- (g) any other activity which directly or indirectly has or is likely to have a significant adverse impact on the water environment.

(2) These Regulations do not apply to any activity for which a licence is needed under Part II of the Food and Environment Protection Act 1985(10) or Part 4 of the Marine Licensing (Scotland) Act 2010(11).

Prohibition

4. No person shall carry on, or shall cause or permit others to carry on, any controlled activity except insofar as it is—

- (a) authorised under these Regulations; and
- (b) carried on in accordance with that authorisation.

Duty to use water efficiently

5. It is the duty of any person carrying out a controlled activity authorised under these Regulations to take all reasonable steps to secure efficient and sustainable water use.

PART II

Authorisations

General binding rules

6.—(1) A controlled activity specified in column 1 of Part 1 of Schedule 3 is authorised under these Regulations if it is carried out in accordance with the rules of general application (“general binding rules”) specified for that activity in column 2 of that Schedule.

(2) Part 2 of that Schedule has effect for the purposes of the interpretation of the Schedule.

Registration

7.—(1) Subject to Part 2 of Schedule 10, SEPA may authorise the carrying on of a controlled activity in accordance with the provisions of this regulation.

(2) SEPA may, in authorising such an activity, impose such conditions as it considers necessary or expedient for the purposes of protection of the water environment.

(3) An authorisation given under this regulation (“registration”) must be given by registering the particulars specified in paragraph (4) in the register maintained under regulation 37.

(4) The particulars are—

- (a) the activity authorised;
- (b) any conditions imposed under paragraph (2); and
- (c) the date of authorisation.

Water use licence

8.—(1) Subject to Part 2 of Schedule 10, SEPA may authorise the carrying on of a controlled activity under this regulation subject to the conditions provided for in this regulation.

(2) SEPA must impose such conditions as it considers necessary or expedient for the purposes of protection of the water environment.

(3) A condition imposed under this regulation may require an applicant to carry out works or do other things in relation to land not within the ownership or control of that applicant.

(4) If a condition is imposed in accordance with paragraph (3), it is the responsibility of the applicant to obtain all consents necessary to allow the condition to be complied with.

(5) When considering whether to grant an authorisation under paragraph (1), and when imposing conditions in respect of a licence under this regulation, SEPA—

- (a) must have regard to all controlled activities being carried on or likely to be carried on in the area of the water environment likely to be affected by the controlled activity to which the application relates;
- (b) may have regard to any agreement reached between different persons concerning controlled activities carried on in the relevant area of the water environment.

(6) SEPA may only grant an authorisation under this regulation if—

- (a) a person has been identified who will be responsible for securing compliance with the authorisation and the conditions specified in it;
 - (b) it is satisfied that that person will secure such compliance; and
 - (c) it is a condition of that authorisation that that person secures such compliance.
- (7) An authorisation granted under this regulation (“water use licence”) must specify the date on which it takes effect.

Groundwater Directive

- 9.—(1) When considering an application in respect of a controlled activity which—
- (a) is made on or after 25th November 2009 but before 22nd December 2013; and
 - (b) falls within the provisions of the Groundwater Directive 1980,

SEPA must impose such conditions as it considers necessary to ensure compliance with the Groundwater Directive 1980 as read with the Groundwater Directive 2006.

(2) Subject to paragraph (1), when considering an application in respect of a controlled activity which falls within the provisions of the Groundwater Directive 2006, SEPA must impose such conditions as it considers necessary to ensure compliance with the Groundwater Directive 2006.

(3) SEPA is the competent authority for the purposes of Articles 2, 8, 12 and 13 of the Groundwater Directive 1980 and Article 6 of the Groundwater Directive 2006.

Power of SEPA to impose authorisation

- 10.—(1) If it appears to SEPA that a person is carrying on (or is likely to carry on) a controlled activity—
- (a) which has not been authorised under regulations 7 or 8;
 - (b) authorised under regulation 6, but that additional measures are necessary to protect the water environment;
 - (c) authorised under regulation 7 but that it should be authorised under regulation 8;
 - (d) authorised under regulation 8 but that it should be authorised under regulation 7,

SEPA may treat the activity as an activity in respect of which an application has been made, and may, as it thinks fit, grant an authorisation under regulation 7 or 8.

- (2) If SEPA decides to treat an activity as an activity in respect of which an application has been made—
- (a) the charge referred to in regulation 11(1)(a) is payable, and
 - (b) the remaining provisions of Part III apply as if such an application had been made.
- (3) SEPA must give notice to the responsible person, if any, or to the operator that it is treating the activity in accordance with paragraph (1).

PART III

Applications and Application Procedure

Form and content of applications for authorisation

11.—(1) An application to SEPA for an authorisation to carry on one or more controlled activities must be made in writing, in such form as SEPA may from time to time require, and must be accompanied by—

- (a) any charge prescribed in accordance with Schedule 5; and
- (b) such information in such form as SEPA may reasonably require.

(2) If SEPA considers that the controlled activity is likely to have a significant adverse impact on the water environment, SEPA shall, subject to paragraph (3), require that the application be accompanied by the following information:

- (a) a description of the controlled activity comprising information on its siting, design and size;
- (b) a description of the measures envisaged in order to mitigate and, if possible, remedy significant adverse impacts on the water environment;
- (c) the data reasonably required by SEPA to identify and assess the main impacts which the controlled activity is likely to have on the water environment;
- (d) an outline of the main alternatives studied by the applicant and an indication of the main reasons for the choice made, taking into account the environmental effects;
- (e) a non technical summary of the information provided under sub-paragraphs (a) to (d); and
- (f) such other information specified in Annex IV of the EIA Directive as SEPA considers relevant to determination of the application.

(3) SEPA must only require an application to be accompanied by the information referred to in paragraph (2) insofar as SEPA considers that information—

- (a) reasonably necessary to determine the application; and
- (b) reasonably capable of being compiled by the applicant having regard, among other factors, to current knowledge and methods of assessment.

(4) Before making an application, the applicant may request that SEPA provide an opinion on what information must accompany the application and SEPA must, subject to paragraphs (6) and (7), provide such an opinion to the applicant if so requested.

(5) A request for an opinion under paragraph (4) must be accompanied by—

- (a) information sufficient to identify the location of the controlled activity;
- (b) a brief description of the nature and purpose of the controlled activity and of its possible effects on the environment; and
- (c) such other information or representations as the person making the request may wish to provide or make.

(6) Upon receiving a request under paragraph (4) for an opinion, SEPA may, if it considers that it has not been provided with sufficient information to provide an opinion, notify the applicant in writing of the points on which further information is required.

(7) If the applicant fails to provide the further information requested by SEPA under paragraph (6), SEPA is not obliged to provide an opinion under paragraph (4).

(8) If SEPA considers that the controlled activity is likely to have a significant adverse impact on the water environment, SEPA must, in preparing its opinion under paragraph (4), consult with the

applicant and any public authorities which in SEPA's opinion are likely, by virtue of their specific environmental responsibilities, to have an interest in the application.

(9) SEPA must, upon request, make available to the public a statement of the reasons for its assessment of whether or not the controlled activity in respect of which authorisation has been applied for is likely to have a significant adverse impact on the water environment and must inform the applicant that it has done so.

Consultation with public authorities

12.—(1) If SEPA receives an application in respect of a controlled activity that it considers likely to have a significant adverse effect on the water environment or on the interests of other users of the water environment, it must consult any public authorities as appear to it to have an interest in the application.

(2) The public authorities referred to in paragraph (1) may provide information or make representations in writing to SEPA within 21 days (or such other period as they may agree with SEPA) beginning with the date when they were consulted.

(3) SEPA must consider all information provided or representations made under paragraph (2).

(4) SEPA must ensure that, during the 28-day period referred to in regulation 13(4), any information provided or written representations made under paragraph (2) is made available to the public.

Advertisement of application

13.—(1) If SEPA receives an application it may, if it considers that the controlled activity has or is likely to have a significant adverse impact on the water environment or the interests of other users of the water environment, require the application to be advertised in accordance with this regulation.

(2) SEPA must serve notice requiring the applicant to advertise the application, and to send SEPA a copy of any such advertisement, within 28 days beginning with the date on which the notice was served.

(3) SEPA must specify in a notice under paragraph (2)—

- (a) the form of the advertisement;
- (b) the text to be included in the advertisement;
- (c) the publications or locations in which the advertisement should be placed; and
- (d) the dates between which the advertisement should be placed.

(4) An advertisement under paragraph (2) must, as a minimum—

- (a) describe the application, the assessment procedure, and the potential determinations of the application by SEPA;
- (b) state whether further information is available and, if so, how that information may be obtained or accessed;
- (c) explain that any person affected or likely to be affected by, or having an interest in, the application may make representations to SEPA in writing within 28 days beginning with the date of the advertisement; and
- (d) give the address to which such representations should be sent.

(5) SEPA must consider all written representations made under paragraph (4).

(6) The requirements of this regulation do not apply insofar as they would require the advertisement of information which, by virtue of regulation 38, is not to be included in the register maintained under regulation 37.

Further information etc.

14.—(1) SEPA may request such additional information in relation to any application as it reasonably requires.

(2) SEPA may request such additional information within such period as it may specify, or agree in writing with the applicant, or as the case may be, person making representations under regulation 13(4) or public authority providing information or making representations under regulation 12(2).

(3) SEPA may carry out such examination and investigation as it considers necessary to allow it to make a determination in respect of the application.

(4) SEPA may require an applicant to nominate a person who will be responsible for securing compliance with the terms of any authorisation to be granted in accordance with regulation 8, within such period as it may specify.

(5) If, under this regulation, SEPA obtains further information in relation to an application, it must consider, in light of that further information, whether the controlled activity is likely to have a significant adverse impact on the water environment and, if it considers it likely to do so, regulation 11(2) applies.

Determination of application

15.—(1) Before determining an application SEPA must—

- (a) assess the risk to the water environment posed by the carrying on of the activity referred to in the application;
- (b) if the application is in respect of an activity that it considers has or is likely to have a significant adverse impact on the water environment—
 - (i) assess the indirect effects of that impact on any other aspects of the environment likely to be significantly affected;
 - (ii) consider any likely adverse social and economic effects of that impact and of any indirect environmental effects identified in accordance with sub-paragraph (i); and
 - (iii) consider the likely environmental, social and economic benefits of the activity;
- (c) assess the impact of the controlled activity on the interests of other users of the water environment;
- (d) assess what steps may be taken to ensure efficient and sustainable water use;
- (e) apply the requirements of the legislation referred to in Part 1 of Schedule 4, including, in particular, the provisions of Article 4 of the Directive and Article 6 of the Groundwater Directive 2006; and
- (f) have regard to the provisions of the legislation referred to in Part 2 of Schedule 4.

(2) If an application is in respect of the carrying on of more than one controlled activity, SEPA may grant or refuse to grant it in relation to any one or more of those activities.

(3) Subject to regulation 16, SEPA must consider an application and must either grant or refuse to grant an authorisation to carry on the activity, or, as the case may be, each of the activities referred to in that application, and shall notify the applicant of its decision.

(4) If SEPA refuses to grant an application (in whole or in part) it must, when notifying the applicant of that refusal, give its reasons for doing so.

(5) If SEPA decides to grant an authorisation, it must, having considered the matters referred to in paragraph (1), grant it in the form of an authorisation under either—

- (a) regulation 7; or

(b) regulation 8.

(6) If SEPA determines an application in respect of a controlled activity that SEPA considers likely to have a significant adverse impact on the water environment, SEPA must make available to the public—

- (a) its decision;
- (b) the main reasons for it;
- (c) the matters considered in making it; and
- (d) if the application is granted, details of any measures which will be taken to mitigate the significant adverse impact.

Consideration of third party representations

16.—(1) This regulation applies to an application (or matter treated as an application in accordance with these Regulations) which SEPA proposes to determine under regulation 15(3), 23(2), 24(3) or 27(3) in respect of which a third party representation has been made.

(2) Before it determines an application to which this regulation applies SEPA must—

- (a) serve notice of its proposed determination on any person who has made a third party representation in respect of the application specifying that that person may, within the period of 21 days beginning with the date of service of the notice, notify the Scottish Ministers in writing that that person objects to SEPA's proposed determination; and
- (b) send a copy of the notice served under sub-paragraph (a) to the applicant (or any person who is treated by these Regulations as the applicant in respect of the application).

(3) SEPA must not determine the application during the period specified in paragraph (2)(a).

(4) Any person notifying the Scottish Ministers of an objection under paragraph (2)(a) must send a copy of that notification to SEPA within the period specified in that paragraph.

(5) If the Scottish Ministers receive notification under paragraph (2)(a) and SEPA receive a copy of that notification under paragraph (4), SEPA must not determine the application to which the notification relates until either—

- (a) SEPA has received written notice from the Scottish Ministers confirming that they do not intend to direct SEPA to refer the application to them for their determination under regulation 20(1)(b); or
- (b) no such notice has been received from the Scottish Ministers and a period of 63 days beginning with the date of the service of the notice given by SEPA under paragraph (2)(a) has expired.

(6) In this regulation “third party representation” means a written representation in respect of an application made to SEPA under regulation 12(2) or 13(4)(c).

Time limits for determining applications

17.—(1) SEPA must determine an application—

- (a) for an authorisation under regulation 7, within 30 days; and
- (b) for an authorisation under regulation 8 within 4 months,

beginning with the date on which it receives the application; but may determine it within such other period as may be agreed in writing with the applicant.

(2) For the purposes of calculating the periods mentioned in paragraph (1), SEPA must disregard any periods—

- (a) beginning with the date on which it serves notice under regulation 13(2) and ending with the last date by which any written representations must be made under regulation 13(4);
 - (b) beginning with the date it requests information under regulation 14(1) and ending with the date it receives the information requested or the date of the expiry of the period specified or agreed under regulation 14(2), whichever is the earlier; and
 - (c) in excess of 35 days during which it is prohibited from making a determination by virtue of regulation 16.
- (3) The application will be treated as if it were refused at the end of the period provided for in paragraph (1) if—
- (a) SEPA fails to determine the application within the period provided for in paragraph (1); and
 - (b) the applicant notifies SEPA in writing that the applicant wishes the failure to be treated as a refusal.

Accelerated determination of applications, variations and suspensions

- 18.**—(1) This regulation applies if SEPA considers that, by reason of an emergency—
- (a) an application for an authorisation requires to be determined within a shorter period of time than the procedures provided in regulations 11 to 17 permit;
 - (b) the variation of an authorisation (whether proposed by SEPA under regulation 22 or applied for by a responsible person or operator under regulation 24) requires to be determined within a shorter period of time than the procedures provided in regulations 23 and 24 permit; or
 - (c) an authorisation requires to be suspended (whether in whole or in part) within a shorter period of time than the procedures provided in regulation 29 permit.
- (2) If this regulation applies, regulations 11, 12, 13, 15(3), (4) and (5), 16, 17, 23, 24(2), (3) and (4), and 29(2)(b) do not apply.
- (3) If this regulation applies, regulations 14, 15(1) and (6), and 20 apply to any variation proposed by SEPA under regulation 22 or applied for by a responsible person or operator under regulation 24 as if it were an application and the responsible person or operator, as the case may be, were the applicant.
- (4) If this regulation applies, an application—
- (a) must be made in such form and must be accompanied by such information as SEPA may from time to time require (and, if SEPA so determines, need not be in writing);
 - (b) must be subject to such charges as SEPA may prescribe in accordance with Schedule 5.
- (5) SEPA must determine whether to grant or refuse (in whole or in part) an application to which this regulation applies within such time period as it considers appropriate in all the circumstances.
- (6) When determining an application to which this regulation applies, SEPA must comply with regulation 15(1) only insofar as it is reasonably practicable for it to do so.
- (7) If SEPA decides to grant the variation of an authorisation under this regulation (whether or not proposed by SEPA under regulation 22), it must notify the responsible person or operator (as the case may be) of—
- (a) the variations being made to the authorisation; and
 - (b) the date on which the variations are to take effect.

(8) In this Part, “emergency” has, subject to paragraph (9), the same meaning as it does in section 1 of the Civil Contingencies Act 2004⁽¹²⁾;

(9) The Scottish Ministers may direct that a specified event or situation, or class of event or situation, is to be treated as an “emergency” for the purposes of this regulation, regulation 19(1), or regulation 20(6).

Directions to SEPA regarding accelerated applications, variations and suspensions

19.—(1) If, by reason of an emergency, the Scottish Ministers consider that an application requires to be determined within a particular timescale or in a particular manner, the Scottish Ministers may direct SEPA to—

- (a) determine an application or a specified class of applications within a particular timescale, in a particular manner, and subject to such conditions (if any) as the Scottish Ministers may specify;
- (b) vary an authorisation or a specified class of authorisations within a particular timescale, in a particular manner, and subject to such conditions (if any) as the Scottish Ministers may specify; or
- (c) suspend an authorisation or a specified class of authorisations within a particular timescale, on such notice, and for such period as they may specify in the direction.

(2) If the Scottish Ministers issue a direction under paragraph (1), regulations 11 to 17, 23, 24 and 29(2)(b) only apply insofar as the Scottish Ministers direct.

(3) Before giving a direction under paragraph (1), the Scottish Ministers must—

- (a) consider the matters referred to in regulation 15(1); and
- (b) consult—
 - (i) SEPA;
 - (ii) any responsible authorities that the Scottish Ministers consider are likely to be affected by the direction; and
 - (iii) such other persons as they think fit.

Determinations of applications by the Scottish Ministers

20.—(1) The Scottish Ministers may direct SEPA to refer to them for their determination—

- (a) applications under these Regulations of any class or description specified in the direction;
- (b) any particular application, or any part of any particular application,

and the provisions of this regulation apply to any application referred to the Scottish Ministers for their determination in accordance with this paragraph; and in this regulation references to “application” or “applications” includes reference to any matter which is treated as an application in accordance with these Regulations.

(2) The Scottish Ministers must consult SEPA before issuing a direction under paragraph (1).

(3) The Scottish Ministers may cause a local inquiry to be held in relation to any such application, and the provisions of subsections (2) to (8) of section 210 of the Local Government (Scotland) Act 1973⁽¹³⁾ (power to direct inquiries) apply to inquiries held in accordance with this provision.

(4) The provisions of regulations 12, 13, 14 and 15(1) to (3) apply to the Scottish Ministers in respect of an application referred in accordance with paragraph (1) as they do to SEPA in respect of an application made under regulation 11.

⁽¹²⁾ 2004 c.36.

⁽¹³⁾ 1973 c.65; amended by the Criminal Procedure (Scotland) Act 1975 (c.4) and the Housing and Planning Act 1986 (c.63).

(5) When they have made a determination under this regulation, the Scottish Ministers must direct SEPA—

(a) to grant or refuse to grant an application for—

- (i) an authorisation to carry on the activity, or any of the activities referred to in the application or the relevant part of the application;
- (ii) a variation of the authorisation or part of the application for it made under regulation 24;
- (iii) a surrender of the authorisation or part of it,

or to vary or not to vary an authorisation under regulation 23(1), as the case may be; and

(b) if the determination is—

- (i) that an authorisation is to be granted under regulation 7 or 8, to grant that authorisation in accordance with that regulation;
- (ii) that an authorisation is to be varied under regulation 22, to vary that authorisation in accordance with that regulation and regulation 23 or 24, as the case may be;
- (iii) that an authorisation is to be surrendered under regulations 27 and 28, to grant that surrender in accordance with those regulations;
- (iv) that an authorisation or a partial surrender of an authorisation is to be granted subject to conditions, to grant that authorisation or partial surrender, specifying the conditions on which that authorisation or partial surrender is to be granted, and, if appropriate, to identify the person responsible for it;
- (v) to refuse to grant an application for authorisation, variation or surrender, or not to vary an authorisation under regulation 23(1), to notify the applicant of that refusal or determination not to vary as the case may be, specifying the reasons for that determination.

(6) If, by reason of an emergency, the Scottish Ministers consider that an application they have directed SEPA to refer to them under paragraph (1) requires to be determined urgently, the Scottish Ministers may—

- (a) dispense with consultation with public authorities as would otherwise be required by regulation 12;
- (b) dispense with advertisement of the application as would otherwise be required by regulation 13;
- (c) determine the application within such timescale as they consider appropriate.

PART IV

Modification and termination of authorisations

Review of authorisations

21.—(1) SEPA must periodically review authorisations granted under regulations 7 and 8, and may do so at any time.

(2) SEPA must periodically review the provisions of Schedule 3 and must make recommendations, in writing, to the Scottish Ministers as to any changes to that Schedule which it considers necessary or appropriate.

Variation of authorisation

22.—(1) Whether or not as a result of a review under regulation 21(1), SEPA may vary an authorisation granted under regulation 7 or 8.

(2) A variation under paragraph (1) may include removing, adding or amending any condition of an authorisation.

Procedure for variation

23.—(1) Regulations 11, 12, 13, 14, 15(1) and 15(6) apply when SEPA is considering variation of an authorisation under regulation 22 as if the variation proposed by SEPA is an application, and the responsible person or operator, as the case may be, is the applicant.

(2) Subject to regulation 16, SEPA must determine whether—

- (a) to grant; or
- (b) not to grant,

the variation of an authorisation under paragraph (1).

(3) If SEPA determines to grant the variation of an authorisation under paragraph (1), it must serve notice on the applicant specifying—

- (a) the variations being made to the authorisation; and
- (b) the date on which the variations are to take effect which must not be less than 3 months from the date on which the notice was served.

(4) If SEPA determines not to grant the variation of an authorisation which it has proposed under paragraph (1) it must give reasons for that determination to the applicant.

(5) SEPA may issue a varied authorisation to the applicant incorporating the variations made under this regulation.

(6) If SEPA issues a notice under regulation 13(2) requiring the responsible person or operator to advertise the variation of an authorisation proposed by SEPA under this regulation, and that person fails to comply with that notice, SEPA may advertise the proposed variation, and is entitled to recover the costs it reasonably incurs in doing so from that person.

Request for variation

24.—(1) A responsible person or operator may apply to SEPA for a variation of an authorisation granted under regulation 7 or 8.

(2) The provisions of regulations 11, 12, 13, 14, 15(1), 15(6) and 17 apply to an application under paragraph (1) as if it were an application.

(3) Subject to regulation 16, SEPA must either grant or refuse to grant (in whole or in part) an application under paragraph (1), and if it refuses to grant the application it must give its reasons for such refusal.

(4) If SEPA grants an application under paragraph (1), it must serve notice on the applicant specifying—

- (a) the variations being made to the authorisation; and
- (b) the date on which the variations are to take effect, which must not (unless agreed by the applicant in writing) be less than 3 months from the date on which the notice was served.

(5) SEPA may issue a varied authorisation to the applicant incorporating the variations made under this regulation.

Transfer of authorisation

25.—(1) A responsible person may jointly with another person apply to transfer an authorisation granted under regulation 8 (in whole or in part) to the other person.

(2) The provisions of regulation 11 and 14(1) to (3) apply to an application under paragraph (1) as if it were an application.

(3) SEPA must not grant an application under paragraph (1) unless it is satisfied that the person to whom the authorisation is to be transferred will secure compliance with the terms, limitations and conditions specified in the authorisation, or relevant part thereof.

(4) SEPA must determine an application under this regulation within 2 months beginning with the date on which it receives the application, or such longer period as may be agreed with the applicant in writing.

(5) SEPA must notify the applicant of its determination and, if it refuses the application, give its reasons for doing so.

(6) If SEPA fails to determine the application within the period specified in paragraph (4), it will be treated as having been granted.

Conditions of transferred authorisations

26.—(1) If an application under regulation 25 is granted, or treated as having been granted, the following provisions of this regulation apply.

(2) In the case of a transfer of the whole of an authorisation SEPA must send a copy of the amended authorisation specifying—

- (a) the date on which the transfer is to have effect; and
- (b) the responsible person in respect of the authorisation,

to that responsible person.

(3) In the case of transfer of part of an authorisation, SEPA must—

- (a) issue a new authorisation in respect of the part to be transferred, which specifies—
 - (i) the controlled activities being transferred and any conditions applying to them;
 - (ii) the responsible person for that authorisation; and
 - (iii) the date on which the new authorisation is to have effect,

to the responsible person for that part; and

- (b) issue an amended authorisation in respect of the part not so transferred which specifies—
 - (i) the controlled activities in relation to that part and any conditions applying to them;
 - (ii) the responsible person for that authorisation; and
 - (iii) the date on which the amended authorisation is to have effect,

to the responsible person for that part.

Surrender of authorisation

27.—(1) This regulation applies if an authorisation granted under regulation 7 or 8 is in force and either—

- (a) it is intended to cease the authorised activity; or
- (b) the authorised activity has ceased.

(2) Where paragraph (1) applies and the authorisation is under regulation 7, the operator—

- (a) where possible, must notify SEPA of the intention to cease the authorised activity and the date on which it will cease as soon as that information is known to the operator; and
- (b) must in any event notify SEPA of the cessation of the activity within 7 days of that cessation.

(3) Where paragraph (1) applies and the authorisation is under regulation 8, the responsible person shall apply to SEPA to surrender the authorisation or part of it, and SEPA must grant or refuse that application for surrender.

(4) The provisions of regulations 11, 13 and 14(1) to (3) apply to an application under paragraph (3) as if it were an application.

(5) Before determining whether to grant or refuse an application under paragraph (3) SEPA must

- (a) assess the risk to the water environment posed by the cessation of the activity referred to in paragraph (1); and
- (b) take account of the steps (if any) that have been taken and identify any steps necessary to—
 - (i) avoid any risk of adverse impact on the water environment resulting from the cessation of the authorised activity; and
 - (ii) leave the relevant part of the water environment affected by the authorised activity in a state which will permit compliance with any relevant requirements of the legislation referred to in Part 1 of Schedule 4.

Determination of application for surrender

28.—(1) Subject to regulation 16, SEPA must give notice to the applicant of its determination of an application under regulation 27(3) within 2 months beginning with the date on which SEPA receives the application, or within such longer period as it may agree with the applicant in writing.

(2) The provisions of regulation 17(2) apply in respect of the period mentioned in paragraph (1) as they apply in respect of the periods mentioned in regulation 17(1).

(3) If SEPA grants an application under regulation 27(3), the notice given under paragraph (1) must—

- (a) if SEPA has identified necessary steps in accordance with regulation 27(5)(b), specify those steps, require the responsible person to take those steps, and provide that the authorisation ceases to have effect on the date SEPA confirms to the applicant in writing that those steps have been completed to its satisfaction; and
- (b) in any other case, specify the date on which the authorisation ceases to have effect.

(4) In the case of a partial surrender, if SEPA is of the opinion that it is necessary to vary the authorisation to take account of the surrender, it must send a notice to the applicant specifying—

- (a) variations to the authorisation consequent on the partial surrender; and
- (b) the date on which the authorisation, as varied, takes effect.

(5) If SEPA has failed to determine the application within the period specified in paragraph (1) the application will be treated as being granted at the end of that period, and the authorisation ceases to have effect at the end of that period.

Suspension and revocation of authorisation

29.—(1) SEPA may at any time suspend or revoke an authorisation (in whole or in part) by serving a notice on the responsible person or operator, as the case may be.

(2) A notice under paragraph (1) must specify—

- (a) in the case of a partial suspension or partial revocation, the extent to which the authorisation is being revoked or suspended;
 - (b) the date on which the suspension or revocation takes effect, which must be at least 28 days after the date on which the notice is served; and
 - (c) the reasons for the suspension or revocation,
- (3) An authorisation ceases to have effect (in whole or in part) from the date specified in the notice under paragraph (1).
- (4) SEPA may at any time lift the suspension of an authorisation under paragraph (1) (in whole or in part) by serving a notice on the responsible person or operator, as the case may be.
- (5) A notice under paragraph (4) must specify—
- (a) in the case of a partial lifting of the suspension, the extent to which the authorisation remains suspended;
 - (b) the date on which the lifting of the suspension or partial lifting of the suspension takes effect; and
 - (c) the reasons for the lifting or partial lifting of the suspension.
- (6) An authorisation has effect (in whole or in part) from the date specified in the notice under paragraph (4).

Consolidated authorisations

30. If there is more than one authorisation applying to controlled activities which are carried on by the same responsible person or operator, SEPA may replace those authorisations with a consolidated authorisation subject to the same conditions as the authorisations being replaced.

PART V

Enforcement and other powers

Powers and duty to monitor, enforce etc.

31.—(1) It is the duty of SEPA to monitor compliance with, and to enforce the provisions of, these Regulations.

(2) In the discharge of its duties under paragraph (1) in relation to the Northumbria River Basin District⁽¹⁴⁾ and the Solway Tweed River Basin District⁽¹⁵⁾, SEPA must, as necessary, consult and collaborate with the Environment Agency.

(3) SEPA may secure the carrying out, through such persons as it considers appropriate, of such examination and investigation as it considers necessary for the purpose of discharging its duties under these Regulations.

(4) Any person who appears suitable to SEPA may be authorised in writing by it to exercise, in accordance with the terms of that authorisation, the powers specified in Part 1 of Schedule 6 in accordance with the requirements of Parts 2 and 3 of that Schedule.

(5) The powers referred to in paragraph (4) are to be exercised for the purpose of discharging any of SEPA's functions under—

⁽¹⁴⁾ The Northumbria River Basin District was identified by virtue of the Water Environment (Water Framework Directive) (Northumbria River Basin District) Regulations 2003 (S.I. 2003/3245).

⁽¹⁵⁾ The Solway Tweed River Basin District was identified by virtue of the Water Environment (Water Framework Directive) (Solway Tweed River Basin District) Regulations 2004 (S.I. 2004/99).

- (a) the Act;
 - (b) the Water Environment (Water Framework Directive) (Northumbria River Basin District) Regulations 2003(16);
 - (c) the Water Environment (Water Framework Directive) (Solway Tweed River Basin District) Regulations 2004(17); and
 - (d) these Regulations.
- (6) The provisions of Parts 4 and 5 of Schedule 6 apply in relation to the exercise of the powers referred to in paragraph (4).

Enforcement notices

- 32.**—(1) This regulation applies if—
- (a) a person has carried out, is carrying out or is likely to carry out a controlled activity; and
 - (b) SEPA is of the opinion that the activity—
 - (i) has contravened, is contravening or is likely to contravene an authorisation under these Regulations;
 - (ii) has caused, is causing or is likely to cause significant adverse impacts on the water environment or any part of it; or
 - (iii) has caused, is causing or is likely to cause a direct or indirect discharge into groundwater of any hazardous substance or any other pollutant.
- (2) SEPA may serve a notice on the responsible person or the operator, as the case may be, specifying—
- (a) the activity;
 - (b) if SEPA is of the opinion that the activity has contravened, is contravening, or is likely to contravene an authorisation under these Regulations, the matters constituting the contravention or likely contravention;
 - (c) if SEPA is of the opinion that the activity has caused, is causing, or is likely to cause a significant adverse impact on the water environment, the nature of that adverse impact;
 - (d) if SEPA is of the opinion that the activity has caused, is causing, or is likely to cause a direct or indirect discharge into groundwater of any hazardous substance or any other pollutant, details of that direct or indirect discharge; and
 - (e) the steps to be taken by the person responsible or the operator which SEPA considers to be necessary or appropriate to prevent, mitigate or remedy the contravention of the authorisation, the adverse impacts on the water environment or the direct or indirect discharge into groundwater.
- (3) The steps referred to in paragraph (2)(e) may include cessation of a controlled activity for such period as SEPA considers necessary or appropriate.
- (4) SEPA must revoke a notice served under paragraph (2) if—
- (a) the contravention or likely contravention of an authorisation has ceased and is unlikely to recur, and any remedial mitigating or preventive steps required by SEPA have been carried out;
 - (b) the adverse impacts or likely adverse impacts on the water environment have ceased and are unlikely to recur and any remedial mitigating or preventive steps required by SEPA have been carried out;

(16) [S.I. 2003/3245](#).

(17) [S.I. 2004/99](#).

- (c) the direct or indirect, or likely direct or indirect discharge to groundwater has ceased and is unlikely to recur and any remedial mitigating or preventive steps required by SEPA have been carried out.

(5) SEPA may impose such time limits as it considers appropriate in a notice under paragraph (2) and may describe a time limit by reference to the completion of steps or any other requirement specified in that notice.

Power of SEPA to carry out works

33.—(1) If SEPA considers that a notice should be served under regulation 32(2), it is entitled to take any steps that would be identified in that notice, or secure that those steps are taken, if—

- (a) it considers it necessary to do so forthwith; or
- (b) it appears to SEPA, after reasonable inquiry, that no person can be found on whom to serve that notice.

(2) If SEPA has—

- (a) carried out, or secured the carrying out of, any investigation to establish whether or not a notice under regulation 32(2) is necessary, and if necessary, on whom it requires to be served; or
- (b) taken steps, or secured that steps were taken under paragraph (1),

it is entitled to recover the costs of doing so from the responsible person or operator who has carried out, is carrying out or is likely to carry out the activity in respect of which the notice is served.

Enforcement notices — rights of entry, compensation etc.

34.—(1) A notice under regulation 32(2) may require the responsible person or operator to carry out work in relation to land outwith the ownership or control of that person.

(2) If paragraph (1) applies, any person whose consent is required before that work may be carried out must grant, or join in granting such rights in relation to any land as will enable the notice to be complied with.

(3) If paragraph (1) applies, SEPA must, before serving a notice under regulation 32(2), insofar as it is reasonably practicable, consult such persons as appear to it to be—

- (a) the owner or occupier of land which will be affected by the notice; and
- (b) any person who might be required under paragraph (2) to grant or join in granting any rights,

in respect of the rights which that owner, occupier, or person, may be required to grant.

(4) A notice will not be regarded as invalid by reason only of a failure to comply with paragraph (3).

(5) A person who grants, or joins in granting, any rights in accordance with paragraph (2) is entitled to apply for compensation, in accordance with Schedule 7, of such amount and in such manner as may be determined under that Schedule.

(6) Compensation payable under paragraph (5) must be paid by the person on whom notice under regulation 32(2) was served or would have been served but for regulation 33(1).

(7) If no person can be found by whom compensation should be payable or if a person found liable in compensation has failed to make the payment of it, compensation under this regulation will be payable by SEPA; and SEPA is entitled to recover any payment of compensation made by it under this paragraph from any person on whom notice under regulation 32(2) was served or would have been served but for regulation 33(1).

Enforcement by the courts

35. If SEPA is of the opinion that proceedings for an offence under regulation 44(1)(j) would afford an ineffectual remedy against a person who has failed to comply with a requirement of any notice under regulation 32, it may take proceedings in any court of competent jurisdiction for the purpose of securing compliance with that notice.

PART VI

Information and Register

Power of the Scottish Ministers and SEPA to obtain information

36.—(1) The Scottish Ministers may require SEPA, by notice served on it, to furnish such information about the discharge of its functions under these Regulations as the Scottish Ministers may require.

(2) SEPA may serve on any person a notice requiring that person to furnish to SEPA, within a period or at times specified in the notice and in a form so specified, any information so specified which SEPA reasonably considers is necessary for the purpose of any function conferred on SEPA by—

- (a) the Act;
- (b) the Water Environment (Water Framework Directive) (Northumbria River Basin District) Regulations 2003⁽¹⁸⁾;
- (c) the Water Environment (Water Framework Directive) (Solway Tweed River Basin District) Regulations 2004⁽¹⁹⁾; and
- (d) these Regulations.

(3) The information which a person may be required to furnish under paragraph (2) must include information which, although it is not in the possession of that person or would not otherwise come into the possession of that person, is information which it is reasonable to require that person to obtain for the purposes of complying with the information notice.

(4) Nothing in this regulation authorises the Scottish Ministers or SEPA to require disclosure of anything which a person would be entitled to refuse to disclose on grounds of confidentiality in proceedings in the Court of Session.

Public register of information

37.—(1) Subject to paragraph (5) and regulation 38, it is the duty of SEPA to maintain a register containing the particulars described in Schedule 8.

(2) If, by virtue of regulation 38, information of any description is not included in the register maintained by SEPA under this regulation, a statement must be entered in the register indicating the existence of information of that description.

(3) It is the duty of SEPA—

- (a) to secure that the register maintained by it under this regulation is available, at all reasonable times, for inspection by the public free of charge; and
- (b) to afford to members of the public facilities for obtaining copies of entries, on payment of reasonable charges.

(18) S.I. 2003/3245.

(19) S.I. 2004/99.

(4) The register maintained by SEPA under this regulation may be kept in any form.

(5) If the Scottish Ministers exercise functions under regulation 55, they must send any particulars referred to in Schedule 8 which relate to that exercise of functions to SEPA, and SEPA must enter those particulars in the register.

Confidential information

38.—(1) Information relating to the affairs of any individual or business which is commercially confidential may only be included in the register if—

- (a) the individual or the person for the time being carrying on the business gives consent to that inclusion; or
- (b) the information requires to be included in the register in pursuance of a direction under regulation 43.

(2) For the purposes of these Regulations, information is only commercially confidential in relation to the affairs of any individual or business if SEPA has determined that putting it on the register would prejudice to an unreasonable degree the commercial interests of that individual or business.

Application for determination of commercial confidentiality

39.—(1) If information is given to SEPA for the purposes of these Regulations, the person giving it may apply to SEPA to have the information excluded from the register on the ground that it is commercially confidential (as regards that person or another person).

(2) The application under paragraph (1) must include representations indicating why the applicant considers the information commercially confidential, together with such further information in support of the application as the applicant considers appropriate.

(3) The provisions of regulation 14(1) and (2) apply to an application under paragraph (1) as they do to an application.

(4) SEPA must determine whether the information is or is not commercially confidential and must give notice of its determination to the applicant within 28 days beginning with the date of the application or within such longer period as may be agreed with the applicant in writing.

(5) The provisions of regulation 17(2)(b) apply in respect of the period mentioned in paragraph (4) as they apply in respect of the periods mentioned in regulation 17(1).

(6) If SEPA fails to give notice of its determination of an application under paragraph (2) within the period allowed by or under paragraph (4), the information will be treated as commercially confidential.

Procedure relating to information which might be confidential

40.—(1) If it appears to SEPA that any information that has been obtained by it under or by virtue of any provision of these Regulations and is required to be included in the register, might be commercially confidential, SEPA must—

- (a) give to the person to whom or whose business it relates notice that that information is required to be included in the register; and
- (b) give that person a reasonable opportunity—
 - (i) of objecting to the inclusion of the information on the ground that it is commercially confidential; and

(ii) of making representations to SEPA indicating why the person considers the information to be commercially confidential, together with such further information in support of the objection as the person considers appropriate.

(2) The provisions of regulation 14(1) and (2) apply to an objection under paragraph (1) as they do to an application.

(3) SEPA must determine whether the information is or is not commercially confidential and must give notice of its determination to the person to whom or whose business it relates.

(4) This regulation does not apply if the information is the subject of an application under regulation 39.

Review of determination of commercial confidentiality

41.—(1) SEPA must periodically review its determinations under this Part that information is commercially confidential, and may do so at any time.

(2) If SEPA is carrying out a review under paragraph (1), it must—

(a) give the person to whom or to whose business the determination relates notice that it is reviewing that determination; and

(b) give that person a reasonable opportunity of making representations regarding the commercial confidentiality of the information, including an indication of why the person may consider that the information remains commercially confidential, together with such further information in support of those representations as the person considers appropriate.

(3) The provisions of regulation 14(1) and (2) apply to representations made under paragraph (2) as they do to an application.

(4) SEPA must determine whether or not the information remains commercially confidential and must give notice of its determination to that person.

Effect of determination

42. Subject to the provisions of regulation 52(1)(b), if SEPA has determined under this Part that information is not commercially confidential, the information must not be entered in the register until the end of the period of 21 days beginning with the date on which the determination was notified.

Directions to SEPA concerning confidential information

43. The Scottish Ministers may give to SEPA a direction as to specified information, or descriptions of information, which the public interest requires to be included in the register, notwithstanding that the information may be commercially confidential.

PART VII

Offences by bodies corporate

- 45.—**(1) If an offence under these Regulations is committed by—
- (a) a body corporate (other than a limited liability partnership) and is proved to have been committed with the consent or connivance of, or to have been attributable to any neglect on

the part of, any director, manager, secretary or other similar officer of the body corporate, or a person who was purporting to act in any such capacity;

that person as well as the body corporate, the limited liability partnership or the partnership, as the case may be, is guilty of that offence and is liable to be proceeded against and punished accordingly.

(2) If the affairs of a body corporate (other than the affairs of a limited liability partnership) are managed by its members, paragraph (1) applies in relation to the acts or defaults of a member in connection with the functions of management of that member as if that member were a director of the body corporate.

Offences — acts or default of third person

46. If the commission by any person of an offence under these Regulations is due to the act or default of some other person, that other person may be charged with and convicted of the offence by virtue of this regulation whether or not proceedings for the offence are taken against the first-mentioned person.

Admissibility of evidence

47.—(1) It is admissible as evidence that that condition has not been observed if—

- (a) by virtue of a condition of an authorisation, an entry is required to be made in any record as to the observance of any condition of the authorisation; and
- (b) the entry has not been made.

(2) Information provided or obtained pursuant to or by virtue of a condition of an authorisation including information so provided, obtained or recorded, by means of any apparatus, will be admissible in evidence in any proceedings, whether against the person subject to the condition, or any other person.

(3) For the purposes of paragraph (2), apparatus will be presumed in any proceedings to register or record accurately, unless the contrary is shown, or the authorisation otherwise provides.

Defence to principal offences

48. A person will not be guilty of an offence under regulation 44(1)(a) to (d), (j) or (o) if—

Power of court to order offence to be remedied

49.—(1) If—

- (b) it appears to the court that it is in the power of that person to mitigate or remedy that adverse impact,

the court may, in addition to, or instead of, imposing any punishment, order that person, within such time as may be fixed by the order of the court, to take such steps as may be specified in that order for remedying those matters.

(2) Before making such an order, the court must have regard to any representations by SEPA as to the steps required to mitigate or remedy the adverse impact.

(3) The time fixed by an order of the court under paragraph (1) may be extended or further extended by a further order of the court on an application made before the end of the time originally fixed or extended under this paragraph, as the case may be.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations are made under section 20 of, and schedule 2 to, the Water Environment and Water Services (Scotland) Act 2003 ([asp 3](#)) (“the Act”). The Act transposed European Parliament and Council Directive [2000/60/EEC](#) establishing a framework for Community action in the field of water policy (O.J. No. L 327, 22.12.2000, p.1) (“the Directive”). These Regulations provide the mechanism by which most of the measures required under Article 11(3) (other than those required by Article 11(3)(b)) of the Directive will be taken. They also make provision to meet the requirements of Article 23 of the Directive in respect of those measures. Regard has been had to the requirements of Article 4, and to the terms of Article 14.1 of the Directive. They also implement, in part, Council Directive [80/68/EEC](#) on the protection of groundwater against pollution caused by certain dangerous substances (O.J. L 20, 26.1.80, p.43) (“the Groundwater Directive 1980”) and Directive [2006/118/EC](#) of the European Parliament and of the Council on the protection of groundwater against pollution and deterioration (O.J. L 372, 27.12.2006, p.19) (“the Groundwater Directive 2006”) and Directive [2008/105/EC](#) of the European Parliament and of the Council on environmental quality standards in the field of water policy (O.J. L 348, 24.12.2008, p.84).

Part I of the Regulations sets out the scope and application of the Regulations. Regulation 2 and Schedule 1 set out definitions of expressions used in the Regulations. Words and expressions used in the Regulations and not defined in regulation 2 take the meaning given in the Act (see in particular sections 1(2), 3, 20(3) and (6), and 28). Regulation 3 sets out the application of the Regulations. Regulation 3(1) and schedule 2 set out the category of activities to which the Regulations apply — the “controlled activities”. Regulation 4 prohibits the carrying out of any controlled activity unless authorised under the Regulations. Regulation 5 makes provision for a duty to secure efficient and sustainable water use.

Part II of the Regulations describes the authorisations which the Scottish Environment Protection Agency (“SEPA”) may give and which are necessary to avoid breach of the prohibition in regulation 4. Regulation 6 makes provision for the carrying out of particular activities in accordance with general binding rules. The activities and the rules are specified in Schedule 3. Regulation 7 makes provision for certain activities which are not normally considered to have a significant adverse impact on the water environment (unless cumulatively with other activities) to be authorised in accordance with a registration, to which conditions may be attached. Regulation 8, which applies where an authorisation under regulations 6 or 7 is inappropriate, may authorise the carrying on of an activity, also subject to any conditions which are necessary or expedient for the purposes of the protection of the water environment. The matters which require to be taken into account in setting conditions under regulation 7 or 8 are set out in regulation 15. Regulation 9 makes specific provision to ensure that any activities authorised are fully compliant with the Groundwater Directive 1980 and the Groundwater Directive 2006. Regulation 10 gives SEPA powers to impose an authorisation where it considers an unauthorised activity is being carried out in contravention of regulation 4, or an activity regulated under regulation 6 requires additional measures to protect the water environment,

or where an existing authorisation under regulation 7 would be more appropriately authorised under regulation 8, or vice versa.

Part III of the Regulations makes provision for applications and their determination. Regulation 11 makes provision for an application to SEPA to be in such form as SEPA may require from time to time. An application requires to be accompanied by a charge prescribed in accordance with schedule 5, and such information as SEPA may require. Additional information requirements apply where SEPA considers the proposed activity to be likely to have a significant adverse impact upon the water environment. Applicants may request a screening opinion from SEPA as to whether the proposed activity is likely to do so. Regulation 12 requires SEPA to consult public authorities with an interest in the application where the proposed activity has, or is likely to have, a significant adverse impact on the water environment. Regulation 13 makes provision for advertisement of applications where the activity has, or is likely to have, an adverse impact on the water environment. Regulation 14 makes provision for SEPA to request additional information. Regulation 15 sets out the requirements that SEPA must comply with when determining an application. This includes assessing the risk to the water environment posed by the activity concerned and applying the requirements of the legislation set out in Part I of Schedule 4. It also provides that SEPA must make the reasons for its decision publicly available where the application is in respect of an activity that is likely to have a significant adverse impact on the water environment. Regulation 16 makes provision about consideration by SEPA of third party representations. Regulation 17 makes provision for the time limits within which SEPA must deal with applications and for periods that may be disregarded in calculating those time limits. Regulation 18 allows for the determination by SEPA of applications, variations and suspensions under an accelerated procedure in an emergency (as defined in regulation 2), and Regulation 19 enables the Scottish Ministers to direct SEPA in that regard. Regulation 20 makes provision for Scottish Ministers to direct SEPA to refer to them for their determination, any application or applications under these Regulations. Discretion is given to Ministers as to whether or not to hold a local inquiry into an application and provision is made for the determination of the application by Scottish Ministers to be implemented by SEPA.

Part IV of the Regulations makes provision for the modification and termination of authorisations. Regulation 21 requires SEPA to periodically review the authorisations it grants under regulations 7 and 8, and to make recommendations to Scottish Ministers regarding any changes that may be necessary to Schedule 3 (general binding rules). Regulation 22 gives power to SEPA to review any authorisation under regulations 7 or 8 and regulation 23 makes provision for the procedure to be followed in such a variation. Regulation 24 makes provision for the responsible person or operator in respect of an authorisation to apply for a variation of it, and makes provision for the procedure to be followed in such cases. Regulation 25 makes provision for transfer of an authorisation and regulation 26 makes provision for conditions to be attached to such transfers. Regulation 27 makes provision in respect of the surrender of authorisations and regulation 28 makes provision for the determination of a surrender application in relation to authorisations under Regulation 8. Regulation 29 makes provision for revocation or suspension of an authorisation. Regulation 30 enables SEPA to issue consolidated authorisations.

Part V makes provision for enforcement of the Regulations. Regulation 31 places a duty on SEPA to monitor compliance with and enforce the provisions of the Regulations. It requires SEPA to consult and collaborate with the Environment Agency in respect of the discharge of their functions under the Regulations in the Solway Tweed River Basin District and the Northumbria River Basin District. Regulation 31 also gives SEPA power to have other persons carry out examination and investigation on its behalf for the purposes of discharging its duties under the Regulations, and the power to authorise persons to exercise the powers specified in Part I of Schedule 6 in accordance with the requirements of Parts II and III of that Schedule. Parts IV and V of Schedule 6 make provision for the evidential status of certain matters dealt with in accordance with Schedule 6 and for compensation in certain circumstances. Regulation 32 gives SEPA the power to issue enforcement notices to ensure compliance with the Regulations and to remedy or prevent significant adverse impacts on the water environment or any part of it. SEPA may issue a notice requiring the responsible

person or operator to carry out steps, within such time limits as it may consider appropriate, and those steps may include cessation of the controlled activity for a specified period. Regulation 33 gives the SEPA the power to itself carry out steps that could be required in an enforcement notice and to be entitled to recover the cost of doing so from the responsible person or operator. Regulation 34 deals with the circumstances in which an enforcement notice requires a responsible person or operator to carry out work on land outwith the ownership or control of that person. In particular, it makes provision for the payment of compensation in certain circumstances and Schedule 7 makes provision for application for and assessment of the level of compensation. Regulation 35 makes provision for SEPA to take proceedings in any court of jurisdiction against a person who has failed to comply with the requirements of an enforcement notice where it considers prosecution for such failure would not afford an effectual remedy.

Part VI of the Regulations make provision for obtaining information and for the maintenance of a public register of information in respect of the Regulations. Regulation 36 gives Scottish Ministers power to obtain information from SEPA, and for SEPA to obtain information from other persons. Regulation 37 requires SEPA to maintain a register of the particulars specified in Schedule 8. SEPA has a duty to make the register available at all reasonable times for inspection by the public, free of charge. Regulations 38 to 43 make provision in respect of confidential information. Regulation 38 defines confidential information; regulation 39 makes provision for a person giving information to have it determined commercially confidential; regulation 40 makes provision for SEPA itself to determine that information is commercially confidential; regulation 41 enables SEPA to periodically review its determinations of commercial confidentiality and regulation 42 makes provision in relation to information that has been determined not to be commercially confidential. Regulation 43 allows Scottish Ministers to give SEPA directions that particular information or descriptions of information are to be included in the register.

Part VII makes provision in relation to offences. Regulation 44(1) specifies the actions or inactions which are created as offences under the Regulations. Regulation 44(2) makes provision for penalties on conviction. Regulation 45 makes provision in respect of the commission of offences by bodies corporate. Regulation 46 makes provision for when the commission of an offence by one person is due to the act or default of another person. Regulation 47 makes provision as to the admissibility of evidence in specified circumstances. Regulation 48 specifies defences to the offences set out in Regulation 44(1). Regulation 49 makes provision for the court, in addition to, or instead of, imposing a punishment, to order the convicted person to carry out steps to remedy the adverse impact on the water environment resulting from the commission of the offence.

Part VIII makes provision for appeals. Regulation 50 specifies the circumstances in which appeals may be made to Scottish Ministers. Regulation 51 makes provision as to the decisions Scottish Ministers may make and the action to be taken to implement those decisions. Regulation 52 makes provision for the continuation or the suspension of the effect of the decision appealed against. Regulation 53 makes miscellaneous provisions in respect of appeals, gives effect to Schedule 9 in respect of appeal procedures and applies section 114 of the Environment Act 1995 to appeals under the Regulations.

Part IX makes various general provisions. Regulation 54 applies the Regulations to the Crown. Regulation 55 makes provision for the application of the Regulations to SEPA. Regulation 56 makes provision for Scottish Ministers to issue guidance to SEPA. Regulation 57 makes provision in respect of all notices served under the Regulations. Regulation 58 revokes the Water Environment (Controlled Activities) (Scotland) Regulations 2005 ([S.S.I. 2005/348](#)) (“the 2005 Regulations”) subject to the transitional and savings provisions contained in Schedule 10 to the Regulations, and introduces the amendments made by Schedule 11. Schedule 10 makes provision for the transfer of authorisations under the 2005 Regulations to the new regime, and for the interaction between existing pollution control regimes and this regime. Schedule 11 amends the Town and Country Planning (Scotland) Act 1997 and related legislation so that irrigation will no longer be subject to planning controls (but will require authorisation under these Regulations).
