THE LIVESTOCK IDENTIFICATION, REGISTRATION AND TRACEABILITY ACT, 2010

ARRANGEMENT OF SECTIONS

Section

Title

PART I
PRELIMINARY PROVISIONS

1. Short title and commencement.
2. Application.
3. Interpretation.

PART II
NATIONAL LIVESTOCK IDENTIFICATION, REGISTRATION AND TRACEABILITY SYSTEM

5. Declaration of compulsory livestock identification and registration areas.
6. Registration of livestock and premises for traceability.
7. Specifications, application and age limit for livestock identification devices.
8. Livestock identification numbering system.
9. Acquisition and application of livestock identification devices.
10. Functions of the Director.
12. Livestock identification and traceability officer.

PART III
LIVESTOCK REGISTRATION AND RECORDING SYSTEM

15. Establishment of National Livestock Identification, Registration and Traceability Registry.
16. Records for traceability.
17. Veterinary laboratory traceability.
18. Confidentiality and accessibility.

PART IV
LIVESTOCK TRACEABILITY

19. Livestock traceability enforcement.
20. Livestock for market or slaughter.
21. Traceability of imports and exports of livestock.
22. Livestock identification parades.
23. Obliterations, tampering or removal of official livestock identification devices.

PART V
GENERAL PROVISIONS

24. Operational cost defrayment.
26. Offences and penalties.
27. Regulations.
THE UNITED REPUBLIC OF TANZANIA

An Act to provide for the establishment of the National Livestock Identification, Registration and Traceability System for purposes of controlling animal diseases and livestock theft, enhancing food safety assurance; to regulate movement of livestock, improve livestock products and production of animal genetic resources; to promote access to market and to provide for other related matters.

ENACTED by Parliament of the United Republic of Tanzania.

PART I
PRELIMINARY PROVISIONS

1. This Act may be cited as the Livestock Identification, Registration and Traceability Act, 2010 and shall come into operation on such a date as the Minister may, by notice published in the Gazette, appoint.

2. This Act shall apply to Mainland Tanzania.
3. In this Act, unless the context otherwise requires—

“animal” means all vertebrate and invertebrate animals other than human beings;
“authorized agent” means a public or private person authorised to perform the functions under this Act;

“livestock recording system” means the collection, collation and storage of data or information on livestock;

“livestock register” means a register for maintaining a list of premises or farm animals;

“livestock registration” means the action by which information on animals such as identification, animal health, movement, certification, epidemiology, is collected, recorded, securely stored and made appropriately accessible and able to be utilized by the competent authority;

“livestock traceability” means a system of following the movement livestock or their products along the food chain;

“local government authority” means a local government authority established under the Local Government (District Authorities) Act and the Local Government (Urban Authorities) Act;
“Minister” means the Minister responsible for livestock;
“movement” means the introduction into or departure from an establishment of a farm animal that include births, slaughter, deaths, losses of the animal and livestock products that has to be recorded and reported;
“national livestock registry” means a register or computer based database information repository to which premises and identified livestock are recorded regardless of their elite females or males status;
“premises” means a holding or a village where livestock are born, held, managed, marketed, processed or exhibited;
“premises identification” means registration of premises for the purpose of this Act;
“registration” means the action by which information on animals regarding identification, health, movement, certification, epidemiology, is collected, recorded, securely stored and made appropriately accessible and able to be utilized by the competent authority;
“Registry” means the National Livestock Identification, Registration and Traceability Registry established under section 15;
“traditional or owners livestock identification system” means other livestock identification system used by livestock farmer or owner.
“veterinary para-professional” has the meaning ascribed to it under the Veterinary Act.

PART II
NATIONAL LIVESTOCK IDENTIFICATION, REGISTRATION AND TRACEABILITY SYSTEM

4.- (1) There is hereby established a system to be known as the National Livestock Identification, Registration and Traceability System.

(2) The National Livestock Identification, Registration and Traceability System shall have the following basic components-

(a) the national livestock identification;
(b) the national livestock registration; and
(c) the national livestock recording and movement control.

5.- (1) The Minister may, by order published in the Gazette, declare a compulsory national livestock identification and registration area in relation to which the Minister shall prescribe the national livestock identification technologies.

(2) The livestock identification or registration of premises and livestock establishments in which livestock are kept shall be mandatory within the areas declared by the Minister.

(3) The owner of the livestock shall identify his livestock in the compulsory livestock identification area with an approved national livestock identification technology.

(4) The local government authority shall cause livestock species and types in its area of jurisdiction to be identified and registered by using the national livestock identification and registration system.

(5) The Director shall identify or cause to be identified all livestock entering Mainland Tanzania and the record shall be retained in the register for the specified period of time.

(6) The livestock or livestock products owner may opt to use complimentary identification system and devices in identifying livestock or livestock products.

(7) The complimentary system or device shall not replace or compromise the adopted national livestock identification system or device.

(8) The livestock identification systems and technologies declared under subsection (1) shall not compromise the quality of hides and skins as provided for under the Hides, Skin and Leather Trade Act and the minimum requirements stipulated for under the Animal Welfare Act.

(9) Each local government authority shall, in cooperation with the private sector oversee the implementation of this Act in its respective area of jurisdiction.
6.- (1) Without prejudice to any other written law regarding registration of livestock premises or establishment, a person who owns or operates the premises or establishment for keeping, rearing, processing or marketing of livestock or livestock products shall register his premises or establishment.

(2) The owner of a livestock farm in a compulsory livestock identification and registration area shall register and keep records of his livestock.

(3) The owner of a livestock shall register or cause to be registered such livestock by the Village Council having jurisdiction in the area in which the livestock is found or kept.

(4) Any person who, by lawful means, acquires a livestock shall register or cause such livestock to be registered within thirty days from the date he acquired the livestock unless he intends to slaughter it or the livestock dies.

(5) The owner of a livestock may apply to the Director for the transfer of registration of a livestock identification mark registered in the name of another person from the name of such other person to his name and the application shall be accompanied by a written consent of the owner of the livestock identification mark requested to be transferred.

(6) The Director shall, where he is satisfied that the application made under subsection (5) is in order, transfer the registration of the livestock identification mark into the name of the applicant and issue a certificate of registration.

(7) A person who acquires ownership of a livestock from the estate of the deceased person which identification mark has been registered in the name of the deceased person shall apply to the Director for the transfer of the registered mark, and the Director shall, after being satisfied that there is no application made in respect of such mark, transfer the registered mark to the applicant.

(8) The owner of a registered livestock identification mark may, in writing, apply to the Director for cancellation of registration of the livestock identification mark and the Director shall, upon receipt of such application, cancel the registration.
(9) The registration of the establishments or premises referred to under subsection (1) may be renewed at the prescribed intervals, along with information on the number of livestock of each species on the establishment or premises, premises owner, livestock owners and the livestock manager or keeper.

7.- (1) The Minister shall prescribe specifications and standards for the livestock identification devices and shall, in relation to such devices, prescribe proper methods of applying the livestock identification devices.

(2) There shall be prescribed an age limit of the livestock for which the owner shall apply for the livestock identification devices.

8.- (1) The Minister may prescribe numbering system to be affixed to the livestock identification devices to ensure unique individual or group livestock identification.

(2) Without prejudice to the generality of sub-section (1), the key elements of the numbering system shall conform to the national, regional and international minimum standards.

9.- (1) The livestock owner shall acquire approved livestock identification devices from the livestock identification and traceability officer within the local government authority where he keeps his livestock.

(2) The livestock owner shall, with the assistance of the livestock identification and traceability agent and under the supervision of the registered veterinary professional or enlisted or enrolled veterinary para-professional under the Veterinary Act, affix the livestock identification devices on the animal.

(3) The owner or the livestock keeper in a compulsory livestock identification area who dispatches, offers for sale, sells, transports, slaughters or disposes off livestock or carcass of livestock that is not identified or accompanied by the prescribed documentation commits an offence and on conviction shall be liable to a fine not exceeding shillings two million or to imprisonment for a term not exceeding one year or to both.
Functions of the Director

10.- (1) The Director appointed in accordance with the Ministerial organisation structure shall be responsible for the day to day administration of the National Livestock Identification, Registration and Traceability system.

(2) The functions of the Director shall be to-
(a) manage and guide the development of the National Livestock Identification, Registration and Traceability System;
(b) develop policy, strategies, activities and implementation plan for the establishment and operationalization of the National Livestock Identification Registration and Traceability System;
(c) liaise and collaborate with regional and international organizations on matters relating to livestock identification, registration and traceability;
(d) link with local and international organizations on livestock recording systems;
(e) provide backstopping and capacity building to local government authorities in coordinating and supervising the implementation of the provisions of the Act;
(f) manage the national livestock registry, database and authorize accessibility of information;
(g) issue operational guidelines and standards of operating procedures of the livestock identification and traceability agents, livestock owners and livestock products processors and traders; and
(h) carry out any other functions as may be assigned by the Minister.

Powers of the Director

11. The Director shall have powers to enter into any premises, establishment or livestock market and carry out inspection to ensure compliance with the provisions of this Act.
12.- (1) A local government authority shall, within its organisational structure, designate one of its officers to be a livestock identification, registration and traceability officer.

(2) The livestock identification, registration and traceability officer shall perform the functions and exercise the powers engaged under sub-section (3) and he shall have the powers to-

(a) supervise livestock identification registration and traceability in compulsory identification areas, establishment or premises;
(b) register premises where livestock are kept;
(c) collect or store livestock records;
(d) supervise the application or use of premises identification codes or livestock identification numbers and devices;
(e) keep national identification devices in his area;
(f) register and maintain a register or computerized database of premises and identified livestock and livestock products for the purpose of monitoring livestock movement, trade, slaughter or death; and
(g) remit records to the central data base.

(3) The livestock identification, registration and traceability officer shall have powers to enter into and inspect livestock in the premises to ensure that the provisions of this Act are complied with.

(4) A local government authority shall, within its area of jurisdiction, appoint from among its employees or private livestock extension officers as livestock identification, registration and traceability agent.

(5) The functions of the livestock identification, registration and traceability agent shall be to-

(a) obtain and keep custody of livestock identification devices in the area;
(b) apply livestock identification devices on the livestock with the National Livestock Identification System in cooperation with the livestock owner;
(c) register and take records of identified livestock and owners contact particulars;
(d) remit records of identification and registration to the livestock identification and traceability agent;
(e) collect and remit recyclable livestock identification devices to the livestock identification and traceability agent; and
(f) recover operational costs from the livestock owners at rates as shall be determined and announced by the local government authority and the Director.

13. The Minister may, by notice published in the Gazette, delegate his powers to the local government authorities and any other body established by, or incorporated under any written law for the purpose of implementing the provisions of this Act.

PART III
LIVESTOCK REGISTRATION AND RECORDING SYSTEM

14.—(1) A person who deals in the declared livestock species as a livestock producer, processor, trader, tag manufacturer, auctioneer, market operator, abattoir, processing plant, transporter, hatchery, artificial breeding centre or veterinarian, shall take, keep and maintain the record of livestock or livestock products for purposes of livestock traceability.

(2) Subject to the provisions of subsection (1), the records taken shall include the livestock-
(a) species;
(b) identification number;
(c) sex;
(d) colour;
(e) brand;
(f) breed;
(g) age;
(h) marking;
(i) tag number;
(j) sire and dam identification particulars; and
(k) any other information as deemed necessary for livestock identification.

(3) The records referred to under subsection (2) shall be taken when the animal—
   (a) is born;
   (b) is inseminated;
   (c) is tagged or retagged;
   (d) loses tag;
   (e) dies;
   (f) is dispatched;
   (g) is introduced; and
   (h) product is dispatched or arrives in the dispatching or receiving centre.

(4) A person responsible for the dispatch or receiving livestock shall—
   (a) retain the records;
   (b) give a copy to the person dispatching or taking possession of the livestock;
   (c) provide a copy either electronically or in paper form to the Registry within a period to be specified in the Regulations.

(5) A person who tests samples of an animal shall record the identification particulars found on the sampled animal and make reference to such identifiers in the proceeding events or reports.

15.—(1) There shall be a Registry to be known as the National Livestock Identification, Registration and Traceability Registry.

(2) The Registry shall be a central repository of livestock identification and registration data.

(3) The Registry shall, for the purposes of removing ghost animals in the database, be managed by the Director or any other person authorised by him and may be computerised and web-based for online accessibility to authorized persons or institutions.

(4) The movements of the prescribed livestock and livestock product shall, on departure and arrival be recorded.
(5) Any person operating a livestock market, abattoir or a livestock establishment shall notify the Director managing the Registry regarding the sold or slaughtered livestock within the time limit in a manner prescribed in the Regulations.

16.-(1) A person who owns or operates an abattoir, meat processing plant, livestock market and quarantine facility or holding ground shall take and keep records of animal identification particulars and establish the source from which the animals were dispatched and submit such records to the Director or the local government authority in his area of jurisdiction within seventy two hours.

(2) A person operating a designated abattoir or meat processing plant shall, put in place and operate an internal livestock traceability system to ensure that livestock identifiers are collected and disposed off or handle reusable identifiers to an official identification agent of the area in accordance with the procedures prescribed in the regulations.

(3) Any person who contravenes the provisions of this section commits an offence and on conviction shall be liable to a fine not exceeding shillings one million or to imprisonment for a term not exceeding twelve months or to both.

17. A person operating a veterinary laboratory shall be required to take and keep records of ascribed national livestock identification particulars on the livestock or the sample collected for diagnosis and analysis for a period of not less than five years.

18.-(1) Any information or data in the Registry shall only be accessible by the authorized persons for the purposes intended for under this Act.

(2) The Director or a person authorised by him shall put in place proper safeguards to ensure confidentiality, management and control of accessibility to the Registry through allocation of user identities, up-loading own passwords and prescribing user rights in a scalable manner.
PART IV
LIVESTOCK TRACEABILITY

19.- (1) The Minister shall, collaborate with the Ministers responsible for trade, home affairs and health for the purposes of controlling livestock diseases, livestock products traceability, and prevention of livestock theft.

(2) For the purposes of livestock traceability, the Director shall coordinate public and private institutions or authorities for the enforcement of this Part.

20. A person shall not cause livestock to be marketed or slaughtered in an accredited abattoir for trade or export unless the livestock is accompanied by the prescribed documentation.

21.- (1) Livestock brought into or exported outside Mainland Tanzania shall be registered and its particulars be submitted to the Director.

(2) For the purpose of import or export of livestock the provisions of the Animal Disease Act shall apply.

22.- (1) The Director, an authorized agent or a police officer may order any person who is in possession of a livestock whose ownership is in dispute to present such livestock to the identification parade.

(2) Any person who is in possession of the livestock ordered to attend a livestock identification parade shall present the livestock to the Director, authorized agent or a police officer at a time, place and in a manner specified in the order.

(3) Any person who contravenes the provisions of this section commits an offence and on conviction shall be liable to a fine not exceeding shillings two million or to imprisonment for a term not exceeding one year or to both.

23.- (1) A person other than the owner shall not, without lawful cause, or excuse present the livestock for identification and registration under the National Identification and Registration System.
(2) Any person who removes or obliterates livestock identification devices or mutilates any part of the body of a livestock prescribed for application of livestock identification devices commits an offence and on conviction shall be liable to a fine not exceeding shillings two million or to imprisonment for a term not exceeding one year or to both.

PART V
GENERAL PROVISIONS

24. (1) The costs of system development and establishment of the National Livestock Identification, Registration and Traceability System shall be borne by the Government.

(2) Notwithstanding the provisions of subsection (1), the operational costs for the implementation of the National Livestock Identification, Registration and Traceability System may be borne by the Government, stakeholders and beneficiaries under direct or indirect shared arrangement during identification or registration of a livestock as the Minister may prescribe.

25. For purpose of giving room for preparation for the implementation of the requirement for registration of livestock, the provisions relating to registration of livestock shall not be enforced during the initial three years of the coming into operation of this Act.

26. A person who commits an offence under this Act to which no specific penalty is provided for shall be liable to a fine not exceeding shillings two million or to imprisonment for a period not exceeding one year or to both.
27. The Minister may make regulations prescribing-
(a) the National Livestock Identification, Registration and Traceability System;
(b) types of livestock identification devices;
(c) the compulsory livestock identification and registration areas;
(d) species, breeds, sex and age of animals to be identified and registered with the prescribed system;
(e) method and site of applying livestock identification devices;
(f) brand and branding system as to the size, design, application sites, pattern of the brand and branding equipment;
(g) record keeping systems;
(h) procedures for the importation or manufacture of livestock identification devices;
(i) conditions and procedures for conducting traceability on demand;
(j) procedures for conducting livestock identification parade;
(k) basic livestock identification;
(l) unique livestock identification;
(m) traceability depth and breadth;
(n) the use of traditional or owners livestock identification; and
(o) anything which in this Act is required or authorised to be prescribed.

Passed in the National Assembly on the 20th April, 2010.

Clerk of the National Assembly
