

COUNCIL REGULATION (EC) No 2015/2006**of 19 December 2006****fixing for 2007 and 2008 the fishing opportunities for Community fishing vessels for certain deep-sea fish stocks**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 2371/2002 of 20 December 2002 on the conservation and sustainable exploitation of fisheries resources under the Common Fisheries Policy ⁽¹⁾, and in particular Article 20 thereof,

Having regard to the proposal of the Commission,

Whereas:

- (1) Under Article 4 of Regulation (EC) No 2371/2002 the Council is to adopt the measures necessary to ensure access to waters and resources and the sustainable pursuit of fishing activities taking into account, *inter alia*, available scientific advice.
- (2) Under Article 20 of Regulation (EC) No 2371/2002, it is incumbent upon the Council to establish fishing opportunities by fishery or group of fisheries and to allocate them in accordance with prescribed criteria.
- (3) The latest scientific advice from the International Council for the Exploration of the Sea (ICES) concerning certain stocks of fish found in the deep sea indicates that those stocks are harvested unsustainably, and that fishing opportunities for those stocks should be reduced in order to assure their sustainability.
- (4) The ICES has further advised that the exploitation rate of orange roughy in ICES Area VII is much too high. Scientific advice further indicates that orange roughy in Area VI is heavily depleted, and areas of vulnerable aggregations of these species have been identified. It is therefore appropriate to prohibit fishing for orange roughy in those areas.
- (5) In order to ensure effective management of quotas, the specific conditions under which fishing operations occur should be established.
- (6) In accordance with Article 2 of Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional

conditions for year to year management of TACs and quotas ⁽²⁾, it is necessary to indicate which stocks are subject to the various measures fixed therein.

- (7) The measures provided for in this Regulation should be fixed by reference to ICES zones as defined in Council Regulation (EEC) No 3880/91 of 17 December 1991 on the submission of nominal catch statistics by Member States fishing in the Northeast Atlantic ⁽³⁾ and to CECAF zones (Committee for Eastern Central Atlantic Fisheries) as defined in Council Regulation (EC) No 2597/95 of 23 October 1995 on the submission of nominal catch statistics by Member States fishing in certain areas other than those of the North Atlantic ⁽⁴⁾.
- (8) The fishing opportunities should be utilised in accordance with the Community legislation on the matter, and in particular with Council Regulation (EEC) No 2807/83 of 22 September 1983 laying down detailed rules for recording information on Member States' catches of fish ⁽⁵⁾, Commission Regulation (EEC) No 1381/87 of 20 May 1987 establishing detailed rules concerning the marking and documentation of fishing vessels ⁽⁶⁾, Council Regulation (EEC) No 2847/93 of 12 October 1993 establishing a control system applicable to the common fisheries policy ⁽⁷⁾, Council Regulation (EC) No 1627/94 of 27 June 1994 laying down general provisions concerning special fishing permits ⁽⁸⁾, Council Regulation (EC) No 850/98 of 30 March 1998 for the conservation of fishery resources through technical measures for the protection of juveniles of marine organisms ⁽⁹⁾, Council Regulation (EC) No 2347/2002 of 16 December 2002 establishing specific access requirements and associated conditions applicable for fishing for deep-sea stocks ⁽¹⁰⁾, and Council Regulation (EC) No 2187/2005 of 21 December 2005 for the conservation of fishery resources through technical measures in the Baltic Sea, the Belts and the Sound, amending Regulation (EC) No 1434/98 and repealing Regulation (EC) No 88/98 ⁽¹¹⁾,

Article 1

Subject-matter

This Regulation fixes for 2007 and for 2008, for stocks of deep-sea species and for Community fishing vessels, annual fishing opportunities in zones in Community waters and in certain non-Community waters where catch limitations are required, and the specific conditions under which fishing opportunities may be utilised.

Article 2

Definitions

1. For the purposes of this Regulation, 'deep-sea fishing permit' means the fishing permit referred to in Article 3 of Regulation (EC) No 2347/2002.
2. The definitions of ICES and CECAF zones are those given, respectively, in Regulation (EEC) No 3880/91 and Regulation (EC) No 2597/95.

Article 3

Fixing of fishing opportunities

Fishing opportunities for stocks of deep-sea species for Community vessels are fixed as set out in the Annex.

Article 4

Allocation among Member States

The allocation of fishing opportunities among Member States provided for in the Annex shall be without prejudice to:

- (a) exchanges made pursuant to Article 20(5) of Regulation (EC) No 2371/2002;
- (b) reallocations made pursuant to Articles 21(4) and 32(2) of Regulation (EEC) No 2847/93 and Article 23(4) of Regulation (EC) No 2371/2002;
- (c) additional landings allowed pursuant to Article 3 of Regulation (EC) No 847/96;

However, the measures provided for in Article 5(2) of Regulation (EC) No 847/96 shall not apply to those quotas.

Article 6

Conditions for landing catch and by-catch

Fish from stocks for which fishing opportunities are fixed by this Regulation may be retained on board or landed only if they were taken by vessels of a Member State which has a quota which is not exhausted. All landings shall count against the quota.

The first subparagraph shall not apply to catches taken in the course of scientific investigations carried out under Regulation (EC) No 850/98, which shall not count against the quota.
