Act No. 10452, Mar. 9, 2011

Act No. 11690, Mar. 23, 2013

Article 1 (Purpose)

The purpose of this Act is to improve agricultural productivity, promote the growth of the national economy and conserve national land by having the State or a local government manage tide embankments especially necessary to conserve reclaimed land for agricultural purposes and prevent damage to agricultural and fishery products.

Article 2 (Definitions)

The terms used in this Act shall be defined as follows:

1. The term "tide embankment" means an embankment constructed along the seashore for agricultural purposes;
2. The term "managed tide embankment" means a tide embankment managed by the State or a local government;
3. The term "appendages to a tide embankment" means a tidewater lake, tidemark, groyne and other artificial structure attached to a tide embankment;
4. The term "tidal water capacity" means the volume of tidewater to be flowed into reclaimed land at the highest tide.

Article 3 (Decision of Tide Embankments Managed by the State)

(1) The owner or manager of any of the following tide embankments may file an application for the management of a relevant tide embankment by the State with the Minister of Agriculture, Food and Rural Affairs: <Amended by Act No. 11690, Mar. 23, 2013>

1. A tide embankment of reclaimed land, the tidal water capacity of which is not less than ten million cubic meters;
2. A tide embankment of reclaimed land, the tidal water capacity of which is neither less than seven million cubic meters nor more than ten million cubic meters, and the distance to the other side of which is not less than four kilometers;
3. Any of the following tide embankments, the beneficiaries of which lack the ability to bear expenses or which is deemed especially necessary for the public security:

(a) A tide embankment of reclaimed land, the tidal water capacity of which is neither less than seven million cubic meters nor more than ten million cubic meters, and the distance to the other side of which is less than four kilometers;

(b) A tide embankment of reclaimed land, the tidal water capacity of which is neither less than three million cubic meters nor more than seven million cubic meters, and the distance to the other side of which is not less than four kilometers.

(2) Upon receipt of an application under paragraph (1), the Minister of Agriculture, Food and Rural Affairs shall review whether the State needs to manage the relevant tide embankment, and then designate it as a tide embankment to be managed by the State. *<Amended by Act No. 11690, Mar. 23, 2013>*

Article 3-2 (Decision of Tide Embankments Managed by Local Governments)

(1) The owner or manager of a tide embankment excluding tide embankments managed by the State under Article 3 may file an application for management of the relevant tide embankment by a local government with the head of the competent local government at all levels (hereinafter referred to as "head of a local government").

(2) Upon receipt of an application under paragraph (1), the head of a local government shall review whether the local government needs to manage the relevant tide embankment, and then decide it as a tide embankment to be managed by the local government.

(3) The scope of tide embankments managed by a Metropolitan City, Do, and Special Self-Governing Province (hereinafter referred to as "City/Do") shall be prescribed by municipal ordinance of the relevant City/Do, and the scope of tide embankments managed by a Si/Gun/autonomous Gu shall be prescribed by municipal ordinance of the relevant Si/Gun/autonomous Gu .

Article 4 (Release from Management)

Where a tide embankment need not be managed as a managed tide embankment, or the original manager files an application, the Minister of Agriculture, Food and Rural Affairs or the head of a local government may release the tide embankment from tide embankments subject to management. *<Amended by Act No. 11690, Mar. 23, 2013>*

Article 5 (Public Announcement)

Where the Minister of Agriculture, Food and Rural Affairs or the head of a local government has designated the relevant tide embankment as a managed tide embankment pursuant to Articles 3 and 3-2 or has released the relevant tide embankment from a managed tide embankment pursuant to Article 4, he/she

shall announce the following matters officially: *<Amended by Act No. 11690, Mar. 23, 2013>*

1. The location of the tide embankment;
2. The total length and width of a tide embankment and appendages thereto;
3. The tidal water capacity;
4. The domicile and the name of the owner and the original manager thereof.

Article 6 (Management of Tide Embankments)

(1) The Minister of Agriculture, Food and Rural Affairs shall exercise overall control over the comprehensive planning, investigation, and supervision regarding the State management of tide embankments and other necessary matters, and the competent Metropolitan City Mayor, the competent Do Governor, and the Governor of the competent Special Self-Governing Province (hereinafter referred to as the "Mayor/Do Governor") shall exercise overall control over the comprehensive planning, investigation and supervision regarding a local government's management of tide embankments and other necessary matters: Provided, That where the comprehensive coordination is required when managing tide embankments or where the disposition made by the Mayor/Do Governor is deemed inappropriate, the Minister of Agriculture, Food and Rural Affairs may cancel or correct such disposition or take other necessary measures. *<Amended by Act No. 11690, Mar. 23, 2013>*

(2) The Minister of Agriculture, Food and Rural Affairs or the head of a local government may appoint an organization prescribed by Presidential Decree to conduct business concerning the management of a tide embankment on his/her behalf. *<Amended by Act No. 11690, Mar. 23, 2013>*

(3) In cases of paragraph (2), the Minister of Agriculture, Food and Rural Affairs or the head of a local government may have an organization that conducts business concerning the management of a tide embankment on his/her behalf manage the expenses incurred in the management thereof.

(4) Matters necessary for the management of funds incurred in the management of a tide embankment shall be prescribed by Presidential Decree.

Article 7 (Bearing of Management Expenses)

Expenses incurred in the State management of tide embankments shall be paid from the national treasury, and expenses incurred in a local government's management of tide embankments shall be paid from the national treasury and local finance: Provided, That the Minister of Agriculture, Food and Rural Affairs may provide special support from the national treasury to tide embankments in special regions, such as islands, etc., from among tide embankments managed by a local government, as prescribed by Presidential Decree. *<Amended by Act No. 11690, Mar. 23, 2013>*
