§ 14917. [Economic considerations]
In carrying out this chapter, the department shall consider the effects of purchases of property pursuant to this chapter on the overall economy of the local communities, including the impact on job opportunities and businesses.
(Added by Stats. 1992, Ch. 959, Sec. 1.  Effective January 1, 1993.  Section operative July 1, 1993, pursuant to Section 14920.)

§ 14918. [Coordination with C.V.P.]
The department shall coordinate with the United States Department of the Interior regarding water distribution undertaken pursuant to this chapter in those areas served by the federal Central Valley Project.
(Added by Stats. 1992, Ch. 959, Sec. 1.  Effective January 1, 1993.  Section operative July 1, 1993, pursuant to Section 14920.)

§ 14920. [Operative date]
This chapter shall become operative on July 1, 1993.
(Added by Stats. 1992, Ch. 959, Sec. 1.  Effective January 1, 1993.  Note: This section prescribes a delayed operative date (July 1, 1993) for Chapter 23, commencing with Section 14900.)

CHAPTER 24. SHELLFISH PROTECTION ACT OF 1993 [14950. - 14958.]
(Chapter 24 added by Stats. 1993, Ch. 1081, Sec. 1.)

§ 14950. [Short title]
This chapter shall be known and may be cited as the Shellfish Protection Act of 1993.
(Added by Stats. 1993, Ch. 1081, Sec. 1.  Effective January 1, 1994.)

§ 14951. [Legislative findings]
The Legislature finds and declares all of the following:
   (a) Commercial shellfish harvesting is a beneficial use of the waters of the state and, in addition, benefits the economy of the state through the creation of jobs.
   (b) Pollution, from both point and nonpoint sources, currently threatens many of the state’s commercial shellfish growing areas.
   (c) In order to maintain the health, and encourage the expansion, of commercial shellfish harvesting within the state, it is necessary to protect the commercial shellfish growing areas from ongoing point and nonpoint sources of pollution.
   (d) The regional boards whose jurisdictions include commercial shellfish growing areas shall have primary responsibility for the protection of commercial shellfish harvesting from the effects of point and nonpoint pollution sources.
(Added by Stats. 1993, Ch. 1081, Sec. 1.  Effective January 1, 1994.)

§ 14952. [Commercial shellfish growing area]
For the purposes of this chapter, a commercial shellfish growing area is an area certified pursuant to Section 112170 of the Health and Safety Code in which shellfish are grown and harvested.

(Amended by Stats. 1996, Ch. 1023, Sec. 452. Effective September 29, 1996.)

§ 14953. [Technical advisory committee]

(a) If a commercial shellfish growing area is threatened by point or nonpoint source pollution, as specified in Section 14954, the regional board shall form a technical advisory committee, within 90 days of the effective date of this act, devoted solely to the threatened area. A technical advisory committee shall be formed for any subsequently threatened area within 90 days of the date the threat is identified pursuant to Section 14954. The technical advisory committee shall advise and assist that board in developing a strategy for appropriate investigation and remediation pursuant to Sections 14955 and 14956 to reduce pollution affecting that area. The regional board shall give public notice of the formation of the technical advisory committee. All meetings of the technical advisory committee shall be public.

(b) For the purpose of subdivision (a), the technical advisory committee shall include both of the following:

(1) One commercial shellfish grower from the threatened area, one representative from the State Department of Health Services, one representative from the Department of Fish and Game, one representative from the California Coastal Commission, one representative from each category of potential pollution source, one representative from a local environmental group, and one representative from the local health department.

(2) Additional members and a chairperson appointed by the regional board.

(c) Members of the technical advisory committee established pursuant to subdivision (a) shall not receive a per diem or other compensation, and shall not be reimbursed for any expenses.

(Added by Stats. 1993, Ch. 1081, Sec. 1. Effective January 1, 1994.)

§ 14954. [“Threatened” conditions]

For the purpose of Section 14953, a commercial shellfish growing area is threatened if any of the following applies:

(a) The State Department of Health Services downgrades the classification applicable to the commercial shellfish growing area.

(b) The commercial shellfish growing area is subjected to harvest closure for more than 30 days per calendar year during the previous three years.

(c) The State Department of Health Services classifies the commercial shellfish growing area as restricted.
(d) The regional board, the Department of Fish and Game, or the California Coastal Commission determines that the commercial shellfish growing area is threatened.

(Added by Stats. 1993, Ch. 1081, Sec. 1. Effective January 1, 1994.)

§ 14955. [Additional efforts]

(a) The technical advisory committee shall review existing data to determine whether additional investigatory efforts are needed to identify the pollution sources that threaten the commercial shellfish growing area, the scope of the pollution sources, and the degree to which those sources threaten the commercial shellfish growing area.

(b) If the technical advisory committee determines pursuant to subdivision (a) that additional investigatory efforts are needed, the regional board shall develop, with the assistance of the technical advisory committee, a water quality investigation project for funding under Sections 205 and 319 of the federal Clean Water Act (33 U.S.C. Sec. 1251 et seq.; Secs. 1285 and 1329) or any other appropriate funding sources.

(c) Any water quality investigation project developed pursuant to subdivision (b) shall be limited to accomplishing that which is reasonably necessary for the regional board to gather sufficient data to determine the appropriate remedial actions.

(d) The regional board shall not undertake any investigatory efforts determined to be necessary pursuant to subdivision (a) unless the regional board determines that funding is available to carry out those efforts.

(Added by Stats. 1993, Ch. 1081, Sec. 1. Effective January 1, 1994.)

§ 14956. [Remedial action]

(a) Once the nature, sources, scope, and degree of the pollution affecting a commercial shellfish growing area have been determined, the regional board, with the advice of the local technical advisory committee, shall order appropriate remedial action, including the adoption of best management practices, to abate the pollution affecting that area. The regional board shall monitor water quality in the threatened area during the implementation of pollution abatement measures to ensure that the measures are effective and shall provide the results of the monitoring to the technical advisory committee. The regional board shall give public notice of any actions proposed for adoption.

(b) If agricultural sources of pollution have been identified as contributing to the degradation of shellfish growing areas, the regional board shall invite members of the local agricultural community representing the type of agricultural discharge affecting the local shellfish growing area, the local resource conservation district, the local soil conservation service, the local agricultural stabilization and conservation service, the cooperative extension of the University of California, and affected shellfish growers to develop and
implement appropriate short- and long-term remediation strategies that will lead to a reduction in the pollution affecting the commercial shellfish growing area.

(Added by Stats. 1993, Ch. 1081, Sec. 1. Effective January 1, 1994.)

§ 14957. [Rating proposals]
When rating project proposals affecting shellfish growing areas for state and federal funding under Sections 205 and 319 of the federal Clean Water Act (33 U.S.C. Sec. 1251 et seq.; Secs. 1285 and 1329) or from other funding sources, the state board and regional boards shall give timely notice to the California Aquaculture Association and shall provide shellfish growers with the opportunity to comment on the following types of project proposals:

(a) Project proposals that seek to identify the nature, sources, scope, and degree of pollution threatening a commercial shellfish growing area.

(b) Project proposals that seek to reduce or eliminate the impact of point or nonpoint pollution that affects a commercial shellfish growing area. Proposals under this subdivision shall include waste reclamation projects.

(Added by Stats. 1993, Ch. 1081, Sec. 1. Effective January 1, 1994.)

§ 14958. [Dissolving advisory committee]
When a commercial shellfish area is no longer threatened, as specified in Section 14954, the regional board shall dissolve the technical advisory committee for that area. If the area is subsequently threatened, as specified in Section 14954, the regional board shall re-form the committee pursuant to Section 14953.

(Added by Stats. 1993, Ch. 1081, Sec. 1. Effective January 1, 1994.)

CHAPTER 27. CALIFORNIA WATERSHED IMPROVEMENT ACT OF 2009 [16100. - 16104.]

(Chapter 27 added by Stats. 2009, Ch. 577, Sec. 1.)

§ 16100. [Title]
This chapter shall be known and may be cited as the California Watershed Improvement Act of 2009.

(Added by Stats. 2009, Ch. 577, Sec. 1. Effective January 1, 2010.)

§ 16101. [Watershed improvement plan development and requirements]
(a) Each county, city, or special district that is a permittee or copermitee under a national pollutant discharge elimination system (NPDES) permit for municipal separate storm sewer systems may develop, either individually or jointly with one or more permittees or copermitees, a watershed improvement plan that addresses major sources of pollutants in receiving water, stormwater, urban runoff, or other surface runoff pollution within the watershed or subwatershed to which the plan applies. The principal purpose of a watershed
