An application has been made to the Secretary of State in accordance with the Transport and Works (Applications and Objections Procedure) (England and Wales) Rules 2000(a) (“the Rules”) made under sections 6, 6A, 7(3)(b) and (c) and (4) and 10 of the Transport and Works Act 1992(b) (“the Act”) for an Order under sections 3 and 5 of the Act;

The Secretary of State, in accordance with rule 24 of the Rules, has directed that the written representations procedure applied to all objections that had not been withdrawn;

The Secretary of State, in accordance with section 10(2) of the Act, taking into consideration the objections made and not withdrawn and additional representations made during the written representations procedure, has under section 13(1) of the Act determined to make an Order giving

(a) S.I. 2000/2190. These Rules were revoked by rule 2 of the Transport and Works (Applications and Objections Procedure) (England and Wales) Rules 2006 (S.I. 2006/1466), but continue to apply to the making of this Order by rule 3 of those Rules.

effect to the proposals comprised in the application with modifications which in the Secretary of State’s opinion do not make any substantial change in the proposals;

The Secretary of State is of the opinion that the primary object of this Order cannot be achieved by means of an order under the Harbours Act 1964(a);

In accordance with section 14(1) of the Act notice of the Secretary of State’s determination was given to the applicant and every person who made an objection and was published in the London Gazette on 5th March 2010;

Accordingly, the Secretary of State, in exercise of the powers conferred by sections 3 and 5 of, and paragraphs 1, 2, 4, 7, 8, 12, 13 and 16 of Schedule 1 to the Act, makes the following Order.

PART 1

(2) This Order comes into force on 6th April 2010.

Interpretation

2. In this Order—

“the Agency” means the Environment Agency;
“commercial vessel” means any vessel that is kept or used for any commercial purpose not being a non-charging vessel, and in this definition “non-charging vessel” means a vessel in respect of which neither the owner nor any operator receives any form of payment from any person for or in connection with any voyage or excursion other than as a contribution to the direct expense of operating the vessel during that voyage or excursion;
“master” in relation to a vessel means the person for the time being (whether lawfully or not) having command or charge of the vessel;
“notice” means notice in writing;
“officer”, except in article 21, means an officer or agent of the Agency duly authorised in writing by the Agency to exercise powers conferred by this Order;
“on” in relation to a vessel on the waterways includes in or upon the waterways, whether or not the vessel is floating;
“unincorporated association” does not include a partnership;
“vessel” includes every description of vessel with or without means of propulsion of any kind and includes anything constructed or used to carry persons, goods, plant or machinery, or to be propelled or moved, on, in or by water; and

PART 2
REGISTRATION OF VESSELS

Requirement for registration

4.—(1) An owner or master of a vessel must not keep, let for hire or use the vessel on the waterways unless—
(a) the vessel is registered with the Agency under article 5; and
(b) any requirement imposed by the Agency under article 8 when registering the vessel is complied with.
(2) Paragraph (1) does not apply in relation to a vessel if the vessel is exempted from its provisions by the Agency in accordance with paragraph (3).
(3) The Agency may exempt any vessel or class of vessel from the provisions of paragraph (1) if, having regard to all the circumstances, it considers that the application of those requirements is not justified in the interests of the regulation of the waterways.

Duty to register

5.—(1) Subject to the requirements of articles 6, 7 and 8, the Agency must register a vessel upon the receipt of an application for its registration.
(2) Registration will ordinarily be for a period of 1 year from such date following the application for registration as the Agency may determine for the registration in question but the Agency may also if it sees fit register any vessel for such shorter period as it may determine.
(3) When registering a vessel, the Agency must—
(a) assign a registration number to the vessel; and
(b) issue a registration certificate for the vessel.
(4) When registering a vessel, the Agency may also—
(a) assign a name or mark to the vessel unless the vessel is also registered under section 8 of the Merchant Shipping Act 1995(d); and
(b) issue a registration plate for the vessel.
(5) Any name assigned to a vessel on its registration is to be—
(a) the name of the vessel specified in the application for the vessel’s registration; or

(d) 1995 c. 21.
such alternative name as the applicant may propose and which is acceptable to the Agency if the Agency determines that it is necessary to assign a different name to the vessel in order to avoid any confusion as to the identity of the vessel or the possibility of causing offence to any person.

(6) The Agency may from time to time designate different categories of vessel either by reference to types, classes or sizes of vessel, or by reference to the use or location of vessels or by any combination of such means or other means for the purposes of any of the following requirements—

(a) registration under article 5;
(b) insurance under article 11;
(c) construction and equipment standards under article 12; and
(d) additional requirements for commercial vessels under article 15.

General requirements for registration

6. The requirements for registration of a vessel are—

(i) in such manner as it may require of the particulars set out in Schedule 2;

(ii) of such additional information as the Agency may require respecting the characteristics and location of the vessel; and

(b) payment of the registration charge applicable under any enactment in respect of the registration of the vessel by the Agency.

Refusal and revocation of registration

7.—(1) The Agency may refuse to register a vessel if the requirements of article 6 have not been complied with or if the Agency has previously revoked the registration of the vessel under paragraph (3) or (4).

(2) The Agency may refuse to register a vessel if, having regard to the information supplied in accordance with article 6(a), it is not satisfied at the time when it determines the application that—

(a) there is in force a policy of insurance for the vessel which complies with the requirements of Schedule 3 where such a policy is required by article 11; and

(b) the vessel is constructed and equipped in accordance with such specification as may for the time being be prescribed by the Agency for such a vessel under article 12.

(3) Following receipt of any representation concerning a vessel (including any representation from an officer of the Agency), the Agency may refuse to register the vessel and it may revoke an existing registration of a vessel if, in its reasonable opinion and having regard to the representation, it is in the interest of safety.

(4) The Agency may revoke the registration of a vessel if it appears to it that—

(a) the basis upon which the vessel was registered was or has become incorrect in any material respect; and

(b) any requirements imposed in respect of the vessel under article 8 have not been complied with.

(5) The Agency must give notice to the owner, and, if different, the person who applied for registration, of a vessel of any refusal or revocation of registration in relation to it and in doing so must give its reasons.

(6) Before refusing or revoking a registration under paragraph (3) or (4) the Agency must provide the owner of the vessel with an opportunity to make oral or written representations.
Subject to paragraph (8), an owner or another person with the owner’s consent may complain to a magistrates’ court under Part II of the Magistrates’ Court Act 1980(a) against the refusal or revocation of a registration under paragraph (3) or (4) and, if the court decides that such refusal or revocation is unreasonable, the Agency must register the vessel without delay.

(8) The imposition of any requirement for insurance under article 11, or any question concerning the imposition of a standard or specification for a vessel under article 12, may not be the subject of complaint under paragraph (7).

Requirements in respect of registered vessels

8.—(1) The Agency may make it a requirement of the registration of a vessel under article 5 that any one or more of the following means of identification is displayed on the vessel in such manner as the Agency may specify in order to allow the vessel to be identified—

(a) the registration number of the vessel;
(b) any name or mark assigned to the vessel; and
(c) any registration certificate and plate issued for the vessel.

(2) The Agency may make it a requirement of the registration of a vessel under article 5 that—

(a) the use of the vessel on the waterways is limited to the use specified in the category for which it is registered;
(b) any change in ownership of the vessel is notified to the Agency by the transferor; and
(c) any registration certificate or plate issued in respect of the vessel is surrendered to the Agency at the end of the registration period.

Liability of owner on transfer of ownership

9. For the purposes of the requirements of this Order and any other enactment referred to in this Order applicable to the waterways, a person who is the owner of a vessel registered under this Order and who transfers ownership of the vessel is to be deemed to remain the owner of the vessel until that person has given notice to the Agency in writing of the name and address of the person to whom ownership of the vessel has been transferred.

Provision of information

10.—(1) This article applies to information which is held by or on behalf of the Agency for the purposes of this Order (including information obtained by or on behalf of the Agency before the coming into force of this article).

(2) Information may be supplied to a responsible authority for the purposes of facilitating the exercise of the Agency’s functions under this Order or any functions of that authority.

(3) Information may be supplied to any person who can show to the satisfaction of the Agency or the Secretary of State reasonable cause for wanting the particulars to be made available to that person.

PART 3
FURTHER REGULATION OF VESSELS

Insurance

11.—(1) The owner or master of a vessel must not keep, let for hire or use the vessel on the waterways unless there is in force in relation to the vessel a policy of insurance complying with the requirements of Schedule 3.

(2) The requirements of paragraph (1) do not apply in relation to a vessel to the extent that the vessel is exempted by the Agency from those requirements.

(3) The Agency may exempt any unpowered vessel or class of unpowered vessel from the application of paragraph (1) to such extent and upon such terms and conditions as it may determine if, having regard to its assessment of the risk of damage or injury which such insurance would provide cover against, it considers such exemption appropriate.

Construction and equipment standards

12.—(1) The Agency may impose in relation to vessels such reasonable standards and specifications relating to construction and equipment for one or more of the following purposes—
   (a) securing the safety of persons or property;
   (b) the prevention of damage or injury to persons or property; or
   (c) the prevention of noise or pollution.

(2) Different standards and specifications may be imposed by the Agency for the purposes of paragraph (1) in relation to different categories of vessels and in relation to different parts of the waterways.

(3) Any such standard or specification imposed by the Agency may include requirements as to the maintenance, use and operation of appliances, fittings and equipment on a vessel and may extend to anything which is only temporarily installed or used on a vessel.

(4) An owner or master of a vessel to which any standard or specification imposed under paragraph (1) applies must not keep, let for hire or use the vessel on the waterways otherwise than in accordance with that standard or specification.

(5) The requirements of paragraph (1) and (4) do not apply in relation to a vessel to the extent that the vessel is exempted by the Agency from those requirements.

---

(a) 1990 c. 8.
(b) 1991 c. 57.
(6) The Agency may exempt any vessel or class of vessel from the requirements of paragraph (1) and (4) to such extent and upon such terms and conditions as it may determine if, having regard to all the circumstances, it considers that the application of those requirements is not justified by reference to the purposes listed in the paragraph.

(7) When exercising power under this article, the Agency must have regard to reasonable standards and specifications imposed by other persons for the purposes specified in paragraph (1) and to the desirability of achieving common standards in relation to the regulation of vessels by different persons.

Standards appeals panel

13.—(1) A panel, referred to in this Order as “the standards appeals panel”, must be established by the Agency and operate in accordance with the provisions of Schedule 4.

(2) The standards appeals panel is to determine—

(a) any question as to whether a vessel to which this article applies complies with a standard or specification imposed under article 12; and

(b) any question as to the reasonableness of a standard or specification prescribed under article 12,

if the question is the subject of an application made in accordance with paragraph (3).

(3) An application to refer a question to the standards appeals panel must be made in writing to the Agency and signed by—

(a) the owner of the vessel in the case of a question arising under paragraph (2)(a); and

(b) not less than six persons, each of whom is the owner of a vessel to which this article applies in the case of a question arising under paragraph (2)(b).

(4) This article applies to a vessel which is either—

(a) registered under article 5; or

(b) would be registered under article 5 but for a refusal or revocation of registration on the grounds of a failure to comply with standard or specification under article 12.

Inspection of vessels

14.—(1) The owner or master of a vessel on the waterways must provide reasonable facilities for the inspection of the vessel by any person exercising powers of entry pursuant to sections 169 or 172 of the Water Resources Act 1991 for the purpose of ascertaining whether any requirement under or by virtue of this Order is being complied with.

(2) For the purposes of any inspection under this article, the owner or master of the vessel must cause the whole of any installation on the vessel to be made available for inspection.

Additional requirements for commercial vessels

15.—(1) The Agency may from time to time determine to impose additional requirements in relation to commercial vessels on the waterways for the purposes of safety or amenity or the proper regulation of navigation.

(2) Without prejudice to the generality of paragraph (1), the requirements which the Agency may determine to impose in relation to commercial vessels include—

(a) requirements in relation to the number of persons who may be carried;

(b) requirements in relation to the procedures to be followed when letting vessels for hire; and

(a) 1991 c. 57.
(c) except in relation to a vessel when let for hire without a master and crew, requirements in relation to the number and availability of the crew and the qualifications and competencies of the master and crew of such vessels.

(3) Different requirements may be determined by the Agency for the purposes of paragraph (1) in relation to different categories of commercial vessel and in relation to different parts of the waterways.

(4) An owner or master of a commercial vessel to which any requirements determined under paragraph (1) apply must not keep, let for hire or use the vessel on the waterways otherwise than in accordance with those requirements.

(5) Paragraph (4) does not apply in relation to a vessel to the extent that the vessel is exempted by the Agency from requirements determined under paragraph (1).

(6) The Agency may exempt any vessel or class of vessel from requirements prescribed under paragraph (1) to such extent and upon such terms and conditions as it may determine if, having regard to all the circumstances, it considers that the application of those requirements is not justified in the interests of safety or amenity, or in the interests of the proper regulation of navigation.

(7) When exercising power under this article, the Agency must have regard to additional requirements in relation to commercial vessels imposed by other persons for the purposes specified in paragraph (1) and to the desirability of achieving common standards in relation to the regulation of vessels by different persons.

Removal of unregistered vessels

16.—(1) The Agency may relocate on or remove from the waterways any vessel which is not registered under this Order if—

(a) the Agency has given notice under this paragraph; and

(b) the requirements of paragraph (5) do not apply.

(2) A notice under paragraph (1)(a) must—

(a) identify the vessel in respect of which the notice is served and its approximate location;

(b) state that if the owner fails either to apply for the registration of the vessel or to remove the vessel before the expiry of a period specified in the notice and being not less than 28 days from the date when the notice is first given under paragraph (3)(a), the Agency may relocate or remove the vessel and recover all expenses reasonably incurred in doing so from the owner; and

(c) state that the vessel and its contents, once relocated or removed by the Agency, are liable to vest in and be disposed of by the Agency

(3) A notice under paragraph (1)(a) must be given—

(a) by fixing a copy of the notice on the vessel or in a conspicuous place in the vicinity of the vessel; and

(b) unless the Agency has made such enquiries as it may determine are reasonable to ascertain the name and address of the owner of the vessel but has been unable to do so, by serving a copy of the notice on the owner of the vessel.

(4) Section 123(1) to (4) of the Environment Act 1995(a) (service of documents) applies to the service of a notice under paragraph (3)(b) as it applies to the service of notice under that Act.

(5) The Agency must not relocate or remove a vessel under this article if, within the period specified in the notice given for the purposes of paragraph (2)(b) in respect of the vessel, the owner of the vessel—

(a) applies for the registration of the vessel; or

(a) 1995 c. 25.
enters into an agreement with the Agency on such terms as the Agency may see fit for the removal of the vessel from the waterways.

The Agency may recover from the owner of any vessel relocated or removed under this article all expenses reasonably incurred by the Agency in respect of the relocation or removal and storage of the vessel or in relocating, removing or storing anything attached to or carried in or on the vessel.

A vessel relocated or removed by the Agency under this article (together with anything attached to or carried in or on the vessel) vests in the Agency 3 months after the date the notice was first given by the Agency under paragraph (3)(a) in respect of the vessel.

If within 24 months of the date the notice was first given under paragraph (3)(a) in respect of a vessel a claim is made to the vessel or to anything attached to or carried in or on the vessel by a person who subsequently proves to the satisfaction of the Agency that the person is its owner, then the Agency must—

(a) if the property is unsold and upon payment of the expenses referred to in paragraph (6), permit that person to retake it and, in the case of a vessel, together with anything attached to or carried in or on the vessel which has not been proved to the Agency’s satisfaction to belong to another; or

(b) if it has been sold, pay to that person the amount of the proceeds of such sale after deducting the expenses referred to in paragraph (6) and the costs incurred in selling (including where appropriate valuing) the vessel and, if those proceeds are insufficient to reimburse the Agency those expenses, the deficiency may be recovered from that person by the Agency.

Subject to paragraph (8)(b), the proceeds of the sale of any vessel vested in the Agency under paragraph (7) must be spent by the Agency only in the carrying out of its navigation functions.

In this article “vessel” includes any part of the vessel.

Power to require information, etc.

17.—(1) In response to a demand made by an officer who produces, if requested, written evidence of that officer’s authority—

(a) the master of any vessel on the waterways must give the officer particulars of that master’s name and address together with such particulars as are available to the master to verify the master’s identity, and (if known to the master) the name and address of the owner of the vessel;

(b) the master of any vessel on the waterways must produce for inspection by the officer any registration certificate or plate issued in respect of the vessel and any exemption granted under this Order and in force for the time being in relation to the vessel;

(c) the owner or master of any vessel on the waterways must give the officer such information as is available to that person respecting the construction and equipment of the vessel and its compliance with the requirements of article 12;

(d) the owner or master of any vessel must give the officer such information as is available to that person regarding any policy of insurance in force in relation to the vessel; and

(e) the owner of any vessel on the waterways must give the officer particulars of the name and address of, or such other particulars as are available to that person to assist the identification of any person who, at any time specified by the officer, was acting as master of the vessel.

(2) Any person who fails to give or produce any information or document required by an officer under paragraph (1) must, if then so required by the officer, give or produce that information or document within 28 days—

(a) by presenting it in person at an office of the Agency; or
(b) by serving it by post within that period on such office of the Agency as is specified by the officer making the request.

EXPLANATORY NOTE

(This note is not part of the Order)

This Order makes provision for a new uniform registration system to govern use of the main inland waterways in respect of which the Environment Agency is the navigation authority. The particular waterways to which the Order relates comprise certain waterways known as the Anglian waterways, the river Thames above Teddington Lock and the Upper Medway in Kent. The Order also confers additional powers upon the Environment Agency in respect of the waterways and amends or repeals provisions of existing legislation where required in consequence of the new powers conferred by the Order. It also amends the existing definitions of the Anglian waterways to bring within the Agency’s jurisdiction an additional stretch of the Little Ouse between Brandon Staunch and Brandon Bridge and the Great Ouse Relief Channel between the Head sluice lock at Denver and the Tail sluice at Saddlebrow.
