§ 660.350 Purpose and scope.

This subpart covers the Pacific Coast Groundfish recreational fishery.

§ 660.351 Recreational fishery—definitions.

These definitions are specific to the recreational fisheries covered in this subpart. General groundfish definitions are defined at § 660.11, subpart C.

Bag limit means the number of fish available to an angler.

Boat limit means the number of fish available to a vessel or boat.

Hook limit means a limit on the number of hooks on any given fishing line.

§ 660.352 Recreational fishery—prohibitions.

These prohibitions are specific to the recreational fisheries. General groundfish prohibitions are found at § 660.12, subpart C. In addition to the general...

Subpart G—West Coast Groundfish—Recreational Fisheries

SOURCE: 75 FR 60995, Oct. 1, 2010, unless otherwise noted.

§ 660.350 Purpose and scope.

This subpart covers the Pacific Coast Groundfish recreational fishery.

§ 660.351 Recreational fishery—definitions.

These definitions are specific to the recreational fisheries covered in this subpart. General groundfish definitions are defined at § 660.11, subpart C.

Bag limit means the number of fish available to an angler.

Boat limit means the number of fish available to a vessel or boat.

Hook limit means a limit on the number of hooks on any given fishing line.

§ 660.352 Recreational fishery—prohibitions.

These prohibitions are specific to the recreational fisheries. General groundfish prohibitions are found at § 660.12, subpart C. In addition to the general...
groundfish prohibitions specified in §600.12, subpart C, of this chapter, it is unlawful for any person to:

(a) Sell, offer to sell, or purchase any groundfish taken in the course of recreational groundfish fishing,

(b) Use fishing gear other than hook-and-line or spear for recreational fishing.

§ 660.353 Recreational fishery—recordkeeping and reporting.

Recordkeeping and reporting requirements at §660.13 (a) through (c), subpart C, apply to the recreational fishery.

§ 660.360 Recreational fishery—management measures.

(a) General. Federal recreational groundfish regulations are not intended to supersede any more restrictive state recreational groundfish regulations relating to federally-managed groundfish. The bag limits include fish taken in both state and Federal waters.

(b) Gear restrictions. The only types of fishing gear authorized for recreational fishing are hook-and-line and spear. Spears may be propelled by hand or by mechanical means. More fishery-specific gear restrictions may be required by state as noted in paragraph (c) of this section (e.g. California’s recreational “other flatfish” fishery).

(c) State-specific recreational fishery management measures. Federal recreational groundfish regulations are not intended to supersede any more restrictive State recreational groundfish regulations relating to federally-managed groundfish. Off the coast of Washington, Oregon, and California, boat limits apply, whereby each fisher aboard a vessel may continue to use angling gear until the combined daily limits of groundfish for all licensed and juvenile anglers aboard has been attained (additional state restrictions on boat limits may apply).

Washington. For each person engaged in recreational fishing off the coast of Washington, the groundfish bag limit is 12 groundfish per day, including rockfish, cabezon and lingcod. Within the groundfish bag limit, there are sub-limits for rockfish, lingcod, and cabezon outlined in paragraph (c)(1)(ii)(D) of this section. The recreational groundfish fishery is open year-round except for lingcod, which has season dates outlined in paragraph (c)(1)(iv) of this section. In the Pacific halibut fisheries, retention of groundfish is governed in part by annual management measures for Pacific halibut fisheries, which are published in the FEDERAL REGISTER. The following seasons, closed areas, sub-limits and size limits apply:

(i) Recreational groundfish conservation areas off Washington—(A) North coast recreational yelloweye rockfish conservation area. Recreational fishing for groundfish and halibut is prohibited within the North Coast Recreational Yelloweye Rockfish Conservation Area (YRCA). It is unlawful for recreational fishing vessels to take and retain, possess, or land groundfish taken with recreational gear within the North Coast Recreational YRCA. A vessel fishing in the North Coast Recreational YRCA may not be in possession of any groundfish. Recreational vessels may transit through the North Coast Recreational YRCA with or without groundfish on board. The North Coast Recreational YRCA is defined by latitude and longitude coordinates specified at §660.70, subpart C.

(B) South coast recreational yelloweye rockfish conservation area. Recreational fishing for groundfish and halibut is prohibited within the South Coast Recreational YRCA. It is unlawful for recreational fishing vessels to take and retain, possess, or land groundfish taken with recreational gear within the South Coast Recreational YRCA. A vessel fishing in the South Coast Recreational YRCA may not be in possession of any groundfish. Recreational vessels may transit through the South Coast Recreational YRCA with or without groundfish on board. The South Coast Recreational YRCA is defined by latitude and longitude coordinates specified at §660.70, subpart C.

(C) Westport offshore recreational yelloweye rockfish conservation area. Recreational fishing for groundfish and halibut is prohibited within the Westport Offshore Recreational YRCA. It is unlawful for recreational fishing vessels to take and retain, possess, or land groundfish taken with recreational
§ 660.360 50 CFR Ch. VI (10–1–15 Edition)

gear within the Westport Offshore Recreational YRCA. A vessel fishing in the Westport Offshore Recreational YRCA may not be in possession of any groundfish. Recreational vessels may transit through the Westport Offshore Recreational YRCA with or without groundfish on board. The Westport Offshore Recreational YRCA is defined by latitude and longitude coordinates specified at § 660.70, subpart C.

(D) Recreational rockfish conservation area. Fishing for groundfish with recreational gear is prohibited within the recreational RCA unless otherwise stated. It is unlawful to take and retain, possess, or land groundfish taken with recreational gear within the recreational RCA unless otherwise stated. A vessel fishing in the recreational RCA may not be in possession of any groundfish unless otherwise stated.

[For example, if a vessel participates in the recreational salmon fishery within the RCA, the vessel cannot be in possession of groundfish while in the RCA. The vessel may, however, on the same trip fish for and retain groundfish shoreward of the RCA on the return trip to port.]

(1) West of the Bonilla-Tatoosh line between the U.S. border with Canada and the Queets River (Washington state Marine Area 3 and 4), recreational fishing for groundfish is prohibited seaward of a boundary line approximating the 20 fm (37 m) depth contour from May 1 through June 15. Days open to Pacific halibut fishing with recreational gear within the Westport Offshore Recreational YRCA are listed in § 660.71, subpart C.

(2) Between the Queets River (47°31.70’ N. lat.) and Leadbetter Point (46°38.17’ N. lat.) (Washington state Marine Area 2), recreational fishing for groundfish, is prohibited seaward of a boundary line approximating the 30 fm (55 m) depth contour from March 15 through June 15 with the following exceptions:

Recreational fishing for lingcod is permitted within the RCA on days that the primary halibut fishery is open; recreational fishing for rockfish is permitted within the RCA from March 15 through June 15; recreational fishing for sablefish and Pacific cod is permitted within the recreational RCA from May 1 through June 15. In addition to the RCA described above, between the Queets River (47°31.70’ N. lat.) and Leadbetter Point (46°38.17’ N. lat.) (Washington state Marine Area 2), recreational fishing for lingcod is prohibited year round seaward of a straight line connecting all of the following points in the order stated: 47°31.70’ N. lat., 124°45.00’ W. long.; 46°38.17’ N. lat., 124°30.00’ W. long. with the following exceptions: On days that the primary halibut fishery is open lingcod may be taken, retained and possessed within the lingcod area closure. Days open to Pacific halibut recreational fishing off Washington are announced on the NMFS hotline at (206) 526–6667 or (800) 662–9825. For additional regulations regarding the Washington recreational lingcod fishery, see paragraph (c)(1)(iv) of this section. Coordinates for the boundary line approximating the 30 fm (55 m) depth contour are listed in § 660.71.

(3) Between Leadbetter Point (46°38.17’ N. lat.) and the Columbia River (Marine Area 1), when Pacific halibut are onboard the vessel, no groundfish may be taken and retained, possessed or landed, except sablefish and Pacific cod from May 1 through September 30. Except that taking, retaining, possessing or landing incidental halibut with groundfish on board is allowed in the nearshore area on days not open to all-depth Pacific halibut fisheries in the area shoreward of the boundary line approximating the 40 fm (73 m) depth contour extending from Leadbetter Point, WA (46°38.17’ N. lat., 124°15.88’ W. long.) to the Columbia River (46°16.00’ N. lat., 124°15.88’ W. long.) and from there, connecting to the boundary line approximating the 40 fm (73 m) depth contour in Oregon. Nearshore season days are established in the annual management measures for Pacific halibut fisheries, which are published in the Federal Register and are announced on the NMFS halibut hotline, 1–800–662–9825. Between Leadbetter Point...
Fishery Conservation and Management

§ 660.360

(46°38.17′ N. lat.) and 46°28.00′ N. lat., recreational fishing for lingcod is prohibited year round seaward of a straight line connecting all of the following points in the order stated: 46°38.17′ N. lat., 124°21.00′ W. long.; and 46°28.00′ N. lat., 124°21.00′ W. long.

(ii) Rockfish. In areas of the EEZ seaward of Washington that are open to recreational groundfish fishing, there is a 10 rockfish per day bag limit. Taking and retaining canary rockfish and yelloweye rockfish is prohibited.

(iii) Cabezon. In areas of the EEZ seaward of Washington that are open to recreational groundfish fishing, the size limits and bag limits are as follows:

(A) Between the U.S.-Canada border and 48°10′ N. lat. (Cape Alava) (Washington Marine Area 4), there is a 1 cabezon per day bag limit and cabezon may be no smaller than 18 inches (45.7 cm) total length.

(B) Between 48°10′ N. lat. (Cape Alava) and 46°16′ N. lat. (Columbia River) (Washington Marine Areas 1–3), there is a 2 cabezon per day bag limit.

(iv) Lingcod. In areas of the EEZ seaward of Washington that are open to recreational groundfish fishing and when the recreational season for lingcod is open, there is a bag limit of 2 lingcod per day. The recreational fishing seasons and size limits for lingcod are as follows:

(A) Between the U.S.-Canada border and 48°10′ N. lat. (Cape Alava) (Washington Marine Area 4), recreational fishing for lingcod is open, for 2015, from April 16 through September 30, and for 2016, from April 16 through October 15. Lingcod may be no smaller than 22 inches (56 cm) total length.

(B) Between 46°16′ N. lat. (Columbia River) (Washington Marine Areas 1–3), recreational fishing for lingcod is open for 2015, from March 14 through October 17, and for 2016, from March 12 through October 15. Lingcod may be no smaller than 22 inches (56 cm) total length.

(2) Oregon—(i) Recreational groundfish conservation areas off Oregon—(A) Stonewall Bank yelloweye rockfish conservation area. Recreational fishing for groundfish and halibut is prohibited within the Stonewall Bank YRCA. It is unlawful for recreational fishing vessels to take and retain, possess, or land groundfish taken with recreational gear within the Stonewall Bank YRCA. A vessel fishing in the Stonewall Bank YRCA may not be in possession of any groundfish. Recreational vessels may transit through the Stonewall Bank YRCA with or without groundfish on board. The Stonewall Bank YRCA is defined by latitude and longitude coordinates specified at §660.70, subpart C.

(B) Recreational rockfish conservation area. Fishing for groundfish with recreational gear is prohibited within the recreational RCA, a type of closed area or GCA. It is unlawful to take and retain, possess, or land groundfish taken with recreational gear within the recreational RCA. A vessel fishing in the recreational RCA may not be in possession of any groundfish. [For example, if a vessel fishes in the recreational salmon fishery within the RCA, the vessel cannot be in possession of groundfish while in the RCA. The vessel may, however, on the same trip fish for and retain groundfish shoreward of the RCA on the return trip to port.] Off Oregon, from April 1 through September 30, recreational fishing for groundfish is prohibited seaward of a recreational RCA boundary line approximating the 40 fm (73 m) depth contour. Coordinates for the boundary line approximating the 40 fm (73 m) depth contour are listed at §660.71. (C) Essential fish habitat conservation areas. The Essential Fish Habitat Conservation Areas (EFHCAs) are closed areas, defined by specific latitude and longitude coordinates at §§660.76 through 660.79, where specified types of fishing are prohibited. Prohibitions applying to specific EFHCAs are found at §660.12.

(ii) Seasons. Recreational fishing for groundfish is open from January 1 through December 31, subject to the closed areas described in paragraph (c) of this section.

(iii) Bag limits, size limits. For each person engaged in recreational fishing off the coast of Oregon, the following bag limits apply:

(A) Marine fish. The bag limit is 10 marine fish per day, which includes rockfish, kelp greenling, cabezon and
other groundfish species. There is a 1 fish sub-bag limit per day for canary rockfish (of the total marine bag limit, no more than 1 fish may be canary) from January 1 through December 31. The bag limit of marine fish excludes Pacific halibut, salmonids, tuna, perch species, sturgeon, sanddabs, flatfish, lingcod, striped bass, offshore pelagic species and baitfish (herring, smelt, anchovies and sardines). The minimum size for cabezon retained in the Oregon recreational fishery is 16 in (41 cm) total length. The minimum size for kelp greenling retained in the Oregon recreational fishery is 22 in (56 cm) total length.

(B) Lingcod. There is a 3 fish limit per day for lingcod from January 1 through December 31. The minimum size for lingcod retained in the Oregon recreational fishery is 22 in (56 cm) total length.

(C) Flatfish. There is a 25 fish limit per day for all flatfish, excluding Pacific halibut, but including all soles, flounders and Pacific sanddabs, from January 1 through December 31.

(D) In the Pacific halibut fisheries. Retention of groundfish is governed in part by annual management measures for Pacific halibut fisheries, which are published in the Federal Register. Between the Columbia River and Humbug Mountain, during days open to the “all-depth” sport halibut fisheries, when Pacific halibut are on board the vessel, no groundfish may be taken and retained, possessed or landed, except sablefish and Pacific cod. “All-depth” season days are established in the annual management measures for Pacific halibut fisheries, which are published in the Federal Register and are announced on the NMFS Pacific halibut hotline, 1-800-662-9825.

(E) Taking and retaining yelloweye rockfish is prohibited at all times and in all areas.

(3) California. Seaward of California, California law provides that, in times and areas when the recreational fishery is open, there is a 20 fish bag limit for all species of finfish, within which no more than 10 fish of any one species may be taken or possessed by any one person. (Note: There are some exceptions to this rule. The following groundfish species are not subject to a bag limit: Petrale sole, Pacific sanddab and starry flounder.) For groundfish species not specifically mentioned in this paragraph, fishers are subject to the overall 20-fish bag limit for all species of finfish and the depth restrictions at paragraph (c)(3)(i) of this section. Recreational spearfishing for all federally-managed groundfish, is exempt from closed areas and seasons, consistent with Title 14 of the California Code of Regulations. This exemption applies only to recreational vessels and divers provided no other fishing gear, except spearfishing gear, is on board the vessel. California state law may provide regulations similar to Federal regulations for the following state-managed species: Ocean whitefish, California sheephead, and all greenlings of the genus Hexagrammos. Kelp greenling is the only federally-managed greenling. Retention of cowcod, yelloweye rockfish, bronzespotted rockfish, and canary rockfish is prohibited in the recreational fishery seaward of California all year in all areas. For each person engaged in recreational fishing in the EEZ seaward of California, the following closed areas, seasons, bag limits, and size limits apply:

(1) Recreational groundfish conservation areas off California. A Groundfish Conservation Area (GCA), a type of closed area, is a geographic area defined by coordinates expressed in degrees latitude and longitude. The following GCAs apply to participants in California’s recreational fishery:

(A) Recreational rockfish conservation areas. The recreational RCAs are areas that are closed to recreational fishing for groundfish. Fishing for groundfish with recreational gear is prohibited within the recreational RCA, except that recreational fishing for “other flatfish” is permitted within the recreational RCA as specified in paragraph (c)(3)(iv) of this section. It is unlawful to take and retain, possess, or land groundfish taken with recreational gear within the recreational RCA, unless otherwise authorized in this section. A vessel fishing in the recreational RCA may not be in possession of any species prohibited by the
restrictions that apply within the recreational RCA. [For example, if a vessel fishes in the recreational salmon fishery within the RCA, the vessel cannot be in possession of rockfish while in the RCA. The vessel may, however, on the same trip fish for and retain rockfish shoreward of the RCA on the return trip to port.]

1) Between 42° N. lat. (California/Oregon border) and 40°10’ N. lat. (Northern Management Area), recreational fishing for all groundfish (except “other flatfish” as specified in paragraph (c)(3)(iv) of this section) is prohibited seaward of the 20 fm (37 m) depth contour along the mainland coast and along islands and offshore seamounts from May 15 through October 31 (shoreward of 20 fm is open); and is closed entirely from January 1 through May 14- and from November 1 through December 31.

2) Between 40°10’ N. lat. and 38°57.50’ N. lat. (Mendocino Management Area), recreational fishing for all groundfish (except “other flatfish” as specified in paragraph (c)(3)(iv) of this section) is prohibited seaward of the 20 fm (37 m) depth contour along the mainland coast and along islands and offshore seamounts from May 15 through October 31 (shoreward of 20 fm is open), and is closed entirely from January 1 through May 14 and from November 1 through December 31.

3) Between 38°57.50’ N. lat. and 37°11’ N. lat. (San Francisco Management Area), recreational fishing for all groundfish (except “other flatfish” as specified in paragraph (c)(3)(iv) of this section) is prohibited seaward of the boundary line approximating the 30 fm (55 m) depth contour along the mainland coast and along islands and offshore seamounts from April 15 through December 31; and is closed entirely from January 1 through April 14. Closures around Cordell Banks (see paragraph (c)(3)(i)(C) of this section) also apply in this area. Coordinates for the boundary line approximating the 30 fm (55 m) depth contour are listed in §660.71.

4) Between 37°11’ N. lat. and 34°27’ N. lat. (Central Management Area), recreational fishing for all groundfish (except “other flatfish” as specified in paragraph (c)(3)(iv) of this section) is prohibited seaward of a boundary line approximating the 40 fm (73 m) depth contour along the mainland coast and along islands and offshore seamounts from April 1 through December 31; and is closed entirely from January 1 through March 31 (i.e. prohibited seaward of the shoreline). Coordinates for the boundary line approximating the 40 fm (73 m) depth contour are specified in §660.71.

5) South of 34°27’ N. lat. (Southern Management Area), recreational fishing for all groundfish (except California scorpionfish as specified below in this paragraph and in paragraph (c)(3)(v) of this section) and “other flatfish” as specified in paragraph (c)(3)(iv) of this section) is prohibited seaward of a boundary line approximating the 60 fm (109.7 m) depth contour from March 1 through December 31 along the mainland coast and along islands and offshore seamounts, except in the CCAs where fishing is prohibited seaward of the 20 fm (37 m) depth contour when the fishing season is open (see paragraph (c)(3)(i)(B) of this section). Recreational fishing for all groundfish (except California scorpionfish and “other flatfish”) is closed entirely from January 1 through February 28 (i.e., prohibited seaward of the shoreline). Recreational fishing for California scorpionfish south of 34°27’ N. lat. is prohibited seaward of a boundary line approximating the 60 fm (109.7 m) depth contour from January 1 through December 31, except in the CCAs where fishing is prohibited seaward of the 20 fm (37 m) depth contour when the fishing season is open.

(B) Cowcod conservation areas. The latitude and longitude coordinates of the Cowcod Conservation Areas (CCAs) boundaries are specified at §660.70. In general, recreational fishing for all groundfish is prohibited within the CCAs, except that fishing for “other flatfish” is permitted within the CCAs as specified in paragraph (c)(3)(iv) of this section. However, recreational fishing for the following species is permitted shoreward of the 20 fm (37 m) depth contour when the season for those species is open south of 34°27’ N. lat.: Minor nearshore rockfish, cabezon, kelp greenling, lingcod, California scorpionfish, shelf rockfish and
“other flatfish” (subject to gear requirements at paragraph (c)(3)(iv) of this section during January–February). Retention of canary rockfish, yelloweye rockfish, bronzespotted rockfish and cowcod is prohibited within the CCA. [Note: California state regulations also permit recreational fishing for California sheepshead, ocean whitefish, and all greenlings of the genus Hexagrammos shoreward of the 20 fm (37 m) depth contour in the CCAs when the season for the RCG complex is open south of 34°27′ N. lat.] It is unlawful to take and retain, possess, or land groundfish within the CCAs, except for species authorized in this section.

(C) Cordell Banks. Recreational fishing for groundfish is prohibited in waters less than 100 fm (183 m) around Cordell Banks as defined by specific latitude and longitude coordinates at §660.70, subpart C, except that recreational fishing for “other flatfish” is permitted around Cordell Banks as specified in paragraph (c)(3)(iv) of this section. [Note: California state regulations also prohibit fishing for all greenlings of the genus Hexagrammos, California sheepshead and ocean whitefish.]

(D) Point St. George Yelloweye Rockfish Conservation Area (YRCA). Recreational fishing for groundfish is prohibited within the Point St. George YRCA, as defined by latitude and longitude coordinates at §660.70, subpart C, on dates when the closure is in effect. The closure is not in effect at this time. This closure may be imposed through inseason adjustment.

(E) South Reef YRCA. Recreational fishing for groundfish is prohibited within the South Reef YRCA, as defined by latitude and longitude coordinates at §660.70, subpart C, on dates when the closure is in effect. This closure may be imposed through inseason adjustment.

(F) Reading Rock YRCA. Recreational fishing for groundfish is prohibited within the Reading Rock YRCA, as defined by latitude and longitude coordinates at §660.70, subpart C, on dates when the closure is in effect. This closure may be imposed through inseason adjustment.

(G) Point Delgada (North) YRCA. Recreational fishing for groundfish is prohibited within the Point Delgada (North) YRCA, as defined by latitude and longitude coordinates at §660.70, subpart C, on dates when the closure is in effect. The closure is not in effect at this time. This closure may be imposed through inseason adjustment.

(H) Point Delgada (South) YRCA. Recreational fishing for groundfish is prohibited within the Point Delgada (South) YRCA, as defined by latitude and longitude coordinates at §660.70, subpart C, on dates when the closure is in effect. The closure is not in effect at this time. This closure may be imposed through inseason adjustment.

(i) RCG complex. The California rockfish, cabezon, greenling complex (RCG Complex), as defined in state regulations (Section 1.91, Title 14, California Code of Regulations), includes all rockfish, kelp greenling, rock greenling, and cabezon. This category does not include California scorpionfish, also known as “sculpin”.

(A) Seasons. When recreational fishing for the RCG complex is open, it is permitted only outside of the recreational RCAs described in paragraph (c)(3)(i) of this section.

(1) Between 42° N. lat. (California/Oregon border) and 40°10′ N. lat. (North Management Area), recreational fishing for the RCG complex is open from May 15 through October 31 (i.e., it’s closed from January 1 through May 14 and from November 1 through December 31).

(2) Between 40°10′ N. lat. and 38°57.50′ N. lat. (Mendocino Management Area), recreational fishing for the RCG Complex is open from May 15 through October 31 (i.e., it’s closed from January 1 through May 14 and November 1 through December 31).
§ 660.360

Fishery Conservation and Management

(3) Between 38°57.50' N. lat. and 37°11' N. lat. (San Francisco Management Area), recreational fishing for the RCG complex is open from April 15 through December 31 (i.e. it's closed from January 1 through April 14).

(4) Between 37°11' N. lat. and 34°27' N. lat. (Central Management Area), recreational fishing for the RCG complex is open from April 1 through December 31 (i.e. it's closed from January 1 through March 31).

(5) South of 34°27' N. lat. (Southern Management Area), recreational fishing for the RCG Complex is open from March 1 through December 31 (i.e. it's closed from January 1 through February 28).

(B) Bag limits, hook limits. In times and areas when the recreational season for the RCG Complex is open, there is a limit of 2 hooks and 1 line when fishing for the RCG complex and lingcod. The bag limit is 10 RCG Complex fish per day coastwide. Retention of canary rockfish, yelloweye rockfish, bronzespotted rockfish and cowcod is prohibited. Within the 10 RCG Complex fish per day limit, no more than 5 may be black rockfish, no more than 3 may be bocaccio, and no more than 3 may be cabezon. Multi-day limits are authorized by a valid permit issued by California and must not exceed the daily limit multiplied by the number of days in the fishing trip.

(C) Size limits. The following size limits apply: cabezon may be no smaller than 15 in (38 cm) total length; and kelp and other greenling may be no smaller than 12 in (30 cm) total length.

(D) Dressing/filleting. Cabezon, kelp greenling, and rock greenling taken in the recreational fishery may not be filleted at sea. Rockfish skin may not be removed when filleting or otherwise dressing rockfish taken in the recreational fishery. The following rockfish filet size limits apply: Brown-skinned rockfish fillets may be no smaller than 6.5 in (16.6 cm). “Brown-skinned” rockfish include the following species: Brown, calico, copper, gopher, kelp, olive, speckled, squarespot, and yellowtail.

(iii) Lingcod—(A) Seasons. When recreational fishing for lingcod is open, it is permitted only outside of the recreational RCAs described in paragraph (c)(3)(i) of this section.

(1) Between 42° N. lat. (California/Oregon border) and 40°10' N. lat. (Northern Management Area), recreational fishing for lingcod is open from May 15 through October 31 (i.e., it's closed from January 1 through May 14 and from November 1 through December 31).

(2) Between 40°10' N. lat. and 38°57.50' N. lat. (Mendocino Management Area), recreational fishing for lingcod is open from May 15 through October 31 (i.e., it's closed from January 1 through May 14 and November 1 through December 31).

(3) Between 38°57.50' N. lat. and 37°11' N. lat. (San Francisco Management Area), recreational fishing for lingcod is open from April 15 through December 31 (i.e. it's closed from January 1 through April 14).

(4) Between 37°11' N. lat. and 34°27' N. lat. (Central Management Area), recreational fishing for lingcod is open from April 1 through December 31 (i.e. it's closed from January 1 through March 31).

(5) South of 34°27' N. lat. (Southern Management Area), recreational fishing for lingcod is open from March 1 through December 31 (i.e. it's closed from January 1 through February 28).

(B) Bag limits, hook limits. In times and areas when the recreational season for lingcod is open, there is a limit of 2 hooks and 1 line when fishing for lingcod. The bag limit is 3 lingcod per day coastwide. Retention of canary rockfish, yelloweye rockfish, bocaccio, and no more than 3 may be black rockfish, no more than 3 may be bocaccio, and no more than 3 may be cabezon. Multi-day limits are authorized by a valid permit issued by California and must not exceed the daily limit multiplied by the number of days in the fishing trip.

(C) Size limits. Lingcod may be no smaller than 22 in (56 cm) total length.

(D) Dressing/filleting. Lingcod fillets may be no smaller than 14 in (36 cm) in length.

(iv) “Other flatfish”. Coastwide off California, recreational fishing for “other flatfish” is permitted both shoreward of and within the closed areas described in paragraph (c)(3)(i) of this section. “Other flatfish” are defined at §660.11, subpart C, and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole. Recreational fishing for
“other flatfish” is permitted within the closed areas. “Other flatfish,” except Pacific sanddab, are subject to the overall 20-fish bag limit for all species of finfish, of which there may be no more than 10 fish of any one species. There is no season restriction or size limit for “other flatfish;” however, it is prohibited to filet “other flatfish” at sea.

(v) California scorpionfish. California scorpionfish predominately occur south of 40°10′ N. lat.

(A) Seasons. When recreational fishing for California scorpionfish is open, it is permitted only outside of the recreational RCAs described in paragraph (c)(3)(i) of this section.

(1) Between 40°10′ N. lat. and 38°57.50′ N. lat. (Mendocino Management Area), recreational fishing for California scorpionfish is open from May 15 through August 31 (i.e., it’s closed from January 1 through May 14 and from September 1 through December 31).

(2) Between 38°57.50′ N. lat. and 37°11′ N. lat. (San Francisco Management Area), recreational fishing for California scorpionfish is open from April 1 through August 31 (i.e., it’s closed from January 1 through March 31 and September 1 through December 31).

(3) Between 37°11′ N. lat. and 34°27′ N. lat. (Central Management Area), recreational fishing for California scorpionfish is open from April 1 through August 31 (i.e., it’s closed from January 1 through March 31 and September 1 through December 31).

(4) South of 34°27′ N. lat. (Southern Management Area), recreational fishing for California scorpionfish is open from January 1 through December 31.

(B) Bag limits, hook limits. South of 40°10.00′ N. lat., in times and areas where the recreational season for California scorpionfish is open, the bag limit is 5 California scorpionfish per day. California scorpionfish do not count against the 10 RCG Complex fish per day limit. Multi-day limits are authorized by a valid permit issued by California and must not exceed the daily limit multiplied by the number of days in the fishing trip.

(C) Size limits. California scorpionfish may be no smaller than 10 in (25 cm) total length.

(D) Dressing/Filleting. California scorpionfish filets may be no smaller than 5 in (12.8 cm) and must bear an intact 1 in (2.6 cm) square patch of skin.

§ 660.401 Purpose and scope.

This subpart implements the Fishery Management Plan for Commercial and Recreational Salmon Fisheries Off the Coasts of Washington, Oregon, and California developed by the Pacific Fishery Management Council. These regulations govern the management of West Coast salmon fisheries in the EEZ.

§ 660.402 Definitions.

In addition to the definitions in the Magnuson Act and in §600.10 of this chapter, the terms used in this subpart have the following meanings:

Barbless hook means a hook with a single shank and point, with no secondary point or barb curving or projecting in any other direction. Where barbless hooks are specified, hooks manufactured with barbs can be made barbless by forcing the point of the barb flat against the main part of the point.

Commercial fishing means fishing with troll fishing gear as defined annually under §660.108, or fishing for the purpose of sale or barter of the catch.

Council means the Pacific Fishery Management Council.

Dressed, head-off length of salmon means the shortest distance between the midpoint of the clavicle arch and the fork of the tail, measured along the lateral line while the fish is lying on its side, without resort to any force or mutilation of the fish other than removal of the head, gills, and entrails.

Dressed, head-off salmon means salmon that have been beheaded, gilled, and gutted without further separation of
