

GOVERNMENT OF ZAMBIA

STATUTORY INSTRUMENT NO. 84 OF 2008

The Mines and Minerals Development Act, 2008
(Act No. 7 of 2008)

**The Mines and Minerals Development
(General) Regulations, 2008**

ARRANGEMENT OF REGULATIONS

PART I
PRELIMINARY

1. Title
2. Interpretation

PART II
MINING CADASTRE OFFICERS

3. Head of Mining Cadastre offices and other staff
4. Central and regional mining cadastre offices
5. Functions of Central Mining Cadastre Office
6. Functions of regional mining cadastre offices
7. Jurisdiction of regional mining cadastre offices
8. Cadastre Unit

PART III
APPLICATION FOR MINING RIGHT AND MINERAL
PROCESSING LICENCE

9. Application for mining right
10. Application for non-mining right
11. Application for annual operating permit
12. Application to export, import, etc. mineral, ore or mineral product
13. Application to export, sell, etc. radioactive minerals
14. Application for mineral analysis certificate

15. Application for valuation certificate
16. Application to operate mineral analysis laboratory and annual geological or mining consultancy firm
17. Application by agent
18. Assignment of identification code
19. Provisional plotting
20. Request for further particulars
21. Acceptance of application by Minister, Director or Director of Geological Survey
22. Rejection of application by Minister, Director or Director of Geological Survey
23. Grant of Mining right
24. Amendment of licence
25. Change in particulars of holder

PART IV

RENEWAL OF MINING RIGHT AND MINERAL PROCESSING LICENCE

26. Application for renewal of mining or non-mining right
27. Provisional plotting for renewal
28. Modification of perimeter
29. Rejection of application for renewal
30. Grant of renewal

PART V

ALTERATION OF PROSPECTING OR MINING AREA

31. Application for alteration of prospecting or mining area
32. Provisional plotting for alteration
33. Grant of alteration

PART VI

TRANSFER AND ASSIGNMENT OF MINING RIGHT OR MINERAL PROCESSING LICENCE

34. Application for consent to transfer or to assign
35. Grant of consent to transfer

PART VII

ABANDONMENT OF MINING AREA

36. Application to abandon land subject to licence or permit
37. Grant of certificate of abandonment

PART VIII
GENERAL PROVISIONS

- 38. Notice of appeal
- 39. Prescribed fees, area charges, etc.
- 40. Geometric rules for cadastral co-ordinates
- 41. Cadastral co-ordinates and beacons setting
- 42. Cadastral maps
- 43. Pegging certificate
- 44. Area subject to conflict
- 45. Revocation of S.I No. 123 of 1996

SCHEDULES

- First Schedule
- Second Schedule
- Third Schedule
- Fourth Schedule
- Fifth Schedule
- Sixth Schedule

IN EXERCISE of the powers contained in section *one hundred and sixty-one* of the Mines and Minerals Development Act, 2008, the following Regulations are hereby made:

PART I

PRELIMINARY

- | | |
|---|--|
| 1. These Regulations may be cited as the Mines and Minerals Development (General) Regulations, 2008. | Title |
| 2. In these Regulations, unless the context otherwise requires—
“abandonment” means the voluntary extinction of a mining right which may be total or partial and which is demanded by the holder by renunciation;
“Act” means the Mines and Minerals Development Act, 2008;
“alteration” in relation to a mining area, means the extension or the reduction of the size of the prospecting or mining area;
“assignee” means a person who derives a right or interest in a licence or mining right from the holder of the licence or mining right;
“assignor” means a person who grants a right or interest in a licence or mining right to another person;
“artisan’s mining right” means an artisan’s mining right granted under Part V of the Act;
“cadastral co ordinates” means the geographic sexagesimal co ordinates used in the delineation of an area subject to a licence or mining right in accordance with these Regulations;
“cadastre unit” means a quadrilateral formed by the intersection of meridians and parallels and with a distance equal to six sexagesimal seconds, and that covers an average planimetric surface of three point three four zero zero hectares;
“cadastral map” means a map record of existing non-mining and mining rights;
“closure certificate” means the certificate granted by the Director of Mines Safety at the abandonment of a mining right;
“Director” means the Director of Mines appointed under section <i>one hundred and forty-four</i> of the Act;
“Director of Geological Survey” means the person appointed as such under section <i>one hundred and forty-four</i> of the Act; | <p>Interpretation</p> <p>Act No. 7 of 2008</p> |

"Director of Mines Safety" means the person appointed as such under section *one hundred and forty-four* of the Act;

"General Registry Book" means the book where the applications for abandonment of a mining area, amendments, renewals, and transfers of licences are recorded in the order in which they are received;

"Head of Mining Cadastre" means the person appointed as such under regulation 3; "holder" means a person in whose name a

mining right is registered under the Act;

"large-scale gemstone licence" means a large-scale gemstone licence granted under Part III of the Act;

"large-scale mining licence" means a large-scale mining licence granted under Part III of the Act;

"mineral" means any material substance, whether in solid, liquid or gaseous form, that occurs naturally in or beneath the surface of the earth, but does not include water, petroleum or any substance or thing prescribed by the Minister by regulation;

"mineral processing" means the practice of beneficiating or liberating valuable minerals from their ores which may combine a number of unit operations such as crushing, grinding, sizing, screening, classification, washing, froth floatation, gravity concentration, electrostatic separation, magnetic separation, leaching, smelting, refining, calcining and gasification or any other processes incidental thereto;

"mining" means the extraction of material, whether solid, liquid or gaseous, from land or from beneath the surface of the earth in order to win minerals, or any operations directly or indirectly necessary or incidental thereto;

"mining area" means an area of land subject to a licence or permit under the Act;

"Mining Cadastre Office" means the central administrative office established in Lusaka which is responsible for the processing and administration of mining rights;

"mining right" means a right granted under subsection (1) of section *six* of the Act;

"pegging certificate" means a certificate issued by a surveyor after demarcation of a licence or mining right in accordance with regulation 43;

"perimeter" means the external contour of the ground made up of contiguous cadastral units, which is the subject

of a licence or mining right or an application for a licence or mining right;

"Priority Registry Book" means the book where applications for mining rights and mineral processing licences are recorded in the order in which they are received;

"prospecting area" means an area of land subject to a prospecting licence or a prospecting permit;

"prospecting operations" means operations carried out in the course of prospecting;

"prospecting permit" means a prospecting permit granted under Part IV of the Act;

"regional mining cadastre office" means a regional office of the Mining Cadastre referred to under regulation 4;

"small scale gemstone licence" means a small scale gemstone licence granted under Part IV of the Act; and

"small scale mining licence" means a small scale mining licence granted under Part IV of the Act.

PART II

MINING CADASTRE OFFICES

3. (1) There shall be a Head of Mining Cadastre Office who shall be a public officer and who shall have and may exercise the powers and functions conferred upon the Head of Mining Cadastre Office by or under the Act or any other written law.

Head of Mining Cadastre Office and other staff

(2) The Public Service Commission shall appoint such other public officers as may be necessary for the administration of these Regulations.

4. The Central Mining Cadastre Office shall be based in Lusaka and the regional mining cadastre offices shall be established in the areas set out in the First Schedule.

Central and regional mining cadastre offices

5. (1) The Central Mining Cadastre Office shall administer mining rights and mineral processing licences.

Functions of Central Mining Cadastre Office

(2) Notwithstanding the generality of sub-regulation (1), the Central Mining Cadastre office shall be responsible for the co ordination of all cadastral activities including—

(a) the assignment of identification codes for applications for mining rights and mineral processing licences;

- (b) the receipt and recording of applications for mining rights and mineral processing licences;
- (c) the verification and processing of applications for mining rights or mineral processing licences;
- (d) making recommendations to the Director, the Director of Geological Survey and Director of Mines Safety in respect of applications for mining rights and mineral processing licences; and
- (e) receiving and distributing statutory reports from holders.

(3) The Mining Cadastre Office shall maintain a Priority Registry Book and a General Registry Book for purposes of these Regulations.

(4) The Mining Cadastre Office shall, where an application meets the requirements of the Act and these Regulations, send its recommendations on the application to the Director or Director of Geological Survey, as the case may be.

(5) The Director or Director of Geological Survey, as the case may be, shall seek the advice of the Mining Advisory Committee prior to the grant of a mining right or mineral processing

Functions of
regional
mining
cadastre
offices

6. A regional mining cadastre office shall be accountable to the Central Mining Cadastre Office and shall—

- (a) receive and record applications for mining rights and mineral processing licences within its area;
- (b) transfer applications for mining rights and mineral processing licences to the Central Mining Cadastre Office; and
- (c) make recommendations to the Central Mining Cadastre Office in relation to applications for mining rights and mineral processing licences.

Jurisdiction
of regional
mining
cadastre
offices

7. (1) Subject to regulation 5, where an area covered by an application extends over more than one region, the regional mining cadastre office in which most of the area that is a subject matter of the application falls, shall be responsible for the receipt and registration of the application.

(2) Sub-regulation (1) shall not be construed as prohibiting the Central Mining Cadastre Office from receiving and recording any applications.

Cadastre unit

8. (1) For the purposes of the Act and these Regulations, the surface area of Zambia is divided into cadastre units in squares of six seconds by six seconds in conformity with the grid defined by

geographic sexagesimal co ordinates in degrees, minutes and seconds represented at the edge of cadastral maps.

(2) The cadastral maps shall be based on the official topographic map of the Republic of Zambia at the scale of 1:50,000 or 1:250,000 and based on the ellipsoid of Clarke 1880.

PART III

APPLICATION FOR A MINING RIGHT AND MINERAL PROCESSING LICENCE

9. (1) A person shall apply to the Director of Geological Survey, as the case may be, for the following mining rights in Form I set out in the Second Schedule:

Application
for mining
right

- (a) a prospecting licence;
- (b) a large-scale mining licence;
- (c) a large-scale gemstone licence;
- (d) a prospecting permit;
- (e) a small-scale mining licence;
- (f) a small-scale gemstone licence; and
- (g) an artisan's mining right.

(2) A person shall apply to the Director for a large-scale mining licence in respect of radioactive minerals in Form II set out in the Second Schedule.

10. (1) A person shall apply to the Director of Geological Survey for a mineral processing licence in Form III set out in the Second Schedule.

Application
for non-
mining right

(2) A person shall apply to the Director for a gemstone sales certificate in Form IV set out in the Second Schedule.

11. A person shall apply to the Director of Mines Safety for an annual operating permit in Form V set out in the Second Schedule.

Application
for annual
operating
permit

Application to export, import, etc., mineral, ore or mineral product

12. A person intending to import or export any mineral, ore or mineral product shall apply for a permit to the Director in Form VI set out in the Second Schedule.

Application
to export,
import, etc,
mineral, ore
or mineral
product

13. An application for consent to acquire, store, transport, sell or export radioactive minerals shall be made to the Minister in Form VII set out in the Second Schedule.

Application
to export,
sell, etc.,
radioactive
minerals

- Application for mineral analysis certificate 14. A person shall apply to the Director of Geological Survey for a mineral analysis certificate in Form VIII set out in the Second Schedule.
- Application for valuation for certificate 15. A person shall apply to the Director of Geological Survey for a valuation certificate in Form IX set out in the Second Schedule.
- Application to operate mineral analysis laboratory and annual geological or mining consultancy firm 16. (1) A person shall apply to the Director of Geological Survey for a permit to operate a mineral analysis laboratory in Form X set out in the Second Schedule.
(2) A person shall apply to the Director of Geological Survey or the Director of Mines Safety as the case may be, for a permit to operate an annual geological or mining consultancy firm in Form XI set out in the Second Schedule.
- Application by agent 17. An agent who makes an application on behalf of another person shall submit, with the application, Form XII set out in the Second Schedule.
- Assignment of identification code 18. The Mining Cadastre Office shall, upon receipt of an application under these Regulations, assign an identification code to the application dossier.
- Provisional plotting 19. (1) The Mining Cadastre Office shall provisionally plot an area that is the subject of an application and shall produce a provisional polygon for the area.
(2) A provisional polygon shall be valid from the date of an application to the date of the grant or rejection of the application.
(3) A subsequent application that relates to a part or whole of the perimeter of an area already applied for shall be considered as partially or wholly overlapping with an area which is the subject matter of an application with a right of priority under these Regulations.
- Request for further particulars 20. The Mining Cadastre Office shall, where it establishes that
(a) the coordinates of the area applied for do not form a polygon;
(b) the required documentation is incomplete, or some of the documents that are submitted are invalid; and
(c) the geometry of the area applied for is contrary to the geometry rules prescribed under regulation 40;
request the applicant to furnish further information in Form XIII set out in the Second Schedule.

21. The Minister, Director or Director of Geological Survey, as the case may be, shall, where the Minister, Director or Director of Geological Survey approves an application for a mining right or mineral processing licence, inform the applicant of the approval in Form XIV set out in the Second Schedule.

22. The Minister, Director or Director of Geological Survey, as the case may be, shall, where the Minister, Director or Director of Geological Survey rejects an application for a mining right or mineral processing licence, inform the applicant of the rejection in Form XV set out in the Second Schedule.

Notice of rejection of application by Minister, Director or Director of Geological Survey

23. (1) A grant of a mining right or mineral processing licence shall be in the appropriate form from Forms XVI to Form XXIII set out in the Third Schedule.

Grant of mining right

(2) A grant of a certificate or permit shall be in the appropriate form from Forms XXIV to XXXII set out in the Third Schedule.

(3) The terms and conditions of the licences, certificates and permits, as the case may be, are as set out in the Fourth Schedule.

24. An application for amendment of a mining right or a mineral processing licence shall be made in Form XXXIII set out in the Fifth Schedule.

Amendment of licence

25. A holder shall inform the Mining Cadastre Office of any change in the particulars of the holder in Form XXXIV set out in the Fifth Schedule.

Change in particulars of holder

PART IV

RENEWAL OF MINING RIGHT AND MINERAL PROCESSING LICENCE

26. (1) An application for renewal of a mining right shall be in Form XXXV set out in the Fifth Schedule.

Application for renewal of mining or non-mining right

(2) An application for renewal of a mining right in respect of radioactive minerals shall be in Form XXXVI set out in the Fifth Schedule.

(3) An application for renewal of a mineral processing licence shall be in Form XXXVII set out in the Fifth Schedule.

27. (1) The Mining Cadastre Office shall, provisionally plot onto the cadastral maps the perimeter that relates to an application and shall, where applicable, take into consideration the proposed area to be relinquished.

Provisional plotting for renewal

(2) An application under this Part in respect of an area that has been relinquished, where applicable, whether in part or in total shall, until the decision to renew or abandon is granted, be considered as either partially or fully overlapped with the area applied for.

Modification
of perimeter

28. (1) The Director or Director of Geological Survey shall reject an application to modify the current perimeter that covers a new adjacent area where—

- (a) a part of the proposed area overlaps an area that is already subject to another mining right or licence or is under application;
- (b) a minimum of twenty-five per centum of the original prospecting area is not part of the modified area; and
- (c) the area falls below the minimum prescribed for safe mining operations.

(2) The Director or Director of Geological Survey, as the case may be, shall where the Director or Director of Geological Survey rejects an application under sub-regulation (1), inform the applicant of the rejection in Form XV set out in the Second Schedule.

(3) A new area that is annexed to a licence shall conform with the maximum duration and the prescribed fees applicable to the original licence or mining right.

Rejection of
application
for renewal

29. The Director or Director of Geological Survey, as the case may be, shall, where the Director or Director of Geological Survey rejects an application for renewal of a mining or non-mining right, inform the applicant of the rejection in Form XV set out in the Second Schedule.

Grant of
renewal

30. (1) The Director or Director of Geological Survey, as the case may be, shall seek the advice of the Mining Advisory Committee prior to the renewal of a mining right or non-mining right.

(2) The Director or Director of Geological Survey, as the case may be, shall, where the Director or Director of Geological Survey rejects an application for renewal of a mining right or mineral processing licence, endorse the rejection on the licence, certificate or permit issued in respect of the mining right or mineral processing licence.

PART V

ALTERATION OF PROSPECTING OR MINING AREA

31. (1) A holder intending to alter the holder's mining area shall apply to the Director or Director of Geological Survey, as the case may be, in Form XXXVIII set out in the Fifth Schedule.

Application
for alteration
of mining
area

(2) Subject to this regulation, any new mining area shall conform to the prescribed cadastral unit and the geometrical rules specified under regulation 40.

(3) The maximum surface area for which a licence or mining right may be granted shall not exceed the area prescribed in the Sixth Schedule.

32. The Mining Cadastre Office shall, pending the approval of an application for alteration of a prospecting or mining area, provisionally plot the new perimeter on the cadastral map and record the new perimeters.

Provisional
plotting for
alteration

33. (1) The Mining Cadastre Office shall, where an application for alteration of a mining area meets the requirements of the Act and these Regulations, send its recommendation on the application to the Director or the Director of Geological Survey, as the case may be.

Grant of
alteration

(2) The Director or Director of Geological Survey, as the case may be, shall, where the Director or Director of Geological Survey grants an application for alteration of a prospecting or mining area, endorse the grant on the licence, certificate or permit issued in respect of the mining right or non-mining right.

PART VI

TRANSFER ASSIGNMENT OF MINING RIGHT OR MINERAL PROCESSING
LICENCE

34. (1) An application for consent to transfer or to assign a mining right or mineral processing licence shall be in Form XXXIX set out in the Fifth Schedule.

Application
for consent
to transfer or
to assign

(2) An application for consent to transfer or assign a mineral processing licence or mining right shall-

- (a) be made by an assignor at any time during the validity of a mining right but not less than one hundred and twenty days before the date of expiry of the mining right; and
- (b) be accompanied by an application for a mining right or mineral processing licence, as the case may be, made by the prospective assignee.

35. (1) The Minister, Director or Director of Geological Survey, as the case may be, shall seek the advice of the Mining Advisory Committee prior to granting the consent to assign or transfer a mining right or mineral processing licence.

Grant of
consent to
transfer

(2) The Minister, Director or Director of Geological Survey, as the case may be, shall, where an application meets the requirements of the Act and these Regulations grant consent to assign or transfer a mineral processing licence or mining right in Form XIV set out in the Second Schedule.

PART VII

ABANDONMENT OF MINING AREA

36. An application for the abandonment of all or any part of any land subject to a licence or permit shall be in Form XL set out in the Fifth Schedule.

Application
to abandon
land subject
to licence or
permit

37. The Director or Director of Geological Survey, as the case may be, shall grant the certificate of abandonment in Form XLI set out in the Fifth Schedule.

Grant of
certificate of
abandonment

PART VIII

GENERAL PROVISIONS

38. A notice of appeal shall be in Form XLII set out in the Fifth Schedule.

Notice of
appeal

39. (1) The fees set out in the Sixth Schedule are applicable for the matters stipulated therein.

Prescribed
fees, area
charges, etc.

(2) The maximum sizes of a mining area are as set out in the Sixth Schedule.

40. (1) An applicant for a mining right or mineral processing licence shall provide to the Mining Cadastre Office the geographical co ordinates of all the vertices of the polygon applied for, adjusted to fit into the pre-defined cadastral grid.

Geometric
rules for
cadastral co
ordinates

(2) Co ordinate values shall be exact multiples of six seconds and all perimeters shall conform to the exact division.

(3) A polygon that forms an application for a licence or mining right shall be composed of an exact number of indivisible cadastre units which shall be contiguous.

(4) An isolated polygon or a polygon which is not joined to the other polygon by one vertex shall not be included in one licence or mining right application.

41. (1) A setting out on the ground of the cadastral co ordinates shall be made by the use of the official parameters for the transformation between the topographical map co ordinates and the Global Positioning System (GPS) co ordinates.

Cadastral
co ordinates
and beacons
setting

(2) The Mining Cadastre Office shall provide the parameters outlined under sub-regulation (1) in order to guarantee the homogeneity in the positioning of licences and mining rights.

(3) Where there is a contradiction between the field topographical data and the cadastral co ordinates, the cadastral co ordinates shall take priority.

42. (1) The Mining Cadastre Office shall maintain an updated cadastral map.

Cadastral
maps

(2) The cadastral maps and the cadastre registries shall be open to the public for inspection.

43. (1) An application under these Regulations shall not be approved if to do so would overlap neighbouring licences or mining rights.

Pegging
certificate

(2) Following the grant of an application under these Regulations, a holder of a licence or mining right, subject to the direction of the Mining Cadastre Office shall, at the holder's cost

(a) obtain or update the perimeter beacons data; and

(b) obtain a pegging certificate.

(3) A pegging certificate shall be in Form XLIII set out in the Fifth Schedule and shall be submitted to the Mining Cadastre Office.

44. From the commencement of these Regulations, an area subject to any conflict or overlap that could affect the mining cadastral activity shall be blocked off until the resolution of the conflict and no application shall be accepted over the area.

Area subject
to conflict

45. The Mines and Minerals (Applications for Mining Rights) Regulations, 1996, are hereby revoked.

Revocation
of S.I. No.
123 of 1996

15 **Appendices**

(a) **Prospecting Licence**

Appendix No. 1	Environmental Commitment Plan (should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimising adverse effects on the environment)		
Appendix No. 2	Proposed programme of prospecting operations (should include an indication of the investment commitment)		
Appendix No. 3	Proposals for employment and training of citizens of Zambia.		
Appendix No. 4	Proposals for promotion of local business development.		
Appendix No. 5	Tax clearance certificate issued under Income Tax Act (Cap. 323)		
Appendix No. 6	Any further information which the Director of Geological Survey may require		

(b) **Large-Scale Mining Licence**

Appendix No. 1	A comprehensive statement of the mineral deposits in the area over which the licence is sought (should include details of all known minerals proved, estimated or inferred, ore resources and mining conditions)		
Appendix No. 2	Proposed programme for ("prospecting) and mining operations (should include a forecast of capital investment, the estimated		

		recovery rate of ore and mineral products, and the proposed treatment and disposal of ore and minerals recovered)			
Appendix No. 3		Environmental Management Plan (Should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimizing adverse effects on the environment)			
Appendix No. 4		Details of expected infrastructure requirements			
Appendix No. 5		Proposals for employment and training of citizens of Zambia			
Appendix No. 6		Proposals for promotion of local business development			
Appendix No. 7		Tax clearance certificate (issued under Income Tax Act (Cap. 323)			
Appendix No. 8		Plan of proposed mining area			
Appendix No. 9		Any further information which the Director may require			
(c) Large-Scale Gemstone Licence					
Appendix No. 1		A comprehensive statement of the mineral deposits or probable deposits in the area over which the licence is sought (should include details of all known minerals proved, estimated or inferred, ore resources and mining conditions)			
Appendix No. 2		Proposed programme for prospecting and mining operations (should include a forecast of capital investment, the estimated recovery rate of ore and mineral products, and the proposed treatment and disposal of ore and minerals recovered)			
Appendix No. 3		Environmental Commitment Plan (Should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimising adverse effects on the environment)			
Appendix No. 4		Details of expected infrastructure requirements			
Appendix No. 5		Proposals for employment and training of citizens of Zambia			
Appendix No. 6		Proposals for promotion of local business development			
Appendix No. 7		Tax clearance certificate issued under Income Tax Act (Cap. 323)			
Appendix No. 8		Plan of proposed mining area			
Appendix No. 9		Plan for cutting, polishing and faceting of gemstones in Zambia			
Appendix No. 10		Any further information which the Director may require			
(d) Prospecting Permit					
Appendix No. 1		Environmental Commitment Plan (should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimising adverse effects on the environment)			
Appendix No. 2		Statement of the sum the applicant intends to expend on prospecting operations			
Appendix No. 3		Proposed programme of prospecting operations			
Appendix No. 4		Tax clearance certificate issued under Income Tax Act (Cap. 323)			
(e) Small-Scale Mining Licence					
Appendix No. 1		Copy of relevant prospecting permit and prospecting report			
Appendix No. 2		Proposed programme of mining operations (should include forecast of capital investment, the estimated recovery rate of ore and mineral products, and the proposed treatment and disposal of ore and minerals recovered)			

Appendix No. 3	Description of the mineral deposit in area over which the licence is sought			
Appendix No. 4	Statement of duration for which licence is sought (should not exceed ten years)			
Appendix No. 5	Tax clearance certificate issued under Income Tax Act (Cap. 323)			
Appendix No. 6	Environmental Management Plan (should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimising adverse effects on the environment)			
Appendix No. 7	Any further information which the Director may require			
(f) Small-Scale Gemstone Licence				
Appendix No. 1	Proposed programme of prospecting and mining operations (should include forecast of investment and estimated recovery rate of ore and gemstones)			
Appendix No. 2	Statement of gemstone deposits in area over which licence is sought			
Appendix No. 3	Tax clearance certificate issued under Income Tax Act (Cap. 323)			
Appendix No. 4	Environmental Commitment Plan			
Appendix No. 5	Any further information which the Director may require			
(g) Artisan's Mining Right				
Appendix No. 1	Environmental Commitment Plan (should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimising adverse effects on the environment)			
Appendix No. 2	Programme of intended mining operations (Should include proposals for the proper conservation and use of mineral resources in mining area, in the national interest)			
Application fee

FOURTH SCHEDULE

(Regulation 23 (3))

CONDITIONS OF LICENCES, CERTIFICATES AND PERMITS**A. CONDITIONS OF GRANT OF A LARGE-SCALE MINING LICENCE****1. The holder shall—**

- (a) develop the mining area in accordance with the approved programme of mining operations;
 - (b) execute the environmental management plan;
 - (c) implement the local business development programme;
 - (d) employ and train Zambians in accordance with the approved program;
 - (e) demarcate the mining area and keep it demarcated;
 - (f) pay mineral royalty in accordance with the Mines and Minerals Development Act, 2008 and the Income Tax Act, Cap. 323;
 - (g) maintain at the holder's office complete and accurate technical and financial records of the mining operations;
 - (h) permit authorised officers, at any time, to inspect all records, mining and mineral processing operations;
 - (i) submit statutory reports and any other information concerning the mining or mineral processing operations;
 - (j) submit a copy of the annual audited financial statements within three months of the end of each financial year;
 - (k) submit reports on external supplies of ore, concentrates, tailings, slimes or any other mineral fed to the plant;
 - (l) provide current information on recovery from ores, mineral products, production costs and sales;
 - (m) conduct operations only upon meeting the requirements of the Environmental Protection and Pollution Control Act, Cap. 204 and upon obtaining an annual operating permit under the Mines and Minerals Development Act, 2008;
 - (n) contribute to the Environmental Protection Fund as required under the Mines and Minerals Development Act, 2008;
 - (o) obtain appropriate insurance for all phases of the mining operations;
 - (p) give preference to Zambia products and services;
 - (q) submit a Pegging Certificate for approval within three months of grant of licence; and
 - (r) comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
2. No illegal mining and trade is permitted in the licensed area
 3. The holder shall not enter into agreements or transfer of the licence without the prior consent of the Minister
 4. The holder shall be liable for any harm or damage caused by mining or mineral processing operations and shall compensate any person to whom harm or damage is caused.
 5. The holder shall not exercise any rights under the licence without prior consent of legal occupiers of land or local chiefs.
 6. Other terms and conditions are as follows:
.....

B. CONDITIONS OF GRANT OF A PROSPECTING LICENCE

1. The holder shall—
 - (a) pay the relevant taxes under the Income Tax Act, Cap. 323;

 - (e) give notification of any discovered minerals or commercial deposits within thirty days of the discovery;
 - (f) give preference to Zambian products and services;
 - (g) permanently preserve or make safe any water boreholes and water rights on expiry of the licence;
 - (h) surrender to Government, without compensation, drill cores and any other mineral samples;
 - (i) remove, within sixty days of expiry or termination of the prospecting permit, any camp, temporary buildings or machinery, and repair or make good any damage as specified by the Director of Geological Survey;
 - (j) keep and preserve such records as the Minister may prescribe in relation to the environment;
 - (k) submit quarterly reports to the Director of Geological Survey, Director of Mines or Director of Mines Safety in both hard and electronic copies;
 - (l) keep full and accurate records, at the holder's office, of the prospecting operations;
 - (m) contribute to the Environmental Protection Fund as required under the Mines and Minerals Development Act, 2008;
 - (n) obtain appropriate insurance for phases of its operations;
 - (o) submit a Pegging Certificate for approval within three months of grant of permit;
 - (q) comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
 2. The holder shall be liable for any harm or damage caused by prospecting operations and shall compensate any person to whom harm or damage is caused.
 3. The holder shall not exercise any rights under the licence without prior consent of legal occupiers of land or local chiefs.
 4. Other terms and conditions are as follows:
-

I. CONDITIONS OF GRANT OF AN ANNUAL OPERATING PERMIT

1. The holder shall apply for renewal of the permit at least sixty days before the expiry of the current permit.
2. An annual operating permit shall only be valid for the mining or mineral processing operation for which it is granted and shall not be transferable.
3. Notwithstanding that the permit is granted for a period of one year, the Director of Mines Safety may revoke it at any time before its expiry if the Director of Mines Safety is satisfied that the holder's safety, health and environmental practices are contrary to the Mines and Minerals Development Act, 2008.
4. The Director of Mines Safety may request the holder to remedy any defaults within a specified period before the grant of the annual operating permit.
5. The mining operations shall be in compliance with the mining, explosives and environmental regulations.
6. All employees at scheduled mines shall have valid pneumoconiosis certificates.
7. The grant of an annual operating permit shall not relieve the holder from safety, health and environmental obligations under the Mines and Minerals Development Act, 2008, or any other written law.
8. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
9. The other terms and conditions are as follows:

J. CONDITIONS OF GRANT OF A MINERAL ANALYSIS LABORATORY PERMIT

1. The permit is not transferable to another laboratory.
2. The permit holder shall, at all reasonable times, allow authorised officers to inspect the laboratory.
3. The permit holder shall maintain standards acceptable to the Director of Geological Survey.
4. The permit may be revoked on the occurrence of circumstances which threaten integrity and standards.
5. The laboratory shall conduct mineral analysis operations in a professional and ethical manner and shall not assist any person to falsify analytical results.

6. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.

7. The other terms and conditions are as follows:

.....

.....

K. CONDITIONS OF GRANT OF AN ANNUAL GEOLOGICAL OR MINING CONSULTANCY PERMIT

1. The permit is not transferable to another consultancy
 2. The permit holder shall, at all reasonable times, allow authorised officers to inspect the consultancy records
 3. The permit holder shall maintain standards acceptable to the Director of Geological Survey and Director of Mines
 4. The permit may be revoked on the occurrence of circumstances which threaten integrity and standards
 5. The consultancy shall provide geological or mining technical services in a professional and ethical manner and shall not assist any person to falsify analytical results
 6. The consultant shall not use their office or address for communication between a mining right holder and any authorised officers under the Mines and Minerals Development Act, 2008.
 7. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
 8. The other terms and conditions are as follows:
-
-

L. CONDITIONS OF GRANT OF A GEMSTONE SALES CERTIFICATE

1. A holder shall submit monthly purchases and sales returns with the names and addresses of the sellers and purchasers.
 2. A holder shall make the records at all times available for inspections by an authorized officer.
 3. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
 4. The other terms and conditions are as follows:
-
-

M. CONDITIONS OF GRANT OF A MINERAL EXPORT PERMIT

1. A mineral export permit is not transferable.
 2. A mineral export permit shall not be applicable to radioactive minerals.
 3. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia
 4. The other terms and conditions are as follows:
-
-

N. CONDITIONS OF GRANT OF A MINERAL IMPORT PERMIT

1. A mineral import permit is not transferable.
 2. A mineral import permit shall not be applicable to radioactive minerals.
 3. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
 4. The other terms and conditions are as follows:
-
-

O. CONDITIONS OF GRANT OF RADIOACTIVE MINERALS PERMIT

1. The holder shall not transfer the permit
 2. The permit holder shall comply with the requirements of the Ionizing Radiation Protection Act, 2005
 3. The acquisition, storage, transportation, sale or export of radioactive minerals or concentrates shall be done in accordance with the Mines and Minerals Development (Prospecting, Mining and Milling of Uranium Ores and Other Radioactive Minerals) Regulations, 2008.
 4. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia
 5. The other terms and conditions are as follows:
-
-

P. CONDITIONS OF GRANT OF A LARGE-SCALE MINING LICENCE FOR RADIOACTIVE MINERALS

I. The holder shall-

- (a) comply with the Nuclear Non-Proliferation Treaty (NPT) requirements;
- (b) comply with programmes to assist authorities outside the mining area in planning and preparing to limit the adverse effects of any accidental release of radioactive substances;
- (c) comply with the approved training programme for workers in relation to radiation safety;
- (d) comply with approved ventilation and dust control methods and associated equipment;
- (e) comply with approved security measures during processing, storage and transportation;
- (f) comply with approved marketing arrangements;
- (g) develop the mining area in accordance with the approved programme of mining operations;
- (h) execute the environmental management plan;
- (i) implement the local business development programme;
- (i) employ and train Zambians in accordance with approved program;
- (j) demarcate the mining area and keep it demarcated;
- (k) pay mineral royalty in accordance with the Mines and Minerals Development Act, 2008 and the Income Tax Act, Cap. 323;
- (l) maintain at the holder's office, complete and accurate technical and financial records of the mining operations;
- (m) permit authorised officers, at any time, to inspect all records, mining and mineral processing operations;
- (n) submit statutory reports and any other information concerning the mining or mineral processing operations;
- (o) submit a copy of the annual audited financial statements within three months of the end of each financial year;
- (p) submit reports on external supplies of ore, concentrates, tailings, slimes or any other mineral fed to the plant;
- (q) provide current information on recovery from ores, mineral products, production costs and sales;
- (r) conduct operations only upon meeting the requirements of the Environmental Protection and Pollution Control Act, Cap. 204 and upon obtaining an annual operating permit under the Mines and Minerals Development Act, 2008;
- (s) contribute to the Environmental Protection Fund as required under the Mines and Minerals Development Act, 2008;
- (t) obtain appropriate insurance for all phases of the mining operations
- (u) give preference to Zambian products and services;
- (v) submit a Pegging Certificate for approval within three months of grant of licence;
- (w) comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.

- 2. The holder shall be liable for any harm or damage caused by mining or mineral processing operations and shall compensate any person to whom harm or damage is caused
- 3. No illegal mining and trade is permitted in the licensed area.
- 4. The holder shall not enter into agreements or transfer of the licence without the prior consent of the Minister.

5. The other terms and conditions are as follows:
-
-

Q. CONDITIONS OF GRANT OF AN ABANDONMENT CERTIFICATE

1. The abandonment does not relieve the person granted the abandonment certificate of any obligations or liabilities incurred before the grant.
 2. The abandonment certificate is not transferrable to another person or mining right area held by the person granted the abandonment certificate.
 3. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
 4. The other terms and conditions are as follows:
-
-

R. CONDITIONS OF GRANT OF A MINERAL ANALYSIS CERTIFICATE

1. The mineral analysis certificate is granted in respect of the mineral commodity analysed and shall not be transferrable to another consignment or person.
 2. The certificate shall be admissible in the assessment of mineral royalty.
 3. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
 4. The other terms and conditions are as follows:
-
-

S. CONDITIONS OF GRANT OF A VALUATION CERTIFICATE

1. The mineral analysis certificate is granted in respect of the mineral commodity analysed and shall not be transferrable to another consignment or person.
 2. The certificate shall be admissible in the assessment of mineral royalty.
 3. The holder shall comply with the provisions of the Mines and Minerals Development Act, 2008 and other relevant laws of Zambia.
 4. The other terms and conditions are as follows:
-
-

15 **Appendices**

(a) **Prospecting Licence**

Appendix No. 1	Report on execution of approved programme of prospecting operations including results in digital format on work done		
Appendix No. 2	Environmental Management plan (should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimising adverse effects on the environment)		
Appendix No. 3	Proposed programme of prospecting operations for renewal period (should include an indication of the investment commitment)		
Appendix No. 4	Proposals for employment and training of citizens of Zambia.		
Appendix No. 5	Proposals for promotion of local business development.		
Appendix No. 6	Tax clearance certificated issued under Income Tax Act (Cap. 323)		
Appendix No. 7	Any further information which Director of Geological Survey may require		

(b) **Large-Scale Mining Licence**

Appendix No. 1	Report on execution of approved programme of prospecting operations		
Appendix No. 2	A latest statement of proved, estimated and inferred mineral deposits in the area over which licence is sought (should include details of all known minerals proved, estimated or inferred, ore resources and mining conditions, expected changes in mining and treatment methods, expected change in mining activities and estimated life of a mine.		
Appendix No. 3	Proposed programme for mining operations (should include a forecast of capital investment, the estimated recovery rate of ore and mineral products, and the proposed treatment and disposal of ore and minerals recovered)		
Appendix No. 4	Environmental Management Plan (should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimizing adverse effects on the environment)		

Appendix No. 5	Details of expected infrastructure requirements			
Appendix No. 6	Proposals for employment and training of citizens of Zambia			
Appendix No. 7	Proposals for promotion of local business development			
Appendix No. 8	Tax clearance certificate issued under Income Tax Act (cap. 323)			
Appendix No. 9	Plan of proposed mining area during renewal period			
Appendix No. 10	Execution report of plan for cutting, polishing and faceting of gemstones in Zambia during previous tenure. plan for cutting, polishing and faceting gemstones in Zambia during renewal period			
Appendix No. 11	Any further information which Director of Geological Survey may require			
(c) Large-Scale Gemstone Licence				
Appendix No. 1	Report on execution of approved programme of prospecting operations			
Appendix No. 2	A latest statement of proved, estimated and inferred mineral deposits in the area over which licence is sought (should include details of all known minerals proved, estimated or inferred, ore resources and mining conditions, expected changes in mining and treatment methods, expected change in mining activities and estimated life of a mine.			
Appendix No. 3	Proposed programme for prospecting and mining operations (should include a forecast of capital investment, the estimated recovery rate of ore and mineral products, and the proposed treatment and disposal of ore and minerals recovered)			
Appendix No. 4	Environmental Management Plan (should include proposals for prevention of pollution, treatment of waste, protection and reclamation of land and water resources and for eliminating or minimizing adverse effects on the environment)			
Appendix No. 5	Details of expected infrastructure requirements			
Appendix No. 6	Proposals for employment and training of citizens of Zambia			
Appendix No. 7	Proposals for promotion of local business development			
Appendix No. 8	Tax clearance certificate issued under Income Tax Act (cap. 323)			
Appendix No. 9	Plan of proposed mining area during renewal period			
Appendix No. 10	Execution report of plan for cutting, polishing and faceting of gemstones in Zambia during previous tenure. plan for cutting, polishing and faceting gemstones in Zambia during renewal period			
Appendix No. 11	Any further information which Director of Geological Survey may require			
(d) Small-Scale Mining Licence				
Appendix No. 1	Report on the development of a mining area during previous tenure			
Appendix No. 2	Proposed programme of mining operations (should include forecast of investment, estimated recovery rate of ore and applicants proposal for treatment and disposal of ore)			
Appendix No. 3	Description of the mineral deposit in area over which licence renewal is sought			
Appendix No. 4	Statement of duration for which licence is sought (should not exceed ten years)			
Appendix No. 5	Tax clearance certificated issued under Income Tax Act (Cap. 323)			
Appendix No. 6	Any further information which Director may require			
(e) Small-Scale Gemstone Licence				
Appendix No. 1	Report on the development of a mining area during previous			

	tenure			
Appendix No. 2	Proposed programme of mining operations(should include forecast of investment and estimated recovery rate of ore and gemstones)			
Appendix No. 3	Statement of gemstone deposits in area over which licence is sought			
Appendix No. 4	Tax clearance certificated issued under Income Tax Act (Cap. 323)			
Appendix No. 5	Any further information which Director may require			
(f) Artisan's Mining Right (by citizens of Zambia)				
Appendix No. 1	Report on the development of mining area during pervious tenure			
Appendix No. 2	Environmental Commitment Plan			
Appendix No. 3	Programme of intended mining operations (should include proposals for the proper conversation and use of mineral resources in mining area, in national interest)

PRESCRIBED FEES, AREA CHARGES AND MAXIMUM AREAS

FEES

TYPE OF MINING RIGHT OR APPLICATION	APPLICATION FEE IN FEE UNITS	LICENCE FEE IN FEE UNITS
Prospecting Licence	2000	10,000
Large-Scale Mining Licence	2000	10,000
Large-Scale Gemstone Licence	2000	10,000
Prospecting Permit	500	2000
Small-Scale Mining Licence	500	2000
Small-Scale Gemstone Licence	500	2000
Artisan's Mining Right	250	500
Transfer of Prospecting, Large-Scale Mining and Large-Scale Gemstone Licence	2000	10,000
Transfer of Small-Scale Mining, Prospecting Permit or Small-Scale Gemstone Licences	500	2000
Alteration of Prospecting, Large-Scale Mining and Large-Scale Gemstone Licences	500	2,500
Alteration of Small-Scale Mining, Prospecting Permit or Small-Scale Gemstone Licences	200	750
Alteration of Artisan's Mining Right	100	200

NON-MINING RIGHTS/OTHER CATEGORIES

LICENCE, CERTIFICATE OR PERMIT	APPLICATION FEE IN FEE UNITS	CERTIFICATE, LICENCE OR PERMIT FEE IN FEE UNITS
Mineral Processing Licence	2000	10,000
Transfer of Mineral Processing Licence	2000	10,000
Alteration of Mineral Processing Licence	500	2,500
Annual Operating Permit (Large Scale)	500	5,000
Annual Operating Permit (Small Scale)	250	1,500
Gemstone Sales Certificate	250	1,000
Mineral Import Permit	500	3,000
Mineral Export Permit	250	500
Geological or Mining Consultancy Permit	500	2,500
Mineral Analysis Laboratory Permit	500	2,500
Mineral Analysis Certificate	100	500
Valuation Certificate	250	1000
Replacement of licence, permit or certificate	-	750
Tonnage fee for building materials	-	5

AREA CHARGES

GRZ Fee Units	Year 1 - 2	Year 3 - 4	Year 5 - 6	Year 7 and later years
Prospecting License (per square km per year)	56	112	224	448
Large scale Mining Licence (per square km per year)	200	200	200	200
Large scale Gemstone Licence (per hectare per year)	56	100	150	200
Prospecting permit (per hectare per year)	10	15	20	—
Small scale Mining Licensee (per hectare per year)	10	10	10	10
Small scale Gemstone Licence - exempt in Year 1 (per hectare per year)	100	100	150	200
Artisan's mining right (per licence area)	10	10	—	—

PRESCRIBED MAXIMUM AREAS

TYPE OF MINING RIGHT OR LICENCE	MAXIMUM AREA	
	Square Kilometers	Cadastre Units
Prospecting Licence	1000	29,940
Large scale Mining Licence or Large scale Gemstone Licence	250	7,485
Prospecting Permit	10	300
Small scale Mining Licence	4	120
Small scale Gemstone Licence	4	120
Artisan's Mining right	0.0668	2
