CHAPTER 6.5. Habitat Restoration and Enhancement Act [1650 - 1657]

1650.

This chapter shall be known, and may be cited, as the Habitat Restoration and Enhancement Act.

(Added by Stats. 2014, Ch. 604, Sec. 2. Effective January 1, 2015. Repealed as of January 1, 2022, pursuant to Section 1657.)

1651.

As used in this chapter:
(a) “Fish passage guidelines” means those guidelines specified in the department’s California Salmonid Stream Habitat Restoration Manual and the National Marine Fisheries Service, Southwest Region, Guidelines for Salmonid Passage at Stream Crossings, and subsequent amendments or updates to either document.
(b) “Habitat restoration or enhancement project” means a project with the primary purpose of improving fish and wildlife habitat. A habitat restoration or enhancement project shall meet the eligibility requirements for the State Water Resources Control Board’s Order for Clean Water Act Section 401 General Water Quality Certification for Small Habitat Restoration Projects, or its current equivalent at the time the project proponent submits a written request pursuant to Section 1652 or 1653. The order or current equivalent may include programmatic waivers or waste discharge requirements for small habitat restoration projects.
(c) “Project proponent” means a person, public agency, or nonprofit organization seeking to implement a habitat restoration or enhancement project.
(d) “Species recovery plan” means a guidance document prepared by a government agency that identifies recovery actions, based upon the best scientific and commercial data available, necessary for the protection and recovery of listed species.

(Added by Stats. 2014, Ch. 604, Sec. 2. Effective January 1, 2015. Repealed as of January 1, 2022, pursuant to Section 1657.)

1652.
(a) A project proponent may submit a written request to approve a habitat
restoration or enhancement project to the director pursuant to this section if the
project has not received certification pursuant to the State Water Resources
Control Board’s Order for Clean Water Act Section 401 General Water Quality
Certification for Small Habitat Restoration Projects, or its current equivalent at
the time the project proponent submits the written request. If the project has
received certification pursuant to that order, or its current equivalent, the project
proponent may submit a request for approval of the project pursuant to Section
1653.

(b) A written request to approve a habitat restoration or enhancement project
pursuant to this section shall contain all of the following:
(1) The name, address, title, organization, telephone number, and email address
of the natural person or persons who will be the main point of contact for the
project proponent.
(2) A full description of the habitat restoration or enhancement project that
includes the designs and techniques to be used for the project, restoration or
enhancement methods, an estimate of temporary restoration- or enhancement-
related disturbance, project schedule, anticipated activities, and how the project
is expected to result in a net benefit to any affected habitat and species,
consistent with paragraph (4) of subdivision (c).
(3) An assessment of the project area that provides a description of the existing
flora and fauna and the potential presence of sensitive species or habitat. The
assessment shall include preproject photographs of the project area that include
a descriptive title, date taken, the photographic monitoring point, and
photographic orientation.
(4) A geographic description of the project site including maps, land ownership
information, and other relevant location information.
(5) A description of the environmental protection measures incorporated into the
project design, so that no potentially significant adverse effects on the
environment, as defined in Section 15382 of Title 14 of the California Code of
Regulations, are likely to occur with application of the specified environmental
protection measures. Environmental protection measures may include, but are
not limited to, appropriate seasonal work limitations, measures to avoid and
minimize impacts to water quality and potentially present species protected by
state and federal law, and the use of qualified professionals for standard
preconstruction surveys where protected species are potentially present.
(6) Substantial evidence to support a conclusion that the project meets the
requirements set forth in this section. Substantial evidence shall include
references to relevant design criteria and environmental protection measures
found in the documents specified in paragraph (4) of subdivision (c).
(7) A certifying statement that the project will comply with the California
Environmental Quality Act (Division 13 (commencing with Section 21000) of the
Public Resources Code), which may include, but not be limited to, the requirements of Section 15333 of Title 14 of the California Code of Regulations. (c) Notwithstanding any other law, within 60 days after receiving a written request to approve a habitat restoration or enhancement project, the director shall approve a habitat restoration or enhancement project if the director determines that the written request includes all of the required information set forth in subdivision (b), and the project meets all of the following requirements:
(1) The project purpose is voluntary habitat restoration and the project is not required as mitigation.
(2) The project is not part of a regulatory permit for a nonhabitat restoration or enhancement construction activity, a regulatory settlement, a regulatory enforcement action, or a court order.
(3) The project meets the eligibility requirements of the State Water Resources Control Board’s Order for Clean Water Act Section 401 General Water Quality Certification for Small Habitat Restoration Projects, or its current equivalent at the time the project proponent submits the written request, but has not received certification pursuant to that order or its equivalent.
(4) The project is consistent with, or identified in, sources that describe best available restoration and enhancement methodologies, including one or more of the following:
(A) Federal- and state-listed species recovery plans or published protection measures, or previously approved department agreements and permits issued for voluntary habitat restoration or enhancement projects.
(B) Department and National Marine Fisheries Service fish screening criteria or fish passage guidelines.
(C) The department’s California Salmonid Stream Habitat Restoration Manual.
(D) Guidance documents and practice manuals that describe best available habitat restoration or enhancement methodologies that are utilized or approved by the department.
(5) The project will not result in cumulative adverse environmental impacts that are significant when viewed in connection with the effects of past, current, or probable future projects.
(d) If the director determines that the written request does not contain all of the information required by subdivision (b), or fails to meet the requirements set forth in subdivision (c), or both, the director shall deny the written request and inform the project proponent of the reason or reasons for the denial.
(e) The project proponent shall submit a notice of completion to the department no later than 30 days after the project approved pursuant to this section is completed. The notice of completion shall demonstrate that the project has been carried out in accordance with the project’s description. The notice of completion shall include a map of the project location, including the final boundaries of the restoration area or areas and postproject photographs. Each photograph shall
include a descriptive title, date taken, photographic monitoring point, and photographic orientation.

(f) The project proponent shall submit a monitoring report describing whether the restoration project is meeting each of the restoration goals stated in the project application. Each report shall include photographs with a descriptive title, date taken, photographic monitoring point, and photographic orientation. The monitoring reports for Section 401 Water Quality Certification or waste discharge requirements of the State Water Resources Control Board or a regional water quality control board, or for department or federal voluntary habitat restoration programs, including, but not limited to, the Fisheries Restoration Grant Program, may be submitted in lieu of this requirement.

(Amended by Stats. 2015, Ch. 303, Sec. 165. Effective January 1, 2016. Repealed as of January 1, 2022, pursuant to Section 1657.)

1653.

(a) A project proponent may submit a written request to approve a habitat restoration or enhancement project to the director pursuant to this section if the project has received certification pursuant to the State Water Resources Control Board’s Order for Clean Water Act Section 401 General Water Quality Certification for Small Habitat Restoration Projects, or its current equivalent at the time the project proponent submits the written request.

(b) A written request to approve a habitat restoration or enhancement project pursuant to this section shall include all of the following:

(1) Notice that the project proponent has received a notice of applicability that indicates that the project is authorized pursuant to the State Water Resources Control Board’s Order for Clean Water Act Section 401 General Water Quality Certification for Small Habitat Restoration Projects, or its equivalent at the time the project proponent submits the written request.

(2) A copy of the notice of applicability.

(3) A copy of the notice of intent provided to the State Water Resources Control Board or a regional water quality control board.

(4) A description of species protection measures incorporated into the project design, but not already included in the notice of intent, to avoid and minimize impacts to potentially present species protected by state and federal law, such as appropriate seasonal work limitations and the use of qualified professionals for standard preconstruction surveys where protected species are potentially present.

(5) The fees required pursuant to Section 1655.

(c) Upon receipt of the notice specified in paragraph (1) of subdivision (b), the director shall immediately have published in the General Public Interest section of the California Regulatory Notice Register the receipt of that notice.
(d) Within 30 days after the director has received the notice of applicability described in subdivision (b), the director shall determine whether the written request accompanying the notice of applicability is complete.
(e) If the director determines within that 30-day period, based upon substantial evidence, that the written request is not complete, then the project may be authorized under Section 1652.
(f) The director shall immediately publish the determination pursuant to subdivision (d) in the General Public Interest section of the California Regulatory Notice Register.
(g) The project proponent shall submit the monitoring plan, monitoring report, and notice of completion to the department as required by the State Water Resources Control Board’s Order for Clean Water Act Section 401 General Water Quality Certification for Small Habitat Restoration Projects, or its current equivalent at the time the project proponent submits the written request. The order or its current equivalent may include programmatic waivers or waste discharge requirements for small scale restoration projects.

(Amended by Stats. 2015, Ch. 303, Sec. 166. Effective January 1, 2016. Repealed as of January 1, 2022, pursuant to Section 1657.)

1654.

(a) The director’s approval of a habitat restoration or enhancement project pursuant to Section 1652 or 1653 shall be in lieu of any other permit, agreement, license, or other approval issued by the department, including, but not limited to, those issued pursuant to Chapter 6 (commencing with Section 1600) and Chapter 10 (commencing with Section 1900) of this division and Chapter 1.5 (commencing with Section 2050) of Division 3.
(b) This chapter shall not be construed as expanding the scope of projects requiring a permit, agreement, license, or other approval issued by the department.
(c) (1) If the director determines at any time that the project is no longer consistent with subdivision (c) of Section 1652 or subdivision (b) of Section 1653, as applicable, due to a material change between the project as submitted and the project being implemented or a change in the environmental circumstances in the area of implementation, the director shall notify the project proponent in writing and project implementation shall be suspended. Written notice from the director shall be delivered in person, by certified mail, or by electronic communication to the project proponent and shall specify the reasons why approval of the project was suspended. The approval for a project shall not be revoked pursuant to this subdivision unless it has first been suspended pursuant to this subdivision.
(2) Within 30 days of receipt of a notice of suspension, the project proponent may file an objection with the director. Any objection shall be in writing and state the reasons why the project proponent objects to the suspension. The project proponent may provide additional environmental protection measures, design modifications, or other evidence that the project is consistent with subdivision (c) of Section 1652 or subdivision (b) of Section 1653, as applicable, and request that the notice of suspension be lifted and approval granted.

(3) The director shall revoke approval or lift the suspension of project approval within 30 days after receiving the project proponent’s objection pursuant to paragraph (2).

(d) Pursuant to Section 818.4 of the Government Code, the department and any other state agency exercising authority under this section shall not be liable with regard to any determination or authorization made pursuant to this section.

(Amended by Stats. 2015, Ch. 303, Sec. 167. Effective January 1, 2016. Repealed as of January 1, 2022, pursuant to Section 1657.)

1655.

(a) The Habitat Restoration and Enhancement Account is hereby created in the Fish and Game Preservation Fund.

(b) The department may enter into an agreement to accept funds from any public agency, person, business entity, or organization to achieve the purposes of this chapter. The department shall deposit any funds so received in the account. The funds received shall supplement existing resources for department administration and permitting of projects and programs included in this chapter.

(c) The department shall assess an application fee for a project submitted to the department pursuant to Section 1652 or 1653 consistent with the fees adopted by the department pursuant to Chapter 6 (commencing with Section 1600), but the application fee shall not exceed the reasonable administrative and implementation costs of the department relating to the project.

(d) Moneys in the account shall be available to the department, upon appropriation by the Legislature, for the purposes of administering and implementing this chapter.

(Added by Stats. 2014, Ch. 604, Sec. 2. Effective January 1, 2015. Repealed as of January 1, 2022, pursuant to Section 1657.)

1656.

(a) The department shall submit a report on the implementation of this chapter to the Legislature no later than December 31, 2020, which shall include, but not be limited to, the number, type, and geographical distribution of approved
projects, funding adequacy, and recommendations for changes and improvements in the program.

(b) A report to be submitted pursuant to subdivision (a) shall be submitted in compliance with Section 9795 of the Government Code.

(Added by Stats. 2014, Ch. 604, Sec. 2. Effective January 1, 2015. Repealed as of January 1, 2022, pursuant to Section 1657.)

1657.

This chapter shall remain in effect only until January 1, 2022, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2022, deletes or extends that date.

(Added by Stats. 2014, Ch. 604, Sec. 2. Effective January 1, 2015. Repealed as of January 1, 2022, by its own provisions. Note: Repeal affects Chapter 6.5, commencing with Section 1650.)
