>4.0 pg/g wet weight</td>
</tr>
</tbody>
</table>

(5) In Section 6 on polycyclic aromatic hydrocarbons, points 6.1.3 and 6.1.5 are replaced by the following:

<table>
<thead>
<tr>
<th>Foodstuffs (21)</th>
<th>Maximum levels (mg/kg wet weight)</th>
</tr>
</thead>
<tbody>
<tr>
<td>6.1.3 Muscle meat of smoked fish and smoked fishery products (23) (26), excluding bivalve molluscs. The maximum level for smoked crustaceans applies to muscle meat from appendages and abdomen (44). In case of smoked crabs and crab-like crustaceans (Brachyura and Anomura) it applies to muscle meat from appendages.</td>
<td>5.0'</td>
</tr>
<tr>
<td>6.1.5 Crustaceans, cephalopods, other than smoked (25). The maximum level for crustaceans applies to muscle meat from appendages and abdomen (44). In case of crabs and crab-like crustaceans (Brachyura and Anomura) it applies to muscle meat from appendages.</td>
<td>5.0'</td>
</tr>
</tbody>
</table>

(6) Endnote (3) is replaced by the following: (3) Foodstuffs listed in this category as defined in Commission Directive 2006/125/EC of 5 December 2006 on processed cereal-based foods and baby foods for infants and young children (OJ L 339, 6.12.2006, p. 16).

(7) Endnote (16) is replaced by the following: (16) Infants and young children as defined in Directive 2006/141/EC (OJ L 401, 30.12.2006, p. 1) and Directive 2006/125/EC.

(8) The following endnotes (43) and (44) are added:

'(43) The maximum level for leaf vegetables does not apply to fresh herbs (falling under Code number 0256000 in Annex I to Regulation (EC) No 396/2005).

(44) This definition excludes the cephalothorax of crustaceans.'
