   iii. It has been demonstrated that conservation of existing water supplies is not a feasible, environmentally sound and cost effective alternative to,
      A. the transfer, in the case of a new transfer, or
      B. the transfer of the additional amount, in the case of an increased transfer.
   iv. There are no other feasible, environmentally sound and cost effective alternatives to,

Notice of the application for the permit or amendment has been given to the Province of Quebec, the states of Illinois, Indiana, Michigan, Minnesota, New York, Ohio and Wisconsin and the Commonwealth of Pennsylvania in accordance with the Great Lakes-St. Lawrence River Basin Sustainable Water Resources Agreement of 2005.

3. A transfer that satisfies the following criteria:
   i. The portion of the new or increased transfer amount that is lost through consumptive use,
      A. is at least 19 million litres, or the lower amount prescribed by the regulations, on any day, or

Criteria
(3) The criteria referred to in subparagraphs 1 iii, 2 v and vi and 3 iv of subsection (2) are:

1. The new or increased transfer amount is returned, either naturally or after use, to the same Great Lakes watershed from which it was taken, except for an amount prescribed by the regulations that may be lost through consumptive use.
2. The efficient use and conservation of existing water supplies cannot reasonably avoid,
   i. the transfer, in the case of a new transfer, or
   ii. the transfer of the additional amount, in the case of an increased transfer.
3. The new or increased transfer amount is reasonable, given the purposes for which,
   i. the transfer is done, in the case of a new transfer, or
   ii. the transfer of the additional amount is done, in the case of an increased transfer.
4. The transfer, in the case of a new transfer, or the transfer of the additional amount, in the case of an increased transfer, is implemented so as to ensure that it does not result in any significant individual or cumulative adverse impacts on the quantity or quality of the waters, or the water-dependent natural resources, of the Great Lakes-St. Lawrence River Basin, considering the potential cumulative impacts of any precedent-setting consequences associated with the transfer or the transfer of the additional amount, as the case may be.
5. The transfer, in the case of a new transfer, or the transfer of the additional amount, in the case of an increased transfer, is implemented so as to incorporate feasible, environmentally sound and cost effective water conservation measures to minimize the taking of water and losses of water through consumptive use.
6. The transfer is implemented so as to ensure that it complies with,
   i. the Boundary Waters Treaty of 1909,
   ii. the International Boundary Waters Treaty Act (Canada), and
   iii. any other treaty, agreement or law that is prescribed by the regulations.
7. The transfer, in the case of a new transfer, or the transfer of the additional amount, in the case of an increased transfer, is implemented so as to ensure that it complies with any other criteria that are prescribed by the regulations for the purpose of implementing Article 209 (Amendments to the Standard and Exception Standard and Periodic Assessment of Cumulative Impacts) of the Great Lakes-St. Lawrence River Basin Sustainable Water Resources Agreement of 2005, including criteria relating to climate change or other significant threats to the Great Lakes-St. Lawrence River Basin. 2007, c. 12, s. 1 (12).

Assessment of cumulative impacts
(4) If an assessment of cumulative impacts is prepared under Article 209 of the Great Lakes-St. Lawrence River Basin Sustainable Water Resources Agreement of 2005, the Minister shall publish the assessment in the environmental registry established under section 5 of the Environmental Bill of Rights, 1993 and invite members of the public to submit written comments to the Ministry on what actions should be taken by the Government of Ontario in response to the assessment, including comments on whether regulations should be made for the purpose of paragraph 7 of subsection (3) or under clause 75 (1.2) (b) and, if so, on the content of those regulations. 2007, c. 12, s. 1 (12).
Climate change, etc.

(5) When the Minister publishes an assessment under subsection (4), the Minister shall highlight the parts of the assessment that, in his or her opinion, give consideration to climate change and other significant threats to the waters of the Great Lakes-St. Lawrence River Basin. 2007, c. 12, s. 1 (12).

Government response

(6) After considering comments submitted under subsection (4), the Minister shall publish a statement in the environmental registry established under section 5 of the Environmental Bill of Rights, 1993 that summarizes the actions that the Government of Ontario intends to take in response to the assessment. 2007, c. 12, s. 1 (12).

**Sentencing considerations**

110.1 (1) Subject to subsection (3), in determining a penalty under section 108 or 109, the court shall consider each of the following circumstances to be aggravating factors:
1. The offence caused an impairment of the quality of water.
2. The defendant committed the offence intentionally or recklessly.
3. In committing the offence, the defendant was motivated by a desire to increase revenue or decrease costs.
4. The defendant committed the offence despite having been warned by the Ministry of circumstances that subsequently became the subject of the offence.
5. After the commission of the offence, the defendant,
   i. attempted to conceal the commission of the offence from the Ministry or other public authorities,
ii. failed to co-operate with the Ministry or other public authorities,

iii. failed to take prompt action to mitigate the effects of the offence, including action to compensate persons for loss or damage that resulted from the commission of the offence, or

iv. failed to take prompt action to reduce the risk of similar offences being committed in the future.

6. The defendant previously contravened legislation of Ontario or another jurisdiction that is intended to prevent or minimize harm to the natural environment.

7. Any other circumstance that is prescribed by the regulations as an aggravating factor. 2005, c. 12, s. 2 (36).

Severity of penalty

(2) Subject to subsection (3), the severity of a penalty under section 108 or 109 shall reflect the number of aggravating factors that apply under subsection (1) and the seriousness of the particular circumstances of each of those aggravating factors. 2005, c. 12, s. 2 (36).

Reasons

(3) If the court decides that an aggravating factor that applies under subsection (1) does not warrant a more severe penalty, the court shall give reasons for that decision. 2005, c. 12, s. 2 (36).

Compliance with order not a mitigating factor

(4) Subject to subsection (5), in determining a penalty under section 108 or 109, the court shall not consider compliance with an order issued under this Act in response to the offence to be a mitigating factor. 2005, c. 12, s. 2 (36).

Reasons

(5) If the court decides that compliance with an order issued under this Act in response to the offence warrants a less severe penalty, the court shall give reasons for that decision. 2005, c. 12, s. 2 (36).

Environmental penalty

(6) If an order is made requiring a person to pay an environmental penalty in respect of a contravention and the person is also convicted of an offence in respect of the same contravention, the court, in determining a penalty under section 108 or 109, shall consider the order to pay the environmental penalty to be a mitigating factor and, if subsection 109 (2) or (3) applies, may impose a fine of less than the minimum fine provided for in that subsection. 2005, c. 12, s. 2 (36).
