Part 2—Interaction with marine mammals

Division 1—Vessels

6—Interpretation

In this Division, a reference to a person who is in control of a vessel includes a reference to a swimmer who is using a submersible or other vessel.

7—Application of Division

This Division only applies in relation to a vessel if the observing of marine mammals or swimming near marine mammals is the purpose, or 1 of the purposes, for which the vessel is being used.

8—Distance to be kept by prescribed vessels

A person who is in control of a prescribed vessel must not move the vessel closer than 300 metres to a marine mammal.

9—Distance to be kept by other vessels

(1) A person who is in control of a vessel that is not a prescribed vessel must not—
   (a) move the vessel closer than 100 metres to a whale; or
   (b) move the vessel closer than 50 metres to a marine mammal other than a whale.

(2) A person who is in control of a vessel that is not a prescribed vessel must not move the vessel closer than 300 metres to a whale if—
   (a) the whale—
      (i) shows signs of disturbance; or
      (ii) appears to be sick or injured; or
      (iii) is stranded; or
      (iv) is entangled or otherwise incapacitated by material of human origin; or
      (v) is a calf; or
      (vi) is within the Encounter Bay Restricted Area; or
   (b) there are 2 vessels already within 300 metres of the whale.

(3) A person who is in control of a vessel that is not a prescribed vessel must not move the vessel closer than 150 metres to a marine mammal other than a whale if—
   (a) the marine mammal—
      (i) shows signs of disturbance; or
      (ii) appears to be sick or injured; or
      (iii) is stranded; or
(iv) is entangled or otherwise incapacitated by material of human origin; or
(v) is a calf or pup; or

(b) there are 2 vessels already within 150 metres of the marine mammal.

Examples—

The following are examples of a dolphin or whale showing signs of disturbance:
- attempts to leave an area;
- attempts to leave waters in the vicinity of a vessel;
- hasty diving;
- changes in breathing patterns;
- increased time diving as compared with time spent at the surface of waters;
- changes in acoustic behaviour;
- the onset of aggressive behaviour such as tail slashing or trumpet blowing.

The following are examples of a seal or sea lion showing signs of disturbance:
- rapid movement from land towards water;
- sudden awakening from sleep on land;
- the onset of vocalisation or growling;
- attempts by a female to shield a pup with her body or by her movements.

10—Operation of vessels close to marine mammals

(1) A person who is in control of a vessel that is within 300 metres of a whale must not—
(a) approach the whale head on or tail on; or
(b) drop an anchor from the vessel; or
(c) allow the vessel to remain within 300 metres of the whale for more than 60 minutes.

(2) A person who is in control of a vessel that is within 150 metres of a marine mammal other than a whale must not—
(a) approach the marine mammal head on or tail on; or
(b) drop an anchor from the vessel; or
(c) allow the vessel to remain within 150 metres of the marine mammal for more than 60 minutes.

(3) If a whale moves towards a vessel that is within 300 metres of the whale, the person who is in control of the vessel must not use, or continue using, the vessel to enable persons on the vessel to observe the whale or swim near it unless he or she either maintains the vessel's position or moves it away from the whale.

(4) If a marine mammal other than a whale moves towards a vessel that is within 150 metres of the marine mammal, the person who is in control of the vessel must not use, or continue using, the vessel to enable persons on the vessel to observe the marine mammal or swim near it unless he or she either maintains the vessel's position or moves it away from the marine mammal.
(5) While a vessel is within 300 metres of a whale, the person who is in control of the vessel must not move the vessel between that whale and another whale that is within 300 metres of the vessel.

(6) While a vessel is within 150 metres of a marine mammal other than a whale, the person who is in control of the vessel must not—
   (a) move the vessel between a dolphin and another dolphin that is within 150 metres of the vessel; or
   (b) move the vessel between a seal or sea lion and another seal or sea lion that is within 150 metres of the vessel.

(7) If a dolphin is swimming on a pressure wave created ahead of the bow of a vessel, the person who is in control of the vessel must, while the dolphin is so swimming, maintain the vessel's direction and speed unless it is necessary for the vessel to stop, in which case, the person must reduce the vessel's speed gradually.

(8) If a whale shows signs of disturbance by the presence of a vessel that is within 300 metres of the whale, the person in control of the vessel must move the vessel to at least 300 metres from the whale and keep the vessel at that distance until the whale no longer shows signs of disturbance.

(9) If a marine mammal other than a whale shows signs of disturbance by the presence of a vessel that is within 150 metres of the marine mammal, the person in control of the vessel must move the vessel to at least 150 metres from the marine mammal and keep the vessel at that distance until the marine mammal no longer shows signs of disturbance.

11—Speed of motorised vessels close to marine mammals
   A person who is in control of a motorised vessel that is within—
   (a) 300 metres of a whale; or

   (2) A person who is in control of a gyrocopter or helicopter must not fly it—
      (a) at an altitude of less than 500 metres above a marine mammal; or

   (3) A person who is in control of an aircraft other than a gyrocopter or helicopter must not fly it—
      (a) at an altitude of less than 300 metres above a marine mammal; or
      (b) at an altitude of less than 300 metres above any part of a circular area that has a marine mammal at its centre and a radius of 300 metres.
(4) If a marine mammal shows signs of disturbance by the presence of an aircraft, the person in control of the aircraft must not use, or continue using, it to enable persons in the aircraft to observe the marine mammal unless he or she flies it away from the marine mammal until the marine mammal no longer shows signs of disturbance.

Division 3—People

13—Interpretation

In this Division, a reference to a swimmer includes a swimmer who is snorkelling or using scuba or hookah equipment but does not include a swimmer who is using a submersible or other vessel.

14—Distance to be kept by swimmers

(1) A swimmer must not move closer than 30 metres to a marine mammal.

(2) A swimmer must not move closer than 300 metres to a whale if the whale—
