Article 1 (Purpose)

The purpose of this Act is to actively cope with the United Nations Framework Convention on Climate Change and to contribute to energy conservation and enhancement of the convenience in the life of the people by expanding the integrated energy supply, operating the integrated energy supply reasonably, and prescribing the matters concerning the construction, operation and safety of integrated energy facilities.

Article 2 (Definitions)

The definitions of terms used in this Act shall be as follows:

1. The term "integrated energy" means heat or heat and electricity supplied to a large number of users;
2. The term "business" means a business which supplies integrated energy and meets the standards prescribed by Presidential Decree;
3. The term "business operator" means any person who has obtained a business license under Article 9;
4. The term "user" means any person who uses integrated energy supplied by a business operator (including any person who intends to be supplied with integrated energy);
5. The term "integrated energy facilities" means facilities for the production, transportation, distribution, or use of integrated energy, including facilities for supply and facilities for use;
6. The term "facilities for supply" means facilities for the production, transportation, or distribution of integrated energy under the control of a business operator;
7. The term "facilities for use" means facilities for the use of integrated energy under the control of a user;
8. The term "heat producer" means any person who produces or generates heat.

Article 3 (Master Plan for Integrated Energy Supply)

(1) The Minister of Trade, Industry and Energy shall develop and publicly announce a master plan for integrated energy supply (hereinafter referred to as "master plan") every five years as prescribed by Presidential Decree. Where he/she has modified the master plan, he/she shall also notify it publicly.

<Amended by Act No. 11690, Mar. 23, 2013>

(2) Matters referred to in the following subparagraphs shall be included in a master plan pursuant to paragraph (1):

1. A medium and long-term plan concerning integrated energy supply;

2. Subject matter of and standards for integrated energy supply;
 3. Targets for energy conservation and for reduction in the amount of emission of air pollutants according to integrated energy supply;
 4. Other matters deemed necessary concerning integrated energy supply.
- (3) Where the Minister of Trade, Industry and Energy intends to formulate or modify a master plan, he/she shall consult in advance with the head of the relevant central administrative agency. *<Amended by Act No. 11690, Mar. 23, 2013>*

Article 4 (Consultation about Integrated Energy Supply)

If the head of a central administrative agency, local government, public corporation (hereinafter referred to as "public corporation") pursuant to Article 5 of the Act on the Management of Public Institutions or public organization intends to formulate a plan of a housing construction project, housing site development project, industrial complex development project and other projects prescribed by Presidential Decree (hereinafter referred to as "development project"), he/she shall consult with the Minister of Trade, Industry and Energy about the appropriateness of integrated energy supply, as prescribed by Ordinance of the Ministry of Trade, Industry and Energy. The same shall also apply to cases where he/she intends to modify the plan. *<Amended by Act No. 11690, Mar. 23, 2013>*

Article 5 (Designation of Districts to be Supplied with Integrated Energy)

(1) In cases of any of the following subparagraphs, the Minister of Trade, Industry and Energy shall designate and publicly announce districts to be supplied with integrated energy (hereinafter referred to as "area to be supplied"), as prescribed by Presidential Decree. The same shall also apply to cases where he/she has changed the matters announced: *<Amended by Act No. 11690, Mar. 23, 2013>*

1. Where it is necessary to carry out a master plan;
2. Where, as a result of consultation pursuant to Article 4, it is deemed appropriate to supply integrated energy;
3. Where it is deemed necessary to designate an area to be supplied.

(2) Where the Minister of Trade, Industry and Energy intends to designate an area to be supplied pursuant to paragraph (1), he/she shall publicly announce the important matter regarding designation of an area to be supplied for not less than 30 days in advance and hear opinions of the interested parties, such as the residents of the relevant area, and of a person who executes a development project and consult with the head of the relevant central administrative agency and the Special Metropolitan City Mayor, Metropolitan City Mayor, Do Governor or the Governor of a Special Self-Governing Province (hereinafter referred to as the "Mayor/Do Governor"). The same shall also apply to cases where he/she changes matters consulted upon after designating an area to be supplied: Provided, That this shall not apply to cases where he/she changes minor matters prescribed by Presidential Decree. *<Amended by Act No. 11690, Mar. 23, 2013>*

(3) Any person who intends to supply integrated energy to a specific district may apply for designation of an area to be supplied to the Minister of Trade, Industry and Energy as prescribed by Ordinance of the Ministry of Trade, Industry and Energy. In such cases, the Minister of Trade, Industry and Energy shall

examine whether it falls under any of the subparagraphs of paragraph (1) and notify an applicant of the result within the period stipulated by Ordinance of the Ministry of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>

Article 6 (Permit for New Establishment of Heat Production Facilities)

(1) Any person who intends to newly establish, re-establish, or extend heat production facilities, such as boilers, at standards higher than those prescribed by Presidential Decree in an area to be supplied shall obtain a permit from the Minister of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Where any person who has obtained a permit pursuant to paragraph (1) changes the matters permitted, he/she shall obtain an amended permit from the Minister of Trade, Industry and Energy: Provided, That this shall not apply to any change in minor matters prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013>

(3) Where an application for new construction, etc. of heat production facilities pursuant to paragraph (1) or an application for amended permit pursuant to paragraph (2) is made, if such application falls under any of the following subparagraphs, the Minister of Trade, Industry and Energy shall grant a permit: <Amended by Act No. 11690, Mar. 23, 2013>

1. Where the demand for integrated energy in an area to be supplied exceeds the supply volume;
2. Where separate air conditioning facilities or steam generating facilities (limited to the relevant facilities) are required due to the nature of uses of buildings other than housing in an area to be supplied where a district air conditioning and heating project is implemented;
3. Where an applicant for a permit or an amended permit is not stably supplied with integrated energy by a business operator.

(4) The Minister of Trade, Industry and Energy may order any person who has newly constructed, reconstructed, or extended heat production facilities in an area to be supplied without obtaining a permit or an amended permit pursuant to paragraph (1) or (2) to reinstate them. <Amended by Act No. 11690, Mar. 23, 2013>

Article 7 Deleted. <by Act No. 5831, Feb. 8, 1999>

Article 8 (Subsidization)

(1) The State or a local government may provide subsidies to a business operator in order to expand integrated energy supply.

(2) Any person who carries out a development project shall provide support in securing building sites or such, necessary for a business operator to conduct business in an area to be supplied, as prescribed by Presidential Decree.

(3) Where the State or a local government provides subsidies pursuant to paragraph (1), it may preferentially subsidize any business operator who uses natural gas (including liquefied natural gas) or new or renewable energy pursuant to subparagraph 1 of Article 2 of the Act on the Promotion of the Development, Use and Diffusion of New and Renewable Energy as fuel.

Article 9 (Business License)

(1) Any person who intends to conduct business shall obtain a license from the Minister of Trade, Industry and Energy for each supplied district. The same shall also apply to cases where he/she changes permitted matters prescribed by Ordinance of the Ministry of Trade, Industry and Energy. *<Amended by Act No. 11690, Mar. 23, 2013>*

(2) The criteria for licensing pursuant to paragraph (1) shall be as follows:

1. The commencement of business shall meet the general demand and contribute to the public good, such as energy conservation, or environmental improvements;
2. The supplied volume shall meet the demand in a supplied district;
3. An applicant shall have financial resources and technical ability necessary for conducting business;
4. A supplied district shall not overlap with a supplied district of another business operator.

(3) Procedures for licensing pursuant to paragraph (1) and other necessary matters shall be prescribed by Ordinance of the Ministry of Trade, Industry and Energy. *<Amended by Act No. 11690, Mar. 23, 2013>*

Article 10 (Grounds for Disqualification)

A person who falls under any of the following subparagraphs may not obtain a business license:

1. An incompetent or quasi-incompetent;
2. A person who has been declared bankrupt and has not been reinstated;
3. A person in whose case two years have not passed since his/her license was cancelled pursuant to Article 15;
4. A person in whose case two years have not passed since his/her sentence of imprisonment for a violation of this Act, the Energy Use Rationalization Act, or the Electric Utility Act was completely executed (including cases where the execution thereof is deemed to have been completed) or exempted;
5. A person who is under the suspension of the execution of sentence of imprisonment for a violation of this Act, the Energy Use Rationalization Act, or the Electric Utility Act;
6. A corporation which has an executive falling under any of the subparagraphs 1 through 5.

Article 11 (Construction of Supply Facilities and Commencement of Business)

(1) Any business operator shall construct supply facilities and commence business within a period determined by the Minister of Trade, Industry and Energy. In such cases, the Minister of Trade, Industry and Energy may determine such period for each supplied district or each supply facilities. *<Amended by Act No. 11690, Mar. 23, 2013>*

(2) Where the Minister of Trade, Industry and Energy receives an application for extension of a period under paragraph (1) from a business operator, he/she may extend the period if he/she deems that such application has justifiable grounds. *<Amended by Act No. 11690, Mar. 23, 2013>*

Article 12 (Succession to Business)

(1) Any person who falls under any of the following subparagraphs shall succeed to the status of the preceding business operator:

1. Where a business operator dies, his/her heir;
 2. Where a business operator transfers the whole or a part of his/her business, the transferee thereof;
 3. Where a business operator who is a corporation merges, a corporation which survives the merger or a corporation which is incorporated by the merger;
- (2) Any person who acquires the whole of supply facilities in accordance with procedures falling under any of the following subparagraphs shall succeed to the status of the preceding business operator:

- (3) Any person who succeeds to the status of a business operator pursuant to paragraphs (1) and (2) shall report to the Minister of Trade, Industry and Energy within 30 days, as prescribed by Ordinance of the Ministry of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>
- (4) Article 10 shall apply mutatis mutandis to grounds for disqualification of a successor pursuant to paragraph (1).

Article 13 Deleted. <by Act No. 5831, Feb. 8, 1999>

Article 14 (Suspension and Closure of Business and Dissolution of Corporations)

- (1) Where a business operator intends to suspend or close the whole or part of his/her business, he/she shall obtain permission from the Minister of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>
- (2) A resolution of dissolution of a corporate business operator or the consent of all the partners on dissolution thereof shall not enter into force without obtaining authorization from the Minister of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>
- (3) Where any business operator who has suspended his/her business with permission pursuant to paragraph (1) resumes his/her business, he/she shall report to the Minister of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>

Article 15 (Cancellation of Business License)

- (1) Where a business operator falls under any of the following subparagraphs, the Minister of Trade, Industry and Energy may cancel his/her license or order him/her to suspend his/her business for a fixed period not exceeding six months: <Amended by Act No. 11690, Mar. 23, 2013>
1. In cases where he/she obtains a license or an amended license pursuant to Article 9 by fraud or other wrongful means;
 2. In cases where he/she falls under any grounds for disqualification referred to in the subparagraphs of Article 10;

3. In cases where he/she fails to construct supply facilities or commence business within the period pursuant to Article 11 (1) or the period extended pursuant to paragraph (2) of the same Article;
 4. In cases where he/she refuses to supply integrated energy without justifiable grounds, in violation of Article 16 (1);
 5. In cases where he/she fails to execute an order to improve the business operation method, etc., pursuant to Article 20;
 6. In cases where he/she fails to execute an order to improve or change, or to suspend or restrict the use of, integrated energy facilities or an order to suspend the supply of integrated energy pursuant to Article 26 (2).
- (2) In cases of any of the following subparagraphs, paragraph (1) shall not apply until six months after a corporation falls under subparagraph 6 of Article 10 or until six months after the succession commences:
1. In cases where a corporation falls under subparagraph 6 of Article 10;
 2. In cases where an heir who succeeds to the status of a business operator falls under any of subparagraphs 1 through 5 of Article 10.
- (3) Where the Minister of Trade, Industry and Energy should order a business operator to suspend his/her business because he/she falls under any of the subparagraphs of paragraph (1), if such suspension of business is likely to cause serious inconvenience to users or to harm public interests, the Minister of Trade, Industry and Energy may impose and collect a penalty surcharge not exceeding 20 million won in lieu of suspension of business.
- (4) Kinds of offenses subject to the imposition of a penalty surcharge pursuant to paragraph (3), the amount of a penalty surcharge according to the extent of violation, and other necessary matters shall be prescribed by Ordinance of the Ministry of Trade, Industry and Energy. *<Amended by Act No. 11690, Mar. 23, 2013>*
- (5) Where any person who ought to pay a penalty surcharge pursuant to paragraph (3) fails to pay it by the deadline for payment, the Minister of Trade, Industry and Energy shall collect it in the same manner as national taxes in arrears are collected: Provided, That where the authority referred to in paragraph (1) is delegated to the Mayor/Do Governor, the Mayor/Do Governor shall collect it in the same manner as local taxes in arrears are collected. *<Amended by Act No. 11690, Mar. 23, 2013>*

Article 16 (Supply Obligations)

- (1) No business operator shall refuse to supply integrated energy for users in a supplied district, for which he/she has obtained a license, without justifiable grounds.
- (2) In cases where a heat producer has entered into a supply contract with a business operator pursuant to Article 19, he/she shall not refuse to supply heat without justifiable grounds.

Article 17 (Supply Regulations)

- (1) A business operator shall formulate supply regulations on charges and other terms and conditions of supply as prescribed by Ordinance of the Ministry of Trade, Industry and Energy and report them to the Minister of Trade, Industry and Energy, and the same shall also apply to cases where he/she intends to

modify them. In such cases, where he/she has obtained approval of, or approval for modification of, the electricity supply clauses from the Minister of Trade, Industry and Energy under Article 16 of the Electric Utility Act, he/she shall be deemed to have reported the matters related to electricity supply in the supply regulations or to have reported any modification of such matters. *<Amended by Act No. 11690, Mar. 23, 2013>*

(2) Where a business operator reports the supply regulations or reports the modification thereof pursuant to paragraph (1), he/she shall not exceed the upper limit of charges designated and announced by the Minister of Trade, Industry and Energy, as prescribed by Presidential Decree. *<Amended by Act No. 11690, Mar. 23, 2013>*

(3) Where a business operator has reported the supply regulations or reported the modification thereof pursuant to paragraph (1), he/she shall advise the users of the point in writing without delay and announce it in his/her Internet homepage.

(4) A business operator shall supply integrated energy pursuant to the supply regulations which he/she has reported or of which he/she has reported any modification pursuant to paragraph (1).
