# Information about this reprint

This plan is reprinted as at 1 July 2010. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

**Also see endnotes for information about—**

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

## Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

## Dates shown on reprints

**Reprints dated at last amendment** All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

**Replacement reprint date** If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

# Fisheries (East Coast Trawl) Management Plan 1999

[as amended by all amendments that commenced on or before 1 July 2010]

## Chapter 1 Preliminary

### Part 1 Introduction

#### 1 Short title

This management plan may be cited as the *Fisheries (East Coast Trawl) Management Plan 1999*.

#### 2 What is the *east coast trawl fishery*

The *east coast trawl fishery* is fishing for trade or commerce by the use of trawl nets (*trawling*) in the tidal waters east of longitude 142°31.89' east (the *east coast trawl fishery waters*).

#### 3 Application of plan

This plan applies in relation to the taking, possession and other uses of permitted fish taken under this plan from the east coast trawl fishery.

[s 4]

---

## **Part 2                              Objectives of plan and their achievement**

### **4              Objective of plan and its achievement**

- (1) The objective of this management plan is to provide for the use, conservation and enhancement of the community's fisheries resources by managing the east coast trawl fishery in a way that seeks to—
  - (a) apply and balance the principles of ecologically sustainable development; and
  - (b) promote ecologically sustainable development.
- (2) The objective is to be achieved mainly by—
  - (a) restricting access to the east coast trawl fishery to holders of licences on which the fishery symbol 'M1', 'M2', 'T1', 'T2', 'T5', 'T6', 'T7', 'T8' or 'T9' is written; and
  - (b) protecting scallops by the regulated waters declarations under this plan; and
  - (c) restricting the fishing apparatus used in the east coast trawl fishery; and
  - (d) requiring the use of a BRD or TED; and
  - (e) using effort units to restrict the use of commercial fishing boats in the east coast trawl fishery by holders of licences on which the fishery symbol 'M1', 'T1' or 'T2' is written.
- (3) In this section—

***ecologically sustainable development*** see section 3(5) of the Act.

*Notes—*

- 1 In addition to the regulated waters declarations in this plan, other fisheries declarations under the regulation also apply to the east

---

coast trawl fishery. For relevant fisheries declarations, see chapters 2, 3 and 4 and schedule 2 of the regulation.

- 2 This plan does not regulate the taking of fish by recreational fishers in the east coast trawl fishery. For relevant provisions about that matter, see chapters 2, 3 and 4 and schedule 2 of the regulation.
- 3 This plan does not apply to acts done under Aboriginal tradition or Island custom. See section 14 (Aborigines' and Torres Strait Islanders' rights to take fisheries resources etc.) of the Act.

## Part 3 Interpretation

### Division 1 Interpretation aids and dictionary

#### 6 Interpretation

- (1) Unless this plan provides otherwise, terms used in it have the meaning given under the regulation.

- (2) The holder must ensure that every person acting under the licence is aware of the matters mentioned in the notice.
- (3) Subsection (4) applies if the usage notice states that the fishing and steaming days are likely to be used in the next month.
- (4) A person in control of a relevant boat under the licence must use the AIVR system, on each day the boat is to be used to take fish under the licence, to obtain the following information before any person starts taking fish from the boat on that day—
  - (a) whether the fishing and steaming days have been used;

[s 29A]

---

- (b) if the person finds out by using the AIVR system that the fishing and steaming days have been used on that day or an earlier day—the day the regulated period will start under section 27(4).
- (5) A person in control of a relevant boat under the licence complies with subsection (4) if another person obtains the information, in compliance with the subsection, for the person in control of the boat.

#### **Division 1            General provisions**

##### **31            Licences and fishery symbols for the east coast trawl fishery**

- (1) The licences for the east coast trawl fishery are the 'M1', 'M2', 'T1', 'T2', 'T5', 'T6', 'T7', 'T8' and 'T9' licences.
- (2) The fishery symbols for the east coast trawl fishery are the 'M1', 'M2', 'T1', 'T2', 'T5', 'T6', 'T7', 'T8' and 'T9' fishery symbols.

##### **32            Who may fish**

- (1) A person may take fish in the east coast trawl fishery by trawling or possess fish taken from the fishery only if—
  - (a) either—
    - (i) the person holds a licence for the fishery; or
    - (ii) the holder of a licence for the fishery has allowed the person to take or possess fish under the licence; and
  - (b) the person is a commercial or assistant fisher.

- 
- (2) Also, a person may fish under a ‘T1’ or ‘T2’ licence in an effort year only if the holder of the licence holds unused effort units for the year.

*Editor’s note—*

See section 98 (When effort units are *used* for an effort year).

### **33 Assistant fishers**

An assistant fisher may, under this plan, use or possess commercial fishing apparatus and take fish for trade or commerce (the *activities*) only if—

- (a) the assistant fisher and a commercial fisher are on the same primary boat or tender boat; or
- (b) the assistant fisher is on a tender boat for the primary boat for the commercial fishing boat licence under which the activities take place.

## **Division 2                      Restrictions on writing fishery symbols on licences**

### **37 Restrictions**

- (1) The chief executive may write a fishery symbol on a commercial fishing boat licence only if—
- (a) for a ‘T5’, ‘T6’, ‘T7’, ‘T8’ or ‘T9’ licence—the symbol is written under a written approval by the chief executive for it to be written on the licence; or
  - (b) the licence is a replacement licence; or
  - (c) the chief executive has approved a fishery symbol movement application and, under the application, the symbol is to be written on the licence.
- (2) However, the chief executive must not write a symbol as follows on a commercial fishing boat licence if it has the following written on it—

[s 37]

---

- (a) for an 'M1' fishery symbol—a 'T2' fishery symbol;
  - (b) for an 'M2' fishery symbol—an 'M1', 'T1' or 'T2' fishery symbol;
  - (c) for a 'T1' fishery symbol—an 'M2' or 'T2' fishery symbol;
  - (d) for a 'T2' fishery symbol—a 'T1' fishery symbol.

- (4) Also, the chief executive must not write—
- (a) an M1, T1 or T2 fishery symbol on a licence allowing the use of a boat for which—
    - (i) the hull units are more than 70; or
    - (ii) the main engine is more than 300 maximum continuous brake kW; or
  - (b) a T5, T6, T7, T8 or T9 fishery symbol on a licence allowing the use of a boat if—
    - (i) the boat is longer than 14m; or
    - (ii) the boat's main engine exceeds 300 maximum continuous brake kW.
- (5) Also, for subsection (1)(c), the chief executive must not write an M2 fishery symbol on a licence that would allow the use of a boat for which the hull units are more than the hull units for a boat that can be used under the licence from which the fishery symbol is being moved.
- (6) However, the chief executive may write an M2 fishery symbol on a licence that would otherwise contravene subsection (5) if the holder of the licence surrenders another M2 licence.

## **Part 2                      Fish that may be taken**

### **38            Condition that only permitted fish may be taken**

Each licence for the east coast trawl fishery is subject to a condition that only permitted fish may be taken under the licence.

- (b) prescribes an additional condition to which the licence under which the net is used is subject.

#### **41            Purpose of BRD**

The purpose of a BRD is to reduce the level of bycatch taken by the use of the net to the lowest level that allows the economically viable use of the net, having regard to the sustainability of the east coast trawl fishery's ecological systems.

[s 42]

---

## **Division 2                    BRD use condition**

### **42            Requirement to achieve purpose**

- (1) The licence under which the net is used is subject to a condition (the ***BRD use condition***) that the use of the net must achieve the purpose of a BRD.

## **Part 4A                      Communication conditions**

### **57A    Purpose and application of pt 4A**

This part prescribes additional conditions to which an ‘M1’, ‘M2’, ‘T1’ or ‘T2’ licence is subject.

### **57B    Obligation to nominate communication mode for boat**

- (1) The holder of the licence must, by notice to the chief executive, nominate a mode by which the chief executive or an inspector may communicate with the person in control of the boat identified in the licence whenever the person is on the boat.
- (2) The mode—
  - (a) can not be by the use of VMS equipment; and
  - (b) must be able to be received on the boat instantaneously after the communication is sent by the chief executive or inspector.

*Examples of ways that may be nominated—*

- a radio on the boat, tuned to a stated radio frequency
  - the number for a facsimile, mobile phone, radiophone or satellite phone on the boat
- (3) More than 1 mode may be nominated.
  - (4) The holder of the licence may change the nominated mode by giving notice of a new nominated mode to the chief executive.
  - (5) However, the new nominated mode must not be used until the chief executive has advised the holder of the licence that the notice of the change has been received by the chief executive.

### **57C    Obligation to ensure communication with person in control**

The holder of the licence and the person in control of the boat identified in the licence must take all reasonable steps to

---

ensure the chief executive or an inspector is, whenever the person is on the boat, able to communicate with the person by using a nominated communication mode for the boat,

*Example of all reasonable steps for section—*

The only nominated communication mode for the boat is a radio on the boat, at a stated radio frequency. The holder and the person in control must, when the person is on the boat, ensure the radio is—

- (a) on the boat; and
- (b) in working condition; and
- (c) connected to an appropriate power source and turned on; and
- (d) tuned to the stated frequency; and
- (e) set at a volume that allows the person in control to receive communications from the chief executive or an inspector.

## **Part 5 VMS equipment requirements**

### **58 Purpose and application of pt 5**

- (1) This part prescribes additional conditions to which an ‘M1’, ‘T1’ or ‘T2’ licence is subject.
- (2) If this part imposes an obligation on the person in control, it is a condition of the licence that the obligation must be complied with.

### **59 VMS equipment requirements apply**

The licence holder or person in control of a boat identified in the licence must ensure that VMS equipment is installed, maintained and used on the boat in compliance with the VMS equipment requirements.

*Note—*

See chapter 14 (Reporting), part 7 (VMS equipment requirements) of the regulation.

[s 67]

---

## **67 Further obligations for malfunction in major scallop area**

- (1) This section applies in addition to the VMS equipment requirements if the VMS equipment installed on a boat identified in the licence malfunctions inside the area within the following boundary (the *major scallop area*)—

  - to latitude 25°18' south, longitude 152°43.20' east
  - to latitude 22°10.80' south, longitude 149°48' east.
- (2) The person in control must—
  - (a) stop the use of fishing apparatus from the boat; and
  - (b) immediately cause the boat to travel as soon as practicable to the defined port area nearest the boat, unless the person has a reasonable excuse.
- (3) If the person in control starts to comply with the VMS equipment requirements for the boat, the obligations under subsection (2)—
  - (a) continue to apply; but
  - (b) cease to apply if the chief executive or an inspector gives the person notice that the obligations need not be complied with.
- (4) Notice under subsection (3)(b) may be given—
  - (a) orally in person; or
  - (b) by a nominated communication mode for the boat.
- (5) If the boat travels to a port, the person in control must not cause or allow the boat to be used for fishing unless an approved person gives the chief executive or an inspector notice that VMS equipment installed on the boat is in a

---

condition that allows it to perform the functions of VMS equipment.

**68 Further obligations for malfunction outside major scallop area**

- (1) This section applies in addition to the VMS equipment requirements if the VMS equipment installed on a boat identified in the licence malfunctions outside the major scallop area.
- (2) The person in control must cause the boat to travel to a defined port area within 5 days, unless the person has a reasonable excuse.
- (3) However, if the boat moves into the major scallop area, the person in control must—
  - (a) stop the use of fishing apparatus from the boat; and
  - (b) immediately cause the boat to travel as soon as practicable to the defined port area nearest the boat, unless the person has a reasonable excuse.
- (4) If the person in control starts to comply with the VMS equipment requirements for the boat, the obligations under subsections (2) and (3)—
  - (a) cease to apply; but
  - (b) resume if the chief executive or an inspector gives the person notice that the obligations must be complied with.
- (5) Notice under subsection (4)(b) may be given—
  - (a) orally in person; or
  - (b) by a nominated communication mode for the boat.
- (6) If the boat travels to a port, the person in control must not cause or allow the boat to be used for fishing unless an approved person gives the chief executive or an inspector notice that VMS equipment installed on the boat is in a

[s 73]

---

condition that allows it to perform the functions of VMS equipment.

## **Part 6                      Effort units**

### **Division 1                Introduction**

#### **73            Simplified outline of pt 6**

- (1) This part provides for the entitlement of effort units and conditions for their transfer.
- (2) Divisions 6 and 7 provide for the entitlement of effort units and for working out when they are used.
- (3) Divisions 8 and 9 prescribe conditions for the transfer of effort units and provide for the entitlement under transferred effort units.

### **Division 2                General provisions about effort units**

#### **74            Nature of an effort unit**

Each effort unit is—

- (a) an authority, the entitlement for which is provided for under division 6; and
- (b) a quota for the east coast trawl fishery.

---

## Division 6                      Effort unit entitlement and use

### 97            Meaning of *entitlement* of effort unit holder

- (1) The effort units held by a person authorise the person, in an effort year, to—
  - (a) if the effort units are effort units that can be used in conjunction with ‘T1’ licences (*T1 effort units*)—
    - (i) use, or allow someone else to use, the boat identified in any ‘T1’ licence also held by the person until the effort units have been used; and
    - (ii) use, or allow someone else to use, each of the boats for 4 additional days (each a *steaming day*); or
  - (b) if the effort units are effort units that can be used in conjunction with ‘T2’ licences (*T2 effort units*)—
    - (i) use the boat identified in any ‘T2’ licence also held by the person until the effort units have been used; and
    - (ii) use each of the boats for 4 additional days (each also a *steaming day*).
- (2) However, the entitlement applies only while—
  - (a) for T1 effort units—the person also holds a ‘T1’ licence that is in force; and
  - (b) for T2 effort units—the person also holds a ‘T2’ licence that is in force.
- (3) The authorisation under this section is subject to division 9.
- (4) The authorisation under this section for an effort year is the person’s *entitlement* under the person’s effort units for the year.
- (5) The entitlement is subject to any relevant prohibitions or restrictions under the regulation, this plan or a condition or other provision of the effort units, ‘T1’ licences or ‘T2’ licences.

[s 98]

---

*Examples of relevant restrictions—*

the restrictions under sections 263 to 269 of the regulation

## **98 When effort units are *used* for an effort year**

- (1) This section provides for when effort units held by a person are *used* for an effort year.
- (2) Effort units are not used until the holder of the effort units, or anyone else allowed by the holder, has, under section 99, used a boat identified in a 'T1' licence or 'T2' licence on a fishing day for effort units.
- (3) The number of effort units used on the fishing day is worked out by applying the following formula—

$$EU = 1 \div EUCF$$

where—

*EU* means the number of effort units used.

*I* means the fishing day.

*EUCF* means the effort unit conversion factor for the boat used.

## **99 Provisions for working out use of entitlement**

- (1) This section provides for rules to work out whether a boat has been used on a fishing or steaming day to decide whether the entitlement of an effort unit holder has been used.
- (2) The period of each fishing and steaming day for the effort units is from midday to midday.
- (3) However, if the holder has given the chief executive notice of 24 hours or more that the period of the days is to be—
  - (a) from midnight to midnight—the period is from midnight to midnight; or
  - (b) from 6p.m. to 6p.m.—the period from 6p.m. to 6p.m.

- 
- (4) Subsection (3)(b) applies only if the eligible licence is also an 'M1' licence.
  - (5) If the holder uses the boat in any part of a fishing or steaming day, the holder is taken to have used the boat for the whole of the day.
  - (6) Despite subsections (3) to (5)—
    - (a) the use of the boat for the whole or part of the first 12 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—
      - (i) under subsection (3)(a), the period of the fishing or steaming day is from midnight to midnight; and
      - (ii) the boat has, in the preceding 12 hours, been used under a fishery symbol; and
    - (b) the use of the boat for the whole or part of the first 6 hours of an effort year is not included in the working out of whether the boat has been used on a fishing or steaming day if—
      - (i) under subsection (3)(b), the period of the fishing or steaming day is from 6p.m. to 6p.m.; and
      - (ii) the boat has, in the preceding 18 hours, been used under a fishery symbol.
  - (7) The boat is taken to have been used on fishing days for effort units before it is used on steaming days.
  - (8) In this section—

*notice* includes a notice given by facsimile, radio or telephone.

## **100 No carrying forward of unused entitlement**

- (1) This section applies if, in an effort year, an effort unit holder fishes on fewer days than the total entitlements under the effort units held by the holder.

## Part 3                      Extended definitions for other things

### 34      Working out *hull units* for a boat

The *hull units*, for a boat, must be worked out by using the following formula and rounding the amount worked out to the nearest whole number—

$$HU = \frac{L \times B \times D \times 0.6}{2.83}$$

where—

*HU* means the number of hull units for the boat;

*L* means the length of the boat;

*B* means the beam of the boat;

*D* means the depth of the boat.

*Editor's note*—

The figure of 0.6 represents a block coefficient to standardise variations in boat design and the figure of 2.83 represents a constant which converts cubic metres to units of 100 cubic feet.

### 35      Meaning of *beam* of a boat

The *beam*, of a boat, means the maximum breadth, in metres, amidships between—

- (a) if the boat has a metal shell—the moulded lines of its frame; or
- (b) if the boat does not have a metal shell—the outer surfaces of its hull, excluding sponsons, fenders and rubbing strips.

### 36      Meaning of *depth* of a boat

- (1) The *depth*, of the boat, means the vertical distance, measured in metres, from its keel datum to—

Schedule 7

---

- (a) if the boat is, after 15 December 2000, modified or replaced under chapter 3, part 8—a point amidships that is level with the highest point of its uppermost continuous deck; or
- (b) otherwise—
  - (i) for a boat with a stepped uppermost continuous deck the raised part of which extends over amidships—a line of reference extending from the lower part of the deck along a parallel line to the raised part; or
  - (ii) if subparagraph (i) does not apply—the underside of its uppermost continuous deck at the side amidships.
- (2) In this section—

***amidships***, of a boat, means the vertical plane at the middle of its length at a right angle to its centre-line plane.

***keel datum*** means—

- (a) for a composite or wooden boat—the lower edge of its keel rabbet; or
- (b) for a boat in which the form at the lower part of midship section is of a hollow nature or if thick or horizontal garboards are fitted—the point where the line of the hull bottom shell continued inwards cuts the boat's centre-line; or
- (c) if, because of the boat's shape, the keel datum can not be worked out under paragraph (a) or (b)—the tangent providing the greatest depth measurement.

### **38 Meaning of *length* of a net**

- (1) The ***length***, of a beam trawl net, means the distance the net is capable of extending across the beam or pole used to open it.
- (2) The ***length***, of an otter trawl net, means the combined length, in metres, of the head rope and bottom rope when taut between the outermost points of the meshes attached to the head rope and bottom rope.

**39 Working out an engine's *maximum continuous brake kW***

  - (a) make;
  - (b) model;
  - (c) year of manufacture;
  - (d) serial number;
  - (e) cylinder block;
  - (f) aspiration and cooling systems.
- (3) The following aspects of the recommendation must be considered—
  - (a) ambient water temperature in the range 25°C to 27°C or the temperature mentioned in the recommendation closest to the range;
  - (b) fuel injectors consistent with the recommended maximum continuous brake kW of the engine type.
- (4) If the manufacturer revises the recommendation for the engine type, the revised rating is taken to apply to all new engines of that type installed on boats from the day the revised rating took effect.
- (5) The following must be disregarded—
  - (a) variation from the standard power output, including, for example, engine deratings;
  - (b) different gear boxes or transmission trains associated with individual engines.
- (6) In this section—

*engine type* means the type of main propulsion engine or engines installed on the boat.

**41 Meaning of sweep of a net**

- (1) The *sweep*, of a net, includes a chain, rope, shackle, wire or other fitting used to attach otter boards or sleds to the point on the head rope or bottom rope of a net where the outermost meshes are attached.
- (2) If fittings mentioned in subsection (1) are joined to make a single fitting, the single fitting is 1 sweep.
