

I

(Acts whose publication is obligatory)

COUNCIL REGULATION (EC) No 2848/2000**of 15 December 2000**

fixing for 2001 the fishing opportunities and associated conditions for certain fish stocks and groups of fish stocks, applicable in Community waters and, for Community vessels, in waters where limitations in catch are required

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture ⁽¹⁾, and in particular Article 8(4) thereof,

Having regard to Council Regulation (EC) No 66/98 of 18 December 1997 laying down certain conservation and control measures applicable to fishing activities in the Antarctic and repealing Regulation (EC) No 2113/96 ⁽²⁾, and in particular Article 21 thereof,

Having regard to the 1994 Act of Accession, and in particular Articles 121 and 122 thereof,

Having regard to the proposal of the Commission,

Whereas:

- (1) Article 4 of Regulation (EEC) No 3760/92 requires the Council to adopt, in the light of the available scientific advice and, in particular, of the report prepared by the Scientific, Technical and Economic Committee for Fisheries, the measures necessary to ensure the rational and responsible exploitation of resources on a sustainable basis.
- (2) Under the terms of Article 8(4) of Regulation (EEC) No 3760/92, it is incumbent upon the Council, in accordance with Article 4 of that Regulation, to establish the total allowable catches (TAC) by fishery or group of fisheries. Fishing opportunities should be allocated to Member States and third countries in accordance with Article 8(4)(ii) and (vi) of that Regulation.

- (3) In order to ensure effective management of these TACs and quotas, the specific conditions under which fishing operations occur should be established.
- (4) It is necessary to establish the principles and certain procedures of fishery management at Community level, so that Member States can ensure the management of the vessels flying their flag.
- (5) In accordance with the provisions laid down in Article 2 of Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas ⁽³⁾, it is necessary to indicate which stocks are subject to the various measures fixed therein.
- (6) In accordance with the procedure provided for in the agreements or protocols on fisheries relations, the Community has held consultations on fishing rights with the Kingdom of Norway ⁽⁴⁾, the Government of Denmark and the Home Government of the Faroe Islands ⁽⁵⁾ and the Home Rule Government of Greenland ⁽⁶⁾, the Republic of Iceland ⁽⁷⁾, the Republic of Estonia ⁽⁸⁾, the Republic of Latvia ⁽⁹⁾ and the Republic of Lithuania ⁽¹⁰⁾.
- (7) Pursuant to Article 122 of the 1994 Act of Accession, the conditions under which allocations made within the framework of the Accession of Austria, Finland and Sweden can be fished will remain identical to those applicable immediately prior to the entry into force of the 1994 Accession Treaty.
- (8) Pursuant to Article 124 of the 1994 Act of Accession, fisheries agreements concluded by the Kingdom of Sweden and the Republic of Finland with third countries are managed by the Community. In accordance with

⁽³⁾ OJ L 115, 9.5.1996, p. 3.

⁽⁴⁾ OJ L 226, 29.8.1980, p. 48.

⁽⁵⁾ OJ L 226, 29.8.1980, p. 12.

⁽⁶⁾ OJ L 29, 1.2.1985, p. 9.

⁽⁷⁾ OJ L 161, 2.7.1993, p. 1.

⁽⁸⁾ OJ L 332, 20.12.1996, p. 16.

⁽⁹⁾ OJ L 332, 20.12.1996, p. 1.

⁽¹⁰⁾ OJ L 332, 20.12.1996, p. 6.

⁽¹⁾ OJ L 389, 31.12.1992, p. 1. Regulation as last amended by Regulation (EC) No 1181/98 (OJ L 164, 9.6.1998, p. 1).

⁽²⁾ OJ L 6, 10.1.1998, p. 1. Regulation as amended by Regulation (EC) No 2742/1999 (OJ L 341, 31.12.1999, p. 1).

these agreements, the Community has held consultations with the Republic of Poland and with the Russian Federation.

- (9) The Community is a Contracting Party to several regional fisheries organisations. These fisheries organisations have recommended the setting of catch limitations and other conservation rules for certain species. These recommendations should therefore be implemented by the Community.
- (10) For reasons of stock conservation, the Inter-American Tropical Tuna Commission (IATTC) has agreed to set catch limitations for certain tuna-like stocks in the Pacific Ocean. It is appropriate that the Community adheres to these limitations in order to collaborate in the conservation of these stocks.
- (11) The execution of fishing opportunities should be in accordance with the Community legislation on the matter, and in particular with Council Regulation (EEC) No 2847/93 of 12 October 1993 establishing a control system applicable to the common fisheries policy⁽¹⁾, Council Regulation (EC) No 1626/94 of 27 June 1994 laying down certain technical measures for the conservation of fishery resources in the Mediterranean⁽²⁾, Council Regulation (EC) No 1627/94 of 27 June 1994 laying down general provisions concerning special fishing permits⁽³⁾, Regulation (EC) No 66/98, Council Regulation (EC) No 88/98 of 18 December 1997 laying down certain technical measures for the conservation of fishery resources in the waters of the Baltic Sea, the Belts and the Sound⁽⁴⁾ and Council Regulation (EC) No 850/98 of 30 March 1998 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms⁽⁵⁾.
- (12) The duration of the application of certain provisions is limited in order to enable the Commission to adopt provisions in conformity with Article 28c of Regulation (EEC) No 2847/93.
- (13) In order to contribute to the conservation of fish stocks, certain complementary measures on control and technical conditions of fishing should be implemented in 2001.
- (14) In order to contribute to the conservation of certain species of fish living in deep waters, TAC and quota management should be implemented for these species.
- (15) In order to comply with international obligations undertaken by the Community as a Contracting Party to the Convention for the Conservation of Antarctic Marine Living Resources (CCAMLR), and accordingly the obligation to apply the measures adopted by the CCAMLR Commission, the relevant dates of application are those corresponding to the beginning of the respective periods of application of the TACs as specified in Annex IG,
- (16) In order to ensure the livelihood of Community fishermen, it is important to open these fisheries on 1 January 2001. Given the urgency of the matter, it is imperative to grant an exception to the six-week period mentioned in paragraph I(3) of the Protocol on the role of the national Parliaments of the European Union, annexed to the Treaty on the European Union and the Treaties establishing the European Communities.

HAS ADOPTED THIS REGULATION:

CHAPTER I

SCOPE AND DEFINITIONS

Article 1

1. This Regulation fixes for 2001, for certain fish stocks and groups of fish stocks, fishing opportunities applicable to:

- (i) vessels flying the flag and registered in Member States, hereinafter 'Community vessels' or 'EC vessels' in zones where catch limitations are required; and
- (ii) vessels flying the flag and registered in third countries, hereinafter 'third-country vessels' in waters falling within the sovereignty or jurisdiction of Member States, hereinafter 'Community waters' or 'EC waters';
- and the specific conditions under which these fishing opportunities may be utilised.

⁽¹⁾ OJ L 261, 20.10.1993, p. 1. Regulation as last amended by Regulation (EC) No 2846/98 (OJ L 358, 31.12.1998, p. 5).

⁽²⁾ OJ L 171, 6.7.1994, p. 1. Regulation as last amended by Regulation (EC) No 2550/2000 (OJ L 292, 21.11.2000, p. 7).

⁽³⁾ OJ L 171, 6.7.1994, p. 7.

⁽⁴⁾ OJ L 9, 15.1.1998, p. 1. Regulation as last amended by Regulation (EC) No 1520/98 (OJ L 201, 17.7.1998, p. 1).

⁽⁵⁾ OJ L 125, 27.4.1998, p. 1. Regulation as last amended by Regulation (EC) No 1298/2000 (OJ L 148, 22.6.2000, p. 1).

However, for certain Antarctic stocks, fishing opportunities are fixed for the period specified in Annex IG.

2. For the purposes of this Regulation, fishing opportunities shall take the form of:

- (a) TACs or the number of vessels authorised to fish and/or the duration of these authorisations;
- (b) shares of the TACs available to the Community;
- (c) quotas allocated to the Community in third countries' waters;
- (d) allocation of Community fishing opportunities under (b) and (c) to Member States in the form of quotas;
- (e) allocation to third countries of quotas to be fished in Community waters.

Article 2

1. The definitions of ICES⁽¹⁾, CECAF⁽²⁾ (Eastern Central Atlantic or FAO major fishing zone 34), NAFO⁽³⁾ and CCAMLR⁽⁴⁾ zones are those given, respectively, in Council Regulation (EEC) No 3880/91 of 17 December 1991 on the submission of nominal catch statistics by Member States fishing in the Northeast Atlantic⁽⁵⁾, Council Regulation (EC) No 2597/95 of 23 October 1995 on the submission of nominal catch statistics by Member States fishing in certain

areas other than those of the North Atlantic⁽⁶⁾, Council Regulation (EEC) No 2018/93 of 30 June 1993 on the submission of catch and activity statistics by Member States fishing in the Northwest Atlantic⁽⁷⁾ and Regulation (EC) No 66/98.

2. For the purposes of this Regulation, the following definitions shall apply:

- (a) NAFO regulatory area shall be the part of the area of the NAFO Convention not falling under the sovereignty or within the jurisdiction of coastal States;
- (b) the Skagerrak shall be bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast;
- (c) the Kattegat shall be bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gribens Spids, from Korshage to Spodsbjerg and from Gilbjerg Hoved to Kullen;
- (d) the North Sea shall comprise ICES subarea IV and that part of ICES division IIIa which is not covered by the definition of the Skagerrak given in point (b);
- (e) management unit 3 shall comprise ICES subdivisions 30 and 31 and the part of subdivision 29 situated north of 59° 30' N.

CHAPTER II

FISHING OPPORTUNITIES AND ASSOCIATED CONDITIONS FOR COMMUNITY VESSELS

Article 3

1. Fishing opportunities for Community vessels in Community waters or in international waters are hereby fixed as set out in Annexes I and II.

2. Community vessels are hereby authorised to make catches, within the quota limits set out in Annex I, in waters falling within the fisheries jurisdiction of Estonia, the Faroe Islands, Greenland, Iceland, Lithuania, Latvia, Norway and the fishing zone around Jan Mayen, Poland and the Russian Federation, subject to the conditions stipulated under Articles 7 and 12.

3. The amounts to be paid in conformity with the Agreements on fisheries relations between the European Community and the Republics of Estonia, Latvia and Lithuania for the year 2001 shall be set as follows:

Country	Financial contribution
Estonia	EUR 342 858
Latvia	EUR 186 420
Lithuania	EUR 514 863

These contributions shall be payable to accounts designated by the authorities of the State concerned.

⁽¹⁾ International Council for the Exploration of the Sea.

⁽²⁾ Committee for Eastern Central Atlantic Fisheries.

⁽³⁾ Northwest Atlantic Fisheries Organisation.

⁽⁴⁾ Convention for the Conservation of Antarctic Marine Living Resources.

⁽⁵⁾ OJ L 365, 31.12.1991, p. 1.

⁽⁶⁾ OJ L 270, 13.11.1995, p. 1.

⁽⁷⁾ OJ L 186, 28.7.1993, p. 1. Regulation as amended by the 1994 Act of Accession.

Article 4

The allocation of fishing opportunities among Member States shall be without prejudice to:

- (a) exchanges made pursuant to Article 9(1) of Regulation (EEC) No 3760/92;
- (b) reallocations made pursuant to Articles 21(4), 23(1) and 32(2) of Regulation (EEC) No 2847/93;
- (c) additional landings allowed under the stipulations of Article 3 of Regulation (EC) No 847/96;
- (d) quantities withheld in accordance with Article 4 of Regulation (EC) No 847/96;
- (e) deductions made pursuant to Article 5 of Regulation (EC) No 847/96.

*Article 5***Quota flexibility**

The stocks which are subject to a precautionary or to an analytical TAC, the stocks to which the year-to-year flexibility conditions stipulated in Articles 3 and 4 of Regulation (EC) No 847/96 shall not apply, and the stocks to which the penalty coefficients provided for in Article 5(2) of the same Regulation shall apply, are fixed for 2001 in Annex III.

*Article 6***Conditions for landing catch and by-catch**

1. Fish from stocks for which fishing opportunities are fixed shall not be retained on board or landed unless:
 - (i) the catches have been taken by vessels of a Member State or a third country having a quota and that quota is not exhausted; or
 - (ii) where the Community share of the TAC has not been allocated by quota among Member States, it has not been exhausted; or

(iii) for all species other than herring and mackerel, where they are mixed with other species, the catches have been taken with nets whose mesh size is 32 mm or less in regions 1 and 2, or 40 mm or less in region 3 in accordance with Article 4 of Regulation (EC) No 850/98, and are not sorted either on board or on landing; or

(iv) for herring, catches comply with the provisions set out in Article 2 of Council Regulation (EC) No 1434/98 of 29 June 1998 specifying conditions under which herring may be landed for purposes other than direct human consumption⁽¹⁾; or

(v) for mackerel, where they are mixed with horse mackerel or pilchards, the mackerel does not exceed 10 % of the total weight of mackerel, horse mackerel and pilchard on board, and the catches are not sorted; or

(vi) catches are taken during the course of scientific investigations carried out under Regulation (EC) No 850/98.

All landings shall count against the quota or, if the Community share has not been allocated between Member States by quotas, against the Community share, except for catches made under the provisions of (iii), (iv), (v) and (vi).

2. Notwithstanding paragraph 1, when any of the fishing opportunities indicated in Annex II are exhausted, it shall be prohibited for vessels operating within the fisheries to which the relevant catch limitations apply to land catches which are unsorted and which contain herring.

3. The determination of the percentage of by-catches and their disposal shall be made in accordance with Article 4 of Regulation (EC) No 850/98.

*Article 7***Access limits**

1. No fishing by Community vessels shall take place in the Skagerrak within 12 nautical miles from the baselines of Norway. However, vessels flying the flag of Denmark or Sweden shall be allowed to fish up to four miles from the baselines of Norway.

2. Fishing by Community vessels in waters under the jurisdiction of Iceland shall be limited to the area defined by straight lines sequentially connecting the following coordinates:

⁽¹⁾ OJ L 191, 7.7.1998, p. 10.

South-western area

1. 63° 12' N and 23° 05' W through 62° 00' N and 26° 00' W

2. 62° 58' N and 22° 25' W

3. 63° 06' N and 21° 30' W

4. 63° 03' N and 21° 00' W from there 180° 00' S;

South-eastern area

1. 63° 14' N and 10° 40' W

2. 63° 14' N and 11° 23' W

3. 63° 35' N and 12° 21' W

4. 64° 00' N and 12° 30' W

5. 63° 53' N and 13° 30' W

6. 63° 36' N and 14° 30' W

7. 63° 10' N and 17° 00' W from there 180° 00' S.

*Article 8***Special conditions for North Sea herring**

The measures set out in Annex IV shall apply with regard to the capture, sorting and landing of herring taken from the North Sea, the Skagerrak and the Kattegat.

*Article 9***Other technical and control measures**

The technical measures set out in Annex V shall apply in 2001 in addition to those set out in Regulation (EC) No 850/98, Regulation (EC) No 88/98 and Regulation (EC) No 1626/94.

CHAPTER III

FISHING OPPORTUNITIES AND ASSOCIATED CONDITIONS FOR THIRD-COUNTRY VESSELS*Article 10*

Vessels flying the flag of Barbados, Estonia, Guyana, Japan, South Korea, Lithuania, Latvia, Norway, Poland, the Russian Federation, Suriname, Trinidad and Tobago and Venezuela and vessels registered in the Faroe Islands are hereby authorised to make catches, within the quota limits set out in Annex I, in Community waters, and subject to the conditions stipulated under Articles 11 and 13.

Article 11

Without prejudice to access restrictions stated in Community law, fishing by vessels flying the flag of:

(i) Norway or registered in the Faroe Islands shall be limited to those parts of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of Member States in the North Sea, the Kattegat, the Baltic Sea and the Atlantic Ocean north of 43° 00' N; fishing in the

Skagerrak by vessels flying the flag of Norway shall be allowed seawards of four nautical miles from the baselines of Denmark and Sweden;

(ii) Estonia, Latvia and Lithuania shall be limited to those parts of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of Member States in the Baltic Sea south of 59° 30' N;

(iii) Poland or the Russian Federation shall be limited to those parts of the Swedish part of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of Sweden in the Baltic Sea south of 59° 30' N;

(iv) Barbados, Guyana, Suriname, Trinidad and Tobago, Japan, South Korea and Venezuela shall be limited to those parts of the 200-nautical-mile zone lying seawards of 12 nautical miles from the baselines of the French department of Guiana.

CHAPTER IV

LICENSING ARRANGEMENTS FOR COMMUNITY VESSELS*Article 12*

1. Notwithstanding the general rules on fishing licences and special fishing permits provided for in Regulation (EC) No 1627/94, fishing in waters of third countries shall be subject to the holding of a licence issued by the authorities of the third country. However, these provisions shall not apply, when fishing in Norwegian waters of the North Sea, to:

- (a) vessels of a tonnage equal to or less than 200 GT;
- (b) vessels carrying out fisheries for human consumption for species other than mackerel;
- (c) Swedish vessels, in line with established practice.

2. The maximum number of licences and other associated conditions is hereby fixed as set out in Annex VI. Requests for licences shall indicate the types of fishing and the name and characteristics of the vessels for which licences are to be issued and shall be addressed by the authorities of the Member States to the Commission. The Commission shall submit these requests to the authorities of the third country concerned.

3. Community vessels shall comply with the conservation and control measures and all other provisions governing the zone in which they operate.

4. Community vessels licensed to conduct a directed fishery for one species in waters of the Faroe Islands may conduct directed fishery for another species on condition of prior notification of the change to the Faroese authorities.

CHAPTER V

LICENSING ARRANGEMENTS FOR THIRD COUNTRY VESSELS*Article 13*

1. Notwithstanding Article 28b of Regulation (EC) No 2847/93 Norwegian vessels of less than 200 GT are exempted from the obligation to have a licence and a fishing permit.

2. An application for a licence and special a fishing permit from an authority of a third country to the Commission shall be accompanied by the following information:

- (a) name of the vessel;
- (b) registration number;
- (c) external identification letters and numbers;
- (d) port of registration;
- (e) name and address of the owner or charterer;
- (f) gross tonnage and overall length;
- (g) engine power;
- (h) call sign and radio frequency;
- (i) intended method of fishing;
- (j) intended area of fishing;

(k) species for which it is intended to fish;

(l) period for which a licence is required.

3. The licence and special fishing permit shall be kept on board. Vessels registered in the Faroe Islands or Norway shall be exempted from that obligation.

4. The granting of licences to fish in the waters of the French department of Guiana shall be subject to the undertaking by the owner of the vessel concerned to permit an observer to come on board at the Commission's request.

5. The number of licences and the special associated conditions are hereby fixed as set out in Annex VI, Part II.

6. Vessels from third countries authorised to fish on 31 December 2000 may continue to fish as from the beginning of the year 2001 until the list of vessels authorised to fish is submitted to and approved by the Commission.

7. Licences and special fishing permits may be cancelled with a view to the issue of new licences and special fishing permits. Such cancellations shall take effect on the day before the date of issue of the new licences and special fishing permits by the Commission. New licences and special fishing permits shall take effect from their date of issue.

8. Licences and special fishing permits shall be wholly or partially withdrawn before the date of expiry if the quota for the stock in question fixed in Annex I has been exhausted.

9. Licences and special fishing permits shall be withdrawn in the event of any failure to meet the obligations laid down in this Regulation.

10. For a period not exceeding 12 months, no licence and special fishing permit shall be issued for any vessel in respect of which the obligations laid down in this Regulation have not been met.

11. The Commission shall submit to the authorities of the third country concerned the names and characteristics of the vessels which shall not be authorised to fish in the Community fishing zone for the following month or months as a consequence of an infringement of the relevant rules.

Article 14

1. Third-country vessels shall comply with the conservation and control measures and other provisions governing fishing by Community vessels in the zone in which they operate, in particular Regulations (EEC) No 2847/93, (EC) No 1627/94, (EC) No 88/98, (EC) No 850/98 and Commission Regulation (EEC) No 1381/87 of 20 May 1987 establishing detailed rules concerning the marking and documentation of fishing vessels⁽¹⁾.

2. The master of each vessel in possession of a licence for finfish or tuna fishing in the waters of the French department of Guiana shall, on landing the catch after each trip, submit to the French authorities a declaration, for whose accuracy the

master alone is responsible, stating the quantities of shrimp caught and kept on board since the last declaration. This declaration shall be made using the form of which a model appears in Annex VI, Part III.

The French authorities shall take all appropriate measures to verify the accuracy of the declarations, by checking them in particular against the logbook referred to in paragraph 3. The declaration shall be signed by the competent official after it has been verified.

Before the end of each month, the French authorities shall send to the Commission all the declarations relating to the preceding month.

3. The vessels referred to in paragraph 1 shall keep a logbook in which the information set out in Annex VII, Part I, shall be entered.

However, the vessels fishing in the waters of the French department of Guiana, shall keep a logbook corresponding to the model appearing in Annex VII, Part II. A copy of this logbook shall be sent to the Commission within 30 days of the last day of each fishing trip via the French authorities.

4. Third-country vessels, except Norwegian vessels fishing in ICES Division IIIa, shall transmit to the Commission, in accordance with the rules laid down in Annex VIII, the information set out in that Annex.

If, for a period of one month, the Commission receives no communication concerning a vessel in possession of a licence to fish in waters of the French department of Guiana, the licence of that vessel shall be withdrawn.

CHAPTER VI

SPECIAL PROVISIONS FOR COMMUNITY VESSELS FISHING IN AREAS COVERED BY REGIONAL FISHERIES ORGANISATIONS

AREA OF NAFO

Article 15

Community participation

1. Member States shall forward to the Commission a list of all vessels flying their flag and registered in the Community which intend to take part in the fishing activities in the NAFO Regulatory Area not later than 20 January 2001 or, thereafter,

at least 30 days before the intended commencement of such activity. The information forwarded shall include:

- (a) name of vessel;
- (b) official registration number of the vessel assigned by the competent national authorities;
- (c) home port of the vessel;
- (d) name of owner or charterer of the vessel;

⁽¹⁾ OJ L 132, 21.5.1987, p. 9.

(e) a declaration that the master has been provided with a copy of the regulations in force in the NAFO Regulatory Area;

(f) the principal species fished by the vessel in the NAFO Regulatory Area;

(g) the subareas where the vessel may be expected to fish.

2. For vessels temporarily flying the flag of a Member State (bare boat charter), the information forwarded shall include:

(a) date as from which the vessel has been authorised to fly the flag of the Member State;

(b) date as from which the vessel has been authorised by the Member State to engage in fishing in the NAFO Regulatory Area;

(c) name of the State where the vessel is registered or has been previously registered and the date as from which it ceased flying the flag of that State;

(d) name of the vessel;

(e) official registration number of the vessel assigned by the competent national authorities;

(f) home port of the vessel after the transfer;

(g) name of owner or charterer of the vessel;

(h) a declaration that the master has been provided with a copy of the regulations in force in the NAFO Regulatory Area;

(i) the principal species fished by the vessel in the NAFO Regulatory Area;

(j) the subareas where the vessel may be expected to fish.

Article 16

Greenland halibut fishery

Member States shall transmit to the Commission the fishing plan for their vessels fishing for Greenland halibut in the NAFO Regulatory Area not later than 20 January 2001 or, thereafter, at least 30 days before the intended commencement of such activity. The fishing plan shall identify, *inter alia*, the vessel or vessels which will engage in this fishery. The fishing plan shall represent the total fishing effort to be deployed with respect to this fishery in relation to the extent of the fishing opportunities available to the Member State making the notification.

Member States shall, no later than 31 December 2001, report to the Commission on the implementation of their fishing plans, including the number of vessels actually engaged in this fishery and the total number of days fished.

Article 17

Technical measures

1. Mesh sizes

The use of trawl net having in any section thereof net meshes of dimensions less than 130 mm shall be prohibited for direct fishing of the species referred to in Annex IX. This mesh size shall be reduced to 60 mm for direct fishing of short-finned squid.

Vessels fishing for shrimp (*Pandalus borealis*) shall use nets with a minimum mesh size of 40 mm.

2. Attachments to nets

The use of any means or device other than those described in this paragraph which obstructs the meshes of a net or which diminishes their size shall be prohibited.

Canvas, netting or any other material may be attached to the underside of the cod end in order to reduce or prevent damage.

Devices may be attached to the upper side of the cod end provided that they do not obstruct the meshes of the cod end. The use of topside chafers shall be limited to those mentioned in Annex X.

Vessels fishing for shrimp (*Pandalus borealis*) shall use sorting grids or grates with a maximum spacing between bars of 22 mm.

3. By-catches

By-catches of the species listed in Annex Ie for which no quotas have been fixed by the Community for a part of the NAFO Regulatory Area and taken in that part when fishing directly for any species may not exceed for each species on board 2 500 kg or 10 % by weight of all fish on board, whichever is the greater. However, in a part of the Regulatory Area where directed fishing of certain species is banned, by-catches of each of the species listed in Annex Ie may not exceed 1 250 kg or 5 % respectively.

Whenever the total amounts of species subject to by-catch limits in any haul exceed the limits laid down above, whichever is applicable, vessels shall immediately change fishing area and move a minimum of five nautical miles away from the previous haul. Whenever the total amounts of species subject to by-catch limits in any future haul exceed the said

limits, vessels shall again immediately change fishing area and move a minimum of five nautical miles away from the previous hauls.

For vessels fishing for shrimp (*Pandalus borealis*), in the event that total by-catches of all species listed in Annex Ie in any haul exceed 5 % by weight, vessels shall immediately change fishing area (minimum five nautical miles) in order to seek to avoid further by-catches of this species.

The percentages above are calculated as the percentage by weight, for each species, of the total catch excluding the catch of species subject to by-catch limits and are based on the catch taken by stock area.

Catches of shrimp shall not be used in the calculation of by-catch level of groundfish species.

4. Minimum size of fish

Fish from the NAFO Regulatory Area which do not have the size required as set out in Annex XI may not be processed, retained on board, transhipped, landed, transported, stored, sold, displayed or offered for sale, but shall be returned immediately to the sea. Where the quantity of caught fish not having the required size exceeds in certain fishing waters 10 % of the total quantity, the vessel must move away to a distance of at least five nautical miles before continuing fishing. Any processed fish of a species for which a minimum fish size is set out in Annex XI that is below the relevant size set out in Annex XII, shall be deemed to originate from fish that is below the minimum fish size.

Article 18

Control measures

1. In addition to complying with Articles 6, 8, 11 and 12 of Regulation (EEC) No 2847/93, masters of vessels shall enter in the logbook the information listed in Annex XIII.

In complying with Article 15 of the said Regulation, Member States shall also inform the Commission of catches of species not subject to quota.

2. When fishing directly for one or more of the species listed in Annex IX, vessels may not carry nets the mesh size of which is smaller than that laid down in Article 17(1). However, vessels fishing in the course of the same voyage in areas other than the NAFO Regulatory Area may keep such nets on board provided these nets are securely lashed and stowed and are not available for immediate use, that is to say:

(a) nets shall be unshackled from their boards and their hauling or trawling cables and ropes; and

(b) nets carried on or above the deck must be lashed securely to a part of the superstructure.

3. The masters of vessels flying the flag of a Member State and registered in the Community shall, in respect of catches of the species listed in Annex Ie, keep:

(a) a logbook stating, by species and by processed product, the aggregate output; or

(b) a storage plan of products processed, indicating, by species, where they are located in the hold.

The masters shall provide the necessary assistance to enable the quantities declared in the logbook and the processed products stored on board to be verified.

4. The masters of vessels flying the flag of a Member State and registered in the Community, fishing for redfish in zone 3M, shall notify every second Monday to the competent authorities of the Member State whose flag the vessel is flying or in which the vessel is registered the quantities of redfish caught in zone 3M in the two-week period ending at 12 midnight on the previous Sunday.

5. Vessels flying the flag of a Member State and registered in the Community shall not engage in transhipment operations in the NAFO Regulatory Area unless they have received prior authorisation to do so from the competent authorities of the Member States whose flag the vessel is flying or in which the vessel is registered.

Article 19

Redfish fishery

Member States shall report to the Commission every second Tuesday before 12 noon for the fortnight ending at 12 midnight on the previous Sunday the quantities of redfish caught in division 3M of the NAFO Regulatory Area by vessels flying the flag of a Member State and registered in the Community.

Article 20

Statistical and scientific data

1. Member States shall provide, for vessels flying their flag and registered in the Community and fishing for yellowtail flounder in division 3LNO of the NAFO Regulatory Area:

(a) nominal catch and discard statistics, broken down by unit areas no larger than 1° latitude and 1° longitude, based upon the relevant entries in the logbook as provided for by Article 18(1), summarised on a monthly basis;

- (b) length sampling for both nominal catches and discards, with a sampling intensity on the same scale as adopted in (a) and summarised on a monthly basis.

2. Member States shall supply, for vessels flying their flag and registered in the Community and conducting redfish and flatfish fisheries on the Flemish Cap:

- (a) in addition to the normal reports, statistics on discards of cod, based upon the relevant entries in the logbook as provided for by Article 18(1), summarised on a monthly basis;
- (b) length samples of cod for the two fisheries separately, with depth information accompanying each sample, summarised on a monthly basis.

3. Length samples shall be taken from all parts of the respective catch of each species concerned in such a manner that at least one statistically significant sample is taken from the first haul taken each day. The size of a fish shall be measured from the tip of the snout to the end of the tail fin.

Length samples taken as described in the first subparagraph shall be deemed to be representative of all catches of the species concerned.

AREA OF CCAMLR

Article 21

1. Direct fishing of the species set out in Annex XIV shall be prohibited in the zones and during the periods indicated therein.

2. The specific conditions under which the fishing opportunities in the area of CCAMLR may be utilised, are as follows:

- (a) if, in the course of directed fishing for *Champsocephalus gunnari* in statistical subarea 48.3, the by-catch in any one haul of any of the species *Gobionotothen gibberifrons*, *Chaenocephalus aceratus*, *Pseudochaenichthys georgianus*, *Notothenia rossii* or *Lepidonotothen squamifrons*:
- (i) is greater than 100 kg and exceeds 5 % of the total catch of all fish by weight; or
- (ii) is equal to or greater than two tonnes;

then the fishing vessel shall move to another fishing location not closer than five nautical miles away. The

fishing vessel shall not return to any point within five nautical miles of the location in which the by-catch exceeded 5 %, for a period of at least five days;

- (b) if, in the course of directed fishing for *Champsocephalus gunnari* in statistical subarea 48.3 or Statistical Division 58.5.2, any haul contains more than 100 kg of *Champsocephalus gunnari*, and more than 10 % of the *Champsocephalus gunnari* by number are smaller than 24 cm in total length, the fishing vessel shall move to another fishing location not closer than five nautical miles away. It shall not return to any point within five nautical miles of the location in which the catch of *Champsocephalus gunnari* being smaller than 24 cm in total length exceeded 10 %, for a period of at least five days;
- (c) if, in the course of directed fishing for *Electrona carlsbergi*, the by-catch in any one haul of any of the species *Gobionotothen gibberifrons*, *Chaenocephalus aceratus*, *Pseudochaenichthys georgianus*, *Notothenia rossii* or *Lepidonotothen squamifrons*:

(i) is greater than 100 kg and exceeds 5 % of the total catch of all fish by weight; or

(ii) is equal to or greater than two tonnes;

then the fishing vessel shall move to another fishing location not closer than five nautical miles away. It shall not return to any point within five nautical miles of the location in which the by-catch exceeded 5 %, for a period of at least five days;

- (d) if, in the course of directed fishing for *Dissostichus eleginoides* or *Champsocephalus gunnari* in statistical subarea 58.5.2, the by-catch in any haul of any of the species *Lepidonotothen squamifrons* or *Channichthys rhinoceratus*, is equal to or greater than two tonnes, then the fishing vessel shall not fish using the same method of fishing at any point within five nautical miles of the location where the by-catch exceeded two tonnes, for a period of at least five days;
- (e) location in which the by-catch exceeds the rates referred to in this paragraph is defined as the course followed by the fishing vessel from the point where the gear was first deployed to the point where it was brought back on board;
- (f) the total number and weight of *Dissostichus eleginoides* discarded, including those with the jellymeat condition, shall be reported. These fish will count against the total allowable catch.

CHAPTER VII

FINAL PROVISION*Article 22*

This Regulation shall enter into force on 1 January 2001.

Where the TACs of the CCAMLR area are set for periods starting prior to 1 January 2001, Article 21 shall apply with effect from the beginning of the respective periods of application of the TACs.

Annex VIII shall remain in force only until the date of entry into force of the detailed implementing rules referred to in Article 28h of Regulation (EEC) No 2847/93.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 15 December 2000.

For the Council

The President

J. GLAVANY

ANNEX I

FISHING OPPORTUNITIES APPLICABLE FOR COMMUNITY VESSELS IN AREAS WHERE CATCH LIMITATIONS EXIST AND FOR VESSELS FROM THIRD COUNTRIES IN COMMUNITY WATERS, BY SPECIES AND BY AREA (IN TONNES LIVE WEIGHT, EXCEPT WHERE OTHERWISE SPECIFIED)

All catch limitations set out in this Annex are considered as quotas for the purposes of Article 7, and shall, therefore, be subject to the rules set out in Regulation (EEC) No 2847/93, in particular Articles 14 and 15 thereof.

The 7 parts of this Annex correspond to the major fishing areas as indicated below:

- Annex Ia: Baltic Sea
- Annex Ib: North Sea, Skagerrak and Kattegat
- Annex Ic: North-east Atlantic, including Greenland waters (ICES areas I, II, IIIa, IV, V, XII, XIV and NAFO 0,1 (Greenland waters))
- Annex Id: Western Community waters (ICES areas Vb (EC waters), VI, VII, VIII, IX, X, area of CECALF (EC waters), and waters off French Guiana.
- Annex Ie: North-west Atlantic (area of NAFO)
- Annex If: Highly migratory fish (all areas)
- Annex Ig: Antarctic (area of CCAMLR)

Within each area fish stocks are referred to following the alphabetical order of the Latin names of the species. A table of correspondences of common names and Latin names is given below for the purposes of this Regulation:

Common name	Scientific name	Common name	Scientific name
Albacore	<i>Germo alalunga</i>	Dab	<i>Limanda limanda</i>
Alfonsinos	<i>Beryx spp.</i>	Flounder	<i>Platichthys flesus</i>
American plaice	<i>Hippoglossoides platessoides</i>	Forkbeards	<i>Phycis spp.</i>
Anchovy	<i>Engraulis encrasicolus</i>	Greater silver smelt	<i>Argentina silus</i>
Anglerfish	<i>Lophiidae</i>	Greenland halibut	<i>Reinhardtius hippoglossoides</i>
Antarctic icefish	<i>Champsocephalus gunnari</i>	Grey rockcod	<i>Lepidonotothen squamifrons</i>
Atlantic catfish	<i>Anarhichas lupus</i>	Haddock	<i>Melanogrammus aeglefinus</i>
Atlantic halibut	<i>Hippoglossus hippoglossus</i>	Hake	<i>Merluccius merluccius</i>
Atlantic salmon	<i>Salmo salar</i>	Herring	<i>Clupea harengus</i>
Basking shark	<i>Cetorhinus maximus</i>	Horse mackerel	<i>Trachurus spp.</i>
Bigeye tuna	<i>Thunnus obesus</i>	Humped rockcod	<i>Gobionotothen gibberifrons</i>
Black scabbardfish	<i>Aphanopus carbo</i>	Krill	<i>Euphausia superba</i>
Blackfin icefish	<i>Chaenocephalus aceratus</i>	Lantern fish	<i>Electrona carlsbergi</i>
Blue ling	<i>Molva dypterygia</i>	Lemon sole	<i>Microstomus kitt</i>
Blue whiting	<i>Micromesistius poutassou</i>	Ling	<i>Molva molva</i>
Bluefin tuna	<i>Thunnus thynnus</i>	Mackerel	<i>Scomber scombrus</i>
Capelin	<i>Mallotus villosus</i>	Marbled rockcod	<i>Notothenia rossii</i>
Cod	<i>Gadus morhua</i>	Megrim	<i>Lepidorhombus spp.</i>
Common sole	<i>Solea solea</i>	Northern prawn	<i>Pandalus borealis</i>
Crab	<i>Paralomis spp.</i>		

Common name	Scientific name
Norway lobster	<i>Nephrops norvegicus</i>
Norway pout	<i>Trisopterus esmarki</i>
Orange roughy	<i>Hoplostethus atlanticus</i>
'Penaeus' shrimps	<i>Penaeus</i> spp.
Plaice	<i>Pleuronectes platessa</i>
Pollack	<i>Pollachius pollachius</i>
Porbeagle	<i>Lamna nasus</i>
Redfish	<i>Sebastes</i> spp.
Red seabream	<i>Pagellus bogaraveo</i>
Roughhead grenadier	<i>Macrourus berglax</i>
Roundnose grenadier	<i>Coryphaenoides rupestris</i>
Saithe	<i>Pollachius virens</i>
Sand eel	<i>Ammodytidae</i>
Shortfin squid	<i>Illex illecebrosus</i>

Common name	Scientific name
Skates and rays	<i>Rajidae</i>
South Georgian icefish	<i>Pseudochaenichthys georgianus</i>
Spanish ling	<i>Molva macrophthalmus</i>
Sprat	<i>Sprattus sprattus</i>
Spurdog	<i>Squalus acanthias</i>
Swordfish	<i>Xiphias gladius</i>
Toothfish	<i>Dissostichus eleginoides</i>
Turbot	<i>Psetta maxima</i>
Tusk	<i>Brosme brosme</i>
Whiting	<i>Merlangius merlangus</i>
Witch flounder	<i>Glyptocephalus cynoglossus</i>
Yellowfin tuna	<i>Thunnus albacares</i>
Yellowtail flounder	<i>Limanda ferruginea</i>

ANNEX Ia

BALTIC SEA

All TACs in this area, except for plaice, are adopted in the framework of IBSFC.

Species: Herring <i>Clupea harengus</i>	Zone: Management Unit 3
Finland	59 030
Sweden	12 970
EC	72 000
TAC	72 000

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

	IIIbcd, except Management Unit 3
Sweden	8 000

Species: Herring <i>Clupea harengus</i>	Zone: IIIbcd (EC waters), except Management Unit 3
Denmark	16 904
Germany	51 261
Finland	19 163
Sweden	70 522
EC	157 850
Estonia	2 000 ⁽¹⁾
Latvia	1 000 ⁽²⁾
Lithuania	500 ⁽³⁾
Poland	4 000 ⁽⁴⁾
Russian Federation	p.m.
TAC	300 000

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

	Estonian waters	Latvian waters	Lithuanian waters	Management Unit 3
EC	2 000	1 000	500	
Sweden				8 000

Species: Herring <i>Clupea harengus</i>	Zone: IIId (Estonia waters)
EC	2 000 ⁽¹⁾
TAC	300 000

⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIIbcd (EC waters) and to be counted against the Community share of the TAC for IIIbcd (EC waters).

Species: Herring <i>Clupea harengus</i>		Zone: IIId (Latvian waters)
EC	1 000 ⁽¹⁾	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIbcd (EC waters) and to be counted against the Community share of the TAC for IIbcd (EC waters).
TAC	300 000	
Species: Herring <i>Clupea harengus</i>		Zone: IIId (Lithuanian waters)
Denmark	1 192	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIbcd (EC waters).
Germany	895	
Sweden	413	⁽²⁾ Of which 500 tonnes are to be counted against the Community share of the TAC for IIbcd (EC waters).
EC	500 ⁽¹⁾ 3 000 ⁽²⁾	
TAC	300 000	
Species: Herring <i>Clupea harengus</i>		Zone: IIId (Polish waters)
Sweden	1 000	
EC	1 000	
TAC	300 000	
Species: Cod <i>Gadus morhua</i>		Zone: IIbcd (Community waters)
Denmark	29 399	⁽¹⁾ Of which 1 433 tonnes are allocated in Estonian, Latvian and Lithuanian waters but shall be fished in Community waters.
Germany	12 862	
Finland	1 701	⁽²⁾ To be counted against the Estonian share of the IBSFC TAC.
Sweden	22 083	
EC	66 045 ⁽¹⁾	⁽³⁾ To be counted against the Latvian share of the IBSFC TAC.
Estonia	800 ⁽²⁾	
Latvia	2 000 ⁽³⁾	⁽⁴⁾ To be counted against the Lithuanian share of the IBSFC TAC.
Lithuania	1 300 ⁽⁴⁾	
TAC	105 000	

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

	Estonian waters	Latvian waters	Lithuanian waters
EC	800	1 300	1 300

Species: Cod <i>Gadus morhua</i>		Zone: IIId (Estonian waters)
EC	800 ⁽¹⁾	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIbcd (EC waters) and to be counted against the Community share of the TAC for IIbcd (EC waters).
TAC	105 000	

Species: Cod <i>Gadus morhua</i>		Zone: IIId (Latvian waters)
EC	1 300 ⁽¹⁾	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIbcd (EC waters) and to be counted against the Community share of the IBSFC TAC for IIbcd (EC waters).
TAC	105 000	
Species: Cod <i>Gadus morhua</i>		Zone: IIId (Lithuanian waters)
EC	1 300 ⁽¹⁾	⁽¹⁾ Available to Denmark, Germany, Finland and Sweden within the respective quotas for IIbcd (EC waters) and to be counted against the Community share of the TAC for IIbcd (EC waters).
TAC	105 000	
Species: Plaice <i>Pleuronectes platessa</i>		Zone: IIbcd (EC waters)
Denmark	2 700	
Germany	300	
Sweden	200	
EC	3 200	
Species: Atlantic salmon <i>Salmo salar</i>		Zone: IIbcd (EC waters) ⁽¹⁾
Denmark	91 479 ⁽²⁾	⁽¹⁾ Excluding subdivision 32 of IBSFC. ⁽²⁾ Expressed by number of individual fish. ⁽³⁾ To be counted against the Estonian share of the IBSFC TAC. ⁽⁴⁾ To be counted against the Latvian share of the IBSFC TAC. ⁽⁵⁾ To be counted against the Lithuanian share of the IBSFC TAC.
Germany	10 178 ⁽²⁾	
Finland	114 068 ⁽²⁾	
Sweden	123 652 ⁽²⁾	
EC	339 377 ⁽²⁾

ANNEX Ib

SKAGERRAK AND KATTEGAT AND NORTH SEA

Species: Sand eel <i>Ammodytidae</i>	Zone: IV (Norwegian waters)
Denmark 142 500 ⁽¹⁾	⁽¹⁾ Within the total quota for Norway pout and sandeel up to 38 000 tonnes may be interchanged upon request. ⁽²⁾ Within the total quota for Norway pout and sandeel up to 2 000 tonnes may be interchanged upon request.
United Kingdom 7 500 ⁽²⁾	
EC 150 000	
TAC Not relevant	
Species: Sand eel <i>Ammodytidae</i>	Zone: IIa ⁽¹⁾ , North Sea ⁽¹⁾
Denmark 915 000	⁽¹⁾ Community waters excluding waters within six miles of UK baselines at Shetland, Fair Isle and Foula. ⁽²⁾ Except Denmark, Finland, Spain, Portugal and the United Kingdom. ⁽³⁾ This quota consists of any mixture of sand eel, Norway pout and blue whiting. No more than 10 000 tonnes of Norway pout may be taken in VIa north of 56°30' N. ⁽⁴⁾ This quota consists of sand eel, Norway pout, a maximum of 2 000 tonnes of sprat and unavoidable by-catches of blue whiting. Sprat and a maximum of 6 000 tonnes of Norway pout may be taken in VIa north of 56°30' N. Such Norway pout catches shall be subject to the provision, on request by the Commission, of details on the quantity and composition of any by-catch taken.
United Kingdom 20 000	
All Member States 35 000 ⁽²⁾	
EC 970 000	
Norway 30 000 ⁽³⁾	
Faroe Islands 20 000 ⁽⁴⁾	
TAC 1 020 000	
Species: Herring ⁽¹⁾ <i>Clupea harengus</i>	Zone: Skagerrak and Kattegat
Denmark 33 380	⁽¹⁾ Landed as the entire catch or sorted from the remainder of the catch. ⁽²⁾ To be taken in the Skagerrak. ⁽³⁾ TAC agreed in the framework of fisheries consultations between the European Community and Norway on fisheries in the Skagerrak and the Kattegat for 2001. The parties' shares of the TAC, are: EC: 69 330 tonnes, Norway: 10 670 tonnes.
Germany 530	
Sweden 34 920	
EC 68 830	
Faroe Islands 500 ⁽²⁾	
TAC 80 000 ⁽³⁾	
Species: Herring ⁽¹⁾ <i>Clupea harengus</i>	Zone: North Sea north of 53°30' N
Denmark 38 118	⁽¹⁾ Landed as the entire catch or sorted from the remainder of the catch, Member States must inform the Commission of their landings of herring distinguishing between ICES divisions IVa and IVb. ⁽²⁾ When fishing in Norwegian waters, by-catches of cod, haddock, saithe, pollack and whiting shall be counted against the quota for these species. ⁽³⁾ Including 850 tonnes, to be taken in Norwegian waters, accruing from the Agreed Records of Consultations between the European Community, on behalf of Sweden, and Norway, for 2001. ⁽⁴⁾ May be taken in EC waters. Catches taken within this quota are to be deducted from Norway's share of the TAC. ⁽⁵⁾ TAC for the whole North Sea, agreed in the framework of fisheries consultations between the European Community and Norway for 2001. The parties' shares of the TAC, after swaps, are: EC: 188 150 tonnes, Norway: 76 850 tonnes.
Germany 24 751	
France 14 789	
The Netherlands 42 226	
Sweden 3 546 ⁽²⁾⁽³⁾	
United Kingdom 40 570	
EC 164 000 ⁽³⁾	
Norway 50 000 ⁽⁴⁾	
TAC 265 000 ⁽⁵⁾	

Special conditions:

Within the limits of the abovementioned quotas, no more than the quantities given below may be taken in the zones specified:

Norwegian waters south of 62° N

EC 50 850

Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: IVc ⁽²⁾ , VIIId
Belgium	7 528 ⁽³⁾	⁽¹⁾ Landed as the entire catch or sorted from the remainder of the catch. ⁽²⁾ Except Blackwater stock: reference is to the herring stock in the maritime region of the Thames estuary within a zone delimited by a line running due south from Landguard Point (51°56' N, 1°19.1' E) to latitude 51°33' N and hence due west to a point on the coast of the United Kingdom. ⁽³⁾ Transfers of up to 50 % of this quota may be effected to ICES Division IVb. However, such transfers must be notified in advance to the Commission. ⁽⁴⁾ TAC for the whole North Sea agreed in the framework of fisheries consultations between the European Community and Norway for 2001.
Denmark	339 ⁽³⁾	
Germany	339 ⁽³⁾	
France	8 472 ⁽³⁾

ANNEX Ie

NORTH WEST ATLANTIC

Area of NAFO

All TACs and associate conditions are adopted in the framework of NAFO.

Species: Cod <i>Gadus morhua</i>		Zone: NAFO 2J3KL
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Cod <i>Gadus morhua</i>		Zone: NAFO 3NO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Cod <i>Gadus morhua</i>		Zone: NAFO 3M
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Witch flounder <i>Glyptocephalus cynoglossus</i>		Zone: NAFO 2J3KL
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Witch flounder <i>Glyptocephalus cynoglossus</i>		Zone: NAFO 3NO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: American plaice <i>Hippoglossoides platessoides</i>		Zone: NAFO 3M
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: American plaice <i>Hippoglossoides platessoides</i>		Zone: NAFO 3LNO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Short fin squid <i>Illex illecebrosus</i>		Zone: NAFO subzones 3 and 4
EC	⁽¹⁾	⁽¹⁾ No specified Community share; an amount of 29 467 tonnes is available to Canada and the Community.
TAC	34 000	

Species: Yellowtail flounder <i>Limanda ferruginea</i>		Zone: NAFO 3LNO
EC	260 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	13 000	
Species: Capelin <i>Mallotus villosus</i>		Zone: NAFO 3NO
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	
Species: Northern prawn <i>Pandalus borealis</i>		Zone: NAFO 3L
EC	0 ⁽¹⁾ ⁽²⁾	⁽¹⁾ Despite an allocation of 67 tonnes for the Community, it is decided to set this amount to 0. ⁽²⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	6 000	

Species: Redfish <i>Sebastes</i> spp.		Zone: NAFO 3LN
EC	0 ⁽¹⁾	⁽¹⁾ There will be no direct fishing on this species, which will be caught only as by-catch within the rules set out in Article 17(3).
TAC	0 ⁽¹⁾	

ANNEX If

HIGHLY MIGRATORY FISH

All areas

TACS in this area are adopted in the framework of international fisheries organisations on tuna fisheries, such as ICCAT and IATTC.

Species: Bluefin tuna <i>Thunnus thynnus</i>		Zone: Atlantic Ocean, east of longitude 45° W, and Mediterranean
Greece	329	(1) Except Greece, Spain, France, Italy and Portugal, and only as by-catch. (2) As agreed by ICCAT.
Spain	6 365	
France	6 279	
Italy	4 958	
Portugal	599	
All Member States	60 (1)	
EC	18 590	
TAC	29 500 (2)	
Species: Swordfish <i>Xiphias gladius</i>		Zone: Atlantic Ocean, north of latitude 5° N
Spain	4 198	(1) Except Spain and Portugal, and only as by-catch. (2) TAC agreed by ICCAT.
Portugal	763	
All Member States	112 (1)	
EC	5 073	
TAC	10 200 (2)	
Species: Swordfish <i>Xiphias gladius</i>		Zone: Atlantic Ocean, south of latitude 5° N
Spain	5 848	(1) TAC agreed by ICCAT.
Portugal	385	
EC	6 233	
TAC	14 620 (1)	
Species: Northern Albacore <i>Germo alalunga</i>		Zone: Atlantic Ocean, north of latitude 5° N
Ireland	3 158 (1)	(1) When fishing with any gill nets, including driftnets, bottom set gill nets, trammel nets and entangling nets, no vessel may keep on board or use for fishing, one or more nets whose individual or total length is more than 2,5 kilometers. (2) As agreed by ICCAT.
Spain	17 801 (1)	
France	5 599 (1)	
United Kingdom	201 (1)	
Portugal	1 953 (1)	
EC	28 712 (1)	
TAC	34 500 (2)	
Species: Southern Albacore <i>Germo alalunga</i>		Zone: Atlantic Ocean, south of latitude 5° N
Spain	1 692	(1) As agreed by ICCAT.
France	311	
Portugal	660	
EC	2 663	
TAC	29 200 (1)	

Species: Bigeye Tuna <i>Thunnus obesus</i>		Zone: Atlantic Ocean
Spain	14 681	(1) As agreed by ICCAT.
France	6 235	
Portugal	5 756	
EC	26 672	
TAC	Average (1) catches of 1991-1992	

ANNEX Ig

ANTARCTIC

Area of CCAMLR

These TACs, adopted by CCAMLR, are not allocated to the members of CCAMLR and hence the Community share is undetermined. Catches are monitored by the secretariat of CCAMLR, who will communicate when fishing must cease due to TAC exhaustion.

Species: Blackfin icefish <i>Chaenocephalus aceratus</i>	Zone: FAO 48.3 Antarctic
TAC 2 200 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Unicorn icefish <i>Channichthys rhinoceros</i>	Zone: FAO 58.5.2 Antarctic
TAC 150 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champsocephalus gunnari</i> . Wherever this by-catch TAC is exhausted, the corresponding fisheries should be closed.
Species: Antarctic icefish <i>Champsocephalus gunnari</i>	Zone: FAO 48.3 Antarctic
TAC 6 760 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2000 to 30 November 2001. It shall be prohibited to fish for this stock during the period 1 March to 31 May 2001.
Species: Antarctic icefish <i>Champsocephalus gunnari</i>	Zone: FAO 58.5.2 Antarctic
TAC 1 150 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2000 to 30 November 2001.
Species: Antarctic toothfish <i>Dissostichus eleginoides</i>	Zone: FAO 48.3 Antarctic
TAC 4 500 ⁽¹⁾	⁽¹⁾ This TAC is applicable for long-line fishery in the period 1 May to 31 August 2001 and for pot fishery 1 December 2000 to 30 November 2001.
Species: Antarctic toothfish <i>Dissostichus eleginoides</i>	Zone: FAO 48.4 Antarctic
TAC 28 ⁽¹⁾	⁽¹⁾ This TAC is applicable for long-line fishery in the period 1 May to 31 August 2001 and for pot fishery 1 December 2000 to 30 November 2001.
Species: Antarctic toothfish <i>Dissostichus eleginoides</i>	Zone: FAO 58.5.2 Antarctic
TAC 2 995 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2000 to 30 November 2001.

Species: Lantern fish <i>Electrona carlsbergi</i>	Zone: FAO 48.3 Antarctic
TAC 109 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2000 to 30 November 2001. Of this TAC, no more than 14 500 tonnes may be taken in the area of Shag Rocks, defined as an area limited by the following coordinates: 52°30' S, 40°00' W 52°30' S, 44°00' W 54°30' S, 40°00' W 54°30' S, 44°00' W.
Species: Krill <i>Euphausia superba</i>	Zone: FAO 48
TAC 4 000 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2000 to 30 November 2001.

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the subareas specified:

Subarea 48.1	1 008 000
Subarea 48.2	1 104 000
Subarea 48.3	1 056 000
Subarea 48.4	832 000

Species: Krill <i>Euphausia superba</i>	Zone: FAO 58.4.1 Antarctic
TAC 440 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2000 to 30 November 2001.

Special conditions:

Within the limits of the abovementioned quota, no more than the quantities given below may be taken in the areas specified:

Division 58.4.1 west of 115° E	277 000
Division 58.4.1 east of 115° E	163 000

Species: Krill <i>Euphausia superba</i>	Zone: FAO 58.4.2 Antarctic
TAC 450 000 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 July 2000 to 30 June 2001.
Species: Humped rockcod <i>Gobionotothen gibberifrons</i>	Zone: FAO 48.3 Antarctic
TAC 1 470 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Grey rockcod <i>Lepidonotothen squamifrons</i>	Zone: FAO 48.3 Antarctic
TAC 300 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Grey rockcod <i>Lepidonotothen squamifrons</i>	Zone: FAO 58.5.2 Antarctic
TAC 80 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.

Species: Marbled rockcod <i>Notothenia rossii</i>	Zone: FAO 48.3 Antarctic
TAC 300 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Crab <i>Paralomis</i> spp.	Zone: FAO 48.3 Antarctic
TAC 1 600 ⁽¹⁾	⁽¹⁾ This TAC is applicable for the period 1 December 2000 to 30 November 2001.
Species: South Georgia icefish <i>Pseudochaenichthus georgianus</i>	Zone: FAO 48.3 Antarctic
TAC 300 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in any directed fishery. Wherever this by-catch TAC is exhausted, the directed fishery should be closed.
Species: Other species	Zone: FAO 58.5.2 Antarctic
TAC 50 ⁽¹⁾	⁽¹⁾ TAC to cover by-catches in the fisheries for <i>Dissostichus eleginoides</i> and <i>Champsocephalus gunnari</i> . Wherever this by-catch TAC is exhausted, the corresponding fisheries should be closed.

ANNEX II

FISHING OPPORTUNITIES APPLICABLE IN 2001 FOR HERRING TO BE LANDED UNSORTED FOR PURPOSES OTHER THAN HUMAN CONSUMPTION (IN TONNES, LIVE WEIGHT)

All catch limitations set out in this Annex are considered as quotas for the purposes of Article 7 and shall, therefore, be subject to the rules set out in Regulation (EC) No 2847/93, in particular Articles 14 and 15 thereof.

Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: Skagerrak and Kattegat
Denmark	17 950	(1) By-catches of herring taken in fisheries for species other than herring and landed unsorted. (2) TAC agreed in the framework of fisheries consultations between the European Community and Norway on fisheries in the Skagerrak and Kattegat for 2001. The TAC is allocated entirely to the Community.
Germany	160	
Sweden	2 890	
EC	21 000	
TAC	21 000 ⁽²⁾	
Species: Herring ⁽¹⁾ <i>Clupea harengus</i>		Zone: IIa (EC waters), North Sea, VIId
Belgium	180	(1) By-catches of herring taken in fisheries for species other than herring and landed unsorted. (2) TAC agreed in the framework of fisheries consultations between the European Community and Norway for 2001. The TAC is allocated entirely to the Community.
Denmark	34 450	
Germany	180	
France	180	
The Netherlands	180	
Sweden	170	
United Kingdom	660	
EC	36 000	
TAC	36 000 ⁽²⁾

ANNEX IV

SPECIAL MEASURES CONCERNING NORTH SEA HERRING

1. Member States shall adopt special measures concerning the capture, sorting or landing of herring taken from the North Sea or from the Skagerrak and Kattegat with a view to ensuring the observance of catch limitations, in particular those set in Annex II. These measures shall include, in particular:
 - special control and inspection programmes;
 - fishing effort plans, including lists of authorised vessels and, where deemed necessary on the basis of quota exhaustion beyond the level of 70 %, limitations on the activity of authorised vessels,
 - control of transshipment and of practices which incur discarding,
 - where possible, temporary prohibition of fishing in areas where high by-catch rates of herring, in particular juveniles, are known to occur.
2. In case of landings of herring unsorted from the remainder of the catch, Member States shall ensure that adequate sampling programmes are in place in order to monitor effectively all landings of by-catches of herring. It shall be prohibited to land catches of fish containing unsorted herring in harbours where these sampling programmes are not in place.
3. Commission inspectors shall, in accordance with Article 29 of Regulation (EEC) No 2847/93 and whenever the Commission deems it necessary for the purposes of paragraphs 1 and 2, carry out independent inspections to verify the implementation by the competent authorities of the sampling programmes and of the detailed measures mentioned in paragraph 1.
4. The Commission shall prohibit landings of herring if it is deemed that implementation of the measures mentioned in paragraphs 1 and 2 does not achieve a strict control of fishing mortality of herring in all fisheries.

All landings of herring caught in ICES areas IIIa, IV and VIId by vessels which carry on board only towed nets of mesh sizes equal to or greater than 32 millimetres, while taking these catches in these areas, will be counted against a relevant quota as defined in Annex I to this Regulation.

6. All landings of herring caught in ICES areas IIIa, IV and VIId by vessels which carry on board towed nets of mesh size less than 32 millimetres, while taking these catches in these areas, will be counted against a relevant quota as defined in Annex II to this Regulation. Herring landed by vessels operating within these conditions shall not be offered for sale for human consumption.

ANNEX V

TRANSITIONAL TECHNICAL MEASURES

1. Exit windows in the Baltic Sea

Notwithstanding the conditions set out in Annex V to Council Regulation (EC) No 88/98, and in order to guarantee the selectivity of the trawls, Danish seines and similar nets with special mesh openings as referred to in Annex IV to the same Regulation, the two models of exit windows described in Appendix I to this Annex shall be authorised in 2001.

2. Summer ban for Baltic cod

Fishing for cod shall be prohibited in the Baltic Sea, the Belts and the Øresund from 1 July to 20 August inclusive.

3. Closure of Bornholm Deep

All fishing shall be prohibited from 15 May to 31 August 2001 within the area bounded by the following coordinates:

- latitude 55° 30' N, longitude 15° 30' E,
- latitude 55° 30' N, longitude 16° 10' E,
- latitude 55° 15' N, longitude 16° 10' E,
- latitude 55° 15' N, longitude 15° 30' E.

4. Sole and fixed gears

Notwithstanding the conditions laid down in Annex VI to Regulation (EC) No 850/98, a minimum mesh size of 90 mm shall apply to sole (*Solea solea*) in ICES Divisions IVc and VIId during 2001.

5. Purse seines in the Eastern Pacific Ocean (Regulatory Area of the Inter-American tropical Tuna Commission)

As of January 1 2001, purse seiners fishing for tuna in the Regulatory area of the Inter-American Tropical Tuna Commission shall retain on board all the bigeye, skipjack and yellowfin tuna caught, except fish considered unfit for human consumption for reasons other than size, in order to provide a disincentive to the capture of these small fish. A single exception shall be the final set of a trip, when there may be insufficient well space remaining to accommodate all the tuna caught in that set.

Purse seine vessels shall promptly release unharmed, to the extent practicable, all sea turtles, sharks, billfishes, rays, mahi-mahi and other non-target species. Fishermen are encouraged to develop and use techniques and equipment to facilitate the rapid and safe release of any such animals.

To require specific measures for application to encircled or entangled sea turtles as follows:

- Whenever a sea turtle is sighted in the net, a speedboat should be stationed close to the point where the net is lifted out of the water.
- If a turtle is entangled in the net, net roll should stop as soon as the turtle comes out of the water and should not start again until the turtle has been disentangled and released.
- If a turtle is brought aboard the vessel, it should, if necessary, be resuscitated before being returned to the water.

6. Technical conservation measures in the Skagerrak and in the Kattegat

Notwithstanding the conditions set out in Annex IV to Council Regulation (EC) No 850/98, the following rules shall apply in 2001:

- (a) a mesh size of 35 mm shall apply when fishing for prawns (*Pandalus borealis*);
- (b) a mesh size of 30 mm shall be used when fishing for argentine (*Argentina spp.*);

- (c) when fishing for whiting with a mesh size of 70 to 89 mm, the by-catch shall not exceed 30 % for the following species: cod, haddock, hake, plaice, witch, lemon sole, turbot, brill, flounder, megrim, dab, saithe and lobster;
- (d) when fishing for Norway lobster with a mesh size of 70 to 89 mm, the by-catches should not exceed 60 % for the following species: hake, plaice, witch, lemon sole, turbot, brill, flounder, megrim, dab, saithe and lobster;
- (e) when fishing for prawns (*Pandalus borealis*) with a mesh size of 35 to 69 mm, the by-catches should not exceed 50 % for the following species: cod, haddock, hake, plaice, witch, lemon sole, turbot, brill, flounder, mackerel, megrim, whiting, dab, saithe, Norway lobster and lobster;
- (f) in all fisheries other than those covered in (c), (d) and (e) above, using a mesh size below 70 mm, the by-catches should not exceed 10 % for the following species: cod, haddock, hake, plaice, witch, lemon sole, turbot, brill, flounder, mackerel, megrim, whiting, dab, saithe, Norway lobster and lobster.

7. Minimum landing size for plaice

Notwithstanding the conditions laid down in Annex XII to Regulation (EC) No 850/98, a minimum landing size of 27 cm shall apply for plaice during 2001.

8. Measures to reduce the incidental catch of billfish in the ICCAT Convention Area.

- (a) Pelagic longline and purse seine vessels fishing for tuna and associated species in the area of the ICCAT Convention shall reduce their landings of blue marlin (*Makaira nigricans*) by 50 % and white marlin (*Tetrapturus albidus*) by 33 % in relation to 1999 landing figures.
- (b) Landings of blue marlin from recreational fisheries shall not be less than 251 cm LJFL and for white marlin the minimum landed size from recreational fisheries shall not be less than 168 cm LJFL.
- (c) Records indicating weight or number of landings of blue and white marlin shall be maintained. Catch and effort data on all marlins landed, and size data on at least 50 % of landings shall be collected.

*Appendix I to Annex V**Exit windows (model 1)*

Two exit windows with plastic coated, fully opened diamond meshes shall be attached to the codend of trawls and Danish seines in the cod fishery. The mesh opening shall be no less than 105 mm. The exit windows shall be attached with a separate piece of netting (between the ordinary diamond meshes and the meshes of the exit window). The mesh size of the separate netting shall be identical to the bar length of the exit window times the square root of two.

The exit window shall be attached on both sides of the codend, and the distance between the rear end of the codend and the window shall be 40 to 50 cm. The length of the window shall be 80 % of the total length of the codend and the height of the window shall be 50 cm (see Figure 1). The window shall be mounted in a way that gives an opening between the upper and lower seams of the window of 15 to 20 cm.

*Exit windows (model 2)***Identification of the window**

The windows shall be rectangular sections of netting in the codend. There shall be two windows in the codend.

Size of the window

Each window shall have a minimum width of 45 cm along its entire length. Each window shall have a minimum length of 3,5 m measured along its sides (figure 2) and the length of the window shall not be less than 80 % of the total length of the codend.

Netting of the window

The meshes in the windows shall have a minimum size of 105 mm. They shall be square meshes, i.e. all four sides of the window netting will be cut by all bars. The netting shall be mounted such that the bars run parallel and perpendicular to the length of the codend. The window width shall be eight open square meshes.

Location of the window

The codend shall be divided into upper and lower panels by selvages running down the port and starboard sides. The two windows shall be located in the lower panel, immediately adjacent to and below the selvages. The windows shall terminate between 40 to 50 cm from the codline (see figure 2).

The forward end of the window shall be joined to eight meshes' width of the normal codend netting. One side shall join to the selvedge or be joined immediately adjacent to the selvedge and the other side shall be joined to the normal codend lower panel netting following a straight line of meshes, all knots cut.

Mesh size in the whole codend

All parts of the codend shall conform to a minimum mesh size of 105 mm.

FIGURE 1

Exit window — Model 1

FIGURE 2

*Exit window — Model 2***Position of the square mesh window in the codend****Cross section of codend**

ANNEX VI

PART I

**QUANTITATIVE LIMITATIONS OF LICENCES AND FISHING PERMITS FOR COMMUNITY VESSELS
FISHING IN THIRD COUNTRY WATERS**

Area of fishing	Fishery	Number of licences	Maximum number of vessels present at any time
Norwegian waters and fishery zone around Jan Mayen	Herring, north of 62° 00' N	p.m.	p.m.
Waters of the Faeroe Islands	All trawl fisheries with vessels of not more than 180 feet in the zone between 12 and 21 miles from the Faeroese baselines.	26	13
	Directed fishing for cod and haddock with a minimum mesh of 135 mm, restricted to the area south of 62° 28' N and east of 6° 30' W.	8	4
	Trawling outside 21 miles from the Faeroese baselines. In the periods 1 March to 31 May and 1 October to 31 December, these vessels may operate in the area between 61° 20' N and 62° 00' N and between 12 and 21 miles from the baselines.	70	26
	Trawl fisheries for blue ling with a minimum mesh of 100 mm in the area south of 61° 30' N and west of 9° 00' W and in the area between 7° 00' W and 9° 00' W south of 60° 30' N and in the area south-west of a line between 60° 30' N, 7° 00' W and 60° 00' N, 6° 00' W.	70	20
	Directed trawl fishery for saithe with a minimum mesh size of 120 mm and with the possibility of using round straps around the codend.	70	22
	Fisheries for blue whiting. The total number of licences may be increased by 4 vessels to form pairs, should the Faeroese authorities introduce special rules of access to an area called 'main fishing area of blue whiting'.	34	20
	Line fishing	10	6
	Fishing for mackerel	12	12
	Herring fisheries north of 62° N	p.m.	p.m.
Estonian waters	All fisheries	250	80
Iceland	All fisheries	18	5
Latvian waters	Fishing for cod, herring and sprat	130	45
	Fishing for salmon	40	15
Lithuanian waters	All fisheries	300	75
Polish waters	All fisheries. Only vessels with an engine power equal to or less than 750 kW are allowed.	85	40
Waters of the Russian Federation	All fisheries	p.m.	p.m.
	Fisheries for cod	p.m.	p.m.
	Fisheries for sprat	p.m.	p.m.

PART II

**QUANTITATIVE LIMITATIONS OF LICENCES AND FISHING PERMITS FOR THIRD COUNTRIES' VESSELS
IN COMMUNITY WATERS.**

Flag State	Fishery	Number of licences	Maximum number of vessels present at any time
Norway	Herring, north of 62° 00' N	p.m.	p.m.
Faeroe Islands	Mackerel, VIa (north of 56° 30' N), VIIe,f,h, horse mackerel, IV, VIa (north of 56° 30' N), VIIe,f,h; herring, VIa (north of 56° 30' N)	14	14
	Herring north of 62° 00' N	p.m.	p.m.
	Herring, IIIa	4	4
	Industrial fishing for Norway pout and sprat, IV, VIa (north of 56° 30' N); sand eel, IV (including unavoidable by-catches of blue whiting)	15	15
	Ling and tusk ⁽¹⁾	20	10
	Blue whiting, VIa (north of 56° 30' N), VIb, VII (west of 12° 00' W)	20	20
	Blue ling	16	16
	Porbeagle (all zones except NAFO 3PS)	3	3
Estonia	Herring, sprat, salmon IIIId	106	63
	Cod, IIIId	30	16 ⁽²⁾
Latvia	Cod, herring, sprat, IIIId	90	50 ⁽³⁾
	Salmon, IIIId	4	2
Lithuania	Cod, herring, sprat, salmon, IIIId	70	50 ⁽⁴⁾
	Cod, herring, sprat, salmon, IIIId (transport and refrigerator vessels)	5	4
Poland	All fisheries. Only vessels with an engine power equal to or less than 750 kW are allowed	60	40
Russian Federation	Herring, IIIId (Swedish waters)	p.m.	p.m.
	Herring, IIIId (Swedish waters, non-fishing mother ships)	p.m.	p.m.
Barbados	<i>Penaeus</i> shrimps ⁽⁵⁾ (French Guiana waters)	5	p.m. ⁽⁶⁾
	Snappers ⁽⁷⁾ (French Guiana waters)	5	p.m.
Guiana	<i>Penaeus</i> shrimps ⁽⁵⁾ (French Guiana waters)	p.m.	p.m. ⁽⁶⁾

Flag State	Fishery	Number of licences	Maximum number of vessels present at any time
Surinam	<i>Penaeus</i> shrimps ⁽⁵⁾ (French Guiana waters)	5	p.m. ⁽⁸⁾
Trinidad and Tobago	<i>Penaeus</i> shrimps ⁽⁵⁾ (French Guiana waters)	8	p.m. ⁽⁹⁾
Japan ⁽²⁾	Tuna ⁽¹⁰⁾ (French Guiana waters)	p.m.	
Korea	Tuna ⁽¹⁰⁾ (French Guiana waters)	p.m.	p.m. ⁽⁹⁾
Venezuela	Snappers ⁽⁷⁾ (French Guiana waters)	41	p.m.
	Sharks ⁽⁷⁾ (French Guiana waters)	4	p.m.

⁽¹⁾ The Faeroese authorities will send the relevant list before the 25th day of each month.

⁽²⁾ Seven for vessels fishing with gillnets and in addition nine for vessels fishing with trawls in the period 15 April to 30 June 2001.

⁽³⁾ Of which at any given time a maximum of 38 for vessels fishing cod with gillnets.

⁽⁴⁾ Of which at any given time a maximum of 15 for vessels fishing cod with gillnets.

⁽⁵⁾ The licences concerning fishing for shrimp in the waters of the French Department of Guiana shall be issued on the basis of a fishing plan submitted by the authorities of the third country concerned, approved by the Commission. The period of validity of each of these licences shall be limited to the fishing period provided for in the fishing plan on the basis of which the licence was issued.

⁽⁶⁾ The annual number of days at sea is limited to 200.

⁽⁷⁾ To be fished exclusively with long lines or traps (snappers) or long lines or mesh nets having a minimum mesh of 100 mm, at depths greater than 30 m (sharks). To issue these licences, proof must be produced that a valid contract exists between the shipowner applying for the licence and a processing undertaking situated in the French Department of Guiana, and that it includes an obligation to land at least 75 % of all snapper catches, or 50 % of all shark catches from the vessel concerned in that department so that they may be processed in that undertaking's plant.

The contract referred to above must be endorsed by the French authorities, which shall ensure that it is consistent both with the actual capacity of the contracting processing undertaking and with the objectives for the development of the Guianese economy. A copy of the duly endorsed contract shall be appended to the licence application.

Where the endorsement referred to above is refused, the French authorities shall give notification of this refusal and state their reasons for it to the party concerned and to the Commission.

⁽⁸⁾ The annual number of days at sea is limited to p.m.

⁽⁹⁾ The annual number of days at sea is limited to 350.

⁽¹⁰⁾ To be fished exclusively with long lines.

Voyage made from the

to the

Port of landing:

--

Quantity of shrimps landed (in live-weight)			
'Head-off' shrimps:		kg	
or (× 1,6) =		kg (head-on shrimps)	
'Head-on' shrimps:		kg	
<i>Thunnidae:</i>	kg	<i>Snapper (Lutjanidae):</i>	kg
Shark:	kg	Other:	kg

⁽¹⁾ One copy is kept by the master, one copy is kept by the control officer, and one copy is to be sent to the Commission of the European Communities.

ANNEX VII

PART I

INFORMATION TO RECORD IN THE LOGBOOK

When fishing within the 200-nautical-mile zone off the coasts of the Member States of the Community which is covered by Community rules on fisheries, the following details are to be entered in the logbook immediately after the following events:

After each haul:

- 1.1. the quantity (in kilograms live-weight) of each species caught;
- 1.2. the date and the time of the haul;
- 1.3. the geographical position in which the catches were made;
- 1.4. the fishing method used.

After each transshipment to or from another vessel:

- 2.1. the indication 'received from' or 'transferred to';
- 2.2. the quantity (in kilograms live-weight) of each species transhipped;
- 2.3. the name and the external identification letters and numbers of the vessel to or from which the transshipment occurred;
- 2.4. transshipment of cod is not allowed.

After each landing in a port of the Community:

- 3.1. name of the port;
- 3.2. the quantity (in kilograms live-weight) of each species landed.

After each transmission of information to the Commission of the European Communities:

- 4.1. date and time of the transmission;
- 4.2. type of message: IN, OUT, ICES, WKL or 2 WKL;
- 4.3. in the case of radio transmission: name of the radio station.

PART II

LOGBOOK MODEL

[illegible]

ANNEX VIII

CONTENT AND MODALITIES OF THE TRANSMISSION OF INFORMATION TO THE COMMISSION

1. The information to be transmitted to the Commission of the European Communities and the timetable for its transmission are as follows:
 - 1.1. On each occasion the vessel enters the 200-nautical-mile zone off the coasts of the Member States of the Community which is covered by Community rules on fisheries:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms) of each species of fish in the hold;
 - (c) the date and ICES division within which the master intends to commence fishing.

Where the fishing operations necessitate more than one entry into the zones referred to under 1.1 on a given day, one communication shall suffice on first entry.

- 1.2. On each occasion the vessel leaves the zone referred to under 1.1:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms live-weight) of each species of fish in the hold;
 - (c) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
 - (d) the ICES division in which the catches were taken;
 - (e) the quantity (in kilograms live-weight) of each species transferred to and/or from other vessels since the vessel entered the zone and the identification of the vessel to which the transfer was made;
 - (f) the quantity (in kilograms live-weight) of each species landed in a port of the Community since the vessel entered the zone.

Where the fishing operations necessitate more than one entry into the zones referred to under 1.1 on a given day, one single communication on the last exit will be sufficient.

- 1.3. At three-day intervals, commencing on the third day after the vessel first enters the zones referred to under 1.1 when fishing for herring and mackerel, and at weekly intervals, commencing on the seventh day after the vessel first enters the zones referred to under 1.1 when fishing for all species other than herring and mackerel:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
 - (c) the ICES division in which the catches were made.
- 1.4. On each occasion the vessel moves from one ICES division to another:
 - (a) the information specified under 1.5;
 - (b) the quantity (in kilograms live-weight) of each species caught since the previous transmission;
 - (c) the ICES division in which the catches have been taken.

However this requirement shall not apply to vessels flying the flag of Norway which are subject VMS and for which VMS positions are automatically received by the competent authorities in the Community.

- 1.5.
 - (a) The name, call sign, external identification letters and numbers of the vessel and the name of its master;
 - (b) the licence number if the vessel is under licence;
 - (c) the serial number of the message for the voyage concerned;
 - (d) identification of the type of message;
 - (e) the date, the time and the geographical position of the vessel.
- 2.1. The information specified under point 1 shall be transmitted to the Commission of the European Communities in Brussels (telex 24189 FISEU-B) via one of the radio stations listed under point 3 below and in the form specified under point 4.
- 2.2. If it is impossible for reasons of *force majeure* for the message to be transmitted by the vessel, it may be transmitted on the vessel's behalf by another vessel.

3. <i>Name of radio station</i>	<i>Call sign of radio station</i>

4. *Form of the communications*

The information specified under point 1 shall contain the following particulars, which shall be given in the following order:

- name of vessel;
- call sign;
- external identification letters and numbers;
- serial number of the message for the voyage in question;
- indication of the type of message according to the following code:
 - message when entering one of the zones referred to under 1.1: 'IN',
 - message when leaving one of the zones referred to under 1.1: 'OUT',
 - message when moving from one ICES division to another: 'ICES',
 - weekly message: 'WKL',
 - three-day message: '2 WKL';
- the date, the time and the geographical position;

- the ICES divisions/subareas in which fishing is expected to commence;
- the date on which fishing is expected to commence;
- the quantity (in kilograms live-weight) of each species of fish in the hold using the code mentioned in point 5;
- the quantity (in kilograms live-weight) of each species of fish caught since the previous transmission using the code mentioned in point 5;
- the ICES divisions/subareas in which the catches were made;
- the quantity (in kilograms live-weight) of each species transferred to and/or from other vessels since the previous transmission;
- the name and call sign of the vessel to and/or from which the transfer was made;
- the quantity (in kilograms live-weight) of each species landed in a port of the Community since the previous transmission;
- the name of the master.

Code to be used to indicate the species on board as mentioned in 1.4 above:

Alfonsinos (<i>Beryx</i> spp.)	ALF
American plaice (<i>Hippoglossoides platessoides</i>)	PLA
Anchovy (<i>Engraulis encrasicolus</i>)	ANE
Angler/Monk (<i>Lophius</i> spp.)	MNZ
Argentine (<i>Argentina silus</i>)	ARG
Atlantic pomfret (<i>Brama brama</i>)	POA
Basking shark (<i>Cetorhinus maximus</i>)	BSK
Black scabbardfish (<i>Aphanopus carbo</i>)	BSF
Blue ling (<i>Molva dypterygia</i>)	BLI
Blue whiting (<i>Micromesistius poutassou</i>)	WHB
Bob shrimp (<i>Xyphoedus kroyeri</i>)	BOB

ANNEX IX

LIST OF SPECIES OF THE NAFO REGULATORY AREA

Common name	Scientific name
Principal groundfish (except flatfish)	
Atlantic cod	<i>Gadus morhua</i>
Haddock	<i>Melanogrammus aeglefinus</i>
Redfish	<i>Sebastes</i> spp.
Atlantic redfish	<i>Sebastes marinus</i>
Golden redfish	<i>Sebastes mentella</i>
Silver hake	<i>Merluccius bilinearis</i>
Red hake	<i>Urophycis chuss</i>
Pollock (= saithe)	<i>Pollachius virens</i>
Flatfish	
American plaice	<i>Hippoglossoides platessoides</i>
Witch flounder	<i>Glyptocephalus cynoglossus</i>
Yellowtail flounder	<i>Limanda ferruginea</i>
Greenland halibut	<i>Reinhardtius hippoglossoides</i>
Atlantic halibut	<i>Hippoglossus hippoglossus</i>
Winter flounder	<i>Pseudopleuronectes americanus</i>
Summer flounder	<i>Paralichthys dentatus</i>
Windowpane flounder	<i>Scophthalmus aquosus</i>
Flatfish (NS)	<i>Pleuronectiformes</i>
Other groundfish	
American angler (= goosefish)	<i>Lophius americanus</i>
Atlantic searobins	<i>Prionotus</i> spp.
Atlantic tomcod	<i>Microgadus tomcod</i>
Blue whiting	<i>Micromesistius poutassou</i>
Cunner	<i>Tautoglabrus adspersus</i>
Cusk (= tusk)	<i>Brosme brosme</i>
Greenland cod	<i>Gadus ogac</i>
Blue ling	<i>Molva dypterygia</i>
Ling	<i>Molva molva</i>
Lumpfish (= lumpsucker)	<i>Cyclopterus lumpus</i>
Northern kingfish	<i>Menticirrhus saxatilis</i>
Northern puffer	<i>Sphaeroides maculatus</i>
Eelpouts (NS)	<i>Lycodes</i> spp.
Ocean pout	<i>Macrozoarces americanus</i>
Polar cod	<i>Boreogadus saida</i>
Roundnose grenadier	<i>Coryphaenoides rupestris</i>
Roughhead grenadier	<i>Macrouris berglax</i>
Sand eel (= sand lance)	<i>Ammodytes</i> spp.
Sculpin	<i>Myoxocephalus</i> spp.
Scup	<i>Stenotomus chrysops</i>
Tautog	<i>Tautoga onitis</i>
Tilefish	<i>Lopholatilus chamaeleonticeps</i>
White hake	<i>Urophycis tenuis</i>
Wolffish (NS)	<i>Anarhichas</i> spp.
Atlantic wolffish	<i>Anarhichas lupus</i>
Spotted wolffish	<i>Anarhichas minor</i>
Groundfish (NS)	...

ANNEX X

AUTHORISED TOP-SIDE CHAFERS**ICNAF-type top-side chafer**

A rectangular piece of netting attached to the upper side of a codend to reduce or prevent damage and complying with the following requirements:

- (a) the netting shall not have a mesh size less than that specified for the net itself;
- (b) the netting may be fastened to the codend only along the forward and lateral edges of the netting and shall be fastened in such a manner that it extends forward of the splitting strap no more than four meshes and ends not less than four meshes in front of the codline mesh; where a splitting strap is not used, the netting shall not extend to more than one-third of the codend measured from not less than four meshes in front of the codline mesh;
- (c) the number of meshes in the width of the netting shall be at least one and a half times the number of meshes in the width of the part of the codend which is covered, both widths being taken at right angles to the longitudinal axis of the codend.

'Multiple flap' top-side chafer

Pieces of netting having in all their parts meshes the dimensions of which, whether the pieces of netting are wet or dry, are not less than those of the meshes of the net to which they are attached, provided that:

- (i) each piece of netting:
 - (a) is fastened only by its forward edge across the codend at right angles to its longitudinal axis;
 - (b) is at least equal in width to the width of the codend (such width being measured at right angles to the longitudinal axis of the codend at the point of attachment);
 - (c) is not more than 10 meshes long.
- (ii) the aggregate length of all the pieces of netting so attached does not exceed two-thirds of the length of the codend.

Large mesh (modified Polish-type) top-side chafer

A rectangular piece of netting made of the same twine material as the codend, or of a single, thick, knotless twine material, attached to the rear portion of the upper side of the codend and extending over all or any part of the upper side of the codend, having in all its parts a mesh size twice that of the codend when measured wet and fastened to the codend along the forward, lateral and rear edges only of the netting in such a way that each mesh of the netting exactly coincides with four meshes of the codend.

ANNEX XI

MINIMUM LANDING SIZES

Species	Minimum size	Definition
Atlantic cod	41 cm	Fork length
American plaice	25 cm	Total length
Yellowtail flounder	25 cm	Total length
Greenland halibut	30 cm	Total length

ANNEX XII

MINIMUM LANDING SIZES OF PROCESSED FISH

Species	Gilled and gutted fish whether or not skinned; fresh or chilled, frozen, or salted			
	Whole	Head off	Head and tail off	Head off and split
Atlantic cod	41 cm	27 cm	22 cm	27/25 ⁽¹⁾ cm
American plaice	25 cm	19 cm	15 cm	NA
Yellow tail flounder	25 cm	19 cm	15 cm	NA

⁽¹⁾ Lower size for green salted fish.

ANNEX XIII

PARTICULARS TO BE CONTAINED IN THE LOGBOOK

Particulars	Code
Name of vessel	01
Nationality of vessel	02
Registration number of vessel	03
Port of registration	04
Type of fishing gear used (daily)	10
Type of fishing gear	2 ⁽²⁾
Date:	
— day	20
— month	21
— year	22
Position:	
— latitude	31
— longitude	32
— statistical zone	33
Number of fishing operations per period of 24 hours ⁽¹⁾	40
Number of hours fishing with gear per period of 24 hours ⁽¹⁾	41
Name of species	2 ⁽²⁾
Daily catches by species (in tonnes live weight)	50
Daily catches, per species, for human consumption	61
Quantities discarded daily per species	63
Place of transhipment	70
Date(s) of transhipment	71
Master's signature	80

⁽¹⁾ Where two or more types of fishing gear are used in a given 24-hour period, separate records must be supplied for each type of gear.

⁽²⁾ To be indicated together with one of the abbreviations listed in the second part of this Annex.

STANDARD ABBREVIATIONS FOR THE PRINCIPAL SPECIES IN THE NAFO AREA

Abbreviations	Names of species of fish
