Part 1 – Preliminary

1 Name of Act

This Act is the *Coastal Management Act 2016*.

2 Commencement

This Act commences on a day or days to be appointed by proclamation.

3 Objects of this Act

The objects of this Act are to manage the coastal environment of New South Wales in a manner consistent with the principles of ecologically sustainable development for the social, cultural and economic well-being of the people of the State, and in particular:

- (a) to protect and enhance natural coastal processes and coastal environmental values including natural character, scenic value, biological diversity and ecosystem integrity and resilience, and
- (b) to support the social and cultural values of the coastal zone and maintain public access, amenity, use and safety, and
- (c) to acknowledge Aboriginal peoples' spiritual, social, customary and economic use of the coastal zone, and
- (d) to recognise the coastal zone as a vital economic zone and to support sustainable coastal economies, and
- (e) to facilitate ecologically sustainable development in the coastal zone and promote sustainable land use planning decision-making, and
- (f) to mitigate current and future risks from coastal hazards, taking into account the effects of climate change, and
- (g) to recognise that the local and regional scale effects of coastal processes, and the inherently ambulatory and dynamic nature of the shoreline, may result in the loss of coastal land to the sea (including estuaries and other arms of the sea), and to manage coastal use and development accordingly, and
- (h) to promote integrated and co-ordinated coastal planning, management and reporting, and
- (i) to encourage and promote plans and strategies to improve the resilience of coastal assets to the impacts of an uncertain climate future including impacts of extreme storm events, and
- (j) to ensure co-ordination of the policies and activities of government and public authorities relating to the coastal zone and to facilitate the proper integration of their management activities, and
- (k) to support public participation in coastal management and planning and greater public

awareness, education and understanding of coastal processes and management actions, and

(l) to facilitate the identification of land in the coastal zone for acquisition by public or local authorities in order to promote the protection, enhancement, maintenance and restoration of the environment of the coastal zone, and

(m) to support the objects of the *Marine Estate Management Act 2014*.

(b) a seaward limit that is the 40m depth seaward of the highest astronomical tide for the open coast and 10m depth seaward of the highest astronomical tide for estuaries or tidal coastal lakes.

The beach fluctuation zone ambulates as the coastline or estuary or coastal lake foreshore experiences net long-term recession or accretion due to changes in their sediment budgets. - (f) to adopt coastal management strategies that reduce exposure to coastal hazards:

- (i) in the first instance and wherever possible, by restoring or enhancing natural defences including coastal dunes, vegetation and wetlands, and
- (ii) if that is not sufficient, by taking other action to reduce exposure to those coastal hazards,

(g) if taking that other action to reduce exposure to coastal hazards:

beaches, foreshores, headlands and rock platforms.

9 Coastal use area

(1) The "**coastal use area**" means the land identified by a State environmental planning policy to be the coastal use area for the purposes of this Act, being land adjacent to coastal waters, estuaries, coastal lakes and lagoons where development is or may be carried out (at present or in the future).

(2) The management objectives for the coastal use area are as follows:

(a) to protect and enhance the scenic, social and cultural values of the coast by ensuring that:

(i) the type, bulk, scale and size of development is appropriate for the location and natural scenic quality of the coast, and

(ii) adverse impacts of development on cultural and built environment heritage are avoided or mitigated, and

(iii) urban design, including water sensitive urban design, is supported and incorporated into development activities, and

(iv) adequate public open space is provided, including for recreational activities and associated infrastructure, and

(v) the use of the surf zone is considered,

(b) to accommodate both urbanised and natural stretches of coastline.

10 Matters relating to identification of coastal management areas

(1) LEPs may amend SEPPs to identify coastal management areas For the avoidance of doubt, a local environmental plan under the *Environmental Planning and Assessment Act 1979* may amend a State environmental planning policy under that Act to identify a coastal management area (or part of such an area) for the purposes of this Act. Division 4 (LEPs) of Part 3 (Environmental planning instruments) of the *Environmental Planning and Assessment Act 1979* deals with the making of local environmental plans, including the preparation and submission of planning proposals for the making of local environmental plans by councils and other relevant planning authorities.

(2) Recommendation of Minister required A provision of an environmental planning instrument under the *Environmental Planning and Assessment Act 1979* that identifies a coastal management area (or part of such an area) for the purposes of this Act must not be made without the recommendation of the Minister administering this Act.

(3) Hierarchy of management objectives if overlapping A single parcel of land may be identified by a State environmental planning policy as being within different coastal management areas. However, in such a case, if the management objectives of the areas are inconsistent, the management objectives of the highest of the following coastal management areas (set out highest to lowest) prevail to the extent of the inconsistency:

(a) the coastal wetlands and littoral rainforests area,

(b) the coastal vulnerability area,

(c) the coastal environment area,

(d) the coastal use area.

Part 3 – Coastal management programs and manual

Division 1 – Application of Part

11 Part applies to local councils with land within coastal zone

This Part applies to:

(a) a local council whose local government area, or part of whose local government area, is included within the coastal zone, and

(b) any other public authority that exercises functions in connection with the coastal zone.

Division 2 – Coastal management programs

12 Purpose of coastal management programs

The purpose of a coastal management program is to set the long-term strategy for the co-ordinated management of land within the coastal zone with a focus on achieving the objects of this Act.

13 Requirement for coastal management programs

- (1) A local council may, and must, if directed to do so by the Minister, prepare a coastal management program in accordance with this Part. See sections 20 and 30 regarding a failure of the local council to comply with a direction of the Minister.
- (2) A coastal management program may be made in relation to the whole, or any part, of the area included within the coastal zone.
- (3) A direction under this section may specify the time within which the direction must be complied with.

14 Preparation of coastal management programs

- (1) A local council is to prepare a coastal management program in accordance with the coastal management manual.
- (2) The Minister may, by notice in writing given to a local council, direct the local council in its preparation of a coastal management program. A direction under this subsection prevails to the extent of any inconsistency between it and the coastal management manual. See sections 20 and 30 regarding a failure of the local council to comply with a direction of the Minister.
- (3) In preparing a coastal management program, a local council must:
 - (a) consider and promote the objects of this Act, and
 - (b) give effect to the management objectives for the coastal management areas covered by the program, and
 - (c) consider the State and regional policies and plans prescribed by the regulations for the purposes of this section.
- (4) A direction under this section may specify the time within which the direction must be complied with.

15 Matters to be dealt with in coastal management program

- (1) A coastal management program must:
 - (a) identify the coastal management issues affecting the areas to which the program is to apply, and
 - (b) identify the actions required to address those coastal management issues in an integrated and strategic manner, and
 - (c) identify how and when those actions are to be implemented, including those to be implemented by local councils under Chapter 13 of the *Local Government Act 1993*, those to be implemented under environmental planning instruments and development control plans under the *Environmental Planning and Assessment Act 1979* and those to be implemented by public authorities (other than the local council), and
 - (d) identify the costs of those actions and proposed cost-sharing arrangements and other viable funding mechanisms for those actions to ensure the delivery of those actions is consistent with the timing for their implementation under the coastal management program, and
 - (e) if the local council's local government area contains land within the coastal vulnerability area and beach erosion, coastal inundation or cliff instability is occurring on that land, include a coastal zone emergency action subplan.
- (2) A coastal management program may also include other matters as may be authorised or permitted by the coastal management manual.
- (3) A "**coastal zone emergency action subplan**" is a plan that outlines the roles and responsibilities of all public authorities (including the local council) in response to emergencies immediately preceding or during periods of beach erosion, coastal

inundation or cliff instability, where the beach erosion, coastal inundation or cliff instability occurs through storm activity or an extreme or irregular event. For the purposes of this subsection, those roles and responsibilities include the carrying out of works for the protection of property affected or likely to be affected by beach erosion, coastal inundation or cliff instability.

(4) A coastal management program must not include the following:

- (a) matters dealt with in any plan made under the *State Emergency and Rescue Management Act 1989* in relation to the response to emergencies,
- (b) proposed actions or activities to be carried out by any public authority or relating to any land or other assets owned or managed by a public authority, unless the public authority has agreed to the inclusion of those proposed actions or activities in the program.

16 Consultation

(1) Before adopting a coastal management program, a local council must consult on the draft program with:

- (a) the community, and
- (b) if the local council's local government area contains:
 - (i) land within the coastal vulnerability area, any local council whose local government area contains land within the same coastal sediment compartment (as specified in Schedule 1), and
 - (ii) an estuary that is within 2 or more local government areas (as specified in Schedule 1), the other local councils, and
- (c) other public authorities if the coastal management program:
 - (i) proposes actions or activities to be carried out by that public authority, or
 - (ii) proposes specific emergency actions or activities to be carried out by a public authority under the coastal zone emergency action subplan, or
 - (iii) relates to, affects or impacts on any land or assets owned or managed by that public authority.

(2) Consultation under this section is to be undertaken in accordance with the relevant provisions of the coastal management manual.

(3) A failure to comply with this section does not invalidate a coastal management program.

(4) The regulations may amend Schedule 1.

17 Adoption, certification and gazettal of coastal management program

(1) A local council may adopt a draft coastal management program and submit it to the Minister for certification under this section.

(2) The Minister may certify, or refuse to certify, that the draft coastal management program submitted to the Minister has been prepared in accordance with the requirements of this Part and the coastal management manual.

(3) The local council, after the coastal management program has been certified by the Minister, must publish it in the Gazette.

(4) A coastal management program takes effect on the date on which it is published in the Gazette or, if a later date is specified in the program for its commencement, on the later date so specified.

Section 733 (2) of the *Local Government Act 1993* provides that a local council does not incur any liability in respect of:

- (a) any advice furnished in good faith by the council relating to the likelihood of any land in the coastal zone being affected by a coastline hazard (as described in the coastal management manual) or the nature or extent of any such hazard, or
- (b) anything done or omitted to be done in good faith by the council in so far as it relates to the likelihood of land being so affected.

Also, section 733 (4) (b) provides that a council is, unless the contrary is proved, taken to have acted in good faith for the purposes of that section if the advice was furnished, or the thing was done or omitted to be done substantially in accordance with the principles and mandatory requirements set out in the coastal management manual.

18 Review, amendment and replacement of coastal management programs

- (1) A local council is to ensure that its coastal management program is reviewed at least once every 10 years. The review is to be undertaken in accordance with the coastal management manual.
- (2) A coastal management program may, at any time, be amended (in whole or in part) by another coastal management program.
- (3) A coastal management program may, at any time, be replaced by another coastal management program.
- (4) Following a review, a local council may, by notice published in the Gazette, repeal a coastal management program.

19 Availability of coastal management programs

- (1) A copy of a coastal management program must be available for inspection by the public without charge at the office of the local council during ordinary office hours.
- (2) A copy of a coastal management program must be available for public inspection on the website of the local council within 7 days of its publication in the Gazette.

20 Minister to prepare coastal management programs in certain circumstances

- (1) If:
 - (a) a local council has failed to comply with a direction under this Part, or
 - (b) the Minister has refused to certify a draft coastal management program under section 17,

the Minister may prepare and adopt a coastal management program for the local council as if the Minister were the local council.

- (2) The provisions of this Part apply, subject to the regulations with all necessary modifications, to the Minister in the preparation and adoption of the coastal management program.
- (3) A coastal management program certified by the Minister and adopted under this section is taken to have been adopted by the local council in accordance with this Part.
- (4) The Minister is to seek the advice of the NSW Coastal Council in the preparation and adoption of a coastal management program under this section.
- (5) The local council is to co-operate with the Minister in the preparation and adoption of the coastal management program.

- (7) A local council is to comply with a notice given under this section.
- (8) The Minister may recover from the local council concerned the costs of the Minister in carrying out functions under this section as a debt in any court of competent jurisdiction.
- (9) Nothing in this section prevents the Minister from reporting any failure by a local council to comply with a direction under section 13 (1) or 14 (2) to the Minister administering the *Local Government Act 1993* in accordance with section 30.

Part 5 – Miscellaneous

27 Granting of development consent relating to coastal protection works

- (1) Development consent must not be granted under the *Environmental Planning and Assessment Act 1979* to development for the purpose of coastal protection works, unless the consent authority is satisfied that:
 - (a) the works will not, over the life of the works:
 - (i) unreasonably limit or be likely to unreasonably limit public access to or the use of a beach or headland, or
 - (ii) pose or be likely to pose a threat to public safety, and
 - (b) satisfactory arrangements have been made (by conditions imposed on the consent) for the following for the life of the works:
 - (i) the restoration of a beach, or land adjacent to the beach, if any increased erosion of the beach or adjacent land is caused by the presence of the works,
 - (ii) the maintenance of the works.
- (2) The arrangements referred to in subsection (1) (b) are to secure adequate funding for the carrying out of any such restoration and maintenance, including by either or both of the following:
 - (a) by legally binding obligations (including by way of financial assurance or bond) of all or any of the following:

(b) a boundary ("**the water boundary**") of which is defined or otherwise determined by reference to a mean high-water mark.

(2) A court has no jurisdiction to make a declaration concerning a water boundary that would increase the area of land to the landward side of the water boundary if:

(a) a perceived trend by way of accretion is not likely to be indefinitely sustained by natural means, or

(b) as a consequence of making such a declaration, public access to a beach, headland or waterway will be, or is likely to be, restricted or denied.
