Botany Bay Local Environmental Plan 2013

As at 3 April 2018

Part 1 – Preliminary

1.1 Name of Plan
This Plan is *Botany Bay Local Environmental Plan 2013*.

1.1AA Commencement
This Plan commences on the day on which it is published on the NSW legislation website.

1.2 Aims of Plan
(1) This Plan aims to make local environmental planning provisions for land in Botany Bay in accordance with the relevant standard environmental planning instrument under section 33A of the Act.
(2) The particular aims of this Plan are as follows:
   (a) to recognise the importance of Botany Bay as a gateway to Sydney, given its proximity to Sydney (Kingsford Smith) Airport and Port Botany,
   (b) to encourage sustainable economic growth and development,
   (c) to provide direction concerning growth and change in Botany Bay,
   (d) to identify and conserve those items and localities that contribute to the local built form and the environmental and cultural heritage of Botany Bay,
   (e) to protect and enhance the natural and cultural landscapes in Botany Bay,
   (f) to create a highly liveable urban place through the promotion of design excellence in all elements of the built environment and public domain,
   (g) to protect residential amenity.

1.3 Land to which Plan applies
(1) This Plan applies to the land identified on the *Land Application Map*.
(1A) Despite subclause (1), this Plan does not apply to the land identified as "Deferred matter" on the *Land Application Map*.

1.4 Definitions
The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes
Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority
The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps
(1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:
   (a) approved by the Minister when the map is adopted, and
   (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.
(1AA) A reference to the Minister in subclause (1) is taken to be a reference to the Greater Sydney Commission in the case of any map that applies to a local government
area in the Greater Sydney Region (within the meaning of the *Greater Sydney Commission Act 2015*) and that is adopted by a local environmental plan on or after 27 January 2016.

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

(4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

1.8 Repeal of planning instruments applying to land

(1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed. The following local environmental plans are repealed under this provision:

- *County of Cumberland Planning Scheme Ordinance*
- *Municipality of Botany Interim Development Order 19*

(2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies. While *Botany Local Environmental Plan 1995* no longer applies to the land to which this Plan applies, it continues to apply to the land identified as "Deferred matter" under clause 1.3 (1A).

1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

(1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.

(2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

- *State Environmental Planning Policy No 1--Development Standards*

1.9A Suspension of covenants, agreements and instruments

(1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

(2) This clause does not apply:

   (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
   (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or
   (c) to any conservation agreement within the meaning of the *National Parks and
Wildlife Act 1974, or
(d) to any Trust agreement within the meaning of the Nature Conservation Trust Act 2001, or
(e) to any property vegetation plan within the meaning of the Native Vegetation Act 2003, or
(f) to any biobanking agreement within the meaning of Part 7A of the Threatened Species Conservation Act 1995, or
(g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.

(3) This clause does not affect the rights or interests of any public authority under any registered instrument.
(4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)-(3).

Part 2 – Permitted or prohibited development

2.1 Land use zones
The land use zones under this Plan are as follows:

R2 Low Density Residential  R3 Medium Density Residential  R4 High Density Residential
B1 Neighbourhood Centre   B2 Local Centre      B3 Commercial Core  B4 Mixed Use  B5
Business Development  B7 Business Park
IN1 General Industrial   IN2 Light Industrial
SP1 Special Activities  SP2 Infrastructure
RE1 Public Recreation  RE2 Private Recreation
W3 Working Waterways

2.2 Zoning of land to which Plan applies
For the purposes of this Plan, land is within the zones shown on the Land Zoning Map.

2.3 Zone objectives and Land Use Table
(1) The Land Use Table at the end of this Part specifies for each zone:
   (a) the objectives for development, and
   (b) development that may be carried out without development consent, and
   (c) development that may be carried out only with development consent, and
   (d) development that is prohibited.
(2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
(3) In the Land Use Table at the end of this Part:
   (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
   (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
(4) This clause is subject to the other provisions of this Plan.

1 Schedule 1 sets out additional permitted uses for particular land.
2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
4 Clause 2.6 requires consent for subdivision of land.
5 Part 5 contains other provisions which require consent for particular development.
2.4 Unzoned land
(1) Development may be carried out on unzoned land only with development consent.
(2) In deciding whether to grant development consent, the consent authority:
   (a) must consider whether the development will impact on adjoining zoned land
      and, if so, consider the objectives for development in the zones of the adjoining
      land, and
   (b) must be satisfied that the development is appropriate and is compatible with
      permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land
(1) Development on particular land that is described or referred to in Schedule 1 may be
    carried out:
    (a) with development consent, or
    (b) if the Schedule so provides--without development consent,
    in accordance with the conditions (if any) specified in that Schedule in relation to that
    development.
(2) This clause has effect despite anything to the contrary in the Land Use Table or other
    provision of this Plan.

2.6 Subdivision--consent requirements
(1) Land to which this Plan applies may be subdivided, but only with development
    consent.
1 If a subdivision is specified as exempt development in an applicable environmental planning
   instrument, such as this Plan or State Environmental Planning Policy (Exempt and Complying
   Development Codes) 2008, the Act enables it to be carried out without development consent.
2 Part 6 of State Environmental Planning Policy (Exempt and Complying Development Codes)
   2008 provides that the strata subdivision of a building in certain circumstances is complying
   development.
(2) Development consent must not be granted for the subdivision of land on which a
    secondary dwelling is situated if the subdivision would result in the principal dwelling
    and the secondary dwelling being situated on separate lots, unless the resulting lots are
    not less than the minimum size shown on the Lot Size Map in relation to that land. The
    definition of “secondary dwelling” in the Dictionary requires the dwelling to be on the same lot of land as
    the principal dwelling.

2.7 Demolition requires development consent
The demolition of a building or work may be carried out only with development consent.

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this
Plan or State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, as exempt
development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land
(1) The objective of this clause is to provide for the temporary use of land if the use does
    not compromise future development of the land, or have detrimental economic, social,
    amenity or environmental effects on the land.
(2) Despite any other provision of this Plan, development consent may be granted for
    development on land in any zone for a temporary use for a maximum period of 52 days
    (whether or not consecutive days) in any period of 12 months.
(3) Development consent must not be granted unless the consent authority is satisfied
    that:
    (a) the temporary use will not prejudice the subsequent carrying out of
        development on the land in accordance with this Plan and any other applicable
        environmental planning instrument, and
    (b) the temporary use will not adversely impact on any adjoining land or the
        amenity of the neighbourhood, and
    (c) the temporary use and location of any structures related to the use will not
adversely impact on environmental attributes or features of the land, or increase
the risk of natural hazards that may affect the land, and
(d) at the end of the temporary use period the land will, as far as is practicable, be
restored to the condition in which it was before the commencement of the use.

(4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new
release area or a new housing estate may exceed the maximum number of days specified
in that subclause.
(5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office
mentioned in subclause (4).

**Land Use Table**

A type of development referred to in the Land Use Table is a reference to that type of development only to the
extent it is not regulated by an applicable State environmental planning policy. The following State environmental
planning policies in particular may be relevant to development on land to which this Plan applies:

*State Environmental Planning Policy (Affordable Rental Housing) 2009* (including provision for
secondary dwellings)

*State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004*

*State Environmental Planning Policy (Infrastructure) 2007* --relating to infrastructure facilities
such as those that comprise, or are for, air transport, correction, education, electricity generating
works and solar energy systems, health services, ports, railways, roads, waste management and
water supply systems

*State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007*

*State Environmental Planning Policy (Rural Lands) 2008*

*State Environmental Planning Policy No 33--Hazardous and Offensive Development*

*State Environmental Planning Policy No 50--Canal Estate Development*

*State Environmental Planning Policy No 62--Sustainable Aquaculture*

*State Environmental Planning Policy No 64--Advertising and Signage*

**Zone R2 Low Density Residential**

1 Objectives of zone
   â€¢ To provide for the housing needs of the community within a low density
     residential environment.
   â€¢ To enable other land uses that provide facilities or services to meet the day to
day needs of residents.
   â€¢ To encourage development that promotes walking and cycling.

2 Permitted without consent Home occupations
3 Permitted with consent Attached dwellings; Bed and breakfast accommodation;
   Boarding houses; Building identification signs; Business identification signs;
   Centre-based child care facilities; Community facilities; Dwelling houses; Environmental
   protection works; Flood mitigation works; Group homes; Health consulting rooms;
   Hospitals; Multi dwelling housing; Neighbourhood shops; Office premises; Places of
   public worship; Recreation areas; Residential flat buildings; Respite day care centres;
Roads; Semi-detached dwellings
4 Prohibited Any development not specified in item 2 or 3

**Zone R3 Medium Density Residential**

1 Objectives of zone
- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To encourage development that promotes walking and cycling.

2 Permitted without consent Home occupations

3 Permitted with consent Attached dwellings; Bed and breakfast accommodation; Boarding houses; Centre-based child care facilities; Community facilities; Dwelling houses; Group homes; Multi dwelling housing; Neighbourhood shops; Office premises; Places of public worship; Residential flat buildings; Respite day care centres; Roads; Semi-detached dwellings; Seniors housing; Any other development not specified in item 2 or 4

4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Emergency services facilities; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Helipads; Highway service centres; Home businesses; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Information and education facilities; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger transport facilities; Port facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Residential accommodation; Restricted premises; Rural industries; Service stations; Sewage treatment plants; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies

**Zone R4 High Density Residential**

1 Objectives of zone
- To provide for the housing needs of the community within a high density residential environment.
- To provide a variety of housing types within a high density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To encourage development that promotes walking and cycling.

2 Permitted without consent Home occupations

3 Permitted with consent Attached dwellings; Bed and breakfast accommodation; Boarding houses; Centre-based child care facilities; Community facilities; Dwelling houses; Multi dwelling housing; Neighbourhood shops; Office premises; Places of public worship; Residential flat buildings; Respite day care centres; Roads; Semi-detached dwellings;
Shop top housing; Any other development not specified in item 2 or 4
4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Emergency services facilities; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Helipads; Highway service centres; Home businesses; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Information and education facilities; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger transport facilities; Port facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Residential accommodation; Restricted premises; Rural industries; Service stations; Sewage treatment plants; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies

Zone B1 Neighbourhood Centre
1 Objectives of zone
  â€¢ To provide a range of small-scale retail, business and community uses that serve the needs of people who live or work in the surrounding neighbourhood.
  â€¢ To ensure that development does not adversely impact on residential amenity and is compatible with the existing streetscape.

2 Permitted without consent Home occupations

3 Permitted with consent Bed and breakfast accommodation; Boarding houses; Business premises; Centre-based child care facilities; Community facilities; Dwelling houses; Food and drink premises; Hostels; Kiosks; Markets; Medical centres; Neighbourhood shops; Respite day care centres; Roads; Shop top housing; Shops; Any other development not specified in item 2 or 4

4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Hospitals; Industrial retail outlets; Industrial training facilities; Industries; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger transport facilities; Port facilities; Pubs; Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Residential accommodation; Resource recovery facilities; Restricted premises; Retail premises; Rural industries; Service stations; Sewage treatment plants; Sex services premises; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste disposal facilities; Water recreation structures; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies
Zone B2 Local Centre

1 Objectives of zone
- To provide a range of retail, business, entertainment and community uses that serve the needs of people who live in, work in and visit the local area.
- To encourage employment opportunities in accessible locations.
- To maximise public transport patronage and encourage walking and cycling.

2 Permitted without consent Home occupations

3 Permitted with consent Boarding houses; Centre-based child care facilities; Commercial premises; Community facilities; Dwelling houses; Educational establishments; Entertainment facilities; Function centres; Home industries; Information and education facilities; Medical centres; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Residential flat buildings; Respite day care centres; Restricted premises; Roads; Service stations; Shop top housing; Tourist and visitor accommodation; Any other development not specified in item 2 or 4

4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Port facilities; Recreation facilities (major); Residential accommodation; Resource recovery facilities; Rural industries; Sewage treatment plants; Sex services premises; Storage premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Waste disposal facilities; Water recreation structures; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies

Zone B3 Commercial Core

1 Objectives of zone
- To provide a wide range of retail, business, office, entertainment, community and other suitable land uses that serve the needs of the local and wider community.
- To encourage appropriate employment opportunities in accessible locations.
- To maximise public transport patronage and encourage walking and cycling.

2 Permitted without consent Nil

3 Permitted with consent Centre-based child care facilities; Commercial premises; Community facilities; Educational establishments; Entertainment facilities; Function centres; Hotel or motel accommodation; Information and education facilities; Medical centres; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Respite day care centres; Restricted premises; Roads; Any other development not specified in item 2 or 4

4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Heavy industrial storage establishments; Helipads; Highway service centres; Home-based child care; Home businesses; Home occupations; Home occupations (sex services); Industrial retail outlets; Industrial training facilities;
Industries; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Port facilities; Recreation facilities (major); Recreation facilities (outdoor); Research stations; Residential accommodation; Resource recovery facilities; Rural industries; Sewage treatment plants; Sex services premises; Storage premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Waste disposal facilities; Water recreation structures; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies

Zone B4 Mixed Use
1 Objectives of zone
   â€¢ To provide a mixture of compatible land uses.
   â€¢ To integrate suitable business, office, residential, retail and other development in accessible locations so as to maximise public transport patronage and encourage walking and cycling.
2 Permitted without consent Home occupations
3 Permitted with consent Boarding houses; Centre-based child care facilities; Commercial premises; Community facilities; Dwelling houses; Educational establishments; Entertainment facilities; Function centres; Hotel or motel accommodation; Information and education facilities; Light industries; Medical centres; Passenger transport facilities; Recreation facilities (indoor); Registered clubs; Residential flat buildings; Respite day care centres; Restricted premises; Roads; Seniors housing; Shop top housing; Any other development not specified in item 2 or 4
4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Freight transport facilities; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial training facilities; Industries; Jetties; Marinas; Mooring pens; Moorings; Mortuaries; Open cut mining; Port facilities; Recreation facilities (major); Research stations; Residential accommodation; Resource recovery facilities; Rural industries; Sewage treatment plants; Sex services premises; Storage premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Warehouse or distribution centres; Waste disposal facilities; Water recreation structures; Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale supplies

Zone B5 Business Development
1 Objectives of zone
   â€¢ To enable a mix of business and warehouse uses, and bulky goods premises that require a large floor area, in locations that are close to, and that support the viability of, centres.
2 Permitted without consent Nil
3 Permitted with consent Bulky goods premises; Centre-based child care facilities; Food and drink premises; Garden centres; Hardware and building supplies; High technology industries; Landscaping material supplies; Neighbourhood shops; Passenger transport facilities; Respite day care centres; Roads; Vehicle sales or hire premises; Warehouse or distribution centres; Any other development not specified in item 2 or 4
4 Prohibited Agriculture; Air transport facilities; Airstrips; Animal boarding or training establishments; Biosolids treatment facilities; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Depots; Eco-tourist facilities;
Zone B7 Business Park

1 Objectives of zone
   à To provide a range of office and light industrial uses.
   à To encourage employment opportunities.
   à To enable other land uses that provide facilities or services to meet the day to
day needs of workers in the area.
   à To encourage uses in the arts, technology, production and design sectors.

2 Permitted without consent Home occupations

3 Permitted with consent Centre-based child care facilities; Dwelling houses; Food and
drink premises; Garden centres; Hardware and building supplies; Home industries; Light
industries; Neighbourhood shops; Office premises; Passenger transport facilities; Respite
day care centres; Roads; Vehicle sales or hire premises; Warehouse or distribution
centres; Any other development not specified in item 2 or 4

4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips;
Amusement centres; Animal boarding or training establishments; Biosolids treatment
facilities; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks;

premises; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair
stations; Veterinary hospitals; Waste disposal facilities; Water recreation structures;
Water recycling facilities; Water supply systems; Wharf or boating facilities; Wholesale
supplies

Zone IN1 General Industrial

1 Objectives of zone
   à To provide a wide range of industrial and warehouse land uses.
   à To encourage employment opportunities.
   à To minimise any adverse effect of industry on other land uses.
   à To support and protect industrial land for industrial uses.

2 Permitted without consent Nil

3 Permitted with consent Depots; Freight transport facilities; Garden centres; General
industries; Hardware and building supplies; Industrial training facilities; Light industries;
Neighbourhood shops; Places of public worship; Restaurants or cafes; Roads; Take away
Zone IN2 Light Industrial

1 Objectives of zone

- To provide a wide range of light industrial, warehouse and related land uses.
- To encourage employment opportunities and to support the viability of centres.
- To minimise any adverse effect of industry on other land uses.
- To enable other land uses that provide facilities or services to meet the day to day needs of workers in the area.
- To support and protect industrial land for industrial uses.

2 Permitted without consent Nil

3 Permitted with consent Depots; Garden centres; Hardware and building supplies; Industrial training facilities; Light industries; Neighbourhood shops; Places of public worship; Roads; Timber yards; Warehouse or distribution centres; Any other development not specified in item 2 or 4

4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Amusement centres; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Centre-based child care facilities; Charter and tourism boating facilities; Commercial premises; Community facilities; Correctional centres; Crematoria; Eco-tourist facilities; Educational establishments; Entertainment facilities; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Function centres; Health services facilities; Heavy industrial storage establishments; Heavy industries; Helipads; Highway service centres; Home-based child care; Home businesses; Home occupations; Home occupations (sex services); Information and education facilities; Jetties; Marinas; Mooring pens; Moorings; Open cut mining; Passenger transport facilities; Port facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Residential accommodation; Respite day care centres; Restricted premises; Rural industries; Tourist and visitor accommodation; Veterinary hospitals; Water recreation structures; Water supply systems; Wharf or boating facilities

food and drink premises; Timber yards; Warehouse or distribution centres; Any other development not specified in item 2 or 4

4 Prohibited Advertising structures; Agriculture; Air transport facilities; Airstrips; Amusement centres; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Centre-based child care facilities; Charter and tourism boating facilities; Commercial premises; Community facilities; Correctional centres; Crematoria; Eco-tourist facilities; Educational establishments; Entertainment facilities; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Forestry; Function centres; Health services facilities; Heavy industrial storage establishments; Heavy industries; Helipads; Highway service centres; Home-based child care; Home businesses; Home occupations; Home occupations (sex services); Information and education facilities; Jetties; Marinas; Mooring pens; Moorings; Open cut mining; Passenger transport facilities; Port facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Residential accommodation; Resource recovery facilities; Respite day care centres; Restricted premises; Rural industries; Sewage treatment plants; Sex services premises; Tourist and visitor accommodation; Transport depots; Truck depots; Veterinary hospitals; Waste disposal facilities; Water recreation structures; Water recycling facilities; Water supply systems; Wharf or boating facilities
Zone SP1 Special Activities
1 Objectives of zone
   â€¢ To provide for special land uses that are not provided for in other zones.
   â€¢ To provide for sites with special natural characteristics that are not provided
     for in other zones.
   â€¢ To facilitate development that is in keeping with the special characteristics of
     the site or its existing or intended special use, and that minimises any adverse
     impacts on surrounding land.
2 Permitted without consent Environmental protection works
3 Permitted with consent The purpose shown on the Land Zoning Map, including any
devlopment that is ordinarily incidental or ancillary to development for that purpose
4 Prohibited Any development not specified in item 2 or 3

Zone SP2 Infrastructure
1 Objectives of zone
   â€¢ To provide for infrastructure and related uses.
   â€¢ To prevent development that is not compatible with or that may detract from
     the provision of infrastructure.
2 Permitted without consent Environmental protection works
3 Permitted with consent Roads; The purpose shown on the Land Zoning Map, including
any development that is ordinarily incidental or ancillary to development for that purpose
4 Prohibited Any development not specified in item 2 or 3

Zone RE1 Public Recreation
1 Objectives
   â€¢ To enable land to be used for public open space or recreational purposes.
   â€¢ To provide a range of recreational settings and activities and compatible land
     uses.
   â€¢ To protect and enhance the natural environment for recreational purposes.
2 Permitted without consent Environmental protection works
3 Permitted with consent Centre-based child care facilities; Community facilities;
Emergency services facilities; Environmental facilities; Flood mitigation works;
Information and education facilities; Jetties; Kiosks; Markets; Recreation areas;
Recreation facilities (indoor); Recreation facilities (major); Recreation facilities
(outdoor); Respite day care centres; Roads; Signage; Water storage facilities
4 Prohibited Any development not specified in item 2 or 3

Zone RE2 Private Recreation
1 Objectives of zone
   â€¢ To enable land to be used for private open space or recreational purposes.
   â€¢ To provide a range of recreational settings and activities and compatible land
     uses.
   â€¢ To protect and enhance the natural environment for recreational purposes.
2 Permitted without consent Environmental protection works
3 Permitted with consent Building identification signs; Business identification signs; Car
parks; Centre-based child care facilities; Community facilities; Entertainment facilities;
Environmental facilities; Flood mitigation works; Food and drink premises; Information
and education facilities; Kiosks; Markets; Places of public worship; Recreation areas;
Recreation facilities (indoor); Recreation facilities (major); Recreation facilities
(outdoor); Registered clubs; Respite day care centres; Roads; Water storage facilities
4 Prohibited Any development not specified in item 2 or 3

Zone W3 Working Waterways
1 Objectives of zone
   â€¢ To enable the efficient movement and operation of commercial shipping,
     water-based transport and maritime industries.
To promote the equitable use of waterways, including appropriate recreational uses.
To minimise impacts on ecological values arising from the active use of waterways.
To provide for sustainable fishing industries.

2 Permitted without consent Environmental protection works
3 Permitted with consent Boat building and repair facilities; Boat sheds; Building identification signs; Business identification signs; Environmental facilities; Flood mitigation works; Port facilities; Water recreation structures; Wharf or boating facilities
4 Prohibited Any development not specified in item 2 or 3

Part 3 – Exempt and complying development

3.1 Exempt development
Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

(a) must be of minimal environmental impact, and
(b) cannot be carried out in a declared area of outstanding biodiversity value under the Biodiversity Conservation Act 2016 or declared critical habitat under Part 7A of the Fisheries Management Act 1994, and
(c) cannot be carried out in a wilderness area (identified under the Wilderness Act 1987).

(1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

(2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.

(3) To be exempt development, the development:

(a) must meet the relevant deemed-to-satisfy provisions of the Building Code of Australia or, if there are no such relevant provisions, must be structurally adequate, and
(b) must not, if it relates to an existing building, cause the building to contravene the Building Code of Australia, and
(c) must not be designated development, and
(d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the Heritage Act 1977 or that is subject to an interim heritage order under the Heritage Act 1977.

(4) Development that relates to an existing building that is classified under the Building Code of Australia as class 1b or class 2-9 is exempt development only if:

(a) the building has a current fire safety certificate or fire safety statement, or
(b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must:

(a) be installed in accordance with the manufacturer's specifications, if applicable, and
(b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

(6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

(1) The objective of this clause is to identify development as complying development.
(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:
(a) the development standards specified in relation to that development, and
(b) the requirements of this Part,
is complying development. See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must:
(a) be permissible, with development consent, in the zone in which it is carried out, and
(b) meet the relevant deemed-to-satisfy provisions of the Building Code of Australia, and
(c) have an approval, if required by the Local Government Act 1993, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded
(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause:"environmentally sensitive area for exempt or complying development" means any of the following:
(a) the coastal waters of the State,
(b) a coastal lake,
(c) land within the coastal wetlands and littoral rainforests area (within the meaning of the Coastal Management Act 2016),
(d) land reserved as an aquatic reserve under the Fisheries Management Act 1994 or as a marine park under the Marine Parks Act 1997,
(e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
(f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
(g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
(h) land reserved under the National Parks and Wildlife Act 1974 or land acquired under Part 11 of that Act,
(i) land reserved or dedicated under the Crown Lands Act 1989 for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
(j) land that is a declared area of outstanding biodiversity value under the Biodiversity Conservation Act 2016 or declared critical habitat under Part 7A of the Fisheries Management Act 1994.

Part 4 – Principal development standards

4.1 Minimum subdivision lot size
[Not adopted]

4.1AA Minimum subdivision lot size for community title schemes
[Not adopted]

4.2 Rural subdivision
[Not adopted]
4.3 Height of buildings

(1) The objectives of this clause are as follows:
   (a) to ensure that the built form of Botany Bay develops in a coordinated and cohesive manner,
   (b) to ensure that taller buildings are appropriately located,
   (c) to ensure that building height is consistent with the desired future character of an area,
   (d) to minimise visual impact, disruption of views, loss of privacy and loss of solar access to existing development,
   (e) to ensure that buildings do not adversely affect the streetscape, skyline or landscape when viewed from adjoining roads and other public places such as parks, and community facilities.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the *Height of Buildings Map*.

(2A) Despite subclause (2), if an area of land in Zone R3 Medium Density Residential or Zone R4 High Density Residential exceeds 2,000 square metres, the height of a building on that land may exceed the maximum height shown for the land on the *Height of Buildings Map* but must not exceed 22 metres.

(2B) Subclause (2A) does not apply to land identified as "Area 1" on the *Height of Buildings Map*.

(2C) Despite subclause (2), if an area of land identified as "Area 2" on the *Height of Buildings Map* has a site area exceeding 1,900 square metres, the maximum height for a building on that land may exceed the maximum height shown for the land on the *Height of Buildings Map* by no more than 2 metres.

4.4 Floor space ratio

(1) The objectives of this clause are as follows:
   (a) to establish standards for the maximum development density and intensity of land use,
   (b) to ensure that buildings are compatible with the bulk and scale of the existing and desired future character of the locality,
   (c) to maintain an appropriate visual relationship between new development and the existing character of areas or locations that are not undergoing, and are not likely to undergo, a substantial transformation,
   (d) to ensure that buildings do not adversely affect the streetscape, skyline or landscape when viewed from adjoining roads and other public places such as parks, and community facilities,
   (e) to minimise adverse environmental effects on the use or enjoyment of adjoining properties and the public domain,
   (f) to provide an appropriate correlation between the size of a site and the extent of any development on that site,
   (g) to facilitate development that contributes to the economic growth of Botany Bay.

(2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the *Floor Space Ratio Map*.

(2A) Despite subclause (2), if an area of land in Zone R3 Medium Density Residential or Zone R4 High Density Residential exceeds 2,000 square metres, the floor space ratio for a building on that land may exceed the maximum floor space ratio shown for the land on the *Floor Space Ratio Map* but must not exceed 1.5:1.

(2B) Subclause (2A) does not apply to land identified as "Area 1" on the *Floor Space Ratio Map*.

(2C) Despite subclause (2), if an area of land identified as "Area 2" on the *Floor Space Ratio Map* has a site area exceeding 1,900 square metres, the maximum floor space ratio...
for a building on that land may exceed the maximum floor space ratio shown for the land on the Floor Space Ratio Map by no more than 0.65:1.

(2D) Despite subclause (2), if a building is permissible under clause 9A of Schedule 1 on land identified as "Area 4" on the Floor Space Ratio Map, the maximum floor space ratio for the building must not exceed 1.5:1.

4.4A Exceptions to floor space ratio for residential accommodation

(1) The objectives of this clause are as follows:
   (a) to ensure that the bulk and scale of development is compatible with the character of the locality,
   (b) to promote good residential amenity.

(2) This clause applies to land identified as "Area 3" on the Floor Space Ratio Map.

(3) Despite clause 4.4 (2), the following provisions relate to floor space ratios on land to which this clause applies:
   (a) the maximum floor space ratio for a dwelling house is not to exceed the floor space ratio applicable to the site area of the land on which the dwelling house is situated:

<table>
<thead>
<tr>
<th>Site Area</th>
<th>Maximum Floor Space Ratio</th>
</tr>
</thead>
<tbody>
<tr>
<td>450 square metres</td>
<td>0.55:1</td>
</tr>
</tbody>
</table>

   (b) the maximum floor space ratio for multi dwelling housing is not to exceed 0.8:1,
   (c) the maximum floor space ratio for a residential flat building is not to exceed 1:1,
   (d) the maximum floor space ratio for all other development for the purpose of residential accommodation is 0.5:1.

4.4B Exceptions to floor space ratio in Zone R3 and Zone R4

(1) The objective of this clause is to encourage the development of larger sites (former industrial sites) to facilitate better built form and urban design.

(2) This clause applies to land in Zone R3 Medium Density Residential and Zone R4 High Density Residential.

(3) Despite clause 4.4, development consent may be granted to development for the purposes of multi dwelling housing and residential flat buildings on land to which this clause applies that results in a floor space ratio that does not exceed 1.65:1 if:
   (a) the site area is equal to or greater than 2,000 square metres, and
   (b) the site area is land identified on the Acid Sulfate Soils Map, and
   (c) the consent authority considers that the development is, or is likely to be, adversely affected by any of the following:
      (i) contamination,
      (ii) noise (including aircraft, rail or road noise), and
   (d) the consent authority is satisfied that:
      (i) the development will be compatible with the desired future character in terms of building bulk and scale, and
      (ii) the development will contribute to the amenity of the surrounding locality, and
      (iii) any consolidation of lots for the purposes of this clause is not likely to result in adjoining lots that cannot be developed in accordance with this Plan.

4.4C Consent to development in Zone R3 and Zone R4

Development consent must not be granted to development on land in Zone R3 Medium Density Residential or Zone R4 High Density Residential unless the consent authority is satisfied that the
development will:

(a) achieve acceptable amenity outcomes (including in terms of overlooking, overshadowing and comparative streetscape elevation) in relation to adjoining land, and
(b) provide appropriate building setback, and
(c) provide a transition in building scale to development on adjoining land, and
(d) be compatible with the character of the area in terms of building bulk and scale, and
(e) not impede the fulfilment of an objective of clause 4.3 or 4.4B.

Because clauses 4.3 (2A), 4.4 (2A) and 4.4B also apply only to land in Zone R3 Medium Density Residential and Zone R4 High Density Residential, this clause applies to development on land to which those clauses apply.

4.5 Calculation of floor space ratio and site area

(1) Objectives The objectives of this clause are as follows:
   (a) to define "floor space ratio",
   (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
      (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
      (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
      (iii) require community land and public places to be dealt with separately.

(2) Definition of "floor space ratio" The "floor space ratio" of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the "site area" is taken to be:
   (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
   (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)-(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) Exclusions from site area The following land must be excluded from the site area:
   (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
   (b) community land or a public place (except as provided by subclause (7)).

(5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
(8) Existing buildings The gross floor area of any existing or proposed buildings within
the vertical projection (above or below ground) of the boundaries of a site is to be
included in the calculation of the total floor space for the purposes of applying a floor
space ratio, whether or not the proposed development relates to all of the buildings.
(9) Covenants to prevent "double dipping" When development consent is granted to
development on a site comprised of 2 or more lots, a condition of the consent may require
a covenant to be registered that prevents the creation of floor area on a lot (the restricted
lot) if the consent authority is satisfied that an equivalent quantity of floor area will be
created on another lot only because the site included the restricted lot.
(10) Covenants affect consolidated sites If:
   (a) a covenant of the kind referred to in subclause (9) applies to any land
       ("affected land"), and
   (b) proposed development relates to the affected land and other land that together
       comprise the site of the proposed development,
the maximum amount of floor area allowed on the other land by the floor space ratio
fixed for the site by this Plan is reduced by the quantity of floor space area the covenant
prevents being created on the affected land.
(11) Definition In this clause, "public place" has the same meaning as it has in the Local

4.6 Exceptions to development standards
(1) The objectives of this clause are as follows:
   (a) to provide an appropriate degree of flexibility in applying certain development
standards to particular development,
   (b) to achieve better outcomes for and from development by allowing flexibility
in particular circumstances.
(2) Development consent may, subject to this clause, be granted for development even
though the development would contravene a development standard imposed by this or
any other environmental planning instrument. However, this clause does not apply to a
development standard that is expressly excluded from the operation of this clause.
(3) Development consent must not be granted for development that contravenes a
development standard unless the consent authority has considered a written request from
the applicant that seeks to justify the contravention of the development standard by
demonstrating:
   (a) that compliance with the development standard is unreasonable or unnecessary
in the circumstances of the case, and
   (b) that there are sufficient environmental planning grounds to justify
contravening the development standard.
(4) Development consent must not be granted for development that contravenes a
development standard unless:
   (a) the consent authority is satisfied that:
       (i) the applicant's written request has adequately addressed the matters
required to be demonstrated by subclause (3), and
       (ii) the proposed development will be in the public interest because it is
consistent with the objectives of the particular standard and the objectives
for development within the zone in which the development is proposed to
be carried out, and
   (b) the concurrence of the Secretary has been obtained.
(5) In deciding whether to grant concurrence, the Secretary must consider:
   (a) whether contravention of the development standard raises any matter of
significance for State or regional environmental planning, and
   (b) the public benefit of maintaining the development standard, and
   (c) any other matters required to be taken into consideration by the Secretary
before granting concurrence.

(6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:

(a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

(b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

When this Plan was made it did not include Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E3 Environmental Management or Zone E4 Environmental Living.

(7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).

(8) This clause does not allow development consent to be granted for development that would contravene any of the following:

(a) a development standard for complying development,
(b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004 applies or for the land on which such a building is situated,
(b1) clause 4.3 (2A),
(b2) clause 4.4B (3),
(c) clause 5.4.

Part 5 – Miscellaneous provisions

5.1 Relevant acquisition authority

(1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the Land Acquisition (Just Terms Compensation) Act 1991 ("the owner-initiated acquisition provisions"). If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the Land Acquisition (Just Terms Compensation) Act 1991 requires the authority to acquire the land.

(2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

</tbody>
</table>
When this Plan was made it did not include Zone E1 National Parks and Nature Reserves.

(3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

5.2 Classification and reclassification of public land

(1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the Local Government Act 1993. Under the Local Government Act 1993, "public land" is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the Local Government Act 1993. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

(2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the Local Government Act 1993.

(3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the Local Government Act 1993.

(4) The public land described in Part 1 of Schedule 4:
   (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
   (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.

(5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
   (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
   (b) any reservations that except land out of the Crown grant relating to the land, and
   (c) reservations of minerals (within the meaning of the Crown Lands Act 1989).

In accordance with section 30 (2) of the Local Government Act 1993, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

(1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.

(2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 25 metres.

(3) This clause does not apply to:
   (a) land in Zone RE1 Public Recreation, Zone E1 National Parks and Nature Reserves, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone W1 Natural Waterways, or
   (b) land within the coastal zone, or
   (c) land proposed to be developed for the purpose of sex services or restricted...
When this Plan was made it did not include Zone E1 National Parks and Nature Reserves or Zone E3 Environmental Management.

(4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:

(a) the development is not inconsistent with the objectives for development in both zones, and

(b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.

(5) This clause does not prescribe a development standard that may be varied under this Plan.

5.4 Controls relating to miscellaneous permissible uses

(1) Bed and breakfast accommodation If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms. Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the Building Code of Australia.

(2) Home businesses If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.

(3) Home industries If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.

(4) Industrial retail outlets If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed:

(a) 10% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or

(b) 400 square metres, whichever is the lesser.

(5) Farm stay accommodation If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

(6) Kiosks If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 30 square metres.

(7) Neighbourhood shops If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 100 square metres.

(8) Roadside stalls If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 8 square metres.

(9) Secondary dwellings If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:

(a) 60 square metres,

(b) 20% of the total floor area of the principal dwelling.

5.5 (Repealed)

5.6 Architectural roof features

(1) The objectives of this clause are as follows:

(a) to ensure that architectural roof features to which this clause applies are decorative elements only and that the majority of the roof is contained within the maximum building height standard.
(2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height limits set by clause 4.3 may be carried out, but only with development consent.

(3) Development consent must not be granted to any such development unless the consent authority is satisfied that:
   (a) the architectural roof feature:
      (i) comprises a decorative element on the uppermost portion of a building, and
      (ii) is not an advertising structure, and
      (iii) does not include floor space area and is not reasonably capable of modification to include floor space area, and
      (iv) will cause minimal overshadowing, and
   (b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof feature.

5.7 Development below mean high water mark
(1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.

(2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms
(1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.

(2) The following development may be carried out, but only with development consent:
   (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
   (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
   (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.

(3) Development to which subclause (2) applies is complying development if it consists only of:
   (a) internal alterations to a building, or
   (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm — 100mm — 100mm.

(4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause: "private service provider" means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9, 5.9AA (Repealed)

5.10 Heritage conservation
Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the Heritage Map as well as being described in Schedule 5.
(1) Objectives The objectives of this clause are as follows:
(a) to conserve the environmental heritage of Botany Bay,
(b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
(c) to conserve archaeological sites,
(d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) Requirement for consent Development consent is required for any of the following:
(a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
   (i) a heritage item,
   (ii) an Aboriginal object,
   (iii) a building, work, relic or tree within a heritage conservation area,
(b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
(c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
(d) disturbing or excavating an Aboriginal place of heritage significance,
(e) erecting a building on land:
   (i) on which a heritage item is located or that is within a heritage conservation area, or
   (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
(f) subdividing land:
   (i) on which a heritage item is located or that is within a heritage conservation area, or
   (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) When consent not required However, development consent under this clause is not required if:
(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:
   (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
   (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
(b) the development is in a cemetery or burial ground and the proposed development:
   (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
   (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
(d) the development is exempt development.

(4) Effect of proposed development on heritage significance The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) Heritage assessment The consent authority may, before granting consent to any development:

(a) on land on which a heritage item is located, or
(b) on land that is within a heritage conservation area, or
(c) on land that is within the vicinity of land referred to in paragraph (a) or (b), require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

(6) Heritage conservation management plans The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

(7) Archaeological sites The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies):

(a) notify the Heritage Council of its intention to grant consent, and
(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(8) Aboriginal places of heritage significance The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:

(a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
(b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) Demolition of nominated State heritage items The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:

(a) notify the Heritage Council about the application, and
(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) Conservation incentives The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:

(a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
(b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
(c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out,
and
(d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
(e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction
Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown
(1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Infrastructure) 2007*.
(2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

Part 6 – Additional local provisions

6.1 Acid sulfate soils
(1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
(2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the *Acid Sulfate Soils Map* as being of the class specified for those works.

(3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed
works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.

(4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if:

(a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and

(b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.

(5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power):

(a) emergency work, being the repair or replacement of the works of the public authority, required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,

(b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),

(c) minor work, being work that costs less than $20,000 (other than drainage work).

(6) Despite subclause (2), development consent is not required under this clause to carry out any works if:

(a) the works involve the disturbance of less than 1 tonne of soil, and

(b) the works are not likely to lower the watertable.

6.2 Earthworks

(1) The objective of this clause is to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.

(2) Development consent is required for earthworks unless:

(a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or

(b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.

(3) Before granting development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters:

(a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,

(b) the effect of the development on the likely future use or redevelopment of the land,

(c) the quality of the fill or the soil to be excavated, or both,

(d) the effect of the development on the existing and likely amenity of adjoining properties,

(e) the source of any fill material and the destination of any excavated material,

(f) the likelihood of disturbing relics,

(g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,

(h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

The *National Parks and Wildlife Act 1974*, particularly section 86, deals with harming Aboriginal objects.
6.3 Stormwater management
(1) The objective of this clause is to minimise the impacts of urban stormwater on land to which this clause applies and on adjoining properties, native bushland and receiving waters.
(2) This clause applies to all land in residential, business and industrial zones.
(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:
   (a) is designed to maximise the use of water permeable surfaces on the land having regard to the soil characteristics affecting on-site infiltration of water, and
   (b) includes, if practicable, on-site stormwater retention for use as an alternative supply to mains water, groundwater or river water, and
   (c) avoids any significant adverse impacts of stormwater runoff on adjoining properties, native bushland and receiving waters, or if that impact cannot be reasonably avoided, minimises and mitigates the impact.

6.4 Terrestrial biodiversity
(1) The objective of this clause is to maintain terrestrial biodiversity by:
   (a) protecting native fauna and flora, and
   (b) protecting the ecological processes necessary for their continued existence,
   and
   (c) encouraging the conservation and recovery of native fauna and flora and their habitats.
(2) This clause applies to land identified as "Biodiversity" on the Terrestrial Biodiversity Map.
(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider:
   (a) whether the development is likely to have:
      (i) any adverse impact on the condition, ecological value and significance of the fauna and flora on the land, and
      (ii) any adverse impact on the importance of the vegetation on the land to the habitat and survival of native fauna, and
      (iii) any potential to fragment, disturb or diminish the biodiversity structure, function and composition of the land, and
      (iv) any adverse impact on the habitat elements providing connectivity on the land, and
   (b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:
   (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
   (b) if that impact cannot be reasonably avoided by adopting feasible alternatives--the development is designed, sited and will be managed to minimise that impact, or
   (c) if that impact cannot be minimised--the development will be managed to mitigate that impact.

6.5 Riparian land and watercourses
(1) The objective of this clause is to protect and maintain the following:
   (a) water quality within watercourses,
   (b) the stability of the bed and banks of watercourses,
   (c) aquatic and riparian habitats,
   (d) ecological processes within watercourses and riparian areas.
(2) This clause applies to all watercourses and all land that is within 40 metres of the top of the bank of each watercourse.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider:
   (a) whether or not the development is likely to have any adverse impact on the following:
      (i) the water quality and flows within the watercourse,
      (ii) aquatic and riparian species, habitats and ecosystems of the watercourse,
      (iii) the stability of the bed and banks of the watercourse,
      (iv) the free passage of fish and other aquatic organisms within or along the watercourse,
      (v) any future rehabilitation of the watercourse and riparian areas, and
   (b) whether or not the development is likely to increase water extraction from the watercourse, and
   (c) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:
   (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
   (b) if that impact cannot be reasonably avoided--the development is designed, sited and will be managed to minimise that impact, or
   (c) if that impact cannot be minimised--the development will be managed to mitigate that impact.

6.6 Wetlands
   (1) The objective of this clause is to ensure that wetlands are preserved and protected from the impacts of development.
   (2) This clause applies to land identified as "Wetland" on the Wetlands Map.
   (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider:
      (a) whether or not the development is likely to have any significant adverse impact on the following:
         (i) the condition and significance of the existing native fauna and flora on the land,
         (ii) the provision and quality of habitats on the land for indigenous and migratory species,
         (iii) the surface and groundwater characteristics of the land, including water quality, natural water flows and salinity, and
      (b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
   (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:
      (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
      (b) if that impact cannot be reasonably avoided--the development is designed, sited and will be managed to minimise that impact, or
      (c) if that impact cannot be minimised--the development will be managed to mitigate that impact.

6.7 Limited development on foreshore area
   (1) The objective of this clause is to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the
(2) Development consent must not be granted for development on land in the foreshore area except for the following purposes:

(a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area,
(b) the erection of a building in the foreshore area, if the levels, depth or other exceptional features of the site make it appropriate to do so,
(c) boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).

(3) Development consent must not be granted under subclause (2) unless the consent authority is satisfied that:

(a) the development will contribute to achieving the objectives for the zone in which the land is located, and
(b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and
(c) the development will not cause environmental harm such as:
   (i) pollution or siltation of the waterway, or
   (ii) an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or
   (iii) an adverse effect on drainage patterns, and
(d) the development will not cause congestion or generate conflict between people using open space areas or the waterway, and
(e) opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and
(f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and
(g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore, and
(h) sea level rise or change of flooding patterns as a result of climate change has been considered.

(4) In deciding whether to grant consent for development in the foreshore area, the consent authority must consider whether and to what extent the development would encourage the following:

(a) continuous public access to and along the foreshore through or adjacent to the proposed development,
(b) public access to link with existing or proposed open space,
(c) public access to be secured by appropriate covenants, agreements or other instruments registered on the title to land,
(d) public access to be located above mean high water mark,
(e) the reinforcing of the foreshore character and respect for existing environmental conditions.

(5) In this clause: "foreshore area" means the land between the foreshore building line and the mean high water mark of the nearest natural waterbody shown on the Foreshore Building Line Map. "foreshore building line" means:

(a) the line that is landward of, and at the distance specified on the Foreshore Building Line Map from, the mean high water mark of the nearest natural waterbody shown on that map or,
(b) if no distance is specified, the line shown as the foreshore building line on that
6.8 Airspace operations

(1) The objectives of this clause are as follows:
   (a) to provide for the effective and ongoing operation of the Sydney (Kingsford Smith) Airport by ensuring that such operation is not compromised by proposed development that penetrates the Limitation or Operations Surface for that airport,
   (b) to protect the community from undue risk from that operation.

(2) If a development application is received and the consent authority is satisfied that the proposed development will penetrate the Limitation or Operations Surface, the consent authority must not grant development consent unless it has consulted with the relevant Commonwealth body about the application.

(3) The consent authority may grant development consent for the development if the relevant Commonwealth body advises that:
   (a) the development will penetrate the Limitation or Operations Surface but it has no objection to its construction, or
   (b) the development will not penetrate the Limitation or Operations Surface.

(4) The consent authority must not grant development consent for the development if the relevant Commonwealth body advises that the development will penetrate the Limitation or Operations Surface and should not be constructed.

(5) In this clause: "Limitation or Operations Surface" means the Obstacle Limitation Surface or the Procedures for Air Navigation Services Operations Surface as shown on the Obstacle Limitation Surface Map or the Procedures for Air Navigation Services Operations Surface Map for the Sydney (Kingsford Smith) Airport. "relevant Commonwealth body" means the body, under Commonwealth legislation, that is responsible for development approvals for development that penetrates the Limitation or Operations Surface for the Sydney (Kingsford Smith) Airport.

6.9 Development in areas subject to aircraft noise

(1) The objectives of this clause are as follows:
   (a) to prevent certain noise sensitive developments from being located near the Sydney (Kingsford Smith) Airport and its flight paths,
   (b) to assist in minimising the impact of aircraft noise from that airport and its flight paths by requiring appropriate noise attenuation measures in noise sensitive buildings,
   (c) to ensure that land use and development in the vicinity of that airport do not hinder or have any other adverse impacts on the ongoing, safe and efficient operation of that airport.

(2) This clause applies to development that:
   (a) is on land that:
      (i) is near the Sydney (Kingsford Smith) Airport, and
      (ii) is in an ANEF contour of 20 or greater, and
   (b) the consent authority considers is likely to be adversely affected by aircraft noise.

(3) Before determining a development application for development to which this clause applies, the consent authority:
   (a) must consider whether the development will result in an increase in the number of dwellings or people affected by aircraft noise, and
   (b) must consider the location of the development in relation to the criteria set out in Table 2.1 (Building Site Acceptability Based on ANEF Zones) in AS 2021--2000, and
   (c) must be satisfied the development will meet the indoor design sound levels shown in Table 3.3 (Indoor Design Sound Levels for Determination of Aircraft Noise Reduction) in AS 2021--2000.

6.10 Converting serviced apartments to residential flat building
(1) The objective of this clause is to prevent substandard residential accommodation occurring through the conversion of serviced apartments to a residential flat building.
(2) Development consent must not be granted for the subdivision, under a strata scheme, of a building or a part of a building that is being, or has been, used for serviced apartments into a residential flat building unless the consent authority has considered the following in relation to the residential flat building:
   (a) the design quality principles set out in Schedule 1 to State Environmental Planning Policy No 65--Design Quality of Residential Apartment Development,
   (b) the design principles of the Apartment Design Guide (within the meaning of that Policy).

6.11 Residential flat buildings and multi dwelling housing in Zone R2
(1) The objective of this clause is to provide for the adaptive reuse of land and existing buildings for residential flat buildings and multi dwelling housing.
(2) This clause applies to land in Zone R2 Low Density Residential.
(3) Development consent must not be granted to development for the purposes of a residential flat building or multi dwelling housing on land to which this clause applies unless:
   (a) the development is:
       (i) a building that was designed and constructed for, or
       (ii) on land that, on the commencement of this Plan, was used for, a purpose other than residential accommodation, and
   (b) the consent authority has considered:
       (i) the impact of the development on the scale and streetscape of the surrounding locality, and
       (ii) the suitability of the building or land for adaptive reuse, and
       (iii) the degree of modification of the footprint and facade of the building.

6.12 Dwelling houses in certain business zones
(1) The objective of this clause is to provide for the use of purpose built dwelling houses in certain business zones, for residential purposes, under particular circumstances.
(2) This clause applies to land in the following zones:
   (a) Zone B1 Neighbourhood Centre,
   (b) Zone B2 Local Centre,
   (c) Zone B4 Mixed Use,
   (d) Zone B7 Business Park.
(3) Development consent must not be granted to development for the purpose of a dwelling house on land to which this clause applies unless:
   (a) the development is a building that was designed and constructed as a dwelling house before the commencement of this Plan, and
   (b) the consent authority has considered whether the development will provide residential amenity.

6.13 Office premises in certain residential zones
(1) The objective of this clause is to provide for the adaptive reuse of existing buildings for office premises.
(2) This clause applies to land in the following zones:
   (a) Zone R2 Low Density Residential,
   (b) Zone R3 Medium Density Residential.
(3) Development consent must not be granted to development for the purposes of office premises on land to which this clause applies unless:
   (a) the development is a building that was designed and constructed for a purpose other than residential accommodation before the commencement of this Plan, and
   (b) the consent authority has considered:
      (i) whether the development will adversely affect the amenity of the surrounding locality, and
      (ii) the suitability of the building for adaptive reuse, and
      (iii) the degree of modification of the footprint and facade of the building.

6.14 Land at Hillsdale fronting Denison Street and Smith Street
(1) This clause applies to land at Hillsdale as shown edged heavy green on the Key Sites Map.
(2) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that vehicular access to any development on the land is provided from Denison Street only.

6.15 Active street frontages
(1) The objective of this clause is to promote uses that attract pedestrian traffic along certain ground floor street frontages.
(2) This clause applies to land identified as "Active street frontage" on the Active Street Frontages Map.
(3) Development consent must not be granted to the erection of a building, or a change of use of a building, on land to which this clause applies unless the consent authority is satisfied that the building will have an active street frontage after its erection or change of use.
(4) Despite subclause (3), an active street frontage is not required for any part of a building that is used for any of the following:
   (a) entrances and lobbies (including as part of mixed use development),
   (b) access for fire services,
   (c) vehicular access.
(5) In this clause, a building has an "active street frontage" if all premises on the ground floor of the building facing the street are used for the purposes of business premises or retail premises.

6.16 Design excellence
(1) The objective of this clause is to deliver the highest standard of sustainable architectural and urban design.
(2) This clause applies to land at Mascot Station Precinct, as shown edged heavy pink, and the BATA site at Eastgardens, as shown edged heavy orange, on the Key Sites Map.
(3) Development consent must not be granted to development involving the construction of a new building or to external alterations to an existing building on land to which this clause applies unless the consent authority considers that the development exhibits design excellence.
(4) In considering whether the development exhibits design excellence, the consent authority must have regard to the following matters:
   (a) whether a high standard of architectural design, materials and detailing appropriate to the building type and location will be achieved,
   (b) whether the form and external appearance of the development will improve the quality and amenity of the public domain,
   (c) whether the development detrimentally impacts on view corridors,
   (d) the achievement of the principles of ecologically sustainable development.

6.17 Location of sex services premises
(1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises,
specified land uses and places regularly frequented by children.
(2) In deciding whether to grant development consent to development for the purposes of
sex services premises, the consent authority must consider the following:
(a) whether the premises will be located on land that adjoins, is directly opposite
or is separated only by a local road from land:
   (i) in Zone R2 Low Density Residential, Zone R3 Medium Density
   Residential or Zone RE1 Public Recreation, or
   (ii) used for the purposes of a centre-based child care facility, a
   community facility, a school or a place of public worship,
(b) the impact of the proposed development and its hours of operation on any
place likely to be regularly frequented by children:
   (i) that adjoins the proposed development, or
   (ii) that can be viewed from the proposed development, or
   (iii) from which a person can view the proposed development.

Schedule 1 Additional permitted uses

(Clause 2.5)

1 Use of certain land at 1024-1044 Botany Road, Botany
   (1) This clause applies to land at 1024-1044 Botany Road, Botany, being Lot 1, DP
6286172, Lot 1, DP 590790 and Lots 1, 2 and 6-10, DP 7826 and identified as "1" on the
Additional Permitted Uses Map.
   (2) Development for the purposes of light industries, industrial retail outlets, self storage
facilities, vehicle body repair workshops and vehicle repair stations is permitted with
development consent.

2 Use of certain land at 1354 Botany Road, Botany
   (1) This clause applies to land at 1354 Botany Road, Botany, being Part Lot 1, DP 73950,
known as Sir Joseph Banks Hotel and identified as "2" on the Additional Permitted Uses
Map.
   (2) Development for the purposes of a pub is permitted with development consent.

3 Use of certain land at 23A Clevedon Street and 68 Pemberton Street, Botany
   (1) This clause applies to land at 23A Clevedon Street and 68 Pemberton Street, Botany,
being Lot 1, DP 191664, Lot 1, DP 669008 and Lot A, DP 359739 and identified as "3"
on the Additional Permitted Uses Map.
   (2) Development for the purposes of a depot is permitted with development consent.

4 Use of certain land at Tupia Street, Botany
   (1) This clause applies to land at the end of Tupia Street, Botany within Sir Joseph Banks
Park, being Lot Y, DP 32914 and identified as "4" on the Additional Permitted Uses
Map.
   (2) Development for the purposes of a depot and public administration building is
permitted with development consent.

5 Use of certain land at Wentworth Avenue, Eastgardens
   (1) This clause applies to land at Hensley Athletic Field, bordered by Wentworth Avenue,
Denison Street, Smith Street and Corish Circle, Eastgardens, being Lot 182, DP 752015
and Lot 3, DP 79069 and identified as "5" on the Additional Permitted Uses Map.
   (2) Development for the purposes of a car park, entertainment facility, food and drink
premises, function centre and registered club is permitted with development consent.

6 Use of certain land at Florence Avenue, Eastlakes
   (1) This clause applies to land at Florence Avenue, Eastlakes, being Lot 3, DP 791176
and identified as "6" on the Additional Permitted Uses Map.
   (2) Development for the purposes of light industries and a warehouse or distribution
7 Use of certain land at 75 Gardeners Road, Eastlakes
(1) This clause applies to land at 75 Gardeners Road, Eastlakes, being Lot 1, DP 1116853 and identified as "7" on the Additional Permitted Uses Map.
(2) Development for the purposes of entertainment facilities, food and drink premises, function centres, garden centres, hardware and building supplies, landscaping material supplies, recreation areas and recreation facilities (indoor) is permitted with development consent.

8 Use of certain land at King Street, Eastlakes
(1) This clause applies to land at L'Estrange Park, King Street, Eastlakes, being Lot 7068, DP 1028505 and identified as "8" on the Additional Permitted Uses Map.
(2) Development for the purposes of a depot and public administration building is permitted with development consent.

9 Use of certain land at 102 Maloney Street, Eastlakes

### Dictionary

(Clause 1.4)

The Act and the Interpretation Act 1987 contain definitions and other provisions that affect the interpretation and application of this Plan.

"**Aboriginal object**" means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

"**Aboriginal place of heritage significance**" means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the *Heritage Map*, that is:

(a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
(b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

The term may include (but is not limited to) places that are declared under section 84 of the *National Parks and Wildlife Act 1974* to be Aboriginal places for the purposes of that Act.

Viticulture is a type of "intensive plant agriculture" -- see the definition of that term in this Dictionary.

"warehouse or distribution centre" means a building or place used mainly or exclusively for storing or handling items (whether goods or materials) pending their sale, but from which no retail sales are made.

"waste disposal facility" means a building or place used for the disposal of waste by landfill, incineration or other means, including such works or activities as recycling, resource recovery and other resource management activities, energy generation from gases, leachate management, odour control and the winning of extractive material to generate a void for disposal of waste or to cover waste after its disposal.

Waste disposal facilities are a type of "waste or resource management facility" -- see the definition of that term in this Dictionary.

"waste or resource management facility" means any of the following:

(a) a resource recovery facility,
(b) a waste disposal facility,
(c) a waste or resource transfer station,
(d) a building or place that is a combination of any of the things referred to in paragraphs (a)-(c).

"waste or resource transfer station" means a building or place used for the collection and transfer of waste material or resources, including the receipt, sorting, compacting, temporary storage and distribution of waste or resources and the loading or unloading of waste or resources onto or from road or rail transport.

Waste or resource transfer stations are a type of "waste or resource management facility" -- see the definition of that term in this Dictionary.
"water recreation structure" means a structure used primarily for recreational purposes that has a direct structural connection between the shore and the waterway, and may include a pier, wharf, jetty or boat launching ramp.

"water recycling facility" means a building or place used for the treatment of sewage effluent, stormwater or waste water for use as an alternative supply to mains water, groundwater or river water (including, in particular, sewer mining works), whether the facility stands alone or is associated with other development, and includes associated:

(a) retention structures, and
(b) treatment works, and
(c) irrigation schemes.

Water recycling facilities are a type of "sewerage system" --see the definition of that term in this Dictionary.

"water reticulation system" means a building or place used for the transport of water, including pipes, tunnels, canals, pumping stations, related electricity infrastructure, dosing facilities and water supply reservoirs.

Water reticulation systems are a type of "water supply system" --see the definition of that term in this Dictionary.

"water storage facility" means a dam, weir or reservoir for the collection and storage of water, and includes associated monitoring or gauging equipment.

Water storage facilities are a type of "water supply system" --see the definition of that term in this Dictionary.

"water supply system" means any of the following:

(a) a water reticulation system,
(b) a water storage facility,
(c) a water treatment facility,
(d) a building or place that is a combination of any of the things referred to in paragraphs (a)-(c).

"water treatment facility" means a building or place used for the treatment of water (such as a desalination plant or a recycled or reclaimed water plant) whether the water produced is potable or not, and includes residuals treatment, storage and disposal facilities, but does not include a water recycling facility.

Water treatment facilities are a type of "water supply system" --see the definition of that term in this Dictionary.

"waterbody" means a waterbody (artificial) or waterbody (natural).

"waterbody (artificial)" or "artificial waterbody" means an artificial body of water, including any constructed waterway, canal, inlet, bay, channel, dam, pond, lake or artificial wetland, but does not include a dry detention basin or other stormwater management construction that is only intended to hold water intermittently.

"waterbody (natural)" or "natural waterbody" means a natural body of water, whether perennial or intermittent, fresh, brackish or saline, the course of which may have been artificially modified or diverted onto a new course, and includes a river, creek, stream, lake, lagoon, natural wetland, estuary, bay, inlet or tidal waters (including the sea).

"watercourse" means any river, creek, stream or chain of ponds, whether artificially modified
or not, in which water usually flows, either continuously or intermittently, in a defined bed or channel, but does not include a waterbody (artificial).

"waterway" means the whole or any part of a watercourse, wetland, waterbody (artificial) or waterbody (natural).

"wetland" means:

(a) natural wetland, including marshes, mangroves, backwaters, billabongs, swamps, sedgelands, wet meadows or wet heathlands that form a shallow waterbody (up to 2 metres in depth) when inundated cyclically, intermittently or permanently with fresh, brackish or salt water, and where the inundation determines the type and productivity of the soils and the plant and animal communities, or
(b) artificial wetland, including marshes, swamps, wet meadows, sedgelands or wet heathlands that form a shallow waterbody (up to 2 metres in depth) when inundated cyclically, intermittently or permanently with water, and are constructed and vegetated with wetland plant communities.

"Wetlands Map" means the *Botany Bay Local Environmental Plan 2013 Wetlands Map*.
