The Secretary of State is a Minister designated for the purposes of section 2(2) of the European Communities Act 1972(a) (“the 1972 Act”) in relation to biocides.

The Secretary of State makes these Regulations—

(a) in exercise of the powers conferred on him by section 2(2) of, and paragraph 1A of Schedule 2 to, the 1972 Act; and sections 15(1), (2), and (8), and 82(3)(a) of, and paragraphs 1(1)(b) and (c), (4) and (5), 4(1), 13(1), 15(1) and 16 of Schedule 3 to the Health and Safety at Work Act 1974(b) (“the 1974 Act”), and

(b) for the purpose of giving effect to proposals submitted to him by the Health and Safety Commission under section 11(2)(d) of the 1974 Act.

Before submitting proposals for these Regulations to the Secretary of State, the Health and Safety Commission has consulted the bodies that appeared to it to be appropriate, as required by section 50(3) of the 1974 Act.

These Regulations make provision for a purpose mentioned in section 2(2) of the 1972 Act and it appears to the Secretary of State that it is expedient for references in the Biocidal Products Regulations 2001(c) to Directive 98/8/EC of the European Parliament and the Council(d), Commission Regulation (EC) No.1896/2000(e) and Commission Regulation (EC) No.2032/2003(f) to be construed as references to those instruments as amended from time to time.

(a) 1972 c.68; Schedule 2 was amended by section 28 of the Legislative and Regulatory Reform Act 2006 (c. 51). As regards Scotland, see also section 57(1) of the Scotland Act 1998 (c.46) which provides that, despite the transfer to the Scottish Ministers by virtue of section 53 of that Act of functions in relation to observing and implementing Community law, any function of a Minister of the Crown in relation to any matter shall continue to be exercisable by him as regards Scotland for the purposes of section 2(2) of the European Communities Act 1972.
(b) 1974 c.37; sections 15(1) and 50(3) were amended by the Employment Protection Act 1975 (c.71), Schedule 15, paragraphs 6 and 16 respectively. Section 15(1) was also amended by S.I. 2002/794, art 5(2), Schedule 2. Section 50(3) was also amended by the Health Protection Agency Act 2004 (c.17), section 11(1), Schedule 3, paragraph 5.

EXPLANATORY NOTE
(This note is not part of the Regulations)

2. These Regulations —

(a) take account of the effects of three Commission Regulations on the transitional provisions in Schedule 13 to the 2001 Regulations for biocidal products on the market before 14 May 2000—

(b) update references and make minor corrections in the 2001 Regulations; and

(c) take account of developments within the Directive that require further amendment to the 2001 Regulations.

3. The main changes made by these Regulations are as follows.

4. Regulation 3 amends the definitions of “existing active substance” and “new active substance”—

(a) the definition of “existing active substance” now reflects the definition in the First Review Regulation. A footnote refers to the effects of Article 4.3 of the Second Review Regulation. This deems those existing active substances, which have been neither identified nor notified to the European Commission, not to have been on the market before 14th May 2000. Consequently these substances should not be treated as existing active substances.

(b) the definition of “new active substances” has been amended so to include substances deemed by Article 4.3 of the Second Review Regulation not to be existing active substances; however note that provisional authorisations and registrations under regulations 13 and 14 of the 2001 Regulations should not be granted for biocidal products containing such active substances.

5. Regulation 5 inserts a new regulation 3A into the 2001 Regulations. This effect of this is that—

(a) a biocidal product can remain on the UK market under its existing national authorisation only if all active substances within it are existing active substances. The transitional provisions provide that when a decision takes effect as to whether to include the active substance(s) in that product in the Directive’s annexes, the 2001 Regulations will then apply to that product;

(b) the transitional provisions will cease to apply on 14th May 2010; and

(c) the transitional provisions do not apply to regulation 33 (advertisements) in the same way as they do not apply to regulations 29 and 39A of, and Schedule 12A to, the 2001 Regulations.

6. Regulation 7 amends regulations 4, 5, 6 and 7 of the 2001 Regulations, in line with the Second Review Regulation, so that they apply to all active substances.
7. Regulation 8 amends regulation 9 of the 2001 Regulations so that it now contains the qualification contained in Article 8(5) of the Directive. This allows an applicant to omit from the dossier information that they consider unnecessary or not technically possible to supply.

8. Regulations 10 and 11 amend regulations 13 and 14 of the 2001 Regulations to allow the Ministers to grant provisional authorisations or registrations where an application has been made to another competent authority. Certain conditions attached to granting these authorisations or registrations have been removed.

9. In order to implement a Commission Decision(a) regulation 13 inserts a new regulation 15A into the 2001 Regulations to allow the Ministers to grant an authorisation to place a product on the market where the active substance in the product has been approved for an essential use under Article 4a.3 of the Second Review Regulation. A number of consequential amendments have been made to the 2001 Regulations as a result, including—

   (a) regulation 23, inserting a new Schedule 5A, showing the essential use authorised for each substance;
   (b) regulation 26, amending Schedule 12 to allow a fee to be charged for the processing of these applications; and
   (c) regulation 27, amending Schedule 12A to make such applicants for essential use authorisations subject to the General Industry Charge.

10. Regulation 16(1) amends regulation 20 of the 2001 Regulations to ensure that where the Ministers propose to extend the uses to which a biocidal product can be put, they must ensure that any requirements on the use of the active substance set out in Annex I or IA remain satisfied. Furthermore, when the Ministers propose to modify any conditions of use in an authorisation, they must ensure that the requirements of Schedule 3 remain satisfied.

11. Regulation 21 amends regulation 37 of the 2001 Regulations so as to require an applicant, before he carries out any testing, to evaluate the existing data and to take into account among other things the need to minimise testing on animals.

12. Regulation 28(a) amends paragraph 2 of Schedule 13 to reflect the effect of Article 4(2) of the Second Review Regulation, as amended by the Third Review Regulation. From 1st September 2006, existing active substances that have been identified but not notified to the Commission can no longer be placed on the market.

13. Regulation 28(b) amends paragraph 4 of Schedule 13 to clarify that the transitional provisions cease to apply to biocidal products containing more than one existing active substance—

   (a) either after a decision is made not to include one of those substances in Annex I, IA or IB, or
   (b) after the decision has been taken to include all of those substances in Annex I, IA or IB.
