27, 1993;*

***For the Minister
of Agriculture and Rural Development
Vice Minister
NGO THE DAN***

**THE SOCIALIST REPUBLIC OF VIETNAM'S LIST OF OBJECTS
SUBJECT TO PLANT QUARANTINE.**

*(Promulgated together with Decision No. 117/2000/QD/BNN-BVTV
of November 20, 2000)*

***GROUP I: ORGANISM WITH POTENTIAL OF CAUSING SERIOUS HARMS TO
VEGETAL RESOURCES, WHICH HAVE NOT EXISTED IN THE TERRITORY
OF THE SOCIALIST REPUBLIC OF VIETNAM***

A. Insects:

1. *Anastrepha fraterculus* (Wiedemann)
2. *Anastrepha ludens* (Loew)
3. *Ceratitis capitata* (Wiedemann)
4. *Bactrocera tryoni* (Froggratt)
5. *Bactrocera tsuneonis* (Miyake)
6. *Ceratitis rosa* Karsch
7. *Pachymerus pallidus* Olivier
8. *Hyphantria cunea* (Drury)
9. *Popillia japonica* Newman

10. *Caulophilus latinasus* Say
11. *Trogoderma granarium* Everts
12. *Trogoderma inclusum* LeConte
13. *Anthonomus grandis* Boheman
14. *Scirtothrips aurentii* Faure
15. *Leptinotarsa decemlineata* Say
16. *Sitophilus granarius* (Linnaeus)
17. *Prostephanus truncatus* Horn
18. *Zabrotes subfasciatus* (Boheman)
19. *Quadraspidiotus perniciosus* (Comstock)
20. *Graphognathus leucoloma* (Boheman)
21. *Monochamus alternatus* Hope (Being the vector of *Bursaphelenchus xylophilus* disease)
22. *Tagosodes orizicolus* Muir (Being the vector of Rice hoja blanca virus)
23. *Tagosodes cubanus* D.L. Crawford (Rice hoja blanca virus)

B. Plant diseases:

24. *Deuterophoma Tracheiphila* Petri
25. *Phymatotrichum omnivorum* (shear) Duggar
26. *Microcyclus ulei* (P. Henn.) V. Arx
27. *Synchytrium endobioticum* (Schilb.) Percival
28. *Tilletia indica* Mitra
29. *Ephelis oryzae* Sydow
30. *Pseudomonas garcae* Amaral Teixeira & Pinheiro
31. Rice hoja blanca virus
32. Coffee ring spot virus
33. *Verticillium albo-atrum* Reinke & Berthold

C. Earth-worm gland:

34. *Ditylenchus destructor* Thorne
35. *Globodera pallida* (Stone) Mulvey & Stone
36. *Globodera rostochiensis* (Wollenweber) Mulvey & Stone
37. *Rhadinaphelenchus cocophilus* (Cobb) Goodey
38. *Bursaphelenchus xylophilus* (Steiner & Burher) Nickle

D. Weed:

39. *Striga hermonthica* (Del.) Bentham
40. *Striga densiflora* (Benth.) Bentham
41. *Lolium temulentum* L.
42. *Cirsium arvense* (L.) Scop.
43. *Orobancha crenata* Forskal
44. *Orobancha cernua* Loeffl.
45. *Orobancha ramosa* L.

46. *Orobanche aegyptiaca* Pers.

**GROUP II: ORGANISMS WITH POTENTIAL OF CAUSING SERIOUS
HARMS TO VEGETAL RESOURCES, WHICH HAVE EXISTED
IN NARROW AREAS OF TERRITORY OF THE SOCIALIST
REPUBLIC OF VIETNAM**

A. Insects:

47. *Pseudaulacaspis pentagona* (Targioni)

48. *Phthorimaea operculella* (Zeller)

49. *Acanthoscelides obtectus* (Say)

50. *Chaetocnema pulicaria* (Melcheimer) (Being vector of *Erwinia stewartii* (Smith) Dye))

B. Plant diseases:

51. *Spongospora subterranea* (Wallr.) Lagerh. f. sp. *Subterranea* Tomlinson

52. Peanut stripe virus

53. *Erwinia stewartii* (Smith) Dye

54. *Sphacelotheca reiliana* (Kuhn) Clinton

55. Citrus tristeza virus

C. Earth-worm gland:

56. *Radopholus similis* (Cobb) Thorne

57. *Ditylenchus dipsaci* (Kuhn) Filipjev

D. Weed:

58. *Striga angustifolia* (Don.) C. J. Saldanha

59. *Striga lutea* Lour.

60. *Cuscuta australis* R. Br.

61. *Cuscuta chinensis* Lam.-
