(a)

the gas transporter is unable to do so by circumstances beyond its control; or

(b)  
there exist circumstances, which by reason of the gas transporter doing so, would involve a danger to the public.

(5) If the connection, or the maintenance of the connection, of any premises to a relevant gas main under this section —

(a)  
will result in a new or an increased supply of gas to those premises; and

(b)  
the new or increased supply of gas cannot be made without the laying of a new, or the enlargement of an existing, gas main or the undertaking of other works related to the conveyance of gas to those premises,

**Directions in relation to Gas Network Code**

**61F.**

—(1) The Authority may, on an application by any relevant gas shipper, direct any relevant direct access customer to do or not to do such things, including to pay to the relevant gas shipper such charges, as may be determined by the Authority —
