Division A1—Essential Services Commission

6A—Functions and powers of Commission

(1) The Commission has (in addition to the Commission's functions and powers under the Essential Services Commission Act 2002)—
   (a) the licensing, price regulation and other functions and powers conferred by this Act; and
   (b) any other functions and powers conferred by regulation under this Act.

(2) If regulated entities are required (whether by licence condition or otherwise) to participate in an ombudsman scheme, the Commission must, in performing licensing functions under this Act, liaise with the ombudsman appointed under the scheme.

(3) Without limiting subsection (1), the Governor may, by regulation, confer functions and powers on the Commission, or vary the functions and powers of the Commission, as the Governor considers necessary or expedient for the purposes of the National Gas (South Australia) Act 2008, National Gas Rules, National Energy Retail Law (South Australia) and National Energy Retail Rules.

(4) In performing functions under this Act, the Commission must (in addition to having regard to factors specified in this Act or the Essential Services Commission Act 2002) have regard to the provisions of the National Gas Rules and National Energy Retail Rules and the need to avoid duplication of, or inconsistency with, regulatory requirements under those Rules.

Division 1—Technical Regulator

7—Technical Regulator

(1) There is to be a Technical Regulator.

(2) The Technical Regulator is to be appointed by the Minister.

(3) The office of Technical Regulator may be held in conjunction with a position in the Public Service.
(4) The Minister may assign an employee in the Public Service to act as the Technical Regulator—

(2) A delegation under this section—
   (a) must be in writing; and
   (b) may be conditional or unconditional; and
   (c) is revocable at will; and
   (d) does not prevent the delegator from acting in any matter.

10—Technical Regulator's power to require information

(2) A person required to give information under this section must provide the information within the time stated in the notice.

   Maximum penalty: $20 000.

(3) Subject to subsection (4), a natural person is not required to give information under this section if the information would tend to incriminate the person of an offence.

(4) If a natural person is required to give information under this section relating to the safety of gas infrastructure, or a gas installation or appliance, and the information would tend to incriminate the person of an offence, the person must nevertheless give the information, but the information so given will not be admissible in evidence against the person in proceedings for an offence (other than an offence relating to the making of a false or misleading statement or declaration).
11—Obligation to preserve confidentiality

(1) The Technical Regulator must preserve the confidentiality of information gained in the course of the performance of the Technical Regulator's functions under this Act (including information gained by an authorised officer under Part 6) that—
   
   (a) could affect the competitive position of a gas entity or other person; or
   
   (b) is commercially sensitive for some other reason.

(2) Despite subsection (1), the Technical Regulator may disclose confidential information in the following circumstances:
   
   (a) as reasonably required in connection with the administration or enforcement of this Act (including to the Minister, the Commission and persons assisting the Commission), or the *National Gas (South Australia) Law* or as otherwise related to the performance of the Technical Regulator's functions (whether under this Act or any other Act);
   
   (b) to a person concerned in the administration or enforcement of another law of the State, or a law of the Commonwealth or another State or a Territory of the Commonwealth, for purposes related to the administration or operation of that other law;
   
   (c) to a government agency or instrumentality of this State, the Commonwealth or another State or Territory of the Commonwealth for purposes related to the performance of its functions (or to a person acting on behalf of such a government agency or instrumentality);
   
   (d) with the consent of the person who gave the information or to whom the information relates;
   
   (e) as required by a court or tribunal constituted by law;

(1) The Technical Regulator must, within three months after the end of each financial year, deliver to the Minister a report on the Technical Regulator's operations during that financial year.

(2) The Minister must cause a copy of the report to be laid before both Houses of Parliament within 12 sitting days after his or her receipt of the report.

Division 2—Advisory committees

15—Consumer advisory committee

(1) The Commission must establish an advisory committee comprising representatives of consumers (the *consumer advisory committee*)—

   (a) to provide advice to the Commission in relation to the performance of the Commission's functions under the Act; and
(b) to provide advice to the Commission, either on its own initiative or at the request of the Commission, on any other matter relating to the gas supply industry.

(2) Despite subsection (1), the consumer advisory committee will, if the Commission so determines, be the same committee as the committee of that name established under Division 4 of Part 2 of the Electricity Act 1996 and have the functions referred to in subsection (1) in addition to its functions under that Division.

16—Technical advisory committee

(1) The Technical Regulator must establish an advisory committee (the technical advisory committee) including representatives of—

(a) gas entities; and

(b) contractor and employee associations involved in the gas supply industry; and

(c) local government,

to provide advice to the Technical Regulator, either on its own initiative or at the request of the Technical Regulator, on any matter relating to the functions of the Technical Regulator.

(2) The technical advisory committee is the same committee as the committee of that name established under Part 2 Division 4 of the Electricity Act 1996 and has the functions referred to in subsection (1) in addition to its functions under that Division.

The Minister, the Commission or the Technical Regulator may establish other advisory committees to provide advice on specified aspects of the administration of this Act.

Part 3—Gas supply industry

Division A1—Declaration as regulated industry

18B—Declaration as regulated industry

The gas supply industry is declared to be a regulated industry for the purposes of the Essential Services Commission Act 2002.

Division A2—Application of provisions

18C—Application of provisions

Divisions 1, 3, 3B and 6 do not apply to a NERL retailer.

Division 1—Licensing of gas entities

19—Requirement for licence

A person must not carry on—

(a) the operation of a distribution system; or
(b) the retailing of gas; or
(c) any other operation for which a licence is required by the regulations,
unless the person holds a licence under this Part authorising the relevant operation.
Maximum penalty: $1 000 000.

20—Application for licence

(1) An application for the issue of a licence must—
   (a) be made to the Commission in a form approved by the Commission; and
   (b) contain the information specified in the form.

(2) The applicant must pay to the Commission an application fee fixed by the Minister of an amount that the Minister considers appropriate to meet the reasonable costs of determining the application.

(3) The Commission may, as the Commission considers appropriate, accept a single application from an applicant in respect of different operations of the applicant or operations of the applicant at different locations or may require separate applications.

(4) The applicant must give the Commission further relevant information requested by the Commission.

21—Consideration of application

(1) The Commission must consider an application for the issue of a licence and may, subject to this Division, issue or refuse to issue the licence.

(2) The Commission must have regard to the general factors specified in Part 2 of the Essential Services Commission Act 2002 and, subject to this section, may only issue a licence if satisfied that—
   (a) the applicant is a suitable person to hold the licence; and
   (b) in the case of a licence authorising the operation of a distribution system—the system has (or the proposed system will have) the necessary capacity for distributing gas safely; and
   (c) in the case of a licence authorising retailing of gas—the applicant will be able to meet reasonably foreseeable obligations under contracts for the sale of gas; and
   (d) in the case of a licence authorising other operations for which a licence is required under the regulations—the applicant meets any special requirements imposed by the regulations for the holding of the licence; and
   (e) in the case of a licence of any class—the grant of the licence would be consistent with criteria (if any) prescribed by regulation for a licence of the relevant class.

(3) In deciding whether an applicant is a suitable person to hold a licence, the Commission may consider—
   (a) the applicant’s previous commercial and other dealings and the standard of honesty and integrity shown in those dealings; and
   (b) the financial, technical and human resources available to the applicant; and
(c) the officers and, if applicable, major shareholders of the applicant and their previous commercial and other dealings and the standard of honesty and integrity shown in those dealings (including breaches of statutory and other legal obligations); and

(d) other matters prescribed by regulation.

(4) If—

(a) a person carries on or proposes to carry on operations for which a licence is required as agent of another person; and

(b) the agent makes application for the issue of such a licence on the agent's own behalf and on behalf of the principal; and

(c) the Commission is satisfied that the criteria for the issue of the licence are met in relation to the agent,

the Commission may, at the Commission's discretion, dispense with the requirement that the Commission be satisfied that the criteria are met in relation to the principal and issue the licence to the agent and the principal to be held by them jointly.

21A—Licences may be held jointly

(1) A licence may be held jointly by two or more persons.

(2) If a licence is held jointly by two or more persons, those persons are jointly and severally liable to meet requirements imposed under this Act or the Essential Services Commission Act 2002.

22—Authority conferred by licence

(1) A licence authorises the person named in the licence to carry on operations in accordance with the terms and conditions of the licence.

(2) The operations authorised by a licence need not be all of the same character or at the same location but may consist of a combination of different operations or operations at different locations.

23—Term of licence

A licence may be issued for an indefinite period or for a term specified in the licence.

24—Licence fees and returns

(1) A person is not entitled to the issue of a licence unless the person first pays to the Commission the relevant annual licence fee, or the first instalment of the relevant annual licence fee, as the case may require.

(2) The holder of a licence issued for a term of two years or more must—

(a) in each year lodge with the Commission, before the date prescribed for that purpose, an annual return containing the information required by the Commission by condition of the licence or by written notice; and

(b) in each year (other than a year in which the licence is due to expire) pay to the Commission, before the date prescribed for that purpose, the relevant annual licence fee, or the first instalment of the relevant annual licence fee, as the case may require.
(3) The annual licence fee for a licence is the fee fixed, from time to time, by the Minister in respect of that licence as an amount that the Minister considers to be a reasonable contribution towards administrative costs.

(4) The annual licence fee may, if the Commission so determines, be paid in equal instalments at intervals fixed by the Commission.

(7) If the holder of a licence fails to lodge the annual return or pay the annual licence fee (or an instalment of the annual licence fee) in accordance with this section, the Commission may, by written notice, require the holder to make good the default and, in addition, to pay to the Commission the amount prescribed as a penalty for default.

(8) An annual licence fee (including any instalment of an annual licence fee or any penalty for default) payable under this section is recoverable as a debt due to the Crown.

(9) In this section—

administrative costs means—

(a) the costs of administration of this Act; and

(b) any costs of administration of the Essential Services Commission Act 2002 relating to the gas supply industry; and

(c) the costs of administration of the Gas Pipelines Access (South Australia) Act 1997; and

(d) other costs prescribed by regulation;

holder of a licence includes the holder of a licence that has been suspended.

25—Licence conditions

(1) The Commission must make a licence subject to conditions determined by the Commission—

(a) requiring compliance with applicable codes or rules made under the Essential Services Commission Act 2002 as in force from time to time; and

(b) requiring compliance with specified technical or safety requirements or standards; and

(c) relating to the gas entity's financial or other capacity to continue operations under the licence; and

(d) requiring the gas entity to have all or part of the operations authorised by the licence audited and to report the results of the audit to the Commission; and

(e) requiring the gas entity to notify the Commission about changes to officers and, if applicable, major shareholders of the entity; and

(f) requiring the gas entity to provide, in the manner and form determined by the Commission, such other information as the Commission may from time to time require; and

(g) requiring the gas entity to comply with the requirements of any scheme approved and funded by the Minister for the provision by the State of customer concessions or the performance of community service obligations by gas entities.
(2) The Commission must make a licence subject to further conditions that the Commission is required by regulation to impose on the issue of such a licence.

(3) The Commission may make a licence subject to further conditions considered appropriate by the Commission.

(4) The Commission must provide to the Minister any information that the Minister requires for the purposes of the administration of a scheme for the provision by the State of customer concessions, or the performance of community service obligations, relating to the sale or supply of gas.

26—Licences authorising operation of distribution system

(1) The Commission must make a licence authorising the operation of a distribution system subject to conditions determined by the Commission—

(a) requiring compliance with the relevant parts of the National Gas Procedures (South Australia); and

(b) requiring the gas entity—

(i) to prepare, maintain and periodically revise a safety, reliability, maintenance and technical management plan dealing with matters prescribed by regulation; and

(ii) to obtain the approval of the Technical Regulator—

(A) to the plan (prior to the commencement of the operation of the distribution system to which the plan relates); and

(B) to any revision of the plan; and

(iii) to comply with the plan as approved from time to time; and

(iv) to audit from time to time the entity's compliance with the plans and report the results of those audits to the Technical Regulator; and

(c) requiring the gas entity to maintain specified accounting records and to prepare accounts according to specified principles; and

(d) requiring the gas entity to participate in an ombudsman scheme—

(i) that applies to the gas supply industry and to other regulated industries (within the meaning of the Essential Services Commission Act 2002) prescribed by regulation; and

(ii) the terms and conditions of which are approved by the Commission; and

(e) requiring the gas entity to monitor and report as required by the Commission on indicators of service performance determined by the Commission; and

(f) requiring the gas entity to comply with code provisions as in force from time to time (which the Commission must make under the Essential Services Commission Act 2002) limiting the grounds on which the supply of gas to customers may be disconnected and prescribing the process to be followed before the supply of gas is disconnected; and

(g) requiring a specified process to be followed to resolve disputes between the gas entity and customers as to the supply of gas.
(2) This section does not limit the matters that may be dealt with by terms or conditions of a licence authorising the operation of a distribution system.

**26A—Licences authorising retailing**

(2) The Commission must make a licence authorising the retailing of gas subject to conditions determined by the Commission—

(a) requiring compliance with the relevant parts of the National Gas Procedures (South Australia); and

(b) if the gas entity sells gas to customers of a prescribed class, requiring the entity to maintain specified accounting records and to prepare accounts according to specified principles; and

(c) requiring the gas entity to establish customer consultation processes of a specified kind; and

(d) requiring the gas entity to comply with code provisions as in force from time to time (which the Commission must make under the *Essential Services Commission Act 2002* on or before the prescribed date) relating to the provision of pricing information to enable small customers to compare competing offers in the retailing of gas; and

**91A—Energy efficiency shortfalls**

(1) Subject to this section, if the Commission is satisfied that a relevant gas retailer has an
energy efficiency shortfall (or *REES shortfall*) with respect to a particular year, the
Commission may recover an amount in respect of the shortfall (a *shortfall penalty*).

(10) If a shortfall penalty specified in a shortfall notice is paid by the relevant gas retailer (other than where the payment is made in response to an original shortfall notice after a new shortfall notice is served on the retailer), the retailer cannot be prosecuted in relation to the relevant contravention of the Act.

(11) Subject to the preceding subsections, the Commission may recover the amount of any shortfall penalty as a debt from the relevant gas retailer.

(12) If an amount is recovered as a shortfall penalty under this section, it must be applied under a scheme established by the Commission for 1 or more of the following purposes:
   (a) to assist persons who may have failed to benefit from activities relating to energy efficiency on account of any gas retailer's energy efficiency shortfall;
   (b) to support other program or activities to promote or support energy efficiency or renewable energy initiatives within South Australian households.

(13) For the purposes of this section—
   (a) a relevant gas retailer has an energy efficiency shortfall if the retailer has failed to engage, in accordance with and to the extent required by the regulations, in activities relating to energy efficiency identified by the regulations for the purposes of this section; and
(b) the extent of an energy efficiency shortfall is to be calculated in accordance with the regulations.

(14) This section extends to an energy efficiency shortfall occurring in 2009 (including a shortfall that is attributable to requirements arising before the commencement of this section).

(15) In this section—

prescribed base penalty means an amount, not exceeding $100 000, prescribed by the regulations for the purposes of this section;

relevant gas retailer means a regulated entity authorised to sell gas by retail (whether or not the entity is required to hold a licence under this Act) identified by the regulations for the purposes of this section.

93—Evidence

(1) If, in any legal proceedings, a person is alleged to have held a specified appointment under this Act at a specified time, the allegation is taken to have been proved in the absence of proof to the contrary.

(2) In any legal proceedings, an apparently genuine document purporting to be a certificate of the Commission certifying—

(a) that a person was or was not the holder of a licence at a specified date or as to the particulars or conditions of a licence; or

(b) as to the giving, issuing, receipt or contents of an order, direction, delegation, exemption, approval, authorisation, notice or assurance by the Commission, constitutes proof of the matters so certified in the absence of proof to the contrary.

(2a) An apparently genuine document purporting to be a certificate of the Commission certifying as to a person's status as a small customer, or a customer of a prescribed class, in relation to a specified time and place constitutes proof of the matters so certified in the absence of proof to the contrary.

(2b) In any legal proceedings, an apparently genuine document purporting to be a certificate of the Technical Regulator certifying as to the giving, issuing, receipt or contents of a direction, requirement, delegation, exemption, approval, authorisation, notice or assurance by the Technical Regulator, constitutes proof of the matters so certified in the absence of proof to the contrary.

(3) In any legal proceedings, an apparently genuine document purporting to be a certificate of an authorised officer certifying as to the giving and contents of a direction by the officer under this Act, constitutes proof of the matters so certified in the absence of proof to the contrary.

(4) If, in any legal proceedings, a person is alleged to have acted without proper authority or a specified approval required under this Act, the absence of such authority or approval will be presumed in the absence of proof that such authority or approval in fact existed or had been given.
94—Service

(1) A notice or other document required or authorised to be given to or served on a person under this Act may be given or served—

(a) by delivering it personally to the person or an agent of the person; or
(b) by leaving it for the person at the person's place of residence or business with someone apparently over the age of 16 years; or
(c) by posting it to the person or agent of the person at the person's or agent's last known place of residence or business; or
(d) by transmitting to the person by email to the email address last provided to the Commission or Technical Regulator by the person for that purpose.

(2) Without limiting the effect of subsection (1), a notice or other document required or authorised to be given to or served on a person may, if the person is a body corporate, be given to or served on the person in accordance with the Corporations Act 2001 of the Commonwealth.

(3) If a notice or other document is required or authorised to be given to or served on the holder of a licence under this Act and the licence is held by two or more persons, it is sufficient for the purposes of this Act if the notice or other document is given to or served on any one of those persons.

95—Regulations

(1) The Governor may make such regulations as are contemplated by, or necessary or expedient for the purposes of, this Act.

(2) Without limiting subsection (1), the regulations may deal with the following matters:

(a) the distribution, sale and supply of gas; and
(ab) matters relating to the operation of a transmission pipeline insofar as the operation affects a gas retail market; and
(b) the construction, installation and positioning of gas infrastructure and gas installations; and
(c) technical, operational and safety requirements and standards and monitoring and enforcing compliance with the prescribed requirements and standards; and
(d) the odourising of gas; and
(e) testing, approving and installation of meters; and
(h) the exemption (conditionally or unconditionally) of persons, things or operations from the application of this Act or specified provisions of this Act; and
(i) fees to be paid in respect of any matter under this Act and the waiver or refund of such fees; and
(j) penalties not exceeding $10 000 for contravention of a regulation.

(2a) If the regulations grant an exemption from the requirement to hold a licence under Part 3, the regulations may require a person exempted from the requirement to be treated as a gas entity for the purposes of specified provisions of this Act.
(3) The regulations may—

(a) be of general application or limited in application according to the persons, areas, times or circumstances to which it is expressed to apply;

(b) provide that a matter or thing in respect of which regulations may be made is to be determined, regulated or prohibited according to the discretion of the Minister, Commission or the Technical Regulator;

(c) refer to or incorporate, wholly or partially and with or without modification, any standard or other document prepared or published by a body referred to in the regulation, as is in force from time to time or as in force at a particular time.

Schedule 1—Repeal and transitional provisions

1—Repeal of Gas Act 1988

The Gas Act 1988 (the repealed Act) is repealed.

2—Transitional provision—licensed supplier of reticulated gas under repealed Act

(1) A person who is licensed to carry on a business of supplying reticulated gas under Part 2 of the repealed Act immediately before the commencement of this Act will be issued with a licence—

under Division 1 of Part 3 of this Act for a period of not less than 12 months from the commencement of this Act until 30 September in any year, subject to terms and conditions specified by the Technical Regulator.

(2) The regulations may modify the application of the provisions of this Act with respect to the payment of licence fees in relation to a person referred to in subclause (1) and the initial licence period of not less than 12 months referred to in that subclause.

(3) Subject to subclause (4), a person referred to in subclause (1) is not liable for loss or damage resulting from cutting off, or failing to supply, gas to any premises.

(b) the effect of the change is to alter the retail market obligations of a service provider in the State; and

(c) the service provider is able to satisfy AEMO—
(i) that the alteration imposes additional obligations on the service provider that result, or will result, in new costs being incurred by the service provider that are, or will be, fair and reasonable material costs; and

(2) In a case where this clause applies, the change referred to in subclause (1)(a) will not apply to or in relation to the relevant service provider unless or until—

(a) the service provider is able to recover the costs referred to in subclause (1)(c); or

by instrument in writing—

(c) divide any right, interest or liability of REMCo into distinct parts; or

(d) direct that a reference in any instrument or other document to REMCo will be taken to be a reference to some other entity; or

(e) take other steps to facilitate the transfer of any asset or liability of REMCo.

(3) An instrument under subclause (2) operates by force of this clause and despite the provisions of any other law or instrument.
(4) An instrument under subclause (1) or (2) takes effect from a date (which may be earlier than the date of the instrument) specified in the instrument.

(5) If it appears to the relevant Minister that assets or liabilities should not have been transferred to AEMO under this clause, the Minister may, by instrument in writing (a claw back order), transfer assets or liabilities transferred under this clause from AEMO to REMCo or to another person or entity specified by the relevant Minister.

(6) A claw back order—
   (a) must be made within 12 months after the date of the allocation order; and
   (b) takes effect from a date (which may be earlier than the date of the order) specified in the order.
