Vessel Marking Specifications and Standards

1.1.1 These specifications are intended to implement the FAO Standard Specifications for the Marking and Identification of Fishing Vessels.

1.1.2 These specifications shall apply to the operation of all fishing vessels entitled to fly the flag of the Marshall Islands and authorized to fish beyond the Fishery waters of the Marshall Islands.

2.1 General requirements

2.1.1 The owner, or operator, or charterer, or lessee submitting an application for recording a fishing vessel on the Marshall Islands Record of Fishing Vessels shall ensure that:

(a) the vessel is marked for identification with its International Telecommunication Union Radio Call Signs (IRCS);

(b) the vessels to which an IRCS has not been assigned, is marked either with the characters allocated by the International Telecommunication Union (ITU) to the Marshall Islands or such other characters of national identification as may be required under any bilateral fishery agreements entered into by the Marshall Islands and followed by, as appropriate, the fishing authorization or vessel registration number assigned to the vessel by any regional fisheries management organization to which the Marshall Islands is a member or cooperating non-member. In such cases, a hyphen shall be placed between the nationality identification characters and the license or registration number identifying the vessel.
(a) Whichever system is used from 2.1.1. (a) or (b) above, that identifier shall, for the purpose of the Commission for the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean (hereafter WCPFC), be called the WCPFC Identification Number (WIN).

2.1.2 Apart from the vessel’s name or identification mark and the port of registry as may be required by international practice or national legislation, the WIN as specified shall be the only other vessel identification mark consisting of letters and numbers to be painted on the hull or superstructure;

2.2. Markings and other technical specifications

2.2.1 The WIN in the English language shall be displayed prominently at all times:

(a) on the vessel’s hull or superstructure, port and starboard. Operators may place fixtures that are inclined at an angle to the vessel’s side or superstructure provided that the angle of inclination would not prevent sighting of the sign from another vessel or from the air;

(b) on a deck, except as provided for in paragraph 2.2.4 below. Should an awning or other temporary cover be placed so as to obscure the mark on a deck, the awning or cover shall also be marked. These marks should be placed athwart ships with the top of the numbers or letters towards the bow.

2.2.2 The WIN shall be placed:

(a) as high as possible above the waterline on both sides of the vessel and that such parts of the hull as the flare of the bow and the stern are avoided;

(b) in a manner that does not allow the marks to be obscured by the fishing gear whether it is stowed or in use;
so that they are clear of flow from scuppers or overboard discharges including areas which might be prone to damage or discoloration from the catch of certain types of species; and,

so that they do not extend below the waterline.

Undecked vessels shall not be required to display the WIN on a horizontal surface. However, where practical, the WIN may be fitted on a board so that it may be clearly seen from the air.

Boats, skiffs and craft carried by the vessel for fishing operations shall bear the same WIN as the vessel concerned.

The operators of vessels shall comply with the following in placing the WIN on the vessel:

- (a) that block lettering and numbering is used throughout;
- (b) that the width of the letters and numbers is in proportion to the height;
- (c) the height (h) of the letters and numbers is in proportion to the size of the vessel shall be in accordance with the following:

<table>
<thead>
<tr>
<th>Length of vessel overall (LOA) in metres (m)</th>
<th>Height of letters and numbers in metres (m) is not less than:</th>
</tr>
</thead>
<tbody>
<tr>
<td>25 m and over</td>
<td>1.0 m</td>
</tr>
<tr>
<td>20 m but less than 25 m</td>
<td>0.8 m</td>
</tr>
<tr>
<td>Class</td>
<td>Minimum Height</td>
</tr>
<tr>
<td>------------------------------</td>
<td>----------------</td>
</tr>
<tr>
<td>15 m but less than 20 m</td>
<td>0.6 m</td>
</tr>
<tr>
<td>12 m but less than 15 m</td>
<td>0.4 m</td>
</tr>
<tr>
<td>5 m but less than 12 m</td>
<td>0.3 m</td>
</tr>
<tr>
<td>Under 5 m</td>
<td>0.1 m</td>
</tr>
</tbody>
</table>

(ii) for the WIN to be placed on deck: the height is not less than 0.3 m for all classes of vessels of 5 m and over;

(d) the length of the hyphen is half the height of the letters and numbers;

(e) the width of the stroke for all letters, numbers and the hyphen is \( h/6 \);

(f) the space between letters and/or numbers does not exceed \( h/4 \) nor be less than \( h/6 \);

(g) the space between adjacent letters having sloping sides does not exceed \( h/8 \) nor be less than \( h/10 \); for example A V.

(h) the WIN is white on a black background, or black on a white background;

(i) the background shall extend to provide a border around the WIN of not less than \( h/6 \);

(j) good quality marine paint is used throughout;

(k) the WIN meets the requirements of these Specifications where retro-reflective or heat generating substances are used; and,

(l) the WIN and the background are maintained in good condition at all times.
